

Thank you for your interest in the evaluation of the Prevention of Homelessness Trailblazers Research and for your response to the Request for Information (RFI).

Following the RFI exercise, we are finalising the project specification which we intend to publish within the next two weeks.

In terms of the intended route to market, following a review of the RFI responses, we now intend to merge both lots (as outlined in the RFI) into one requirement and run it against Lot 4 (comparative Evaluation) of the UKSBS Research and Evaluation Framework. This approach has been approved by the UKSBS Framework Team.
