The Charges applicable with effect from the Change Date will be adjusted proportionately or if in the Contracting Authority's and/or the Authority's opinion a proportionate adjustment would not be reasonable in such manner as the Contracting Authority and/or Authority may determine.

- 29.4 On termination of this Agreement and any relevant Call-Off Contract under Clause 28.1 or a cessation of any Services under Clause 28.4 (but in the case of the latter only insofar as the right to cease any Services arises as a result of a right for the Authority to terminate under Clause 28.1), the Authority may enter into any agreement with any third party or parties as the Authority thinks fit to provide any or all of the Services and the Service Provider shall be liable for all additional expenditure reasonably incurred by the Authority in having such services carried out and all other costs and

32. Contract Variation

Save where the Authority may require an amendment to the Services, this Agreement or Call-Off Contract may only be varied or amended with the written agreement of both Parties. The details of any variations or amendments shall be set out in such form as the Authority may dictate and which may be substantially in the form set out in Schedule 7 and shall not be binding upon the Parties unless completed in accordance with such form of variation.

No waiver of any of the provisions of this Agreement or any relevant Call-Off Contract is effective unless it is expressly stated to be a waiver and communicated to the other Party in writing in accordance with the provisions of Clause 36. The single or partial exercise of any right, power or remedy under this Agreement shall not in any circumstances preclude any other or further exercise of it or the exercise of any other such right, power or remedy.

35. Illegality and Severability

If any provision of this Agreement (in whole or in part) is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, such provision shall be severed from this Agreement and the remaining provisions shall continue in full force and effect as if this Agreement had been executed without the invalid, illegal, or unenforceable provision. In the event that in the Authority's reasonable opinion such a provision is so fundamental as to prevent the accomplishment of the purpose of this Agreement, the Authority and the Service Provider shall immediately commence good faith negotiations to remedy such invalidity.

36. Notices

Subject to Clause 36.2, any notice, demand or communication in connection with this Agreement will be in writing and may be delivered by hand, post or facsimile addressed to the recipient at its registered office, the address stated in Schedule 1 or any other address (including a facsimile number) notified to the other party in writing in accordance with this clause as an address to which notices, invoices and other documents may be sent. A highly flexible facility is required which is required for three years with the option to extend for a further year (3+1). The requirement covers up to 16,000 sq ft of storage capacity for TfL, British Transport Police Authority and the whole of the GLA. The requirement will be operated with one supplier.

Specification requirement:

- 1) **CAPACITY:** The provision of a warehouse facility with a storage capacity of up to 16,000 sq ft for the storage of office furniture and related products on behalf of TfL and BPTA located in London. A highly flexible facility is required to match the fluctuating levels in stock in support of future accommodation strategies and changes within the TfL and BTPA portfolios. No penalties for expansion or contraction in stock quantities, and maximum threshold, or contractual obligations based on quantity.
- 2) **LOCATION:** The site and location of the warehouse needs to be strategically sited in order to be readily accessible to meet the needs of TfL Commercial. Facilities Operations, Projects & Accommodation and British Transport Police Authority. A highly flexible facility is required to support TfL and BTPA nominated relocation and installation contractors (within 60 minutes of central London). The service is required to support and provide a quick response to TfL's, BTPA and the GLA's London based portfolio of properties.
- 3) **INVENTORY:** A full electronic inventory system will be in operation to record goods in and out; this detailed stock control system should be continuously updated and should be able to be viewed on line by TfL, BTPA and their nominated external contractors. Systems and equipment should also be in place to call off, to load / off load product to and from third party vehicles. The store should provide a service and access to nominated contractors (up to 5 independent operators) undertaking works on behalf of TfL and BTPA. Deliveries for TfL and BTPA should be itemised, checked and stored in accordance with agreed terms.
- 4) **STOCK:** The TfL and BTPA furniture store is primarily needed to support and hold product on behalf of TfL Commercial. Facilities Operations, Projects & Accommodation and British Transport Police Authority move teams. The stock is generally broken down into the following areas;

- Legacy churn stock - approx. (100-200) workstations, wave desks and associated screens, pedestals and electrics. This will predominantly be made up of Paragon (Solo), Asher (Origin), Oep Steelcase (Tenaro). Some of these systems are either redundant, no longer trading or unsupported by live contracts.
- Current specification furniture stock, Steelcase (Tenaro) and Sedus (Temptation).
- Storage – predominantly a mixture of steel Bisley and Steelcase cupboards and internals

ENVIRONMENTAL STANDARDS

VEHICLE EMISSIONS

GLA Low Emission Zone (LEZ) operates to encourage the most polluting heavy diesel vehicles driving in London to become cleaner. The LEZ covers most of Greater London and operates 24 hours a day, every day of the year, including weekends and public and Bank Holidays.

Charging days run from midnight to midnight. So if you were to drive within the LEZ between 23:30 and 01:00 the next day, you'd need to pay for two days.

There are no barriers or toll booths within the LEZ. Instead, cameras will read your number plate as you drive within the LEZ and check it against our database of registered vehicles.

This database is compiled using information from the Driver and Vehicle Licensing Agency (DVLA), the Driver and Vehicles Standards Agency (DVSA - formerly VOSA), generic vehicle weight data typical of the make and model, and drivers and operators who have registered with us.

This tells us automatically whether your vehicle meets the LEZ emissions standards, is exempt, is registered for a discount, or if you've already paid the daily charge.

For further details, please utilise the following web-link:

- 1.1 About the LEZ and are maps link: <http://www.tfl.gov.uk/modes/driving/low-emission-zone/about-the-lez>

CONGESTION CHARGING

The removal company must ensure that when delivering in a Congestion Charging area, the daily charge is paid within the timescale provided. TfL will not pay for and will not be held responsible for any unpaid charges incurred.

The Congestion Charge applies 07:00-18:00 Monday to Friday, excluding public and Bank Holidays. If you drive within the charging zone during these times you will have to pay the Congestion Charge, even if you meet the LEZ emissions standards and have paid the LEZ daily charge.

There is no charge on weekends, public holidays, between Christmas Day and New Year's Day inclusive, or between 18:00 and 07:00 on weekdays.

For further details, please utilise the following web-link:

<http://www.tfl.gov.uk/modes/driving/congestion-charge/congestion-charge-zone>

LOADING & UNLOADING

Maximise use of legal loading areas (i.e. traffic regulations). Optimisation plan to identify best locations and if not possible then they should apply for dispensation from Surface Enforcement and On-street Operations (TfL) if on red route or from appropriate Borough officer on other roads.

TRADE ORGANISATION

Membership of an accredited trade organisation like BAR (British Association of Removers) or similar and adherence to their code of practice would be favourable.

TRANSPORT FOR LONDON (TFL) FREIGHT OPERATOR RECOGNITION SCHEME

TfL Work Related Road Risk (WRRR) contractual clauses

Transport for London (TfL) aims to promote safe, sustainable freight activity within TfL's supply chain and in vehicle movements to, from and within London.

Since February 2012, all new TfL contracts have included WRRR requirements. Each requirement aims to reduce the risk of a collision with a cyclist or other vulnerable road user. The requirements are informed by the work of TfL, industry and regulatory and enforcement bodies in the area of commercial vehicle and vulnerable road user safety over a number of years.

Framework suppliers are required to complete the attached attached in the appendix Work Related Road Risk (WRRR) contractual requirement self-certification. In line with obligations under Transport for London (including London Underground) contract works instruction on Work Related Road Risk, the contractor should declare that all vehicles and drivers delivering to, collecting from and servicing TfL projects, premises or sites.

- 1.1 Please complete WRRR Appendix.. This question will be scored as a pass or fail Fleet Operator Recognition Scheme (FORS).

Launched in 2008, FORS is an accreditation scheme that aims to raise the level of quality in fleet operations, and encourage safer, more efficient and environmentally sound operations. To become accredited, operators must meet clearly defined requirements in terms of their management, vehicles, drivers and operations. Operators first register with the scheme, with accreditation awarded as a result of an on-site FORS audit, carried out annually.

The first WRRR requirement is for all framework suppliers to have a minimum FORS status of Bronze. This is included to ensure operators are meeting a common baseline level of compliance against all regulatory requirements relevant to transport operations.

FORS operators are encouraged to progress through the scheme to achieve Gold level accreditation.

Information on FORS is available at <http://www.fors-online.org.uk>

- 1.2 Suppliers who are only FORS registered at this stage. Please indicate your company's commitment to reach the revised FORS accreditation status by 31st March 2015. This commitment question will be scored as a pass or fail.

Framework supplier shall ensure that each of its sub-contractors who operate freight vehicles on TfL contracts shall comply with the WRRR safety clauses as if those subcontractors were a party to the contract. Where the supplier does not operate its own vehicles, but sub-contracts its freight fleet operations, they shall provide the name of the company and FORS ID(s) of the operators

on this form, and request the information required for this form from their sub-contractors. Work Related Road Risk requirements in FORS Section 1.4

- 1.3 Please provide evidence that your third party sub-contractors if any, are FORS accredited status bronze, silver or gold. This question will be scored as a pass or fail.

FORS is a progressive scheme with three levels providing distinction between operators reaching different levels of standards in operations. The first level is bronze, with higher standards required for silver and then gold. To progress an operator must meet all the requirements of lower awards.

As a progressive scheme, FORS standards change as a result of particular issues on London's roads and other developments. The most recent revised standards were issued in July 2014.

The focus on the revised standards is to improve vulnerable road user safety and to align with existing WRRR standards, including the TfL WRRR requirements. The amended FORS standards assist operators in complying with these requirements.

There is a transition period for these changes to come into effect and operators with existing accreditation are not required to meet the revised standards retrospectively, but on their annual re-approval audit. The transition dates are as follows:

- Operators registered with FORS prior to 9 July 2014 and audited up to the 13 October 2014 will be subject to the existing FORS standards.
- Operators registered with FORS after 9 July 2014 will be required to meet the revised FORS standards.
- All FORS existing accredited operators will have met the revised standards of Silver by 14th October 2015.

Operators accredited to the revised FORS silver requirements will be meeting all of TfL's WRRR requirements, providing drivers undertake the Safe Urban Driving CPC module as part of the FORS training requirement.

FORS accredited operators can take advantage of offers including free 'Safe Urban Driving' training and Practitioner Workshops for managers, as well as discounts on driver licence checks and close proximity blind spot safety equipment.

- 1.4 Existing FORS members please indicate if you able to reach the required FORS accreditation standard silver by 31st December 2014. This question will be scored as a pass or fail.

PARKING PERMITS

If required, is the responsibility of the removal/recycling company

PARKING FINES

TfL will not pay for any parking fines received by the supplier during deliveries and installations within TfL Head Office, British Transport Police Authority and the whole of the GLA. However in certain instances, this may be unavoidable due to the location site. TfL require prior agreement if it is envisaged a parking ticket will be given.

EVENTS

The supplier must ensure that they are aware of any events that may take place causing disruption to deliveries. In the event of any road closures, alternative routes must be devised or agreements must be made with the local authority, as TfL will not accept this as an excuse for late or postponed deliveries.

Useful link: www.tfl.gov.uk/plan-a-journey/

DELIVERIES

Wherever possible, the supplier should ensure that the size of the vehicle used should be compatible with the items to be delivered in order to be more economical.

CRATE DELIVERY REMOVAL

Suppliers must ensure that sufficient numbers of crates are delivered to the site being vacated; and all empty crates are removed from site as soon as possible from the new location. Please liaise with TfL and BTPA moves teams to agree delivery and collection dates and times.

The Mayor encourages London employers to pay staff the London Living Wage. Londoners face far higher living costs than people living in other regions, especially for housing and childcare. The Living Wage goes some way to reflecting this. The wage is an hourly rate of pay, calculated according to a combination of the costs of living in London and 60% of the median wage. This gives the wage rate needed to give a worker in London enough to provide their family with the essentials of life, including a cushion against unforeseen events.

In November 2013, the London Living Wage was set at £8.80 for the coming year.

For more detail on how the London Living Wage is calculated and information on accredited employers read [A Fairer London: The 2013 Living Wage in London](#).
