Call-Off Schedule 20 (Call-Off Specification)

This Schedule sets out the characteristics of the Deliverables that the Supplier will be required to make to the Buyers under this Call-Off Contract

1. PURPOSE

- 1.1 Natural England (NE) have issued new guidance to all public authorities listed as section 28G bodies in the Wildlife & Countryside Act about when to submit SSSI assent applications in England. It is a statutory requirement for all Section 28G authorities to submit an SSSI assent notice to Natural England when undertaking activities that could/will disturb or damage the features of a SSSI. The new guidance came into force in England on 17th June 2024. A copy of the guidance is attached in Appendix A.
- 1.2 The guidance states that following a review of NE protected sites casework delivery they are making changes to the way they handle notices for SSSI assent from 17 June 2024. The purpose of these changes is to ensure that both Natural England and public bodies are following their responsibilities as set out within the legislation. The changes affect those acting on behalf of a public body to which section 28G of the Wildlife and Countryside Act (as amended) applies.
- 1.3 Natural England highlighted four specific areas where this guidance applies;
 - Please screen your proposed activities. You are only required to submit assent notices where you consider that the activities would be likely to disturb or damage the special features of a SSSI.
 - You must carry out a Habitats Regulations Assessment (HRA) when you are planning to undertake or approve activities on or near a SSSI that is also designated as a protected European site.
 - Where we consider there to be insufficient information in your assent notice to make a full assessment, we may ask you for more information using a standard letter, or request that you withdraw your notice.
 - If you provide notice for consent instead of assent, we may write to you requesting that you withdraw your consent notice.

2. BACKGROUND

- 2.1 The defence estate includes almost 70,000 ha of SSSI in England. Defence Infrastructure Organisation and contractors operating on behalf of MOD routinely submit SSSI assent notices to NE and Natural Resources Wales prior to undertaking activities within SSSIs across England and Wales. NE believes that public authorities are not exercising their duty to screen activities within SSSIs before assent notices are submitted and they want to ensure only activities with potential to disturb or damage a SSSI feature are subject to an assent notice.
- 2.2 DIO Ecologists already provide advice and guidance to customers and contractors about the requirement for SSSI assent notices and in some instances, they are informally screening activities before a formal notice is submitted. However, this is not delivered as a formal statutory function and there is currently no clear

Framework Schedule 6 (Order Form Template and Call-Off Schedules)

Crown Copyright 2022

policy, guidance, process or standard relating to SSSI assent screening. This new guidance from NE places a responsibility on MOD as a public authority to establish a clear, robust and transparent process for doing this, as well as keeping a record of any screening decisions.

3. THE REQUIREMENT

- 3.1 DIO is putting in place a new process and internal guidance to ensure it fulfils its duties as a s28G body to screen SSSI assent notices for activities it is undertaking and possibly for activities that it is licencing third parties to undertake on the defence estate. In screening these activities DIO must also have regard to its duties to European sites and make a record of any HRA undertaken when making a SSSI assent screening decision. DIO requires legal advice to ensure any new process is robust and legally compliant. In its guidance NE advises public authorities to seek advice from their own legal teams when considering how to implement the new guidance.
- 3.2 So far DIO has developed a draft process for contractors to follow when deciding whether a SSSI assent screening application is required for a specific activity. It has also developed a standard screening response letter.
- 3.3 Clarification and guidance is needed on the following and any other areas not listed here that are deemed relevant to establishing a new SSSI assents screening process for MOD:
 - The legal requirement for DIO to undertake SSSI assent screening for activities it is undertaking.
 - The legal requirement for DIO to undertake SSSI assent screening for activities it is licencing third parties to undertake on MOD land (e.g. filming or sporting activities).
 - The procedure that should be followed for third parties undertaking works on SSSIs on MOD land. Does the third party need to apply for SSSI consent? - advice on the UK Gov website suggests that third parties do not require SSSI consent if they are in receipt of permission from a Section 28G authority, however, that Section 28G authority must have consulted NE. Do we need a separate process (and templates) for third party activity screening and consultation with NE? Would issue of licences constitute 'granting permission' for the purposes of the law?
 - When can/should DIO rely on NE/NRW to consider SSSI assent notices?
 - What is the role of SSSI ORNECs / OLDs lists in SSSI assent screening or SSSI assent notices?
 - What is the role of the SSSI Impact Risk Zones in the assent screening process?
 - A definition of disturbance or damage of SSSI features?
 - How to incorporate Habitat Regulations Assessment into any new SSSI assent screening process.

Framework Schedule 6 (Order Form Template and Call-Off Schedules)

Crown Copyright 2022

- A review of DIO process maps and documents written so far, including the standard screening response letter.
- How should SSSI assent screening decisions be recorded and how long should these be retained as a record?
- What happens where there is a difference in opinion between DIO ecologists and Natural England as to whether a specific activity has/ would disturb or damage a SSSI? In these circumstances, what is the legal risk to DIO?

4. KEY DELIVERABLES

- 4.1 Provide a Legal Advice Note outlining the legal context for S28G public authority SSSI assent notices and recommended approach for establishing a SSSI assent screening process.
- 4.2 Provide guidance in the Advice Note about standard templates for responding to SSSI assent screening requests and recording decision, including when to undertake a HRA.

5. REPORTING

- 5.1 The Contractor will be expected to attend a start-up meeting to discuss the requirement with DIO SMEs in detail to ensure the scope of the Advice Note is appropriate and targeted.
- 5.2 The Contractor must issue a programme in week 1 to determine a timetable for delivering a draft report for consultation and a final report. Due to the relatively low value of the contract no milestones are included.
- 5.3 The contractor must issue a draft report for comment by DIO SMEs and allow ten working days for a response. A final report should be issued within ten working days of comments being received from DIO unless agreed otherwise.
- 5.4 The contractor should allow for a meeting with DIO SMEs to discuss either the draft or final Advice Note in detail and allow opportunities for questioning and clarifications.

6. PRICE

- 6.1 The total cost of undertaking this work will not exceed **£10,000** exc recoverable VAT
- 6.2 Spend will fall in FY 2024/25
- 6.3 Payment by CP&F

The Supplier shall ensure that each of the Insurances is effective no later than:
 - 1.1.1 the Framework Start Date in respect of those Insurances set out in the Annex to this Schedule and those required by applicable Law; and
 - 1.1.2 the Call-Off Contract Effective Date in respect of the Additional Insurances.
- 1.2 The Insurances shall be:
 - 1.2.1 maintained in accordance with Good Industry Practice;
 - 1.2.2 (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent contractor in respect of risks insured in the international insurance market from time to time;
 - 1.2.3 taken out and maintained with insurers of good financial standing and good repute in the international insurance market; and
 - 1.2.4 maintained for at least six (6) years after the End Date.

- 1.4 The terms of any insurance or the amount of cover shall not relieve the Supplier of any liabilities arising under the Contract.

2. How to manage the insurance

- 2.1 Without limiting the other provisions of this Contract, the Supplier shall:
 - 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to Deliverables as it would be reasonable to expect of a prudent contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;

3. What happens if you aren't insured

- 3.1 The Supplier shall not take any action or fail to take any action or (insofar as is reasonably within its power) permit anything to occur in relation to it which would entitle any insurer to refuse to pay any claim under any of the Insurances.
- 3.2 Where the Supplier has failed to purchase or maintain any of the Insurances in full force and effect, the Relevant Authority may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances and recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

4. Evidence of insurance you must provide

- 4.1 The Supplier shall upon the Start Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to the Relevant Authority, that the Insurances are in force and effect and meet in full the requirements of this Schedule.

5. Making sure you are insured to the required amount

- 5.1 The Supplier shall ensure that any Insurances which are stated to have a minimum limit "in the aggregate" are maintained at all times for the minimum limit of indemnity specified in this Contract and if any claims are made which do not relate to this Contract then the Supplier shall notify the Relevant Authority and provide details of its proposed solution for maintaining the minimum limit of indemnity.

- 6.2 The Supplier shall ensure that nothing is done which would entitle the relevant insurer to cancel, rescind or suspend any insurance or cover, or to treat any insurance, cover or claim as voided in whole or part. The Supplier shall use all reasonable endeavours to notify the Relevant Authority (subject to third party confidentiality obligations) as soon as practicable when it becomes aware of any relevant fact, circumstance or matter which has caused, or is reasonably likely to provide grounds to, the relevant insurer to give notice to cancel, rescind, suspend or void any insurance, or any cover or claim under any insurance in whole or in part.

7. Insurance claims

- 7.1 The Supplier shall promptly notify to insurers any matter arising from, or in relation to, the Deliverables, or each Contract for which it may be entitled to claim under any of the Insurances. - 7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.
- 7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible.
