## Section 1 – About UK Shared Business Services

### Putting the business into shared services

UK Shared Business Services Ltd (UK SBS) brings a commercial attitude to the public sector; helping our Contracting Authorities improve efficiency, generate savings and modernise.

It is our vision to become the leading service provider for the Contracting Authorities of shared business services in the UK public sector, continuously reducing cost and improving quality of business services for Government and the public sector.

Our broad range of expert services is shared by our Contracting Authorities. This allows Contracting Authorities the freedom to focus resources on core activities; innovating and transforming their own organisations.

Core services include Procurement, Finance, Grants Admissions, Human Resources, Payroll, ISS, and Property Asset Management all underpinned by our Service Delivery and Contact Centre teams.

UK SBS is a people rather than task focused business. It's what makes us different to the traditional transactional shared services centre. What is more, being a not-for-profit organisation owned by the Department for Business, Energy & Industrial Strategy (BEIS), UK SBS' goals are aligned with the public sector and delivering best value for the UK taxpayer.

UK Shared Business Services Ltd changed its name from RCUK Shared Services Centre Ltd in March 2013.

### Our Customers

Growing from a foundation of supporting the Research Councils, 2012/13 saw Business, Energy and Industrial Strategy (BEIS) transition their procurement to UK SBS and Crown Commercial Services (CCS – previously Government Procurement Service) agree a Memorandum of Understanding with UK SBS to deliver two major procurement categories (construction and research) across Government.

UK SBS currently manages £700m expenditure for its Contracting Authorities. Our Contracting Authorities who have access to our services and Contracts are detailed [here](#).

## Section 4 – Specification

### Introduction

UK Shared Business Service (UK SBS) manage the outstanding debts on behalf of a number of clients. A significant amount of debt is attributed to staff overpayments. Although we undertake some of the recovery actions internally, we need to be able to refer the debts for legal recovery also.

UK SBS will be acting on behalf of the following clients for this process: Business Energy Industrial Strategy (BEIS), Department International Trade (DIT), UK Space Agency (UKSA), INSS, UK Research and Innovation and UK SBS.

### Aims

The main aim of this exercise is to appoint a supplier that can support us in the legal debt recovery process when our recovery process has failed to recover. This needs to include a service to trace individuals and then take them through the legal process to be able to recover funds that are owed to the Departments.

### Objective

The main objective of this contract is to recover funds that are owed to the clients outlined above, comply with Managing Public Money and recovery fund for the Government (Treasury).

### Background to the Requirement

UK SBS offers an Account Receivable service as part of their standard Finance offering to clients. A few years ago, it was highlighted that we required a Legal recovery process for UKRI, and we tendered a contract for this service.

As part of the Staff Debtors and Overpayments Working Group that we have in place and the recent expiration of contracts, clients have requested that we set up a new contract to be able to offer the same service to all clients from one supplier.

We need to be able to offer the same service across our client base, to enable us to implement a standard process offering across our service.

The 'contract' will be managed by the Accounts Receivable team who are currently based in the Newport UK SBS office. They will be the central point for the referral of all client cases to the new supplier.

Based on the last few years we would expect to transfer approximately £300,000 worth of debt through the contract over the next two years. This is purely an estimate as this is demand work and we can't accurately forecast this. In the last three years we have requested approximately 41 traces and £16,996 has been taken through the legal route process. Currently the debt balance (at the time of writing) in this area for our clients would be around £201,316.

**Scope**

This tender will incorporate the management of any debts that UK SBS transfer from our clients where further debt recovery action is required for ex-employees and suppliers. This could be as simple as a trace to a requirement to use legal action to recover.

**Requirement**

As a minimum we would need the supplier to offer the following services:

- UK Trace
- Overseas Trace and pursue cases Overseas
- Employment Reports
- Company Information reports

Legal Recovery:

- Letter before action
- Pre-Legal Actions
- Legal Collections
- Legal Judgements
- Enforcements
- Attachment of Earnings
- Management of all court proceedings
- Late Payment Interest recovery
- Recovery advice and guidance through the processes as described above, including expert opinion on whether to pursue debt etc.
- Services to be managed via an on-line real time portal where cases can be monitored by UKSBS. All updates and requests from UKSBS be made via the portal therefore managed in a timely manner. This will also support the transfer of sensitive data and reporting requirements.

Supplier would have to comply with all GDPR regulations

This is a 2 year contract with the option to extend 1 year.

**Timetable**

We would like to have this contract operational as soon as possible. Payments would be on a service delivered basis and charged monthly to each individual client. UK SBS will act as a point of verification for charges.

**Terms and Conditions**

Bidders are to note that any requested modifications to the Contracting Authority Terms and Conditions on the grounds of statutory and legal matters only, shall be raised as a formal clarification during the permitted clarification period.

## Section 5 – Evaluation of Bids

The evaluation model below shall be used for this ITQ, which will be determined to two decimal places.

Where a question is 'for information only' it will not be scored.

The evaluation team may comprise staff from UK SBS and the Contracting Authority and any specific external stakeholders the Contracting Authority deems required.

To maintain a high degree of rigour in the evaluation of your bid, a process of commercial moderation will be undertaken to ensure consistency by all evaluators.

After evaluation and if required moderation scores will be finalised by performing a calculation to identify (at question level) the mean average of all evaluators (Example – a question is scored by three evaluators and judged as scoring 5, 5 and 6. These scores will be added together and divided by the number of evaluators to produce the final score of 5.33 ( $5+5+6=16 \div 3 = 5.33$ ))

	In the event of a Bidder failing to meet the requirements of a Mandatory pass / fail criteria, the Contracting Authority reserves the right to disqualify the Bidder and not consider evaluation of any of the Award stage scoring methodology or Mandatory pass / fail criteria.	

### Scoring criteria

## Evaluation Justification Statement

In consideration of this particular requirement the Contracting Authority has decided to evaluate Potential Providers by adopting the weightings / scoring mechanism detailed within this ITQ. The Contracting Authority considers these weightings to be in line with existing best practice for a requirement of this type.

Evaluation Envelope	Q No.	Question subject	Maximum Marks	
			Overall	Breakdown
Commercial	AW5.1	Price	20.00%	20.00%
Technical	PROJ1.1	Understanding Methodology and	80.00%	50.00%
Technical	PROJ1.2	Staff to Deliver		30.00%

## Evaluation of criteria

### Non-Commercial Elements

Each question will be judged on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20%.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation:

$$\text{Score} = \{\text{weighting percentage}\} \times \{\text{bidder's score}\} = 20\% \times 60 = 12$$

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The Question is not answered, or the response is completely unacceptable.
10	Extremely poor response – they have completely missed the point of the question.
20	Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
40	Poor response only partially satisfying the question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.
60	Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.
80	Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.
100	Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing full assurance consistent with a quality provider.

Once the above evaluation process has been undertaken and the scores are apportioned by evaluator(s) this will then be subject to an independent commercial review and moderation meeting, if required by the commercial lead, any and all changes will be formally recorded relative to the regulatory obligations associated with this procurement, so as to ensure that the procurement has been undertaken in a robust and transparent way.

**Commercial Elements** will be evaluated on the following criteria.

The lowest price for a response which meets the pass criteria shall score 100. All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the Commercial criterion.

For example - Bid 1 £100,000 scores 100.

Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80

Bid 3 £150,000 differential £50,000 remove 50% from price scores 50.

Bid 4 £175,000 differential £75,000 remove 75% from price scores 25.

Bid 5 £200,000 differential £100,000 remove 100% from price scores 0.

Bid 6 £300,000 differential £200,000 remove 100% from price scores 0.

Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50.

In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: Score/Total Points multiplied by 50 ( $80/100 \times 50 = 40$ )

The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

This evaluation criteria will therefore not be subject to any averaging, as this is a mathematical scoring criterion, but will still be subject to a commercial review.
