9. Background

9.1. The fourth phase of PFMRP, which commenced in 2012, seeks to improve GoT's PFM capacity in the following areas: i) Revenue Management; ii) Budgeting and Planning; iii) Budget Execution, Transparency and Accountability iv) Budget Control and Oversight. In this context, it is equally important that reforms in central public financial management systems are complemented by PFM reforms at the local level; and there is strong justification for supporting PFM reforms for better local government financial management.

9.2. Although GoT's efforts in improving PFM have resulted in several significant improvements in LGA capacity on financial management, there are significant weaknesses across different areas in the PFM cycle at the local level which impede quality of financial management and service delivery. DFID is keen to support GoT in enabling strengthening of PFM systems at the local level and this sub-programme, under the aegis of PFMRPIV is designed to support PFM reforms at the regional and local level, through a combination of direct financial assistance and external technical assistance.

9.3. The Results, Milestone and Activities Matrix for the sub-programme has three outputs:

- a. Improved Resource Allocation, Planning & Budgeting in LGAs
- b. Strengthened budget execution and financial reporting by LGAs
- c. Improved oversight and financial accountability in LGAs.
