II.1.4) Short description:

UK SBS on behalf of the Contracting Authority (STSC) wishes to establish a Framework Contract for the appointment of Excavation and Associated Services.

UK SBS is managing this procurement process in accordance with the Public Contracts Regulations 2015 (as may be amended from time to time), (the "Regulations").

This is a Services Contract being procured under the OJEU Procedure regulations.

STSC intends to award this Framework Contract to one supplier following the tender process. Once the Framework is in place the intention is that Call-Off Task orders will be raised to cover individual service packages of work.

This RFP and supporting Appendix set out details of the STSC site and expectations of any successful supplier.

TUPE applies to this Framework Contract.

NUTS code: UKC12

Main site or place of performance:

South Tees Site Company,

Teesside Management Offices,

Redcar, Cleveland

TS10 5QW

II.2.4) Description of the procurement:

The STSC site covers an area of approximately 8 square miles, directly located on the South side of the River Tees between the towns of Redcar and South Bank. The site is accessible from the National road infrastructure via the A1085 Trunk Road and the A66 arterial thoroughfare. In addition, the site is also served by a railway station within its boundary, currently with a limited service (2 trains a day) operated by Network Rail.

On the site there are several operating ventures including, Redcar Bulk Terminal, Tata Steel and British Steel, with STSC providing Security Services and technologies via a historical contract that was in place before the liquidation of SSI UK.

The site boundary is approximately 13.5 miles (including River Tees border) in circumference and consists of a mixture of wooden bars, palisade, chain link fencing – all in various states of repair and degradation. There are lengths of perimeter where no fence line or demarcation exists.

Effective communication and planning form an integral part of the contract delivery requirement and must be a demonstrable strength of the winning contractor.

Within this procurement STSC are looking to assess the suitability of Potential Providers in terms of their ability to meet the specified requirements as described in each of the areas of this contract.

The main services required under this Framework Contract will be Excavation, Road Sweeping and Gritting. All services described in this document are required Site wide (See Appendix C Site Map)

The successful supplier will be required to ensure a suitably qualified and experienced team delivers a professional and safe service to meet all the necessary detailed and specified objectives.

(Please note; site only vehicles will run on red diesel, provided by STSC subject to internal process of ID pass and Registration number confirmation)

Arrangements should be put in place by the contractor to ensure cleaning and maintenance of all vehicles, this is the sole responsibility of the contractor for the duration of this contract. Appendix I provides an indication of the Equipment utilisation on site.

Overview of Requirement

To support the current business needs, which are to ensure the site is safe for all users and to work towards reducing our COMAH inventory on site by supplying and operating suitable machinery with trained and competent operators and banksmen for excavating, ground scraping, loading, internal skip movement, transporting and off-loading of material around site, providing gritting and road sweeping services to help reduce risks around the STSC site, at minimum cost and in the safest manner.

The scope of this Framework has defined into 3 key areas (Excavation / Road Sweeping / Gritting) to enable a full understanding of our need under the current “Keep safe Operation’s”

Non-Disclosure Agreement

Any successful supplier will be required to complete a Non-Disclosure Agreement prior to starting work on site.
