20 General

- 20.1 Each of the Parties represents and warrants to the other that it has full capacity and authority, and all necessary consents, licences and permissions to enter into and perform its obligations under the Contract, and that the Contract is executed by its duly authorised representative.
-
- 20.2 A person who is not a party to the Agreement shall have no right to enforce any of its provisions which, expressly or by implication, confer a benefit on him, without the prior written agreement of the Parties. expressly stated to be a waiver. A waiver of any right or remedy arising from a breach of contract shall not constitute a waiver of any right or remedy arising from any other breach of the Contract.

- 20.7 The Contract shall not constitute or imply any partnership, joint venture, agency, fiduciary relationship or other relationship between the Parties other than the contractual relationship expressly provided for in the Contract. Neither Party shall have, nor represent that it has, any authority to make any commitments on the other Party's behalf.
- 20.8 Except as otherwise expressly provided by the Contract, all remedies available to either Party for breach of the Contract (whether under the Contract, statute or common law) are cumulative and may be exercised concurrently or separately, and the exercise of one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.
- 20.9 If any provision of the Contract is prohibited by law or judged by a court to be unlawful, void or unenforceable, the provision shall, to the extent required, be severed from the Contract and rendered ineffective as far as possible without modifying the remaining provisions of the Contract, and shall not in any way affect any other circumstances of or the validity or enforcement of the Contract.
- 20.10 The Contractor shall take appropriate steps to ensure that neither the Contractor nor any Staff is placed in a position where, in the reasonable opinion of the Authority, there is or may be an actual conflict, or a potential conflict, between the pecuniary or personal interests of the Contractor and the duties owed to the Authority under the provisions of the Contract. The Contractor will disclose to the Authority full particulars of any such conflict of interest which may arise.
- 20.11 The Authority reserves the right to terminate the Contract immediately by notice in writing and/or to take such other steps it deems necessary where, in the reasonable opinion of the Authority, there is or may be an actual conflict, or potential conflict between the pecuniary or personal interest of the Contractor and the duties owed to the Authority pursuant to this clause shall not prejudice or affect any right of action or remedy which shall have accrued or shall thereafter accrue to the Authority.
- 20.12 The Contract constitutes the entire contract between the Parties in respect of the matters dealt with therein. The Contract supersedes all prior negotiations between the Parties and all representations and undertakings made by one Party to the other, whether written or oral, except that this clause shall not exclude liability in respect of any Fraud or fraudulent misrepresentation.

- Locations. Newcastle, Leeds and London
- Delivery from August 2019 and to be concluded by March 2020

Learning content

Core Learning Outcomes

The following learning outcomes have been agreed for this project.

CQC-agreed essential content and policy information will be supplied and is expected to be integrated into the final product as part of the overall design (See Planning and Delivery Process Below)

- LO1 Recall and demonstrate the support required for remote/homeworkers
- LO2 Explain the importance of a holistic approach to an individual's resilience and wellbeing
- LO3 Examine and demonstrate how to build trusting relationships with staff through two-way dialogue and emotional intelligence, which supports resilience and wellbeing, whilst balancing the needs of the individual, team and organisation.
- LO4 Demonstrate knowledge of the importance of team wellbeing and resilience, taking into account work-related pressures. To include application of strategies to support team wellbeing and resilience.
- LO5 - Examine own behaviour and ensure they act in a supportive and inclusive way with all staff, in particular in how they support and develop staff with characteristics protected under the Equality Act 2010.
- LO6 - Demonstrate understanding of the importance of an open and trusting environment where harassment, prejudice and discrimination are not tolerated and where a culture of inclusion is promoted and mutual respect becomes the norm. To

demonstrate honest conversations about difficult issues with staff regarding equality and inclusion.

- LO7 - Demonstrate an understanding of the application of equality in practice

Planning and Delivery Process

Prior to delivery, we estimate a six-week period to plan and write the content involving regular contact with one of our Senior Learning Advisors comprising a mixture of face to face meetings, phone calls and email.

The day would be a mixture of CQC-approved strategies, resources and guidance bound up in an agreed corporate approach. A key part of this task is to combine these into a coherent mixture of teaching and learning strategies.

In addition to this core content, a crucial aspect of your input will be expert contribution to design of the subject matter (to ensure that the day is fully-formed, relevant and up to date) and for the purposes of fielding questions and supporting the learners' understanding during delivery.

We intend to review progress while the programme of delivery of 10 courses is taking place, to transition to an inhouse delivery model. These will be subject to continual quality assurance with a view to transitioning to BAU, therefore delivery is also expected to comprise a mixture of observed practice and team teaching.

SCHEDULE 3 – TENDER RESPONSE

UPDATED PROPOSAL

Further to our conference call on 1st July, we have updated our proposal for your manager wellbeing and resilience training. We very much hope we can work together on this.

We have kept costs close to the original proposal, although with a different structure and format for the programme in order to enable two of your facilitators to be upskilled. There is also an annual licence fee for our materials and we have included costs for this.

We suggest running the programme using the following steps:

- Step 1: Delivery of one pilot workshop by TWP facilitator (London or Leeds) in September 2019. Your facilitators to attend this workshop in a delegate role so as to participate and learn from the workshop.
- Step 2: TWP to consolidate feedback from all delegates (including your facilitators) on the pilot workshop. TWP to fine tune the workshop material and also to write detailed facilitator notes for your facilitators.
- Step 3: Delivery of second workshop by TWP facilitator. Your facilitators to observe the facilitator role.
- Step 4: Your facilitators to have a conference call debrief session with a TWP facilitator to discuss any questions around the workshops.
- Step 5: Each CQC facilitator to co-facilitate two workshops each alongside a TWP facilitator (total 4 workshops). Collect feedback from delegates.
- Step 6: Your facilitators to have a conference call debrief session with a TWP facilitator to offer feedback and discuss any questions around the workshop delivery.
- Step 7: Each CQC facilitator to run their own workshop solo. Feedback collected from delegates.
- Step 8: Your facilitators to have a conference call debrief session with a TWP facilitator to discuss any further questions around the workshop delivery.
- Step 9: TWP to run final workshop and for your facilitators to have one final observation.

Therefore, we would charge for TWP delivery of seven full day workshops, plus consultancy time, debriefing, mentoring and the annual licence for materials.

Categories of Data Subject	CQC Employees (specifically in Registration and Inspection Managers)
Plan for return and destruction of the data once the processing is complete UNLESS requirement under union or member state law to preserve that type of data	There is no plan currently as we have no supplier currently in place. However it is not anticipated that there would be any requirement for the provider to retain any personal data

1. INTRODUCTION

This Schedule 5 covers:

- 1.1 principles of security for the Contractor System, derived from HMG Security Policy Framework, including without limitation principles of physical and information security;
- 1.2 wider aspects of security relating to the Services;
- 1.3 the creation of the Security Plan;
- 1.4 audit and testing of the Security Plan; and

1.5 breaches of security.

2. PRINCIPLES OF SECURITY

2.1 The Contractor acknowledges that the Authority places great emphasis on confidentiality, integrity and availability of information and consequently on the security of the Premises and the security for the Contractor System. The Contractor also acknowledges the confidentiality of Authority Data.

2.2 The Contractor shall be responsible for the security of the Contractor System and shall at all times provide a level of security which:

2.2.1 is in accordance with Good Industry Practice and Law;

2.2.2 complies with HMG Security Policy Framework; and

2.2.3 meets any specific security threats to the Contractor System.

2.3 Without limiting paragraph 2.2, the Contractor shall at all times ensure that the level of security employed in the provision of the Services is appropriate to maintain the following at acceptable risk levels (to be defined by the Authority):

2.3.1 loss of integrity of Authority Data;

2.3.2 loss of confidentiality of Authority Data;

2.3.3 unauthorised access to, use of, or interference with Authority Data by any person or organisation;

2.3.4 unauthorised access to network elements, buildings, the Premises, and tools used by the Contractor in the provision of the Services;

3. SECURITY PLAN

3.1 The Contractor shall develop, implement and maintain a Security Plan to apply during the Contract Period (and after the end of the term as applicable) which will be approved by the Authority, tested, periodically updated and audited in accordance with this Schedule 5.

3.2 A draft Security Plan provided by the Contractor as part of its bid is set out herein.

3.3 Prior to the Commencement Date the Contractor will deliver to the Authority for approval the final Security Plan which will be based on the draft Security Plan set out herein.

3.4 If the Security Plan is approved by the Authority it will be adopted immediately. If the Security Plan is not approved by the Authority the Contractor shall amend it within 10 Working Days of a notice of non-approval from the Authority and re-submit to the Authority for approval. The Parties will use all reasonable endeavours to ensure that the approval

process takes as little time as possible and in any event no longer than 15 Working Days (or such other period as the Parties may agree in writing) from the date of its first submission to the Authority. If the Authority does not approve the Security Plan following its resubmission, the matter will be resolved in accordance with clause 19 (Dispute Resolution). No approval to be given by the Authority pursuant to this paragraph 3.4 may be unreasonably withheld or delayed. However any failure to approve the Security Plan on the grounds that it does not comply with the requirements set out in paragraphs 3.1 to 3.4 shall be deemed to be reasonable.

3.5 The Security Plan will set out the security measures to be implemented and maintained by the Contractor in relation to all aspects of the Services and all processes associated with the delivery of the Services and shall at all times comply with and specify security measures and procedures which are sufficient to ensure that the Services comply with:

3.5.1 the provisions of this Schedule 5;

3.5.2 the provisions of Schedule 1 relating to security;

3.5.3 the Information Assurance Standards;

3.5.4 the data protection compliance guidance produced by the Authority;

3.5.5 the minimum set of security measures and standards required where the system will be handling Protectively Marked or sensitive information, as determined by the Security Policy Framework;

3.5.6 any other extant national information security requirements and guidance, as provided by the Authority's IT security officers; and

3.5.7 appropriate ICT standards for technical countermeasures which are included in the Contractor System.

3.6 The references to Quality Standards, guidance and policies set out in this Schedule shall be deemed to be references to such items as developed and updated and to any successor to or replacement for such Quality Standards, guidance and policies, from time to time.

3.7 If there is any inconsistency in the provisions of the above standards, guidance and policies, the Contractor should notify the Authorised Representative of such inconsistency immediately upon becoming aware of the same, and the Authorised Representative shall, as soon as practicable, advise the Contractor which provision the Contractor shall be required to comply with.

3.8 The Security Plan will be structured in accordance with ISO/IEC27002 and ISO/IEC27001 or other equivalent policy or procedure, cross-referencing if necessary to other schedules of the Contract which cover specific areas included within that standard.

3.9 The Security Plan shall not reference any other documents which are not either in the possession of the Authority or otherwise specified in this Schedule 5.

- 4.3 Any change or amendment which the Contractor proposes to make to the Security Plan (as a result of an Authority request or change to Schedule 1 or otherwise) shall be subject to a Variation and shall not be implemented until Approved.
-

5. AUDIT, TESTING AND PROTECTIVE MONITORING

- 5.1 The Authority shall be entitled to send a representative to witness the conduct of the Security Tests. The Contractor shall provide the Authority with the results of such tests (in an Approved form) as soon as practicable after completion of each Security Test.
- 5.2 Without prejudice to any other right of audit or access granted to the Authority pursuant to the Contract, the Authority shall be entitled at any time and without giving notice to the Contractor to carry out such tests (including penetration tests) as it may deem necessary in relation to the Security Plan and the Contractor's compliance with and implementation of the Security Plan. The Authority may notify the Contractor of the results of such tests after completion of each such test. Security Tests shall be designed and implemented so as to minimise the impact on the delivery of the Services.
- 5.3 Where any Security Test carried out pursuant to paragraphs 5.1 or 5.2 reveals any actual or potential security failure or weaknesses, the Contractor shall promptly notify the Authority of any changes to the Security Plan (and the implementation thereof) which the Contractor proposes to make in order to correct such failure or weakness. Subject to Approval in accordance with paragraph 4.3, the Contractor shall implement such changes to the Security Plan in accordance with the timetable agreed with the Authority or, otherwise, as soon as reasonably possible. For the avoidance of doubt, where the change to the Security Plan to address a non-compliance with HMG Security Policy Framework or security requirements, the change to the Security Plan shall be at no additional cost to the Authority. For the purposes of this paragraph, a weakness means a vulnerability in security and a potential security failure means a possible breach of the Security Plan or security requirements.

6. BREACH OF SECURITY

- 6.1 Either Party shall notify the other immediately upon becoming aware of any Breach of Security including, but not limited to an actual, potential or attempted breach, or threat to, the Security Plan.
- 6.2 Upon becoming aware of any of the circumstances referred to in paragraph 6.1, the Contractor shall immediately take all reasonable steps necessary to:

 - 6.2.2 prevent an equivalent breach in the future;
 - 6.2.3 collect, preserve and protect all available audit data relating to the incident and make it available on request to the Authority;
 - 6.2.4 investigate the incident and produce a detailed report for the Authority within 5 working days of the discovery of the incident.
- 6.3 Such steps shall include any action or changes reasonably required by the Authority. If such action is taken in response to a breach that is determined by the Authority acting reasonably not to be covered by the obligations of the Contractor under the Contract, then the Contractor shall be entitled to refer the matter to the variation procedure set out in the Contract.
- 6.4 The Contractor shall as soon as reasonably practicable provide to the Authority full details (using such reporting mechanism as may be specified by the Authority from time to time) of such actual, potential or attempted breach and of the steps taken in respect thereof.

7. CONTRACT EXIT – SECURITY REQUIREMENTS

In accordance with clause 16 of the Contract, on termination of the Contract, either via early termination or completion of the Contract then the Contractor will either return all data to the Authority or provide a certificate of secure destruction using an industry and Authority approved method. Destruction or return of the data will be specified by the Authority at the time of termination of the Contract.
