2. How to manage the insurance

2.1 Without limiting the other provisions of this Contract, the Supplier shall:

The Supplier shall use all reasonable endeavours to notify the Relevant Authority (subject to third party confidentiality obligations) as soon as practicable when it becomes aware of any relevant fact, circumstance or matter which has caused, or is reasonably likely to provide grounds to, the relevant insurer to give notice to cancel, rescind, suspend or void any insurance, or any cover or claim under any insurance in whole or in part.

- 11.2 Such Broadly Comparable pension scheme must be:
- 11.2.1 established by the date of cessation of participation in the Statutory Scheme;

- the Actuary to the relevant Statutory Scheme and to provide all such co-operation and assistance with any other Actuary appointed by the Buyer (where applicable). The Supplier must ensure that day for day and/or pound for pound (as applicable) (or actuarially equivalent where there are benefit differences between the two schemes) credits in the Broadly Comparable pension scheme are provided in respect of any Fair Deal Employee who consents to such a transfer from the Statutory Scheme and the Supplier shall be fully responsible for any costs of providing those credits in excess of the bulk transfer payment received by the Broadly Comparable pension scheme; and

The bulk transfer terms provided shall be sufficient to secure day for day and/or pound for pound credits (as applicable) (or actuarially equivalent where there are benefit differences between the two schemes) in the Replacement Supplier's Broadly Comparable pension scheme (or relevant Statutory Scheme if applicable). For the avoidance of doubt, should the amount offered by the Broadly Comparable pension scheme be less than the amount required by the Replacement Supplier's Broadly Comparable pension scheme (or the relevant Statutory Scheme if applicable) to fund the required credits ("**the Shortfall**"), the Supplier or the Subcontractor (as agreed between them) must pay the Replacement Supplier's Broadly Comparable pension scheme (or relevant Statutory Scheme if applicable) the Shortfall as required, provided that in the absence of any agreement between the Supplier and any Subcontractor, the Shortfall shall be paid by the Supplier. The Supplier shall indemnify the Buyer or the Replacement Supplier's Broadly Comparable pension scheme (or

the relevant Statutory Scheme if applicable) (as the Buyer directs) for any failure to pay the Shortfall under this paragraph.

1. Introduction The purpose of this study is to investigate the impact of social media on the mental health of teenagers. The research aims to explore the relationship between social media usage and various mental health outcomes, including anxiety, depression, and self-esteem.	2. Methodology The study employed a quantitative research design, utilizing a survey of 500 teenagers aged 13-18. Data was collected through an online questionnaire that assessed social media usage patterns and mental health symptoms.	3. Results The findings indicate a positive correlation between increased social media usage and higher levels of anxiety and depression. Specifically, teenagers who spent more than three hours per day on social media reported significantly higher scores on anxiety and depression scales compared to those who used social media for less than an hour.
4. Conclusion The study concludes that excessive social media use is associated with increased mental health risks for teenagers. It is recommended that parents and educators monitor and limit social media usage to promote better mental health outcomes.	5. References Smith, J. (2018). - 2.2 The Supplier acknowledges that any Service Level Failure shall entitle the Buyer to the rights set out in Part A of this Schedule including the right to any Service Credits and that any Service Credit is a price adjustment and not an estimate of the Loss that may be suffered by the Buyer as a result of the Supplier's failure to meet any Service Level Performance Measure.

On the occurrence of a Critical Service Level Failure:

3.1 any Service Credits that would otherwise have accrued during the relevant Service Period shall not accrue; and

"Upper Quartile"	in respect of Benchmarked Rates, that based on an analysis of Equivalent Data, the Benchmarked Rates, as compared to the range of prices for Comparable Deliverables, are within the top 25% in terms of best value for money for the recipients of Comparable Deliverables.

Order Schedule 16 (Benchmarking)

Order Ref:

Crown Copyright 2021

2. When you should use this Schedule

- 2.1 The Supplier acknowledges that the Buyer wishes to ensure that the Deliverables, represent value for money to the taxpayer throughout the Contract Period.
- 2.2 This Schedule sets to ensure the Contracts represent value for money throughout and that the Buyer may terminate the Contract by issuing a Termination Notice to the Supplier if the Supplier refuses or fails to comply with its obligations as set out in Paragraphs 3 of this Schedule.
- 2.3 Amounts payable under this Schedule shall not fall within the definition of a Cost.

3. Benchmarking

3.1 How benchmarking works

- 3.1.1 The Buyer and the Supplier recognise that, where specified in DPS Schedule 4 (DPS Management), the Buyer may give Defra the right to enforce the Buyer's rights under this Schedule.
- 3.1.2 The Buyer may, by written notice to the Supplier, require a Benchmark Review of any or all of the Deliverables.
- 3.1.3 The Buyer shall not be entitled to request a Benchmark Review during the first six (6) Month period from the Contract Start Date or at intervals of less than twelve (12) Months after any previous Benchmark Review.
- 3.1.4 The purpose of a Benchmark Review will be to establish whether the Benchmarked Deliverables are, individually and/or as a whole, Good Value.
- 3.1.5 The Deliverables that are to be the Benchmarked Deliverables will be identified by the Buyer in writing.
- 3.1.6 Upon its request for a Benchmark Review the Buyer shall nominate a benchmarker. The Supplier must approve the nomination within ten (10) Working Days unless the Supplier provides a reasonable explanation for rejecting the appointment. If the appointment is rejected then the Buyer may propose an alternative benchmarker. If the Parties cannot agree the appointment within twenty (20) days of the initial request for Benchmark review then a benchmarker shall be selected by the Chartered Institute of Financial Accountants.
- 3.1.7 The cost of a benchmarker shall be borne by the Buyer (provided that each Party shall bear its own internal costs of the Benchmark Review) except where the Benchmark Review demonstrates that the Benchmarked Service and/or the Benchmarked Deliverables are not Good Value, in which case the Parties shall share the cost of the benchmarker in such proportions as the Parties agree (acting reasonably). Invoices by the benchmarker shall be raised against the Supplier and the relevant portion shall be reimbursed by the Buyer.

3.2 Benchmarking Process

- 3.2.1 The benchmarker shall produce and send to the Buyer, for Approval, a draft plan for the Benchmark Review which must include:
- (a) a proposed cost and timetable for the Benchmark Review;
 - (b) a description of the benchmarking methodology to be used which must demonstrate that the methodology to be used is capable of fulfilling the benchmarking purpose; and
 - (c) a description of how the benchmarker will scope and identify the Comparison Group.
- 3.2.2 The benchmarker, acting reasonably, shall be entitled to use any model to determine the achievement of value for money and to carry out the benchmarking.
- 3.2.3 The Buyer must give notice in writing to the Supplier within ten (10) Working Days after receiving the draft plan, advising the benchmarker and the Supplier whether it Approves the draft plan, or, if it does not approve the draft plan, suggesting amendments to that plan (which must be reasonable). If amendments are suggested then the benchmarker must produce an amended draft plan and this Paragraph 3.2.3 shall apply to any amended draft plan.
- 3.2.4 Once both Parties have approved the draft plan then they will notify the benchmarker. No Party may unreasonably withhold or delay its Approval of the draft plan.
- 3.2.5 Once it has received the Approval of the draft plan, the benchmarker shall:
- (a) finalise the Comparison Group and collect data relating to Comparable Rates. The selection of the Comparable Rates (both in terms of number and identity) shall be a matter for the Supplier's professional judgment using:
 - (i) market intelligence;
 - (ii) the benchmarker's own data and experience;
 - (iii) relevant published information; and
 - (iv) pursuant to Paragraph 3.2.7 below, information from other suppliers or purchasers on Comparable Rates;
 - (b) by applying the adjustment factors listed in Paragraph 3.2.7 and from an analysis of the Comparable Rates, derive the Equivalent Data;
 - (c) using the Equivalent Data, calculate the Upper Quartile;
 - (d) determine whether or not each Benchmarked Rate is, and/or the Benchmarked Rates as a whole are, Good Value.
- 3.2.6 The Supplier shall use all reasonable endeavours and act in good faith to supply information required by the benchmarker in order to

Order Schedule 16 (Benchmarking)

undertake the benchmarking. The Supplier agrees to use its reasonable endeavours to obtain information from other suppliers or purchasers on Comparable Rates.

3.2.7 In carrying out the benchmarking analysis the benchmarker may have regard to the following matters when performing a comparative assessment of the Benchmarked Rates and the Comparable Rates in order to derive Equivalent Data:

- (a) the contractual terms and business environment under which the Comparable Rates are being provided (including the scale and geographical spread of the customers);
- (b) exchange rates;
- (c) any other factors reasonably identified by the Supplier, which, if not taken into consideration, could unfairly cause the Supplier's pricing to appear non-competitive.

3.3 Benchmarking Report

3.3.1 For the purposes of this Schedule "**Benchmarking Report**" shall mean the report produced by the benchmarker following the Benchmark Review and as further described in this Schedule.

3.3.2 The benchmarker shall prepare a Benchmarking Report and deliver it to the Buyer, at the time specified in the plan Approved pursuant to Paragraph 3.2.3, setting out its findings. Those findings shall be required to:

- (a) include a finding as to whether or not a Benchmarked Service and/or whether the Benchmarked Deliverables as a whole are, Good Value;
- (b) if any of the Benchmarked Deliverables are, individually or as a whole, not Good Value, specify the changes that would be required to make that Benchmarked Service or the Benchmarked Deliverables as a whole Good Value; and
- (c) include sufficient detail and transparency so that the Party requesting the Benchmarking can interpret and understand how the Supplier has calculated whether or not the Benchmarked Deliverables are, individually or as a whole, Good Value.

The Parties agree that any changes required to this Contract identified in the Benchmarking Report shall be implemented at the direction of the Buyer in accordance with Clause 24 (Changing the contract).

Order Schedule 20 (Order Specification)

This Schedule sets out the characteristics of the Deliverables that the Supplier will be required to make to the Buyers under this Order Contract

Introduction

1. The Department of the Environment, Farming & Rural Affairs (Defra) seeks to establish Strategic Delivery Partner(s) to ensure the provision of efficient and effective expert services for the design and implementation of monitoring evaluation and learning (MEL) of programmes, portfolios and strategies delivered by Defra. A Delivery Partner will be appointed on each of the following six lots:

Lot 1 – Climate Change & the Environment
Lot 2 – Natural Environment
Lot 3 – Marine & Fisheries
Lot 4 – Food, Farming, Agriculture & Countryside
Lot 5 – Government & Governance
Lot 6 – International

2. The Authority is seeking to award a Contract to one Delivery Partner in each thematic lot, it is possible for Suppliers to be successful in more than one lot.
3. Defra are responsible for improving and protecting the environment. Our broad remit means we play a major role in people's day-to-day life, from the food we eat, and the air we breathe, to the water we drink. We are here to make our air purer, our water cleaner, our land greener and our food more sustainable. We aim to grow a green economy and sustain thriving rural communities. We also support our world-leading food, farming and fishing industries. Our mission is to restore and enhance the environment for the next generation, leaving it in a better state than we found it.
4. Defra's [Outcome Delivery Plan](#) outlines how we will deliver our priority outcomes and measure success. Defra's priority outcomes are to:
 - improve the environment through cleaner air and water, minimised waste, and thriving plant and terrestrial and marine wildlife,
 - reduce greenhouse gas emissions and increase carbon storage in the agricultural, waste, peat and tree planting sectors to help deliver net zero,
 - reduce the likelihood and impact of flooding and coastal erosion on people, businesses, communities and the environment,
 - increase the sustainability, productivity and resilience of the agriculture, fishing, food and drink sectors, enhance biosecurity at the border and raise animal welfare standards.
5. The [25 Year Environment Plan \(25YEP\)](#) sets out ambitious goals to improve the natural environment, including globally. The scale of action required by government, business and the public to turn the tide on environmental decline is significant. Clean air, clean and plentiful water and thriving plants and wildlife will not only deliver environmental outcomes, but also bring economic benefits and help build health resilience. The [Environmental Improvement Plan \(EIP\) 2023](#) for England is the first revision of the 25

Year Environment Plan. It builds on the 25YEP vision to set out how we will deliver each of our environmental goals.

6. Defra is interested in attracting Strategic Delivery Partner(s) who can provide monitoring, evaluation and learning expertise across a range of geographical regions and thematic areas.
7. It is intended that the appointed Strategic Delivery Partner(s) will become Defra's primary route to undertake its MEL assignments during the contract term.

Background

8. Monitoring is necessary to evaluate the effectiveness of project, programme and policy activities and interventions. Monitoring data can play a key part in the evaluation of an intervention by providing useful data throughout the life of a policy. Learning is essential to embed any findings from evaluation. Furthermore, Defra remains committed to driving the quality and maximising the utility and learning from its evaluation and monitoring portfolio.
9. Defra's evaluation portfolio has grown over the last 5 years, reflecting the expansion in Defra's areas of responsibility, including the repatriation of EU functions (including farming and fisheries) and our commitments as set out in the [Environmental Improvement Plan](#) and the [Net Zero Growth Plan](#). Many of our policies involve cross-departmental collaboration, for example Levelling Up; and Official Development Assistance work with the Foreign, Commonwealth and Development Office.
10. Defra is seeking to become a more evidence and data-driven department and Monitoring, Evaluation and Learning assignments should consider the [Evaluation strategy for Defra](#). The strategy outlines Defra's vision and overarching goals for evaluation from 2022 to 2025.
11. The [HM Treasury Magenta Book](#) defines evaluation 'as a systematic assessment of the design, implementation, and outcomes of an intervention (such as delivery of policy outcomes via grant funding), evaluation involves understanding how an intervention is being, or has been, implemented and what effects it has, for whom and why. It identifies what can be improved and estimates a scheme's overall impact and cost-effectiveness.' The Magenta book advises that 'priority' interventions that require substantial evaluations typically include:
 - high profile policies:
 - high levels of uncertainty / risk (including possible negative consequences):
 - high cost (if evaluating a pilot, the full cost of rolling out the policy should be considered):
 - high learning potential.

The estimated contract value(s) is based on the assessment of current contract data (historic) and interrogation of pipeline data (future).

12. The scope of MEL services Defra buy fall into two distinct categories (see Table 1 below) with six thematic areas (Lots). It is acknowledged that there may still be small areas of more niche requirements that will remain outside the scope of services any Delivery Partner can supply and be subject to Authority consideration of whether it is suited to this strategic solution or otherwise.

Table 1. Categories of MEL services

Description	Characteristics
Evaluation design	One off evaluation of a proposed programme of grant giving/policy intervention/Research proposal at design stage to inform the business case or ITT. Activity could be desk based or evaluating f2f on the ground or in-country for International or ODA requirements
MEL in flight schemes or outcomes	Monitoring, Evaluation and Learning of 'in flight' to completion of grant giving/policy intervention/Research proposal schemes. This may be a one off or multi-year requirements. This includes ex-post retrospective evaluations. Activity could be desk based or evaluating f2f on the ground or in-country for International or ODA requirements.

13. MEL must meet cross-government and international standards, where appropriate, on quality and rigour, including the Magenta Book, Magenta Book Supplementary Guide: Handling Complexity in Policy Evaluation, Aqua Book and the Green Book.

14. Monitoring and evaluation examples are as follows;

- At the programme level, MEL Works to maximise the efficiency, impact and value for money of the programme, informing future programme designs and generating evidence on what works and what doesn't.
- At the portfolio level, MEL supports informed decisions about resources and strategic direction, improving the results, coherence and value for money of a group of related programmes.
- Strategic level MEL enables cross-portfolio evidence generation to demonstrate impacts and make decisions about high-level strategy and policy.
- Evaluation of pilots at design stage to inform decision making and policy.

Scope of Work – Monitoring, Evaluation and Learning Lots

22. Monitoring is used to track progress of a programme's delivery and enable detailed oversight of projects, providing verification of the quantity, quality and progress toward project results. Independent monitoring may include assessing the accuracy and quality of implementing partners' monitoring systems, observing programme implementation, expert visits to programme sites, obtaining beneficiary feedback or verification of results achieved to enable Defra to release payments under payment by results programmes. Monitoring can also support learning through identifying ways to improve the programme's delivery and inform the design of new programmes.
23. Monitoring data is often quantitative, and typically covers all aspects of a programme's operation, for example, information about the programme beneficiaries, data on programme inputs, processes, outcomes and impacts.
24. There are different types of monitoring. Results monitoring tests if the programme is on track against intended milestones and targets and whether it is creating unintended consequences. Monitoring of inputs and activities is used to understand how interventions are implemented. Monitoring of situation or context examines the programme's operating environment including risks, assumptions and political/institutional factors that may influence the programme's progress. Compliance

monitoring may cover tracking financial information or assessing compliance with local and national laws and other standards.

25. The Natural England monitoring programme is designed to answer key questions relating to the state of the environment, and access and enjoyment of people to nature and its benefits for society. This includes;
 - Sentinel surveillance programmes typically long-term programmes of survey and data collection that provide fundamental datasets which describe the state of the natural environment and how it is changing, pressures on it, benefits from it and how people use and value it, and
 - Targeted monitoring designed for specific purposes. These include the monitoring and evaluation of our interventions and activities.
26. There is an increasing emphasis and demand for monitoring using real-time data. This refers to high frequency data that is presented as it is acquired, or with a short time delay, fast enough to be used in decision-making. High frequency data can be used as a tool in monitoring and learning systems, enabling an up-to-date and/or large-scale picture of what is happening.
27. The Lots will cover the full range of monitoring types and approaches. Framework participants will be required to demonstrate experience in undertaking a variety of monitoring assignments, and the use of real-time data in monitoring. Delivery Partners will need to demonstrate expertise in monitoring across all elements of a programme's operation, drawing on multiple data sources, and ensuring that this supports both accountability and learning aims.
28. The purpose of evaluation in Defra is to contribute to improving the impact and value for money of Defra's spending and support the effective delivery of the Defra's Strategic Objectives. Evaluation seeks to generate evidence and knowledge that is policy and programme relevant and informs effective decision making. Defra requires Delivery Partners to produce evidence which can be applied and translated effectively into policymaking.
29. There are typically two main purposes for carrying out an evaluation: learning and accountability. Learning focuses on identifying what works for course correction or adaptations within a programme, informing future policy and investment decisions, and filling evidence gaps across the sector. Accountability refers to providing evidence of the effectiveness and impact.
30. The Magenta Book: [Central Government Guidance on Evaluation \(March 2020\)](#) sets out three main **types of evaluations** but highlights that a comprehensive evaluation will typically consist of all three:
 - **Process Evaluation:** analysis of the implementation of the intervention to understand whether the design is working well and why. Process evaluations typically use both quantitative and qualitative data, covering perceptions or subjective issues as well as objective or factual details.
 - **Impact evaluation:** assessment of what changes have occurred due to the programme, the scale of the changes and the extent to which changes can be causally attributed to the programme. Impact evaluations are typically conducted through theory-based, experimental or quasi-experimental approaches.

- **Value for money evaluation:** a comparison of the costs and benefits of the programme to better understand whether the programme is a good use of resources.
31. Defra's sectors operate in complex settings, and work with complex environmental, social and economic systems, often simultaneously. This poses particular challenges for evaluation and Delivery Partners should be familiar with and deliver in accordance with the [Magenta Book Supplementary Guide: Handling Complexity in Policy Evaluation](#). Defra has commissioned bespoke tools (such as the [Complexity Evaluation Framework](#) and the [Theory of Change toolkit](#)) to support the evaluation of complex interventions.
 32. There are a variety of evaluation methods. Research methods commonly used across process and impact evaluations consist of both quantitative and qualitative approaches, including interviews and focus groups, case studies, surveys, output monitoring and observational studies. Theory-based impact evaluation approaches include realist evaluation, contribution analysis, process tracing, Bayesian updating, contribution tracing, qualitative comparative analysis, outcome harvesting and most significant change approaches. Experimental and quasi-experimental evaluation methods include randomised control trials, interrupted time series analysis and difference-in-difference, regression discontinuity design, propensity score matching, synthetic control methods, instrumental variable or natural experiments and timing of events. Common value for money evaluation methods includes social cost effectiveness analysis and social cost-benefit analysis.
 33. Quantitative impact evaluations typically require specialised experience and strong econometric skills. The expertise needed includes forming an appropriate counterfactual group, conducting power calculations and valid sampling, assessing internal and external validity, and managing spillover effects and attrition. Statistical approaches to impact evaluations may require skills in statistical modelling, longitudinal data techniques and other econometric approaches.
 34. Evaluations use a variety of data sources, including secondary survey and administrative data, monitoring data, big data (including social media data) and primary data collected for the evaluation through quantitative or qualitative methods.
 35. These lot will cover the full range of evaluation types and will require the strategic delivery partner to demonstrate experience and skills across the range of evaluation approaches. Delivery Partners will need to show expertise across the range of evaluation methods, including quantitative, qualitative, theory-based, experimental and cost-benefit approaches, and exhibit experience in drawing upon a variety of data sources. Additionally, these lots could also cover other approaches:
 - Synthesis methods, to combine findings from a range of studies, such as meta-analysis; systematic reviews or realist synthesis.
 - Portfolio evaluations and monitoring, which do not assess individual programmes but collate and analyse data and learning across several related programmes.
 - Reviews, which assess of the performance of an intervention in a more operational manner and tend to be less comprehensive and/or in-depth than evaluations.
 - Data and results verifications, which could cover an assessment and assurance of the methods and sources used to obtain results.

36. The Delivery Partner will be required to demonstrate expertise across the range of evaluation and monitoring approaches, as well as experience in conducting a variety of types of learning assignments.
37. Defra encourage contractors to present results in peer reviewed journal articles to increase visibility of our work. Defra require that all reports are independently peer reviewed before publication on Defra science webpages.

Expertise

38. Each Delivery Partner will need to provide:

- Monitoring, Evaluation and Learning to a high quality with demonstration of relevant capacity and expertise to delivery Service Orders.
- Effective management of a supply chain (if applicable) to deliver that type of Monitoring, Evaluation and Learning.
- Experience in designing and implementing high quality methods, analysis, and synthesis in the delivery of that type of Monitoring, Evaluation and Learning and have improved its application.

- Understanding of Grants and the Grants Standards
- Awareness of cross-cutting Trade consideration and reform

Coverage

39. Each Delivery Partner will need to demonstrate the following:

- Delivery Partners must demonstrate their understanding of the context in different environments and policies. It is important to have the ability to tailor and adapt activities and outputs to changing needs and to be innovative in the application of high-quality approaches to overcome the operational challenges.

- Delivery Partners will need to demonstrate that they have or can engage appropriate local expertise (Domestic or Internationally) in the areas they are required to work.
- Delivery Partners must demonstrate that they can conduct monitoring, evaluations and learning of projects and/or policies and/or programmes according to the lots they are bidding for.
- Delivery Partners should also demonstrate their ability to manage multiple pieces of work concurrently, and how they will mitigate any risks associated with this.
- Defra recognise that Delivery Partners may need to call on external expertise to complement their offer and this may need to be developed during the life of the Contract and as the requirements are commissioned. It is important that Delivery Partners are able to adapt and meet Defra's ever-changing requirements.

Quality

40. Across each lot, Delivery Partners must be able to demonstrate clear processes and control mechanisms to ensure the highest quality of monitoring, evaluation and learning at all stages of the assignment cycle that address the purpose of that assignment and the stakeholder needs. This covers both the design of the work, the implementation of the research methods and data collection, and the analysis, presentation and reporting of the findings.

Delivery Partners must adhere to the [Government Social Research: Publication Protocol](#), [Government Social Research \(GSR\) Strategy 2021-2025](#) and guidance on [Publishing accessible documents](#).

41. Monitoring, Evaluation and Learning are expected to comply with quality standards. In addition, they must adhere to the following principles:
- Useful for learning and improvement, with clear reference to a “use and influence” plan, and with all outputs accessible to the intended audience.
 - Transparent and appropriate approach and methodology, which is aligned with the evaluation questions and is reliable and replicable. Issues of limitations or biases must be made explicit and addressed in the analysis. Evidence should be clearly and sufficiently triangulated and cross-referenced into the findings. Conclusions should provide reasoned judgements based on the evidence presented.
 - The assigned team should reflect the right expertise and balance of thematic/regional/methodological skills.
 - The assignment should be delivered in partnership, with meaningful engagement with stakeholders, ensuring a two-way process for knowledge-sharing and capacity development. Delivery Partners must have the ability to arrange external peer review as part of the quality assurance process, where requested.
 - Delivery Partners and their supply chain must adhere to Artificial Intelligence (AI) guiding principles, where AI is to be utilised - <https://www.gov.uk/government/news/uk-unveils-world-leading-approach-to-innovation-in-first-artificial-intelligence-white-paper-to-turbocharge-growth#:~:text=Five%20principles%2C%20including%20safety%2C%20transparency,trust%20in%20this%20revolutionary%20>
42. Final payment will be dependent on MEL products being rated as satisfactory (and above) by Defra.

Ethics

43. Research and evaluation funded by the Authority must adhere to the highest ethical standards. Service Orders must be designed and conducted in line with Government Social Research Profession standards (see [GSR Ethical Assurance for Social and Behavioural Research - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/publications/gsr-ethical-assurance-for-social-and-behavioural-research) for the guidance and an ethics checklist).

For wider guidance relating to Monitoring and Evaluation, see the Magenta Book ([HMT Magenta Book.pdf \(publishing.service.gov.uk\)](https://www.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/61444/hmt-magenta-book.pdf) – see “5.9 Ethics”).

For ODA-funded MEL, bidders are expected to adhere to FCDO’s Ethical Guidance for Research, Evaluation and Monitoring Activities

(<https://www.gov.uk/government/publications/dfid-ethical-guidance-for-research-evaluation-and-monitoring-activities>), particularly regarding:

- ensuring work undertaken is appropriate to the local contexts (cultural, socio-economic, environmental and political considerations)
 - risk management and mitigation (e.g., in the field/ safeguarding of personnel)
 - opportunities for feedback, particularly for women and/ or marginalised groups
44. Delivery Partners should consider whether external ethics approval is needed for the monitoring, evaluation and learning assignment. For many evaluations, this will not be required, however, the Defra expects that the planning of data collection and analysis will reflect active consideration of the ethics principles and standards throughout the evaluation cycle. During the assignment, the Delivery Partners must inform Defra immediately of any ethics issues arising and shall investigate and document all breaches of the ethics principles and standards or potential cases of a breach.

Inclusion

45. Defra expects both programming and evidence gathering to have a gender, age and inclusion lens. MEL systems should be able to show not only whether Defra’s interventions are working, but also who they are reaching, and any unintended consequences on groups. Inclusion encompasses meaningful engagement of all programme participants throughout the evaluation and monitoring life cycle, including those with limited visibility and those that are hard to reach, such as girls and those with disabilities.
46. The UK is bound by various policy and legislative commitments on gender equality, including the Equality Act (2010) and the UK’s International Development (Gender Equality) Act 2014, which makes consideration of gender equality a legal requirement before the provision of any UK spend.
47. Defra expects that issues of gender equality and inclusion are considered throughout the monitoring, evaluation and learning cycle. MEL frameworks and indicators should go beyond counting numbers to capturing the quality of results for different groups, and data collection methods should enable all groups to express their experiences and views. Where possible, all data should be disaggregated by sex, disability, age, geography and other relevant dimensions, and the analysis should highlight any differences and trends for these groups

Stakeholder engagement

48. Delivery Partners will be required to actively identify and engage stakeholders and key influencers throughout the process, including in the planning and management of the assignment and in the emerging findings. This is to ensure that the learning is relevant to their needs. Approaches for monitoring and evaluations should be clearly linked to the intended use of the assignment, and the timeframes should similarly take the intended use into account. Delivery Partners will need to demonstrate an understanding of how to make the evaluation both useful and influential for Defra and its partners.
49. Stakeholders should be considered beyond the immediate programme stakeholders, to wider stakeholders that may benefit from the learning generated, such as other donors, local and national government and civil society partners. This should include local citizens and beneficiaries, where appropriate and relevant.
50. Defra expects that Delivery Partners actively use a “Use and Influence Plan” as a guide for stakeholder engagement, considering how to broaden engagement beyond those directly involved to include other actors in the wider context who may have an interest in the evaluation or monitoring findings. The Use and Influence Plan should include details of end users, how they will be reached and ways to influence them. It should also consider timings and options for communicating evaluation findings in accessible formats that will appeal to potential audiences. This could cover issues of language, data visualisation and the report structure. It should also set out strategies for managing sensitive issues, alongside maintaining transparency and the Defra’s commitment to publish evaluation reports.

Beneficiary engagement

51. Defra expects that Delivery Partners will give due consideration to engaging with beneficiaries throughout the monitoring, evaluation and learning cycle, according to what is practical and relevant to the being evaluated. Delivery Partners should consider at what stages beneficiary engagement can go beyond one-way extractive processes based on gathering data from beneficiaries and include two-way engagement with beneficiaries and interactive engagement between beneficiaries and evaluators. This should, at all times, consider the best combination of methods for gathering reliable data from beneficiaries (for example, avoiding elite capture and bias, ensuring diverse views, robust sampling protocols etc) and sourcing evidence from other sources. At a minimum, Delivery Partners should state what their approach to beneficiary engagement will be for the evaluation, demonstrating that they have considered what is the most appropriate way to engage with beneficiaries during key stages to the evaluation cycle: evaluation design; evidence gathering; validation and analysis; dissemination and communication.

Maintaining Expertise and Standards

52. Delivery Partners will be required to share knowledge and experience on undertaking monitoring and evaluations with key stakeholders and other providers (from governments to small NGOs) to help further develop the professional practice of evaluation.
 - Delivery Partners are members/ or willing to be members of a professional evaluation association whose members are bound by ethical standards and/or codes of practice, where such an association exists. In the absence of such an association, delivery partners would be expected to meet suitable minimum

standards on data protection and ethics Delivery Partners have demonstrated competence to share knowledge and experience on development evaluations for a range of stakeholders.

- Delivery Partners have knowledge and undertake leadership on emerging good practice in evaluation or monitoring.
- Delivery Partners should engage constructively with quality assurance on their evaluations.
- Delivery Partners will have established quality assurance arrangements that support the quality, independence, credibility, utility, integrity and ethics of their evaluation processes.
- Delivery Partners should have knowledge and leadership in current and emerging good practice in evaluation.
- In addition, Delivery Partners will need to demonstrate strengths in:
 - General administration, management and timeliness
 - Financial management
 - Flexibility to respond to changing needs and demands.
 - Relationship management- including maintaining a consistent and constructive relationship with Defra stakeholders.
 - Managing ethics in monitoring, evaluation and learning at programme, portfolio and strategic levels.
- For Lot 6, the Delivery Partner will need to consistently demonstrate adherence to international evaluation standards (e.g., OECD- DAC Evaluation Standards).

Management, Reporting and Review

53. Defra Group Commercial (DgC) will monitor the Delivery Partners service provision in the Lots. The Defra MEL policy customers will work with Commercial to support monitoring, management and performance of the contract.
54. The Key Performance Indicators as detailed in Annex A will be used to assess the management at framework level in accordance with Order Schedule 4.
55. In addition, Delivery Partners will be required to provide Monthly Progress Reports and attend Quarterly Progress Meetings, in accordance with Para 14 and 15 of DPS Schedule 6, Order Form.
56. Delivery Partners must make available appropriate management, quality control (technical reviewers, editors, proof-readers, etc) replacement of expertise, secretariat and any other support staff necessary to undertake a monitoring, evaluation and learning activity throughout the lifetime of the contract. The Delivery Partner will assign a Lead contact to each assignment they undertake. The Lead contact will have overall responsibility for the evaluation and formal contacts with the contracting authority.
57. Delivery Partners will be required to report on the progress of each MEL assignment to the programme team commissioning the work. The reporting requirements will be set out in the Statement of Work for each assignment.
58. Delivery Partner's performance will be reviewed against their delivery (which will include but may not be limited to on-time, on-scope, on budget, to quality standards). Delivery Partners must demonstrate management of their MEL pipeline of Service Orders and report on this at Monthly Progress Meetings.

Transparency

59. Defra requires suppliers receiving and managing funds, to release open data on how this money is spent, in a common, standard, re-usable format and to require this level of information from immediate sub-contractors, sub-agencies and partners.
60. Clause 16 of the RM6126 Core Terms set out the requirements in relation to transparency.

It is now a requirement to provide details regarding the levels of direct and indirect departmental SME spend with major suppliers to the cross-government SME Small Business Policy team working on this initiative. Defra is also interested in gathering details of the organisations working within the supply chains of directly contracted suppliers. As part of the contractual compliance checking process, suppliers will be required to submit returns providing these details, as a minimum on an annual basis.

Conflict of Interest

66. Delivery Partner's must immediately inform Defra in writing of any potential conflicts of interest, at all levels of their supply chain. Any conflicts of interests and mitigation plans will be assessed by Defra on a case-by-case basis. Defra will make the final determination in writing.

execution date to ensure that it is meeting the evolving needs of the Defra's work in monitoring, evaluation and learning.

68. For the avoidance of doubt, the Delivery Partner's provision of services shall be on a non-exclusive basis. Defra reserves the right to contract with or employ directly third-party contractors, or employees to provide similar services at any time.
69. The values and volumes in the table below are estimated and may change throughout the life of the agreement, figures are calculated using historic transactions and known pipeline plus 100% anticipated increased demand. Defra will review the pipeline every 6 months and share with appointed Delivery Partners for planning purposes.

Defra supports the UK's food, farming and fishing industries by delivering the UK Government's international trade agenda in collaboration with other government departments.

Delivery Partners must demonstrate familiarity with the thematic areas of the other lots as there are some cross cutting themes, for example, evaluations of international trade agreements in agri-food products or international marine treaty compliance.

3 Official Development Assistance (ODA) requirements

For all ODA requirements Defra uses the OECD Development Assistance Committee (DAC) definition of evaluation: "The systematic and objective assessment of an on-going or completed project, programme or policy, its design, implementation and results. The aim is to determine the relevance and fulfilment of objectives,

development efficiency, effectiveness, impact and sustainability. An evaluation should provide information that is credible and useful, enabling the incorporation of lessons learned into the decision-making process of both recipients and donors. Evaluation also refers to the process of determining the worth or significance of an activity, policy or program. An assessment, as systematic and objective as possible, of a planned, on-going, or completed development intervention.”
