## eSourcing Portal User Guide

Version 1.9

(8<sup>th</sup> February 2017)

These instructions have been produced to assist suppliers using the electronic sourcing platform. The County Council reserve the right to to update and re-issue the instructions with no prior notification to suppliers. Please note that the instructions are as accurate as possible and the County Council accepts no responsibility where the instructions differ from changes in the platform functionality.

This site operates best using Internet Explorer (versions 9 and above), or the latest versions of Safari, Firefox and Chrome. A screen resolution of 1024 x 768 or above is recommended.

For any urgent technical issues or forgotten passwords please use either the 'Contact Us' facility on the homepage or call Proactis direct on 0330 0050352

It is important that you call Proactis with any issues encountered submitting tenders, especially if you leave uploading until the last day. (not recommended)

## Staffordshire County Council E-Tendering Portal User Guide

## Important Information - Points to remember

- It is the supplier's responsibility to ensure that a copy of ALL documentation is retained by the supplier prior to any submission.
- The supplier is required to download this document (and any other) from the portal to a secure location on their own server / computer drive. From this location the supplier is then able to populate and save the questionnaire as requested.
- Please ensure no individual attachment is greater than **10MB** in file/memory size.
- It is recommended that all submissions are PDF formatted prior to submission.
- Ensure that no uploaded portal attachments possess any software virus that prevents the County Council opening the documents post-deadline. Ensure also that any software media / file types used are commonplace to the County Council and that file types are not corrupt when uploaded. It is always recommended to present documents in a PDF format to avoid such issues. The County Council reserves the right to disqualify any tender submission which cannot be opened (for the reasons discussed) post-deadline.
- **NOTE** It is the suppliers' responsibility to maintain an 'active' tender account throughout the process. Accounts tend to become inactive if a supplier mistakenly keys-in an incorrect password several times. It is not the responsibility of the Council to monitor the status of tenderer accounts. Please note for suppliers' who are subsidiaries or franchises of an organisation you will need to have your own email account and register for a password unique to your organisation.
- Please be aware that any tender communications may not be available to view if an account is inactive. In the first instance, please contact the Buyer direct to get the account re-instated. It is required that the supplier regularly checks the status of their tender accounts during a procurement. The Council is not responsible for any missed communications (or the consequences) due to inactive accounts or periods where suppliers take annual leave etc.
- It is the suppliers responsibility to update the eTendering portal with any changes in its staffing
- All returns <u>must</u> be made via the portal only and within the stated timescales.
- Suppliers are required to submit all clarification questions which arise during the Procurement period **in writing using the eTendering portal only**
- Suppliers who decide that they do not wish to apply for an opportunity once they have registered an interest can decline the opportunity. This makes the supplier "inactive" on the opportunity and you will no longer receive dialgoues or alerts for that opportunity.

## 1. Supplier Self Registration

The portal can be found at <a href="https://www.proactisplaza.com/">https://www.proactisplaza.com/</a>

Click 'Sign  $U_p$ ' and populate all the fields including the Organisation ID which is created by the user. All fields with an asterix (\*) are mandatory.

Failure to select both "attach" and "upload" for each document will result in documents not being submitted. Please note the submit button will still function irrespective of whether documents are attached or not.

All uploaded files will then be listed below the "Uploaded Files" section. A file will have only been successful if it highlights green and populates under this section.

If after you have selected the "Upload Files" button and your document gets a red bar across the document name then this file has **<u>NOT</u>** uploaded and therefore it will not have been uploaded or submitted.

Suppliers will have to try variations in re-uploading this – files size, file type, length of file name etc. as there is a problem with the document. Normally the error occurs due to the file name being too long.

**Please Note:** The Proactis system does not allow you to directly upload macro-enabled Excel documents, i.e. those files which have an extension .XLSM. Should you need to do this then please ZIP the Excel file, which the system will then readily accept.
