Specialist relationships	10.1	The Partnering Team members shall implement the procedures in this clause 10 in accordance with the Programme Timetable and (as the context requires) the Project Timetable for each individual Project in order to establish Specialist relationships in relation to all aspects of the Programme and each Project that: (i) are Open-book to the maximum achievable extent;

		(ii) clearly reflect the agreed requirements of the Client, the interests of the Partnering Team members and the needs of the Programme and each Project; (iii) secure the best available Specialist warranties and support and maximise the potential for Specialist innovation and other contributions to the Programme and each Project; (iv) establish and demonstrate best value to the Client; and (v) establish, wherever possible, partnering relationships complementary to those described in the Partnering Contract.
Additional Partnering Team members	10.2	(i) As at the original date of the Partnering Contract and in respect of a particular Partnering Team member under a subsequent Joining Agreement, the Partnering Team members acknowledge and agree that the Client may enter into the Partnering Contract and/or subsequent Joining Agreements without simultaneously appointing the Constructor hereunder. (ii) To the extent that one or more proposed Partnering Team members are not appointed as at the date of the Project Partnering Agreement: (a) the Client may, at its sole discretion, arrange for other Partnering Team members to execute a Joining Agreement based upon the form set out at Appendix 2, which the Client Representative shall arrange for a Joining Agreement to be prepared (incorporating a detailed description of that Partnering Team member's role, expertise and responsibilities and Consultant's Payment Terms (as applicable)) and which the Client, the Constructor and the other Partnering Team members shall also execute; (b) with effect from the date stated in a Joining Agreement executed in accordance with this clause 10.2(ii), the Partnering Team(s) member identified in the Joining Agreement shall assume all the rights and obligations of a "Partnering Team member" and "Constructor" (as the context requires) as a party to the Partnering Contract for all purposes with the role, expertise and responsibilities identified in the Joining Agreement (and associated Partnering Documents) as being applicable to that Partnering Team member, including in respect of any designs and other activities undertaken by that Partnering Team member in relation to the Programme and/or the Project prior to the date of the Joining Agreement; and (c) a decision not to appoint, a delay in appointing or a failure to appoint an additional Partnering Team member to the Partnering Team by the Client pursuant to clause 10.2(ii)(a) and clause 10.2(ii)(b) shall not affect the requirement of the existing Partnering Team members at the relevant time to perform their roles, responsibilities and obligations in accordance with the terms of the Partnering Contract and shall not result in the Client having any liability to any existing Partnering Team member arising out of or in connection with the same.

		(iii) Where a Specialist is so identified in the Project Partnering Agreement or where the Partnering Team members agree that a Specialist offers sufficient design or other contribution to the Programme generally and/or any individual Project (including a replacement for such a Specialist appointed in accordance with clause 10.13), then the Constructor shall arrange for such Specialist, after selection in accordance with this clause 10, to execute a Joining Agreement based on the form set out in Appendix 2, which the Client Representative shall arrange for the Partnering Adviser to prepare (incorporating a detailed description of the Specialist's role, expertise and responsibilities and Specialist Payment Terms as prepared by the Constructor for approval by the Client), and which the Client and the Constructor and the other Partnering Team members shall also execute. With effect from the date of a Joining Agreement executed in accordance with this clause 10, that Specialist shall assume all the rights and obligations of a Partnering Team member as a party to the Partnering Contract for all purposes with the role, expertise and responsibilities identified in the Joining Agreement and the relevant Specialist Contract, including in respect of any designs and other activities undertaken by that Specialist prior to the date of the Joining Agreement.
Business Case for Preferred Specialists / Direct Labour Packages	10.3	The Constructor shall submit to the Client its Business Case for each and any part of a Project that it wishes to undertake either as a Direct Labour Package or through the appointment of any Preferred Specialist, and such Business Case shall be developed and presented on an Open-book basis by reference to the Programme Brief and/or Programme Proposals generally and, in the context of an individual Project (and as the context requires), its Project Brief and/or the Project Proposals, as well as in relation to the relevant designs proposed under clause 8.
Analysis of Business Cases	10.4	The Client and the Core Group shall be entitled to analyse each Business Case submitted pursuant to clause 10.3 and to request reasonable further information from the Constructor and any Preferred Specialist, and in each Business Case it shall be the Constructor's responsibility to demonstrate best value to the Client.
Market testing	10.5	If the Client, after Core Group Consultation, is not satisfied with any aspect of a Business Case submitted pursuant to clause 10.3, then it may reject that Business Case, and the Constructor shall test that Business Case against the prices and proposals of comparable prospective Specialists on an Open-book basis in accordance with clause 10.6.
Specialist tenders	10.6	With the exception of each Direct Labour Package and Preferred Specialist in respect of which a Business Case submitted pursuant to clause 10.3 is approved by the Client, the Constructor shall invite tenders from prospective Specialists approved by the Client and the Constructor, and shall select those Specialists who are approved by the Client after Core Group Consultation on the basis of prices and other proposals which offer best value to the Client, including experience of partnering and proposals for pursuing the recommendations and targets described in clause 4.2 in a manner consistent with the Partnering Documents and of benefit to the Programme and each Project.
Selection documentation	10.7	In the course of the development of the Business Case for a Direct Labour Package or a Preferred Specialist and in the course of tendering to other prospective Specialists, all documentation prepared and issued by or for the Constructor, all tender returns and proposals submitted by prospective Specialists and all related correspondence with prospective Specialists shall be copied by the Constructor to

		the Client Representative upon their issue or receipt by the Constructor. The Partnering Team members shall treat all such documentation as confidential. The Client Representative shall be invited and entitled to attend all interviews and other meetings organised by the Constructor with prospective Specialists.
Maximum Specialist contributions	10.8	All documents relating to the selection of Specialists shall encourage their maximum contribution to and participation in an integrated design, supply and construction process for the Programme and (as the context requires) each Project in accordance with the Partnering Documents. All designs prepared by Specialists and approved in accordance with clause 8 shall form part of the Programme Proposals generally and, in the context of each individual Project, their individual Project Proposals.
Specialist Contracts	10.9	(i) Each proposed form of Specialist Contract shall be prepared by the Constructor and approved by the Client prior to its issue to any Specialist and shall not conflict with any of the Partnering Documents. (ii) The Constructor shall take all reasonable steps to: (a) engage SMEs as Specialists in connection with the Programme and each Project; (b) ensure that: 1. no less than the Required SME Percentage of the Specialists are SMEs for each Project; or 2. the value of the Agreed Maximum Price equivalent to such percentage relates to works and/or services provided by (and will accordingly be paid to) SMEs under Specialist Contracts for each individual Project. (iii) The Constructor shall ensure that each and every Specialist Contract contains: (a) provisions equivalent to those set out in this clause 10.9(iii) (b) terms and conditions that are consistent with the intention of and are, as the context requires, no less favourable than those of this Partnering Contract; and (c) any other provisions and/or requirements that are otherwise specified in the Programme Brief generally and, in the context of each individual Project, its individual Project Brief, provided always that the Client shall be entitled to reject any proposed terms of a Specialist Contract that, in the opinion of the Client (acting reasonably), are unduly disadvantageous to the Client and/or the Constructor.
Sub-Consultant appointments	10.9A	(i) The provisions of this clause 10.9A apply to a Consultant to the extent that it intends to sub-contract (or has sub-contracted) its duties and obligations under this Partnering Contract to a Sub-Consultant. (ii) Each Consultant shall be responsible for all aspects of the performance by any of its Sub-Consultants of its duties and obligations in relation to the Programme generally and/or any Project and no approval and/or other

		involvement by the Client or any other Partnering Team member in the selection of any sub-consultant shall in any way affect that responsibility. (iii) Each proposed form of sub-contract between a Consultant and a Sub-Consultant shall be prepared by the Consultant and approved by the Client prior to its issue to the Consultant. (iv) A Consultant shall not terminate any Sub-Consultant appointment without the prior approval of the Client. If any Sub-Consultant appointment is so terminated, the Consultant shall replace, by way of a separate appointment, that Sub-Consultant with an alternative party of comparable expertise subject to approval by the Client after Core Group Consultation. (v) Each Consultant shall ensure that each and every Sub-Consultant appointment contains: provisions equivalent to those set out in this clause 10.9A(v); (a) a provision requiring the Sub-Consultant to assess the amount due to a sub-contractor of its own without taking into account the amount paid to the Sub-Consultant by the Consultant at the relevant time; and (b) any other provisions and/or requirements that are otherwise specified in the Programme Brief and/or any Project Brief in the context of an individual Project, provided always that the Client shall be entitled to reject any proposed terms of a Sub-Consultant's appointment that, in the opinion of the Client (acting reasonably), are unduly disadvantageous to the Client and/or the Consultant.
Consultants as Specialists	10.10	If and when the Constructor and any Consultant agree to enter into a Specialist Contract in relation to all or part of the relevant Consultant Services or otherwise, and if the Client so approves, that Consultant shall become a Specialist for the purposes so agreed.
Client-appointment Specialists	10.11	If so stated in the Project Partnering Agreement, or if the Client and the Constructor agree that to do so is in the best interests of the Programme generally and/or any individual Project, the Client shall appoint one or more Specialists direct, with or without provision for the later novation of their Specialist Contracts to the Constructor. Pending any such novation, the Client shall be responsible for making all payments due to any such Specialist in accordance with its Specialist Payment Terms, for its performance in accordance with its Specialist Contract and, in the event of termination of the relevant Specialist Contract, for its replacement with an alternative Specialist of comparable expertise subject to approval by the Constructor after Core Group Consultation. Programme Consultants are not Client-appointed Specialists for the purpose of this Partnering Contract.
Responsibility for Specialists	10.12	With the exception of Specialists appointed by the Client pursuant to clause 10.11, the Constructor shall be responsible for all aspects of the performance by each Specialist of its responsibilities in relation to the Programme and each Project and no approval or other involvement by the Client or any other Partnering Team member in the selection of any Specialist shall in any way affect that responsibility.

Termination of Specialist Contracts	10.13	The Constructor shall not terminate any Specialist Contract without prior Consultation with the Client (nor, if the Specialist is a Partnering Team member, without following the procedure set out in clause 26.3). If any Specialist Contract is so terminated, the Constructor shall replace that Specialist with an alternative Specialist of comparable expertise subject to approval by the Client after Core Group Consultation.
Instructions to Specialists	10.14	With the exception of Specialists appointed by the Client pursuant to clause 10.11, only the Constructor shall have authority to issue instructions to any Specialist.
Supply Chain	10.15	The Constructor shall ensure that all Specialist Contracts and each Consultant shall ensure that its appointments with Sub-Consultants include terms and conditions that are back-to-back and consistent with the intention of and are, as the context requires, no less favourable than those of this Partnering Contract and shall cooperate in all measures taken by the Client and/or Client Representative to monitor compliance with the provisions of this clause 10.15.
	10.16	The Constructor and each Consultant acknowledges and agrees that, whilst it may implement systems and logistics and engage Specialists and Sub-Consultants in order to perform its obligations in relation to the Programme and each Project, it is a fundamental requirement of its appointment under this Partnering Contract by the Client that such systems, logistics, Specialists and Sub-Consultants must be made available for the benefit of the Programme and each Project, as well as any future projects of the Client. Where making such systems, logistics, Specialists and Sub-Consultants available would, in the aggregate, be of benefit to the Programme as a whole and each Project but would cause the Constructor or a Consultant to suffer cost and/or expense, then the Client shall issue to the Constructor and/or relevant Consultant(s) an instruction setting out which course of action to adopt and the Constructor and relevant Consultant(s) shall not be required to suffer such cost and/or expense where it is unavoidable.
	11.	VOLUME SUPPLY AGREEMENTS
Notifying Volume Supply Agreements	11.1	If any Partnering Team member enters into or has entered into any Volume Supply Agreement that may be of benefit to the Programme and/or any Project, then that Partnering Team member shall notify the Client Representative with brief particulars of each such Volume Supply Agreement.
Review of Volume Supply Agreements	11.2	The Client Representative and the Core Group shall review the terms of each Volume Supply Agreement as to its appropriateness in relation to the Programme and/or relevant Project(s) and shall make a recommendation to the Client and the Constructor.
Volume Supply Agreements as Specialist Contracts	11.3	Where a Volume Supply Agreement is approved by the Client and the Constructor, the Constructor shall enter into a Specialist Contract adopting the prices and terms of such Volume Supply Agreement and shall assume responsibility for the relevant Specialist in connection with the agreed scope of such Volume Supply Agreement.
	12.	PRICES

Payment for Constructor's Services	12.1	In respect of the Constructor's Services performed in connection with the Programme generally and, save in relation to a Project in respect of which a Commencement Agreement has been entered into between the Client and the Constructor, the Client shall pay the Constructor in accordance with the rates and amounts (as applicable) stated in the Price Framework as identified in the Project Partnering Agreement as at the date of this Partnering Contract (and as may be updated and/or modified pursuant to the Partnering Terms in the context of the Constructor's Services provided in relation to the Programme generally only).
Payment under Pre-Construction Agreement	12.2	In respect of Pre-Construction Activities under any Pre-Construction Agreement in relation to an individual Project (or Site) entered into pursuant to clause 13.5, the Client shall pay the Constructor the amounts incurred by the Constructor in carrying out the Pre-Construction Activities in accordance with this clause 12 and such Pre-Construction Agreement.
Price Framework, Agreed Maximum Price and Budget	12.3	Except as set out at clause 12.3A or as specified in the Commencement Agreement, prices for all aspects of each Project shall be developed and agreed in accordance with this clause 12, by reference to the Price Framework as identified in the Project Partnering Agreement as at the date of this Partnering Contract (and as may be updated and/or modified pursuant to the Partnering Terms in the context of the Constructor's Services provided in relation to the Programme generally only) and other Partnering Documents, to establish a separate Price Framework for that Project that includes, in addition to the other items referred to in this clause 12, an Agreed Maximum Price for the Project within any Budget stated in the Price Framework and otherwise as low as is achievable for that Project consistent with best value and in compliance with the Partnering Documents. As from the date where a Commencement Agreement is entered into between the Client and the Constructor in connection with the Project, the Client shall pay the Constructor those amounts stated in the Price Framework for the Project (by reference to the Agreed Maximum Price) for carrying out and completing the Project pursuant to and in accordance with the Commencement Agreement and these Partnering Terms.
	12.3A	Notwithstanding clause 12.3, the following costs in respect of the Project shall be excluded from the Agreed Maximum Price: 12.3A.1 any Pre-construction Activities carried out prior to the issue of a relevant Commencement Agreement; 12.3A.2 any elements of the Project specified in the relevant Commencement Agreement (Reimbursable Activities). For the avoidance of doubt, the Constructor acknowledges that the decision whether to classify any elements of the Project as Reimbursable Activities (and thus excluded from the Agreed Maximum Price) is a matter for the Client at its sole discretion.
	12.3B	Where clause 12.3A applies, the total price for the Project shall be the relevant Agreed Maximum Price plus: 12.3B.1 the Reimbursable Costs; 12.3B.2 the Constructor's Profit, Central Office Overheads and Site Overheads which apply to the Reimbursable Costs.

	12.3C	Prior to entry into a Commencement Agreement for a Project, the Constructor shall develop a Price Forecast in respect of the costs, including any Reimbursable Costs, forming part of the Project. The Price Forecast shall set out the amounts that the Constructor forecasts will be payable in respect of the Project, including amounts within the Agreed Maximum Price and any Reimbursable Activities within the Project at each application for payment, plus the Constructor's Profit, Central Office Overheads and Site Overheads in relation to the Reimbursable Costs. The Price Forecast shall take account of any Budget stated in the Price Framework for the Project, and shall be as low as is achievable for that Project consistent with best value and in compliance with the Partnering Documents. As from the date where a Commencement Agreement is entered into between the Client and the Constructor in connection with the Project, the Client shall pay the Constructor the amounts set out in the Price Forecast (as the same is updated from time to time pursuant to clause 12.3D).
	12.3D	The Constructor shall update the Price Forecast at intervals of not less than [] from the entry into the Commencement Agreement until Completion of the Project and provide this to the Client. The Constructor shall include an explanation of the changes made since the previous Price Forecast, together with reasonable supporting detail. The revised Price Forecast shall replace the previous version, provided that the Client may consider that any individual costs included in an application for payment are Excluded Costs, notwithstanding any inclusion in a Price Forecast.
Profit, Central Office Overheads and Site Overheads	12.4	The Constructor's Profit, Central Office Overheads and Site Overheads for a Project shall be fixed at the agreed amounts set out in the Price Framework as identified in the Project Partnering Agreement as at the date of this Partnering Contract (and as may be updated and/or modified pursuant to the Partnering Terms in the context of the Constructor's Services provided in relation to the Programme generally only), subject only to such variations as the Client and the Constructor may agree, and (except as the same apply to Reimbursable Costs, which shall be in addition) shall form part of the Agreed Maximum Price for that Project.
Proposed Direct Labour Packages and Preferred Specialists	12.5	Those prices attributable to each of the Constructor's proposed Direct Labour Packages and Preferred Specialists for each Project shall be developed by the Constructor, in conjunction with each relevant Preferred Specialist, and shall form part of each Business Case submitted pursuant to clause 10.3.
Prices of approved Direct Labour Packages and Preferred Specialists	12.6	If the Client approves the prices proposed by the Constructor as part of the Business Case for any proposed Direct Labour Package or Preferred Specialist in respect of a Project, then those prices shall be incorporated in the Price Forecast for the Project as developed pursuant to this clause 12 and shall form part of the Agreed Maximum Price for the relevant Project, except where such prices relate to Reimbursable Activities, in which case the prices shall be excluded from the Agreed Maximum Price and shall form part of the Total Project Price.
Prices of other Specialists	12.7	Where a Specialist is selected by tender in accordance with clause 10.6 in connection with a Project, then the prices of the selected Specialist shall be incorporated in the Price Forecast for the Project as developed pursuant to this clause 12 and shall form part of the Agreed Maximum Price for the relevant Project except where such prices relate to Reimbursable Activities, in which case the prices shall be excluded from the Agreed Maximum Price and shall form part of the Total Project Price.

Discounts	12.8	No discounts or other benefits shall be payable by any Specialist to the Constructor for prompt payment or otherwise unless agreed pursuant to this clause 12 or clause 13.
Risk contingencies	12.9	All and any proposed risk contingencies in relation to a Project shall be notified by the Constructor to the Client. Such risk contingencies shall only be incorporated in the Price Framework and form part of the Agreed Maximum Price for the Project if and to the extent that any such risk contingency has been reviewed by other Partnering Team members with appropriate expertise and approved by the Client. Where risk contingencies relate to Reimbursable Activities, these shall be incorporated, clearly labelled as a risk contingency in respect of the relevant Reimbursable Activity, in the Price Forecast for the Project as developed pursuant to this clause 12. Prior to inclusion of any such risk contingency, the Constructor shall identify the relevant risk and, with input from the other Partnering Team members submit proposals for Core Group review and Client approval as to how the relevant risk should or could be eliminated, reduced, insured, shared or apportioned and as to the extent to which the risk contingency can be removed or reduced and subject to such Client approval have taken appropriate actions including those stated in any Risk Register. Any changes in respect of the relevant risk during the carrying out of the Project shall be incorporated any necessary changes into any revisions to the Price Forecast.
Cost savings and added value	12.10	The Core Group shall investigate the potential for cost savings against the Price Forecast for each Project (in relation to both the Agreed Maximum Price and any Reimbursable Costs) and for added value in the design, supply, construction and Operation of each Project, and shall make recommendations for approval by the Client.
	13.	INCENTIVES AND PRE-CONSTRUCTION ACTIVITIES
Appropriate Incentives	13.1	The Core Group shall seek to agree and recommend for Client approval such Incentives, additional to any described in the Partnering Documents, as may be appropriate to encourage Partnering Team members to maximise their efforts pursuant to the Partnering Contract for the benefit of the Programme and each Project.
Shared savings, added value and pain/gain Incentives	13.2	The Partnering Team members shall implement any shared savings, shared added value and pain/gain Incentives described in the Project Partnering Agreement and otherwise recommended by the Core Group and approved by the Client. Any cost saving or demonstrable added value proposed by one or more Partnering Team members and approved by the Client on the recommendation of the Core Group shall be subject to such shared savings arrangements and/or added value Incentives.
Value Engineering	13.2A	(i) If specified in the Project Partnering Agreement as applying to this Partnering Contract, the Partnering Team members shall operate the Shared Savings Scheme in connection with the Programme and each Project. (ii) Without prejudice to the generality of clause 17.1: (a) each Partnering Team member shall proactively, exercising the standard of skill and care referred to in clause 22.1, explore opportunities to optimise and improve the overall design, delivery,

		construction, installation, commissioning, operation and/or maintenance of each Project; and (b) where any Partnering Team member identifies such an opportunity that, should they be utilised for one (1) or more Project, would: 1. accelerate Project Completion for such Project(s); 2. reduce the cost to the Client of executing, maintaining and/or operating the Project(s); 3. optimise and improve the efficiency and/or value to the Client of the completed Project(s); or 4. otherwise be of benefit to the Client, (each being a "Value Engineering Opportunity") as a result of such exploration: A where the Partnering Team member is not the Constructor, it shall notify the Constructor of the Value Engineering Opportunity as soon as reasonably practicable upon becoming aware of the same and if the Constructor, acting reasonably agrees with the Value Engineering Opportunity; or B where the Partnering Team member is the Constructor, the Constructor shall issue to the Client a written proposal (as a "Value Engineering Proposal") as soon as reasonably practicable, provided always that the Constructor may not submit a written proposal under this 13.2A(ii) in response to a request from the Client for the Constructor or any other Partnering Team member to submit a Constructor Change Submission under clause 17.2. (iii) Each Value Engineering Proposal: (a) shall be prepared at the cost of the Partnering Team members; and (b) may be accepted or refused by the Client at its sole discretion. (iv) In the event that the Client approves in principle a Value Engineering Proposal, the Client and the Constructor shall, as soon as reasonably practicable, discuss in good faith a fair and reasonable adjustment to (as appropriate): (a) (subject to clause 13.2A(v)) the Price Forecast; (b) the Completion Date; and (c) any other changes to the Partnering Terms (if any), in each case in the context of the relevant Project(s) only and to reflect the implementation of the Value Engineering Proposal on the agreed basis,
--	--	--

		following which: 1. if agreement is reached on the items above, the Client may issue to the Constructor a written notice for the relevant Project (or a separate written notice for each of the relevant Projects) confirming that it is to implement the Value Engineering Proposal (a “Value Engineering Instruction”); or 2. the Client may issue to the Constructor a written notice confirming that it does not accept the Value Engineering Proposal for any individual Project or for multiple Projects that are the subject of the Value Engineering Proposal, and the Constructor shall not implement any Value Engineering Proposal in relation to a Project until such time as it receives a Value Engineering Instruction in respect of the same. (v) If, as a consequence of the Client accepting a Value Engineering Proposal in relation to a Project and issuing a Value Engineering Instruction in respect of the same, the Constructor's costs (other than in respect of Reimbursable Activities) shall decrease, the Agreed Maximum Price for that Project shall be reduced by an amount calculated by multiplying the assessed cost savings determined by reference to the Value Engineering Proposal (following the deduction of the costs reasonably and properly incurred by the Constructor in implementing such Value Engineering Solution) by fifty per cent (50%). (vi) The Constructor and the Consultants acknowledge and agree that: (a) nothing in this clause 13.2A shall give rise to an adjustment to the Completion Date and/or the Agreed Maximum Price in relation to the relevant Project under this Partnering Contract other than as agreed pursuant to clause 13.2A(iv); (b) Value Engineering Proposals are not and are not to be treated as Change proposals issued and/or requested under and/or implemented in accordance with clause 17; and (c) notwithstanding the above, the provisions of clause 17.7, clause 17.8 and clause 17.9 shall apply to any Value Engineering Proposal that is the subject of a Value Engineering Instruction on a mutatis mutandis basis.
Incentives and KPIs	13.3	If and to the extent that Incentives, as described in the Project Partnering Agreement and otherwise recommended by the Core Group and approved by the Client, link payment of the Constructor or any Consultant to achievement of the Date for Completion or any of the KPIs and Targets in relation to any individual Project, then as soon as the level of such achievement is clearly demonstrable (and whether or not any adjustment appears in the Constructor's or the relevant Consultant's applications for payment), the Client Representative shall determine the amount of any consequent additional or reduced payment in accordance with the Partnering Documents, and a corresponding adjustment shall be made in the next valuation or valuations in relation to that Project pursuant to clause 20.3 or the next notice or notices to the relevant Consultant pursuant to clause 20.4.

Third party benefits	13.4	Each Partnering Team member shall notify the Client of any payment or benefit offered or received by it in relation to the Programme and/or the Project other than pursuant to the Partnering Documents or a Specialist Contract. Any such payment or benefit shall be subject to the Client's prior approval.
Pre-Construction Agreement	13.5	The Client and the Constructor may agree that the Constructor shall undertake and be paid for Pre-Construction Activities forming part of a Project, in accordance with the terms of a Pre-Construction Agreement based on the form set out in Appendix 3, which the Client Representative shall arrange for the Partnering Adviser to prepare and which shall be signed by the Client and the Constructor.
Pre-Construction Activities	13.6	In relation to all Pre-Construction Activities in relation to a Project (except only as otherwise stated in the Pre-Construction Agreement in respect of the same): (vii) Intellectual Property Rights, insurance obligations, risk, responsibility and ownership shall be governed by these Partnering Terms; (viii) timing shall be governed by the Programme Timetable; (ix) the only payment shall be the amount or amounts stated in the Pre-Construction Agreement, payable under the procedures set out in these Partnering Terms and strictly in relation to the Project so identified in the Pre-Construction Agreement only; (x) problem solving and avoidance or resolution of disputes shall be governed by these Partnering Terms; (xi) the Pre-Construction Agreement shall not create any other obligations on any Partnering Team member; (xii) all Pre-Construction Activities shall form part of the Project identified in the Pre-Construction Agreement only; and (xiii) the Constructor shall cease all Pre-Construction Activities and vacate the relevant Site if and when so requested by the Client Representative.
	14.	PRE-CONDITIONS TO START ON SITE
Pre-conditions to start on Site	14.1	Implementation of a Project at its Site shall commence subject to satisfaction of the following pre-conditions, either completely or to such lesser extent as is stated in the Partnering Documents or is otherwise agreed by the Client in the context of that specific Project only: (i) agreement of the Project Timetable and the Project Brief and Project Proposals in accordance with clause 6 and clause 8 respectively; (ii) completion and distribution of the Pre-Construction Information and the Construction Phase Plan for that Project in accordance with clause 7 and confirmation that the Client is satisfied that the requirements of regulation 13(4)(C) of the CDM Regulations have been met; (iii) completion of pre-commencement Site surveys and investigations in respect of that Project in accordance with clause 8;

		(iv) the granting of any required Consents satisfactory to the Client and of other pre-commencement regulatory approvals in respect of that Project in accordance with clause 8; (v) development of an integrated design, supply and construction process for that Project (including as part of the wider Programme) in accordance with clause 8; (vi) selection and full involvement of Specialists, and their execution where appropriate of Joining Agreements, in accordance with clause 10; (vii) finalisation of an Agreed Maximum Price and Price Forecast and Price Framework for that Project in accordance with clause 12; (viii) evidence of all insurances required for the Project in accordance with clause 19; (ix) finalisation of and satisfactory progress against KPIs and Targets in accordance with clause 23; (x) completion by the Client of any required Site acquisition or funding and satisfaction of any other pre-conditions stated in the Programme Brief and/or Project Brief in relation to the Project; (xi) signature by the Partnering Team members of all agreed Partnering Documents in relation to the Project; (xii) the BIM Model having been sufficiently developed in accordance with clause 8 and the BIM Protocol; (xiii) agreement to all remaining Project details for inclusion in the Commencement Agreement for the Project; (xiv) development and finalisation by the Constructor of the ESP and the Method Statement for the Project; and (xv) agreement as to form and content of the Commencement Agreement in respect of the Project.
Satisfying pre-conditions	14.2	The Partnering Team members shall exercise the standard of skill and care referred to in clause 22.1 to pursue diligently and satisfy the pre-conditions described in clause 14.1 in relation to each Project, and shall notify each other as soon as they are aware that such pre-conditions have been satisfied.
	15.	PROJECT ON SITE
Commencement Agreement	15.1	As soon as the pre-conditions described in clause 14.1 have been satisfied in relation to a Project, the Client Representative shall arrange for the Partnering Adviser to prepare a Commencement Agreement, based on the form set out in Appendix 4, completed as to all agreed Project details listed in the Commencement Agreement for that Project, and shall provide copies to the Partnering Team members allowing not less than ten (10) Working Days for their comments. Subject to its amendment after Consultation to reflect such comments as are necessary for compliance with

		the Partnering Documents, the Partnering Team members shall sign the Commencement Agreement.
Commencement Agreement	15.1A	When the Commencement Agreement in connection with an individual Project is issued in accordance with clause 15.1: (i) the Constructor and relevant Partnering Team members shall, within ten (10) Working Days of the date of receiving the Commencement Agreement, execute and return the Commencement Agreement to the Client Representative; (ii) following the receipt of the properly executed Commencement Agreement by the Client Representative, the Client shall then execute and date the same, with the Client Representative then confirming such execution to the relevant Constructor and relevant Partnering Team members in writing; and (iii) following such confirmation, the Commencement Agreement shall become effective and binding in relation to the stated Project only as from the date referred to at clause 15.1A(ii) and the parties to the Commencement Agreement shall immediately commence the activities authorised and instructed pursuant to the same. Each Commencement Agreement issued under this Partnering Contract shall relate to the single named Project identified therein and nothing in a Commencement Agreement for an individual Project shall be construed as having nor have the effect of authorising the Constructor to carry out and undertake the design and construction of any other Project.
Carrying out Project	15.2	Following execution of a Commencement Agreement pursuant to clause 15.1A in respect of an individual Project, the Constructor, with input as agreed from other Partnering Team members, shall carry out and complete that Project in accordance with the Partnering Documents by its Date for Completion (subject to extension in accordance with these Partnering Terms), in consideration for which the Client shall pay to the Constructor the Total Project Price for that Project, subject only to reduction by means of any shared savings achieved pursuant to clause 13.2 and to such other increases and decreases as are in accordance with these Partnering Terms.
Carrying out Project	15.2A	Without prejudice to the generality of clause 15.2 and subject to clause 22.1: (i) the Constructor shall be fully responsible in all respects for: (a) the design of each Project and for any discrepancy in or divergence between such documents and/or any drawings, details, documents and other information submitted by the Constructor in connection with a Project pursuant to this Partnering Contract; (b) the co-ordination and integration of all design and the interface between design elements for each Project, whether carried out by the Constructor or by any other party engaged by the Client in connection with a Project and the Constructor shall adopt and take responsibility for any design work in relation to each Project which may be carried out or which may have been carried out by

		the Constructor or by or on behalf of the Client; (c) every aspect of design development, selection of goods and materials and the satisfaction of performance specifications included or referred to in the Partnering Documents, this Partnering Contract or pursuant to any Change; and (d) ensuring materials and goods are new and appropriate for their use, and materials, goods and workmanship are of satisfactory quality. 	16.	QUALITY AND ENVIRONMENT

Quality of Project	16.1	The Partnering Team members shall work together and individually, in accordance with the Partnering Documents, to achieve the quality of the Programme generally and each individual Project described in the Partnering Documents and to seek in accordance with the KPIs to reduce defects in each Project, to increase its expected lifespan, to improve its Sustainability and to reduce the cost of the Operation of each Project.
Standards	16.2	In implementing (as the context requires) the Programme and each Project, the Constructor and the Specialists shall use and supply materials, goods and equipment of types and standards that are compliant with the Partnering Documents and otherwise appropriate to the Programme and the Project.
Quality Management System	16.3	The Partnering Team members shall implement a Quality Management System as set out in (as the context requires) the Programme Brief, the Programme Proposals, the Project Brief, Project Proposals and Consultant Services Schedules.
Environmental risk and Hazardous Substances	16.4	Each Partnering Team member shall exercise the standard of skill and care referred to, at clause 22.1: (i) to implement the measures stated in the Partnering Documents to eliminate or render negligible the risk of harm to the Environment or migration of Hazardous Substances onto or from any Site; and (ii) not to transport to, generate, store, use, treat, dispose of or install at any Site any Hazardous Substance and not to cause any release of Hazardous Substances into or contamination of the Environment, except in accordance with the Environmental Laws applicable at the time of implementing the Programme and each Project.
	17.	CHANGE
Partnering Team proposed Changes	17.1	Any Partnering Team member may propose a Change to the Client at any time if it is demonstrably in the best interests of the Programme and/or any Project, and any such proposed Change shall be considered by the Client with the Client Representative (and, if appropriate under clause 23.4, the Core Group) advised by other relevant Partnering Team members and, if approved by the Client, shall then be notified by the Client to the Constructor in accordance with clause 17.2.
Client proposed Changes	17.2	The Client may propose a Change at any time by notification to the Constructor and the other Partnering Team members and, upon notification of a proposed Change (or following compliance with clause 5.4 or clause 8.11 if applicable) the Constructor within ten (10) Working Days (or such other period as may be agreed by the Client Representative) shall submit to the Client a Constructor's Change Submission comprising its proposals as to the effect of the proposed Change on amounts payable in respect of Constructor's Services (if a Change is proposed that relates to the Programme generally and not an individual Project prior to the date of the Commencement Agreement for that Project) and, in respect of an individual Project its Price Forecast including any changes to the Agreed Maximum Price if applicable, calculated in each case on an open book basis and in accordance with the Price Framework, and/or as to its effect on the progress of the Programme and (if applicable) the relevant Project and its Date for Completion, calculated on the basis of the Programme Timetable and the relevant Project Timetable.

Constructor's Change Submission	17.3	The Client shall consider any Constructor's Change Submission submitted pursuant to clause 17.2 with the Client Representative, advised by other relevant Partnering Team members, and shall seek to agree it with the Constructor (with or without modification). By notice within five (5) Working Days from the date of a Constructor's Change Submission (or such other period as may be agreed by the Constructor), the Client Representative shall: (i) instruct the Constructor to proceed with the Change (whether or not reserving any aspect of the Constructor's Change Submission for later agreement or suggested modification); or (ii) withdraw the proposed Change.
Evaluation of Change if not agreed	17.4	If the Client Representative instructs the Constructor to proceed with a Change pursuant to clause 17.3, but the Client and the Constructor have not agreed within a further twenty (20) Working Days from the date of such instruction any time and/or cost proposals in the Constructor's Change Submission, then the Client Representative shall ascertain the time and cost effects of such Change on a fair and reasonable basis utilising wherever possible relevant periods of time in the Programme Timetable or the Project Timetable (as appropriate) and prices for similar work in the Price Framework, and within a further twenty (20) Working Days from expiry of the period for agreement shall notify the Client and the Constructor accordingly. If the Client or the Constructor disputes, in respect of the relevant Project, any consequent adjustment to the Price Forecast (including the Agreed Maximum Price if applicable) or Date for Completion, it shall notify such dispute under clause 27.1 within twenty (20) Working Days from the date of the Client Representative's notice and, in the absence of such notification of dispute or pending its resolution, the adjustment to the Price Forecast (which may include the Agreed Maximum Price if applicable) and/or the Date for Completion set out in the Client Representative's notice shall prevail.
Urgent or simple Change	17.5	If the Client considers a proposed Change to be sufficiently urgent or simple, the Client Representative shall instruct the Constructor to proceed with that Change by reference to this clause 17.5, by reference to the relevant Project (as the context requires), in advance of a Constructor's Change Submission, which shall then be submitted in accordance with clause 17.2 and considered and evaluated in accordance with clause 17.4.
Minimum adverse effects	17.6	In all cases, a Constructor's Change Submission shall minimise, by means of effective Value Management and otherwise, any adverse effect on the Price Forecast (including the Agreed Maximum Price) and the Date for Completion for each Project in the Programme generally and each Project specifically, and shall reflect the spirit and content of the Partnering Documents, and all Partnering Team members shall assist in achieving these objectives within their agreed roles, expertise and responsibilities.
Effect of Change	17.7	Any Change and its effect on the Agreed Maximum Price and/or Date for Completion in relation to an individual Project, when agreed or established in accordance with this clause 17, shall be binding on the Partnering Team members. The parties acknowledge that the Price Forecast shall be updated to incorporate any Changes to the Agreed Maximum Price and any Changes to the Reimbursable Costs, but the amounts to be paid by the Client in relation to the Project shall be the Total Project Price.

Changes and Consultants	17.8	Any Change, when agreed or established in accordance with this clause 17, shall give rise to an equivalent adjustment in the time for performance of the affected Consultant Services of each affected Consultant, and shall amend each Consultant's entitlement to payment in the manner described in the relevant Consultant Payment Terms but not otherwise.
Changes – Additional	17.9	Where any Change agreed or established in accordance with this clause 17 has the effect of substantially increasing or decreasing the Agreed Maximum Price or Central Office Overheads in respect of Reimbursable Costs for the Project to which it relates, the Constructor may propose a corresponding and proportionate amendment to the employment and skills output figures contained in the ESP, the Method Statement and any relevant KPIs and Targets for that Project. The Client and the Client Representative shall consider any such proposal made by the Constructor and shall seek to agree any amendments with the Constructor.
Changes in scope	17.10	The Partnering Team members acknowledge and agree that, as part of any Change proposed or instructed by it pursuant to clause 17.2: (i) the Client may, at any time, remove or omit all or part of the services and/or works from the scope of a Partnering Team member's role and/or responsibilities and/or in respect of the Programme generally and/or any individual Project and (at its sole discretion) engage a third party or third parties to carry out such omitted works and/or services; (ii) (as the context requires) the Price Forecast for the relevant Project(s) shall be reduced to reflect such removal or omission including whether the removal or omission is made from the Agreed Maximum Price or the Reimbursable Costs, calculated in accordance with this clause 17.10 or as otherwise agreed between the affected Partnering Team members in the relevant circumstances, acting reasonably (in each case subject to clause 17.11); (iii) the Client shall have no liability whatsoever to any affected Partnering Team member in respect of any such reduction or omission (whether in contract, tort (including negligence) or otherwise), which shall not give rise to any entitlement for such Partnering Team member(s) to claim for abortive costs, actual or expected loss of payment or profit, loss of revenue, loss of goodwill, loss of opportunity or any direct, consequential or indirect losses or for any other amount under this Partnering Contract; and (iv) the Constructor shall not be entitled to any adjustment to the Date for Completion and/or to any other adjustment to the Total Project Price in respect of a Project arising out of or in connection with any instruction(s) issued by the Client pursuant to this clause 17.10, provided always that nothing in this clause 17.10 shall affect the entitlement of a Partnering Team member to be paid for any services and/or works properly performed in accordance with this Partnering Contract prior to the date of such reduction or omission.
Changes in scope	17.11	A removal or omission made by the Client pursuant to clause 17.10 in respect of a Project shall not affect, in respect of any works and/or services forming part of an activity that is subject to such a notification, the Constructor's entitlement to payment

		(or reimbursement) after the date of the Commencement Agreement for that Project in respect of: (i) any works and/or services forming part of that activity that have been properly performed by the Constructor as at the effective date of the relevant notification but which cannot, by reason of the omission, be completed, the value of which shall be determined by the Client Representative, acting reasonably, on a pro rata basis by reference to the value of the relevant works and/or services as against the total of the Prices for the relevant activity; (ii) the Constructor's reasonably and properly incurred direct demobilisation costs (as disclosed to the Client Representative for review and approval on an open book basis) in relation to the omitted works and/or services only; (iii) the cost of any plant and materials that the Constructor has itself manufactured in connection with that Project and that are stored, as at the date of the omission, at a location other than at the site and provided that the Constructor has used reasonable endeavours to mitigate such costs, either whole or in part (including by using such plant and materials as part of the wider delivery of that Project); and (iv) any direct costs that the Constructor is contractually committed to pay to any third party (including its Specialists) that relate to such omitted works and/or services only (such as cancellation costs and the cost of plant and materials that have been manufactured by a third party in connection with that Project and that are stored, as at the date of the notification, at a location other than at the site) and to the extent that which the Constructor is unable, using reasonable endeavours and exercising the terms of the relevant contract with such third party (but without having to incur further costs to such third party in doing so) to mitigate such costs, either whole or in part (including by using any plant and materials, equipment and/or other physical items that the Constructor is contractually committed to purchase as part of the wider delivery of that Project). Where any sums are to be paid to the <i>Constructor</i> under items (iii) and (iv) above in respect of plant and materials, equipment and/or other physical items referred to in the listed items generally, it shall be a precondition to the Constructor's entitlement to payment in respect of the same under this clause 17.11 that: (a) (save in relation to plant and materials and/or equipment that is hired by the Constructor and/or its Specialists) ownership and title in such plant and materials, equipment and/or other physical items transfers to the Client; and (b) the Constructor delivers the same to a location to be agreed with the Client in advance, no later than the date on which the Constructor receives payment from the Client in connection with the relevant plant and materials, equipment and/or other physical items pursuant to this 17.11.
	18.	RISK MANAGEMENT
Risk Management	18.1	Without prejudice to clause 18.1A, the Partnering Team members recognise the risks involved in the design, supply and construction of each Project, and the costs

		associated with those risks. The Partnering Team members shall work together and individually, through Risk Management exercises in accordance with clauses 5.1(iii) and 12.9, and otherwise in accordance with the Partnering Documents, including through the actions described in any Risk Register within the periods and/or deadlines stated in such Risk Register(s) and in (as the context requires) the Programme Timetable and the Project Timetable for an individual Project, to analyse and manage risks in the most effective ways including: (i) identifying risks and their likely costs; (ii) eliminating or reducing risks and their costs; (iii) insuring risks wherever affordable and appropriate; and (iv) sharing or apportioning risks according to which one or more Partnering Team members are most able to manage such risks. In the event that the Constructor considers that a revision to the Price Forecast will be required, including where the revision relates to the Agreed Maximum Price, the Constructor shall notify the Client and Core Group and shall provide all reasonable supporting information.
Risk allocation under the Risk Register	18.1A	Save as provided for in this Partnering Contract, the Agreed Maximum Price and/or the Date for Completion for a Project are not to be changed to reflect any risks entered into any Risk Register or for any matter notified as an early warning. The Partnering Team Members acknowledge and agree that risks may be expressly identified as a "Client Risk" or a "Constructor Risk" in the Risk Register from time to time. Notwithstanding the risk management obligations in clauses 18.1 and 18.2, in the event that a risk is identified as a Client Risk in the Risk Register, the provisions of clause 18.3(ii) shall apply in respect of any delay or increased cost associated with the occurrence of that risk. The Client has no liability to any Partnering Team member for any risks entered into any Risk Register or for any matter notified as an early warning unless the risks have been agreed as being carried by the Client and expressly identified as "Client Risk", or as stated in the Partnering Terms.
Constructor risk	18.2	From the date of the Commencement Agreement until the Completion Date, the Constructor shall be responsible for managing all risks associated with the Project and the Site to which the Commencement Agreement relates, including as far as reasonably possible risks which are identified as "Client Risks" in the Risk Register, except as otherwise stated in these Partnering Terms.
Extensions of time	18.3	The Constructor shall use its best endeavours at all times to minimise any delay or increased cost in each Project. From the date of the Commencement Agreement in respect of a Project, subject to the Constructor's compliance with the procedures set out in clause 18.4, the Constructor shall be entitled to be granted an appropriate extension of the Date for Completion for that Project if and to the extent that, despite the Constructor's best endeavours, any of the following adversely affect that specific Project and its Date for Completion (in each case only to the extent that such events are not in any way contributed towards, consequent upon and/or necessitated by any negligence, error, omission, default, breach of contract or breach of statutory duty of the Constructor, its servants or agents or any Specialist or supplier or their respective servants or agents): (i) a delay caused by a default or failure of the Client or any Consultant (except to the extent caused or contributed to by the Constructor or any Specialist

		or other party for whom the Constructor is responsible) beyond any agreed time limit stated in these Partnering Terms or the Project Timetable, provided that the Constructor has given Early Warning to the Client in accordance with clause 3.7 not more than five (5) Working Days after expiry of the agreed time limit; (ii) a delay relating to the occurrence of a risk identified in the Risk Register as a "Client Risk" provided that the Constructor has complied with its obligations under clause 18.2; (iii) in respect of a Consent: (a) a Statutory Authority or other third party fails to issue to, enter into or approve (as the context requires) a Consent by the date stated on the Project Timetable in respect of the same, provided always that: 1. where the Consent is not a Client Consent, the Constructor demonstrates to the Client Representative (acting reasonably) that the Constructor, has used reasonable endeavours to secure (or, as the context requires, facilitate) such issuance, entering into and/or approval in accordance with clause 8A by the date shown on the Project Timetable and (save where attributable to the acts or omissions of such Statutory Authority or third party) is not in breach of its obligations under clause 8A; or 2. where the Consent is a Client Consent, such failure is not attributable to any failure by or on behalf of the Constructor to comply with the requirements of clause 8A; or (b) a Statutory Authority, acting in the capacity of a statutory undertaker or utility provider and pursuant to a Consent fails to undertake the works and/or services that it is required to undertake and complete under that Consent within any period(s) identified in the Project Timetable for such works and/or services, provided that where such works are to be undertaken pursuant to: 1. a Consent other than a Client Consent, the Constructor has first supplied such information required, placed any necessary orders and otherwise performed its obligations under this Partnering Contract as at that time so as not to delay or disrupt such Statutory Authority in undertaking and completing such work and/or services and/or (save where attributable to the acts or omissions of such Statutory Authority) is not in breach of its obligations under clause 8A and/or under the relevant Consent; or 2. a Client Consent (and without prejudice to the generality of clause 8A), the Constructor has first supplied to the Client such information required, assisting the Client with the placing of any necessary orders and otherwise performed its obligations under
--	--	--

		this Partnering Contract in respect of such work as soon as reasonably practicable so as not to cause the Client to delay or disrupt such Statutory Authority in relation to such work (save where attributable to the acts or omissions of such Statutory Authority) is not in breach of its obligations under clause 8A;
	(iv)	a change in any law or regulation of the country in which the Site of the Project is located after the date of the Commencement Agreement that the Constructor:
	(c)	was not aware of and did not foresee and would not have been in the awareness of or have been reasonably foreseeable by a qualified and competent constructor experienced in undertaking the design, construction and commissioning of works of a similar size, scope, nature, complexity, value and character as the Project; and
	(d)	is able to demonstrate to the reasonable satisfaction of the Client will require a change to the Project and/or the Constructor's method of working in relation to the delivery of the Project;
	(v)	exceptionally severe weather conditions at the Site (of the kind that on average occur no more frequently than once every twenty (20) years, such weather conditions to be judged by reference to records from the Meteorological Office in respect of the weather station situated at the town closest to the Site);
	(vi)	not used;
	(vii)	opening up for inspection or testing of any part of the Project if such inspection or testing does not reveal anything not in accordance with the Partnering Documents, except where such opening up for inspection or testing was reasonable in view of similar non-compliance with the Partnering Documents having been discovered in another part of the Project;
	(viii)	loss or damage occasioned by any one or more of the matters required to be insured pursuant to clause 19.1, where such insurance is required to be taken out by the Constructor in relation to the Project;
	(ix)	strike, lockout or trade dispute occurring nationwide and neither involving solely nor originating with the personnel or other employees of the Partnering Team member or lower tier subcontractors or the employees or subcontractors of any group company associated with the Partnering Team member;
	(x)	exercise, after the Date of Possession, by the government of the country in which the Site of the Project is located of any statutory power directly affecting implementation of the Project by restricting labour, materials, goods or equipment required for the Project;
	(xi)	subject to clauses 6.4 and 15.3(i), failure by the Client to allow access to or possession of all or any part of the Site- of the Project, to the extent that such access and possession are within the Client's control;

		(xii) suspension by the Constructor of performance of its obligations under the Partnering Contract directly in relation to the Project in accordance with clause 20.17 or suspension of the Project in accordance with clause 26.6; (xiii) a Force Majeure Event occurs; (xiv) breach of the Partnering Contract by the Client or any Consultant of which the Constructor has given Early Warning; and (xv) delay, damage or obstruction by any Specialist appointed by the Client pursuant to clause 10.11, provided that the Constructor has taken all reasonable precautions to avoid or reduce such delay, damage or obstruction.
Notification of events	18.4	In respect of each individual Project, the Constructor shall: (i) notify the Client Representative within ten (10) Working Days of the date on which the Constructor becomes aware (or ought reasonably to have been aware) of any of the events described in clause 18.3, together with all evidence and cost information then available to the Constructor and detailed proposals consistent with the Partnering Documents for overcoming such events and minimising their adverse effects on the cost, time for completion and quality of the Project; (ii) implement such proposals (if and to the extent that they are not proposed Changes, in respect of which clause 17 shall apply) unless the Client Representative instructs otherwise within five (5) Working Days from the date of such notification; and (iii) provide such reasonable additional evidence and cost information as the Client Representative may request and/or as shall become available to the Constructor after notification in accordance with clause 18.4(i), and the Client Representative shall respond within twenty (20) Working Days from the date of notification in accordance with clauses 18.4(i) and 18.4(iii) and in its response shall ascertain any fair and reasonable extension of time in accordance with clause 18.3, taking into account the Project Timetable, and shall ascertain any fair and reasonable additional Site Overheads in accordance with clause 18.5 and any other fair and reasonable increase in the Agreed Maximum Price in respect of the Project in accordance with clause 18.6, taking into account the Price Framework. If the Client or the Constructor disputes any such extension of time or increase in the Agreed Maximum Price, it shall notify such dispute under clause 27.1 within twenty (20) Working Days from the date of the Client Representative's response. In the absence of such notice of dispute or pending resolution of any such dispute, the Constructor shall be entitled to any extension of time and any increase in the Agreed Maximum Price in respect of the Project as stated in the Client Representative's response. Where the Constructor fails to notify the Client of any of the events described in clause 18.3 within the time period specified at clause 18.4(i), it shall have no entitlement to any extension to the Date for Completion, any adjustment to the Agreed Maximum Price and/or any other payment whatsoever under this Partnering Contract in relation to the Project, other than in respect of Reimbursable Activities where the provisions of clause 12.3A – 12.3D apply.
Time-based Site Overheads	18.5	Where an event described in clause 18.3, other than an event described in any of clauses 18.3(ii), 18.3(iii), 18.3(v), 18.3(viii), 18.3(ix), 18.3(x) and/or 18.3(xiii) (subject to any agreed adjustment in the relevant Commencement Agreement), gives rise to

		an extension of the Date of Completion in respect of a Project then, in respect of those Site Overheads agreed to be time-based in the Price Framework, proportionate appropriate additional Site Overheads shall be added to the Agreed Maximum Price for that Project.

Termination for Constructor breach	26.4	In the event that: (i) the Constructor, without entitlement under these Partnering Terms, ceases or suspends all or a significant part of the implementation of the Programme and/or any Project or does not commence and continue to fulfil its responsibilities under the Partnering Contract in accordance with the Programme Timetable and/or any specific Project Timetable; (ii) the Constructor fails to comply with an instruction of the Client Representative that is in accordance with the Partnering Documents, following notice from the Client in accordance with clause 5.5; (iii) the Constructor breaches clause 26.2; (iv) the Constructor breaches clause 26.14; (v) the Constructor breaches clause 25.4 so as to adversely affect the interests of the Programme, any Project or any Partnering Team member; (vi) the Client notifies the Constructor that its appointment under this Partnering Contract is terminated pursuant to clause 1.8 (Change of Control Event); (vii) the appointment of the Constructor under the Framework Agreement is terminated; and/or (viii) the Constructor materially breaches or persistently carries out minor breaches of this Project Partnering Agreement, and if the Constructor does not remedy such breach within ten (10) Working Days from the date of the notice from the Client specifying the breach then, after notifying the Core Group of such breach and failure to remedy (and allowing not less than a further ten (10) Working Days from the date of such notification to receive and consider their recommendations), the Client may terminate: (a) the appointment of the Constructor under this Partnering Contract in its entirety, including (at the Client's sole discretion) in respect of every Project in respect of which a Commencement Agreement has been entered into as

		at that date; or (b) the appointment of the Constructor under this Partnering Contract specifically in connection with any Project(s) in respect of which a Commencement Agreement has been entered into as at that date, by further written notice to the Constructor with immediate effect, provided always that the opportunity for the Constructor to remedy the breach giving rise to the Client's entitlement to terminate its appointment shall not apply where the termination relates to one of the circumstances referred to in clause 26.4(vi) or clause 26.4(vii) and any notice of termination by the Client in respect of the same shall take effect immediately without the need for further written notice by the Client. Following termination of the appointment of the Constructor in accordance with this clause 26.4 or by reason of it suffering an event as described in clause 26.2, the Client and the remaining Partnering Team members may complete any Project(s) in respect of which the Constructor's appointment has been so terminated using others and no further payment shall become due to the Constructor in respect of each such Project until the full and final cost of completion of each such Project by others has been ascertained, at which time if such amount, when added to the amounts already paid to the Constructor in respect of the Project(s), exceeds the Price Forecast for the relevant Project(s), then the difference shall be payable to the Client by the Constructor.

Within fifteen (15) Working Days from the date of such termination, or from the date of the Client suffering an event as described in clause 26.2, the Client Representative shall issue to the Constructor (if the Constructor has so terminated its appointment) a valuation pursuant to clause 20.3 or the Client shall issue to a Consultant (if that Consultant has so terminated its appointment) a notice pursuant to clause 20.4, in either case in respect of the total amount properly due up to the date of termination,

4. The Adjudicator shall be appointed and the dispute or difference referred to him/her within seven (7) days following the giving of a notice by any Partnering Team member requiring a dispute or difference to be so referred.
5. The Adjudicator shall reach his/her decision within twenty-eight (28) days of the date of referral, or such longer period as is agreed by the Partnering Team members in dispute after the dispute has been referred. The Adjudicator may extend the period of twenty-eight (28) days by up to fourteen (14) days with the consent of the Partnering Team member who referred the dispute or difference.
6. The Adjudicator shall act impartially and may take the initiative in ascertaining the facts and the law.

7. The Adjudicator may correct his/her decision so as to remove a clerical or typographical error arising by accident or omission within five (5) days of communicating his/her decision to the Partnering Team members in dispute.
8. The Adjudicator's decision shall be binding until the dispute is finally determined by legal proceedings, by arbitration (if the Partnering Contract provides for arbitration or the Partnering Team members otherwise agree to arbitration) or by agreement.
9. The Adjudicator shall be required to give reasons for his or her decision, and clause 24 of the Model Adjudication Procedure shall be treated as amended accordingly.
10. Without prejudice to their rights under the Partnering Contract, the Partnering Team members in dispute shall comply with any decision of the Adjudicator. If any such Partnering Team member fails to do so, then the other one or more Partnering Team members in dispute shall be entitled to take legal proceedings to secure such compliance pending final determination of the difference or dispute, and the term "summary enforcement" in clause 31 of the Model Adjudication Procedure shall be read accordingly.
11. The Adjudicator shall have the power to determine more than one dispute under the Partnering Contract at the same time, and if requested to do so by either Party shall determine any matter raised by such Party in the nature of set-off, abatement or counterclaim at the same time as he determines any other matter referred to it.
