1. INTRODUCTION

1.1. The Valuation Office Agency (VOA) is an executive agency of His Majesty's Revenue and Customs (HMRC). As the public sector's property valuation experts, we provide valuations and property advice to the government and local authorities in England, Scotland and Wales to support taxation and targeted financial support for families and individuals. The VOA also provides property valuation and surveying services to public sector bodies. Its work includes:

1.1.1. compiling and maintaining lists of council tax bands for approximately 26 million domestic properties;

1.1.2. compiling and maintaining lists detailing the rateable value of over 2 million commercial properties for business rates;

1.1.3. determining Local Housing Allowance rates across England;

1.1.4. advising local authorities of the maximum subsidy level payable for Housing Benefit claims under the local reference rent system;

1.1.5. maintaining a register of fair rents for regulated tenancies in England;

1.1.6. providing statutory valuations to support taxes administered by HMRC and the administration of benefits by the Department for Work and Pensions; and

1.1.7. providing a range of independent property advice and valuations across the public sector.

1.2. Please see www.voa.gov.uk for further details.

1.3. The Agency provides services for different types of customers including:

1.3.1. Occupiers and owners across non-domestic and domestic properties, who may not appoint a representative or trusted helper to interact on their behalf;

1.3.2. Billing Authorities – when they engage with a VOA service or act an intermediary on behalf of customers;

1.3.3. Other public bodies – who require valuations or property advice from the VOA to carry out their functions.

1.4. Our vision is to be a world leading provider of public sector valuations, this is underpinned by our strategic objectives which are to:

1.4.1. Other public bodies – who require valuations or property advice from

the VOA to carry out their functions.

- 1.4.2. Provide trusted property valuations efficiently.
- 1.4.3. Deliver an excellent customer experience.
- 1.4.4. Be a great place to work.

2. BACKGROUND – NDR Reforms Programme

- 2.1. The NDR Reforms Programme is a design and implementation programme established to implement and/ or enable the ministerial commitments that the VOA is responsible for from the Business Rates Review final report. This includes:
 - 2.1.1. Introducing a new relief to support investment in property improvements.
 - 2.1.2. Introducing new measures to support green investment and the decarbonisation of non-domestic buildings.
 - 2.1.3. Making the system fairer by moving to three-yearly revaluations from 2023.
- 2.2. The package of reforms that will be implemented will represent a significant change, both for the administration of the Non-Domestic Rating system and for the way ratepayers engage with the system. The reforms will enable the delivery of more frequent revaluations and provide improved transparency for ratepayers.

Further to the above, the NDR Reforms Programme will specifically consider all activity that will support delivery of:

- 2.2.1. Implement a new requirement on ratepayers to conform with Information Duty and Annual Confirmation and design new processes to enable ratepayers to fulfil their obligations. This will also include Transparency processes to provide improved guidance and to make available fuller analysis of rental evidence.

- 2.2.2. Design and implement a new online system to support the processes above (for Information Duty and Annual Confirmation, and Transparency). This online system will be straightforward to use, add minimal burden onto ratepayers, and will be hosted on gov.uk.
- 2.2.3. Design and implement a robust and intelligent Compliance function that is light-touch, avoids creating unnecessary bureaucracy and encourages a high level of compliance with the Information Duty and Annual Confirmation obligations, while including the option for discretion / lenience over penalties as appropriate.
- 2.2.4. Streamline the Appeals process by removing the Check step as a separate process (the first step of the current 'Check, Challenge, Appeal' process), and by introducing a shortened Challenge window and changes to the statutory deadline for the VOA to resolve Challenges.
- 2.2.5. Provide an improved quantity and quality of data flow into VOA; the Information Duty obligation will ensure valuations are assessed using better and more timely evidence as a result of event-driven self-reporting of changes to occupier, property and rental information.
- 2.2.6. Provide clear and simple guidance outlining how ratepayers need to engage with the Information Duty and Annual Compliance obligations, including what is required of ratepayers.
