F3.2 Without prejudice to its right under clause C3 (Recovery of Sums Due), the Authority may charge the Contractor for any costs reasonably incurred and any reasonable administration costs in respect of the supply of any part of the Services by the Authority or a third party to the extent that such costs exceed the payment which would otherwise have been payable to the Contractor for such part of the Services.

F3.3 If the Authority reasonably believes the Contractor has failed to supply all or any part of the Services in accordance with the Contract, professional or industry practice which could reasonably be expected of a competent and suitably qualified person, or any legislative or regulatory requirement, the Authority may give the Contractor notice specifying the way in which its performance falls short of the requirements of the Contract or is otherwise unsatisfactory.

F3.4 If the Contractor has been notified of a failure in accordance with clause F3.3 the Authority may:

- (a) direct the Contractor to identify and remedy the failure within such time as may be specified by the Authority and to apply all such additional resources as are necessary to remedy that failure at no additional charge to the Authority within the specified timescale; and/or

Sub-contracting any part of the Contract shall not relieve the Contractor of any of its obligations or duties under the Contract.
- F4.2 The Contractor shall be responsible for the acts and/or omissions of its Sub-Contractors as though they are its own. If it is appropriate, the Contractor shall provide each Sub-Contractor with a copy of the Contract and obtain written confirmation from them that they will provide the Services fully in accordance with the Contract.
- F4.3 The Contractor shall ensure that its Sub-Contractors and suppliers retain all records relating to the Services for at least 6 years from the date of their creation and make them available to the Authority on request in accordance with the provisions of clause E9 (Audit). If any Sub-Contractor or supplier does not allow the Authority access to the records then the Authority shall have no obligation to pay any claim or invoice made by the Contractor on the basis of such documents or work carried out by the Sub-Contractor or supplier.
- F4.4 If the Authority has consented to the award of a Sub-Contract, the Contractor shall ensure that:

- F4.11 Any change in the legal status of the Authority such that it ceases to be a Contracting Authority shall not, subject to clause F4.12, affect the validity of the Contract and the Contract shall bind and inure to the benefit of any successor body to the Authority.
- F4.12 If the rights and obligations under the Contract are assigned, novated or otherwise disposed of pursuant to clause F4.10 to a body which is not a Contracting Authority or if there is a change in the legal status of the Authority such that it ceases to be a Contracting Authority (in the remainder of this clause both such bodies being referred to as the **"Transferee"**):
- (a) the rights of termination of the Authority in clauses H1 and H2 shall be available to the Contractor in respect of the Transferee; and
 - (b) the Transferee shall only be able to assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof with the prior consent in writing of the Contractor.
- F4.13 The Authority may disclose to any Transferee any Confidential Information of the Contractor which relates to the performance of the Contractor's obligations under the Contract. In such circumstances the Authority shall authorise the Transferee to use such Confidential Information only for purposes relating to the performance of the Contractor's obligations under the Contract and for no other purpose and shall take all reasonable steps to ensure that the Transferee gives a confidentiality undertaking in relation to such Confidential Information.
- F4.14 Each Party shall at its own cost and expense carry out, or use all reasonable endeavours to ensure the carrying out of, whatever further actions (including the execution of further documents) the other Party reasonably requires from time to time for the purpose of giving that other Party the full benefit of the provisions of the Contract.

F5 Waiver

- F5.1 The failure of either Party to insist upon strict performance of any provision of the Contract, or the failure of either Party to exercise, or any delay in exercising, any right or remedy shall not constitute a waiver of that right or remedy and shall not cause a diminution of the obligations established by the Contract.
- F5.2 No waiver shall be effective unless it is expressly stated to be a waiver and communicated to the other Party in writing in accordance with clause A4 (Notices and Communications).
- F5.3 A waiver of any right or remedy arising from a breach of the Contract shall not constitute a waiver of any right or remedy arising from any other or subsequent breach of the Contract.

F6 Variation

- F6.1 If, after the Commencement Date, the Authority's requirements change, the Authority may request a Variation subject to the terms of this clause 6.
- F6.2 The Authority may request a Variation by notifying the Contractor in writing of the Variation and giving the Contractor sufficient information to assess the extent of the Variation and consider whether any change to the Price is required in order to implement the Variation within a reasonable time limit specified by the Authority. If the Contractor accepts the Variation it shall confirm it in writing.
- F6.3 If the Contractor is unable to accept the Variation or where the Parties are unable to agree a change to the Price, the Authority may:
- (a) allow the Contractor to fulfil its obligations under the Contract without the Variation to the Specification; or
 - (b) terminate the Contract immediately except where the Contractor has already delivered all or part of the Services or where the Contractor can show evidence of substantial work being carried out to fulfil the requirements of the Specification; and in such case the Parties shall attempt to agree upon a resolution to the matter. If a resolution cannot be reached, the matter shall be dealt with under the Dispute Resolution procedure detailed in clause I2 (Dispute Resolution).

- F6.6 The provisions of clauses F6.4 and F6.5 may be varied in an emergency if it is not practicable to obtain the Authorised Representative's approval within the time necessary to make the Variation in order to address the emergency. In an emergency, Variations may be approved by a different representative of the Authority. However, the Authorised Representative shall have the right to review such a Variation and require a CCN to be entered into on a retrospective basis which may itself vary the emergency Variation.

F7 Severability

- F7.1 If any provision of the Contract which is not of a fundamental nature is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, such provision shall be severed and the remainder of the provisions of the Contract shall continue in full force

and effect as if the Contract had been executed with the invalid, illegal or unenforceable provision eliminated.

F8 Remedies Cumulative

- F8.1 Except as expressly provided in the Contract all remedies available to either Party for breach of the Contract are cumulative and may be exercised concurrently or separately, and the exercise of any one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.

F9 Entire Agreement

- F9.1 The Contract constitutes the entire agreement between the Parties in respect of the matters dealt with therein. The Contract supersedes all prior negotiations between the Parties and all representations and undertakings made by one Party to the other, whether written or oral, except that this clause shall not exclude liability in respect of any fraudulent misrepresentation.

SCHEDULE 1 - SPECIFICATION

Current legislation requires that classified shellfish production areas are monitored for microbiological contamination, marine biotoxins, harmful algae and chemical contamination. This forms part of an official control monitoring programme. In Scotland, Food Standards Scotland (FSS) is the competent authority with responsibility for the implementation and delivery of the Scottish shellfish official control (OC) monitoring programme.

Cefas is the laboratory designated by FSS to provide a completely managed, high quality service for the provision of this programme across Scotland. Services delegated to Cefas include co-ordinating the programme, arranging the collection of samples and delivering the required testing, and this in line with relevant national legislation as well as FSS policies and protocols.

This opportunity is to appoint a suitable organisation to deliver the water monitoring element of this programme, testing samples to assess concentrations of harmful algae in Scottish classified shellfish production areas, within the context of the FSS OC monitoring programme.

The Contractor will be required to be accredited to ISO17025 standard for the required analyses and must be able to demonstrate compliance against these standards. This will include experience of delivering such analyses within a routine monitoring environment (not research).

ANNEX A

Guidance for annual volumes of Phytoplankton testing:

2023/24	Sample Number (indicative volume)
Phytoplankton analysis	1312

FSS/Cefas has the right to increase or decrease the number of samples being collected and submitted for phytoplankton analysis as a result of change in regulatory requirements, change to FSS policies or risk assessments, or on the basis of information relevant to harvesting patterns in any given area.

ANNEX B

FSS policies and protocols relevant to this Schedule:

- Sampling points and frequency of testing will be confirmed during the transition period.
- Electronic reporting formats and distribution list will be agreed during the transition period
- Results must be reported to the designated contacts (see Annex D for details).
- Water samples are to be taken, this should be on the same day or week as the flesh samples and where possible on day/week where flesh samples are collected for all 3 toxin tests (when toxin testing frequency is less than weekly).

Phytoplankton monitoring frequencies:

Monitoring frequency is currently set as follows:

- weekly sampling for all sites between March and September;
- fortnightly sampling in October
- Monthly sampling from November to February in a limited number of selected areas (for indicative purposes, these are 8 areas in 2022/23), to reflect the low abundance of phytoplankton in the water column during the winter months.

Phytoplankton species to be monitored and specified trigger levels:

The breach of the phytoplankton trigger levels shown below does not trigger additional phytoplankton monitoring. Water sampling remains at the predefined frequency.

Phytoplankton species	Phytoplankton trigger level (in cells/litre)
<i>Pseudo-nitzschia spp.</i>	50,000
<i>Alexandrium spp.</i>	40
<i>Dinophysis spp.</i>	100
<i>Prorocentrum lima</i>	100
<i>Prorocentrum cordatum</i>	no trigger
<i>Lingulodinium polyedrum</i>	no trigger
<i>Protoceratium reticulatum</i>	no trigger

Legal framework:

Based on Retained Regulation (EU) No 2019/627, Title V, Chapter II, Article 59 paragraph (c) and Article 61 paragraphs 3 and 7:

Art. 51. The competent authorities shall periodically monitor production and relaying areas classified in accordance with Article 18(6) of Regulation (EU) 2017/625 in order to check:

(c) for the presence of toxin-producing plankton in production and relaying waters and marine biotoxins in live bivalve molluscs;

Art 61.

3. Sampling plans to check for the presence of toxin-producing plankton in the water in classified production and relaying areas and for marine biotoxins in live bivalve molluscs shall take particular account of possible variations in the presence of plankton containing marine biotoxins. Sampling shall comprise:

(a) periodic sampling to detect changes in the composition of plankton containing toxins and their geographical distribution. Results suggesting an accumulation of toxins in live bivalve mollusc flesh shall be followed by intensive sampling;

(b) periodic toxicity tests using live bivalve molluscs from the affected area most susceptible to contamination.

7. With regard to the monitoring of plankton, the samples shall be representative of the water column in the classified production or relaying area and provide information on the presence of toxic species and on population trends. If any changes in toxic populations that may lead to toxin accumulation are detected, the sampling frequency for live bivalve molluscs shall be increased or precautionary closures of the areas established until results of toxin analysis are obtained.

ANNEX C

The Contractor is expected to deliver the service in compliance with UKNRL SOPs, the latest versions of which are available at the following links:

5. Report all available official control results by 17:00 daily (Monday to Friday, with the exception of bank holidays, privilege days and a two weeks period around Christmas).
6. If reporting results after 17:00 on a weekday:
 - As early as possible during the day, phone FSS to advise that it is likely that results will be reported after 17:00 followed by email to confirm and advise of the reason for the delay.
 - After 17:00: Email full daily results to distribution list agreed with FSS (note: no requirement to copy Incident team).

8. From 01 April 2023, it is FSS' intention that SHS2 will be replaced by the FSS Shellfish Monitoring & Classification (SMC) system which is currently under development. The implementation date will be notified by Cefas. From implementation, report all sample rejection and results electronically on the SMC system. The SMC system will issue automated notification of trigger breach and therefore reporting by phone or email of such results will no longer be required. Notification of additional sample requirements (in case of rejected sample) will continue to be required from the Contractor. Full training and user instructions will be given prior to implementation.
9. Notify Cefas by 16:00 on Friday of any sample received on Friday which is held over for analysis on Monday.

will advise Cefas of the reasons for the delay.

12. The Contractor is authorised to keep a copy of all results of the FSS' monitoring programme. This information will be used to provide information as necessary, compile reports or reviews, or to answer ad hoc enquiries about results and to support sampling and testing co-ordination.
13. The Contractor will report the improvements identified and implemented within the course of the contract in advance of each review meeting.
14. Requirements for performance reporting:
 - a. Monthly, and in advance of each review meeting, provide a monthly summary of:

 - iii. The number of samples rejected each month by local authority, reasons why and contractor responsible for sample collection. The report will show the total number of samples and differentiate between samples which are assessed as unsuitable for analysis and samples which are rejected because they have been submitted by mistake and do not require testing.
 - iv. Performance for each month against the performance criteria specified in this Schedule.
 - b. The report shall be provided to the agreed deadline and using a template supplied by Cefas
15. Cefas will be copied in all correspondence with FSS relating to the delivery of this Schedule.
