The Supplier shall ensure that each of the Insurances is effective no later than the Commencement Date.
- 1.2 The Insurances shall be maintained in accordance with Good Industry Practice and (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent Contractor in respect of risks insured in the international insurance market from time to time.
- 1.3 The Insurances shall be taken out and maintained with insurers who are of good financial standing and of good repute in the international insurance market.
- 1.4 The Supplier shall ensure that the public and products liability policy shall contain an indemnity to principals clause under which FCDO shall be indemnified in respect of claims made against FCDO in respect of death or bodily injury or third party property damage arising out of or in connection with the Services and for which the Supplier is legally liable.

2.GENERAL OBLIGATIONS

- 2.1 Without limiting the other provisions of this Contract, the Supplier shall:
 - 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to the Services as it would be reasonable to expect of a prudent Contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;
 - 2.1.2 promptly notify the insurers in writing of any relevant material fact under any Insurances of which the Supplier is or becomes aware; and
 - 2.1.3 hold all policies in respect of the Insurances and cause any insurance broker effecting the Insurances to hold any insurance slips and other evidence of placing cover representing any of the Insurances to which it is a party.

3.FAILURE TO INSURE

- 3.1 The Supplier shall not take any action or fail to take any action or (insofar as is reasonably within its power) permit anything to occur in relation to it which would entitle any insurer to refuse to pay any claim under any of the Insurances.
- 3.2 Where the Supplier has failed to purchase any of the Insurances or maintain any of the Insurances in full force and effect, FCDO may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances, and FCDO shall be entitled to recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

4.EVIDENCE OF POLICIES

- 4.1 The Supplier shall upon the Commencement Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to FCDO, that the Insurances are in force and effect and meet in full the requirements of this Framework Schedule 2. Receipt of such evidence by FCDO shall not in itself constitute acceptance by FCDO or relieve the Supplier of any of its liabilities and obligations under this Agreement.

5.AGGREGATE LIMIT OF INDEMNITY

- 5.1 Where the minimum limit of indemnity required in relation to any of the Insurances is specified as being "in the aggregate":
 - 5.1.1 if a claim or claims which do not relate to this Contract are notified to the insurers which, given the nature of the allegations and/or the quantum claimed by the third party(ies), is likely to result in a claim or claims being paid by the insurers which could reduce the level of cover available below that minimum, the Supplier shall immediately submit to FCDO:
 - (a) details of the policy concerned; and

- (b) its proposed solution for maintaining the minimum limit of indemnity specified; and

5.1.2 if and to the extent that the level of insurance cover available falls below that minimum because a claim or claims which do not relate to this Contract are paid by insurers, the Supplier shall:

- (a) ensure that the insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified for claims relating to this Contract; or
- (b) if the Supplier is or has reason to believe that it will be unable to ensure that insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified, immediately submit to FCDO full details of the policy concerned and its proposed solution for maintaining the minimum limit of indemnity specified.

- 7.2 Except where FCDO is the claimant party, the Supplier shall give FCDO notice within twenty (20) Working Days after any insurance claim in excess of £0 relating to or arising out of the provision of the Services or this Contract on any of the Insurances or which, but for the application of the applicable policy excess, would be made on any of the Insurances and (if required by FCDO) full details of the incident giving rise to the claim.
- 7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.
- 7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible. APPENDIX B

FCDO Supply Partner Code of Conduct

Principles

FCDO aims to create an inclusive culture of best practice with the delivery partners with whom it engages and which receive UK taxpayers' funds. All Supply Partners should adhere to the overarching principles of the Supply Partner Code of Conduct (hereafter "the Code").

Overarching Principles for Supply Partners

- ✓ **Act responsibly and with integrity**
- ✓ **Be transparent and accountable**
- ✓ **Seek to improve value for money**
- ✓ **Demonstrate commitment to poverty reduction and FCDO priorities¹**
- ✓ **Demonstrate commitment to wider HMG priorities²**

FCDO Supply Partner responsibilities

Supply Partners and their subcontractors (delivery chain partners) should ensure they have read and understood the Code and their required compliance level and seek clarification from FCDO where necessary. In particular, it is important that the Supply Partners and their subcontractors (delivery chain partners) understand any risks and have systems in place to manage them. The 3 compliance levels are:

Compliance Level 1 - Supply Partners with an individual contract value of £1m or above, or two or more contracts/grants with FCDO with a combined value of £5m or above;

Compliance Level 2 - Supply Partners with an individual contract value below £1m, or two or more contracts /grants with FCDO with a value of less than £5m;

Compliance Level 3 - Supply Partners with an individual Contract value, or component of a Contract/Grant, with a value below the EU contracting threshold. At this level Supply Partners are required to adhere to the overarching Code principles and recognise, mitigate and manage risks. These Supply Partners will not be monitored against the contractual KPIs.

Scope

This Code forms part of FCDO's standard contractual terms and conditions and full compliance and annual verification via a signed declaration, to be found at Annex 1b, is mandatory for contracted Supply Partners.

Adherence to the Code at the appropriate level is also a requirement for FCDO direct and delivery chain Supply Partners in receipt of funding. FCDO will monitor Supply Partners in six priority areas as set out below using a set of Key Performance Indicators (KPIs) as referenced in Annex 1a and 1b.

1. Value for Money and Governance

Key Performance Indicators KPI 1 a - c

Value for Money and financial transparency is an essential requirement of all FCDO commissioned work. All Supply Partners must seek to maximise development results, whilst driving cost efficiency, throughout the life of commissioned programmes. This includes budgeting and pricing realistically and appropriately to reflect delivery requirements and levels of risk over the life of the programme. It also includes managing uncertainty and change to protect value in the often challenging environments that we work in.

Supply Partners must demonstrate that they are pursuing continuous improvement and applying stringent financial management and governance to reduce waste and improve efficiency in their internal operations and within the delivery chain. FCDO expects Supply Partners to demonstrate openness and honesty and to be realistic about capacity and capability at all times, accepting accountability and responsibility for performance along the full delivery chain, in both every-day and exceptional circumstances.

Specific requirements include:

- ✓ Provision of relevant VfM and governance policies and a description of how these are put into practice to meet FCDO requirements (e.g. Codes on fraud and corruption, due diligence);
- ✓ A transparent, open book approach, which enables scrutiny of value for money;
- ✓ Strict adherence to all UK and in-country government tax requirements;
- ✓ Processes for timely identification and resolution of issues and for sharing lessons learned which might be requested by FCDO at any time.

2. Ethical Behaviour

Key Performance Indicators KPI 2 a- f

FCDO Supply Partners and their delivery chain partners act on behalf of the UK government and interact globally with country governments, other aid donors and their delivery partners, many stakeholders including citizens and directly and indirectly with aid beneficiaries. These interactions must therefore meet the highest standards of ethical and professional behaviour in order to uphold the reputation of the UK government.

Arrangements and relationships entered into, whether with or on behalf of FCDO, must be free from bias, conflict of interest or the undue influence of others. Particular care must be taken by Supply Partner and delivery chain staff who:

- a) are directly involved in the management of a programme or procurement of services; or
- b) who engage with i) frontline FCDO staff ii) other deliverers of aid iii) beneficiaries (of aid)

Where those in a) and b) could be susceptible to undue negative or detrimental influence.

Supply Partners and their delivery chain partners must declare to FCDO where there may be instances or allegations of previous unethical behaviour by an existing or potential staff member or where there is a known or suspected conflict of interest. Where a potential or existing staff member has been employed by FCDO or the Crown in the

¹ <https://www.gov.uk/government/organisations/departments-for-international-development/about#priorities>

² <https://www.gov.uk/government/organisations/hm-treasury/about#priorities>

preceding two years Supply Partners and their delivery chain partner must provide proof of compliance with the HMG approval requirements under the Business Appointment Rules.

Supply Partners and their delivery chain partners must have the following policies and procedures in place:

- ✓ Development and proof of application and embedding of a Staff Recruitment, Management and Retention policy (which must address circumstances where there may be potential or actual conflict of interest and embedding of a Whistleblowing Policy)
- ✓ Ongoing monitoring of potential or existing personal, business or professional conflict of interest and their mitigation and management
- ✓ Ethical training for every staff member and staff updates in ethical working practices suitable to the development sector (e.g. UN Global Compact principles) including awareness of modern day slavery and human rights abuses
- ✓ Procedures setting out how, staff involved in FCDO funded business, can immediately report all suspicions or allegations of aid diversion, fraud, money laundering or counter terrorism finance to the FCDO Counter Fraud and Whistleblowing Unit (CFWU) at reportingconcerns@fcdo.gov.uk or on +44(0)1355 843747.

3. Transparency and Delivery Chain Management

Key Performance Indicators KPI 3 a – f

FCDO requires full delivery chain transparency from all Supply Partners. All direct Supply Partners and their delivery chain partners must adhere to wider HMG policy initiatives including the support and capacity building of micro, small and medium sized enterprises (MSMEs), prompt payment, adherence to human rights and modern slavery policies and support for economic growth in developing countries.

FCDO recognises the critical value that downstream delivery partners contribute. Direct Supply Partners must engage their delivery chain partners in a manner that is consistent with FCDO's treatment of its direct Supply Partners. This includes, but is not limited to: appropriate pricing of services; fiduciary and financial risk management processes; applying transparent and responsive measures where delivery chain partners underperform against the KPI areas; taking a zero tolerance approach to tax evasion, corruption, bribery and fraud in subsequent service delivery or in partnership agreements. Direct Supply Partners must cascade the principles of the Code throughout their delivery chain to ensure FCDO ethical behaviour standards are embedded and maintained.

Specific requirements for direct Supply Partners include:

- ✓ Provide assurance to FCDO that the policies and practices of their delivery chain Supply Partners and affiliates comply with the Code;
- ✓ Maintaining and sharing with FCDO up-to-date and accurate records of all downstream partners in receipt of FCDO funds and/or FCDO funded inventory or assets. This should map how funds flow from them to end beneficiaries and identify risks and potential risks along the delivery chain;
- ✓ Ensuring delivery chain partner employees are expressly notified of the FCDO 'reporting concerns' mail box³ found on FCDO's external website and of the circumstances in which this should be used;
- ✓ Publication of FCDO funding data in accordance with the International Aid Transparency Initiative (IATI)⁴
- ✓ Supply Partners shall adhere to HMG prompt payment policy and not use restrictive exclusivity agreements with sub-partners.

³ <https://www.gov.uk/government/organisations/department-for-international-development/about#reporting-fraud>

⁴ <http://www.aidtransparency.net/>

4. Environmental issues

Key Performance Indicators KPI 4 a – b

FCDO Supply Partners must be committed to high environmental standards, recognising that FCDO's activities may change the way people use and rely on the environment, or may affect or be affected by environmental conditions. Supply Partners must demonstrate they have taken sufficient steps to protect the local environment and community they work in, and to identify environmental risks that are imminent, significant or could cause harm or reputational damage to FCDO.

Commitment to environmental sustainability may be demonstrated by:

- ✓ Formal environmental safeguard policies in place;
- ✓ Publication of environmental performance reports on a regular basis
- ✓ Membership or signature of relevant environmental Codes, both directly and within the delivery chain such as conventions, standards or certification bodies (e.g. the Extractive Industries Transparency Initiative⁵).

5. Terrorism and Security

Key Performance Indicators KPI 5 a – d

FCDO Supply Partners must implement due diligence processes to provide assurance that UK Government funding is not used in any way that contravenes the provisions of the Terrorism Act 2000, and any subsequent regulations pursuant to this Act.

FCDO Supply Partners must maintain high levels of data security in accordance with the Data Protection Act 1998 and any subsequent regulations pursuant to this Act, or new Act and with the General Data Protection Regulation (Directive 95/46/EC).

Specific requirements:

- ✓ Development and proof of application and embedding of a comprehensive Terrorism and Security Policy
- ✓ Development and proof of application and embedding of personal data processing processes within a Data Protection Policy
- ✓ FCDO Supply Partners must safeguard the integrity and security of their IT and mobile communications systems in line with the HMG Cyber Essentials Scheme⁶. Award of the Cyber Essentials or Cyber Essential Plus badges would provide organisational evidence of meeting the UK Government-endorsed standard;
- ✓ All FCDO Supply Partners who manage aid programmes with a digital element must adhere to the global Principles for Digital Development⁷, which sets out best practice in technology-enabled programmes
- ✓ Ensure that FCDO funding is not linked to terrorist offences, terrorist activities or financing.

6. Safeguarding, Social Responsibility and Human Rights

Key Performance Indicators: KPI 6 a – d

Safeguarding, social responsibility and respect for human rights are central to FCDO's expectations of its Supply Partners. Supply Partners must ensure that robust procedures are adopted and maintained to eliminate the risk of poor human rights practices within complex delivery chain environments funded by FCDO. These practices include sexual exploitation, abuse and harassment; all forms of child abuse and inequality or discrimination on the basis of race, gender, age, religion, sexuality, culture or disability. Supply Partners must place an emphasis on the control of

⁵ <https://eiti.org/>

⁶ <https://www.gov.uk/government/publications/cyber-essentials-scheme-overview>

⁷ <http://digitalprinciples.org/>

these and further unethical and illegal employment practices, such as modern day slavery, forced and child labour and other forms of exploitative and unethical treatment of workers and aid recipients. FCDO will expect a particular emphasis on the management of these issues in high risk fragile and conflict affected states (FCAS), with a focus on ensuring remedy and redress if things go wrong.

Specific requirements:

- ✓ Development and proof of application and embedding of a Safeguarding Policy;
- ✓ Delivery of Social Responsibility, Human Rights and Safeguarding training throughout the delivery chain;
- ✓ Compliance level 1 Supply Partners must be fully signed up to the UN Global Compact⁸;
- ✓ Practices in line with the International Labour Organisation (ILO) 138⁹ and the Ethical Trading Initiative (ETI) Base Code¹⁰ are to be encouraged throughout the delivery chain;
- ✓ Policies to embed good practice in line with the UN Global Compact Guiding Principles 1 & 2 on business and human rights throughout the delivery chain are required, as detailed in Annex 2;
- ✓ Compliance level 1 Supply Partners to submit a Statement of Compliance outlining how the organisation's business activities help to develop local markets and institutions and further how they contribute to social and environmental sustainability, whilst complying with international principles on Safeguarding and Human Rights labour and ethical employment, social inclusion and environmental protection;
- ✓ Overarching consideration given to building local capacity and promoting the involvement of people whose lives are affected by business decisions.

UN Global Compact – Human Rights

Principle 1: businesses should support and respect the protection of internationally proclaimed Human Rights

Principle 2: businesses should ensure they are not complicit in Human Rights abuse

Organisations should do this by giving attention to vulnerable groups including women, children, people with disabilities, indigenous groups, migrant workers and older people.

Organisations should comply with all laws, honouring international standards and giving particular consideration to high risk areas with weak governance.

Examples of how suppliers and partners should do this are set out below:

In the workplace

- by providing safe and healthy working conditions
- by guaranteeing freedom of association
- by ensuring non-discrimination in personnel practices
- by ensuring that they do not use directly or indirectly forced labour or child labour
- by providing access to basic health, education and housing for the workers and their families, if these are not provided elsewhere
- by having an affirmative action programme to hire victims of domestic violence
- by making reasonable accommodations for all employees' religious observance and practices

In the community

- by preventing the forcible displacement of individuals, groups or communities
- by working to protect the economic livelihood of local communities
- by contributing to the public debate. Companies interact with all levels of government in the countries where they operate. They therefore have the right and responsibility to express their views on matters that affect their operations, employees, customers and the communities of which they are a part
- through differential pricing or small product packages create new markets that also enable the poor to gain access to goods and services that they otherwise could not afford
- by fostering opportunities for girls to be educated to empower them and also helps a company to have a broader and more skilled pool of workers in the future, and
- perhaps most importantly, a successful business which provides decent work, produces quality goods or services that improve lives, especially for the poor or other vulnerable groups, is an important contribution to sustainable development, including human rights
- If companies use security services to protect their operations, they must ensure that existing international guidelines and standards for the use of force are respected

Contract Section 3

Terms of Reference

Support to Africa-Led Movements to End Female Genital Mutilation (FGM): Data and Measurement

Introduction

1. In November 2018, the Department for International Development (DFID) announced a new multi-country programme of up to £35 million to support global efforts to end Female Genital Mutilation (FGM). This will build on the foundations of DFID's first phase of investment in ending FGM (2013 – 2018) and will provide support at multiple levels and at scale to accelerate the pace of change to help end FGM.
2. FCDO has a vision of a world free from the practice of FGM by 2030, in line with the Sustainable Development Goals. This programme will contribute to global efforts to achieve that vision.
3. The programme is comprised of three components:
 - i) **Support to the Africa-led movement to end FGM** at multiple levels and at scale (Lot 1 - £28m);
 - ii) Getting **laws, policies and systems at multiple levels to work effectively to end FGM** (delivered by UNFPA/UNICEF and WHO - £2.5m); and
 - iii) Generating the **right data to guide interventions and measure change** (Lot 2 - £3.5m).
4. This Terms of Reference (ToR) refers to the Data and Measurement (DM) component iii): **generating the right data to guide interventions and measure change**.
5. Component i) will be delivered by a separately-tendered Supplier, hereafter referred to as the Africa-led Movement (ALM) Supplier. Component ii) will be delivered by the UNICEF-UNFPA Joint Programme on the Elimination of Female Genital Mutilation/Cutting and the World Health Organisation. An overview of the full programme is at Annex A.
6. This ToR should be read in conjunction with the full programme overview (Annex A); the FGM Phase II Business Case; and the Duty of Care Matrix (Annex B), the Strategic Relationship Management (SRM) Scorecard (Annex C) and the General Data Protection Regulation (GDPR) requirements (Annex D).

7. This ToR sets the scope of work, detailed requirements and reporting procedures for the DM Supplier.

Objective

8. The intended impact of the overall programme is a significant reduction of the practice of FGM in 4-6 focus countries/regions by 2025: the baselines for this will be agreed during the co-creation phase in coordination with the ALM component. The intended outcome of this programme is the acceleration of positive change in social attitudes towards ending FGM in countries/regions in which the programme is operational. The DM Supplier will contribute to this by providing a robust monitoring and evaluation framework and improving the way we measure change, so we can see clearly what works best to end FGM.
9. The whole programme will be underpinned by four principles that will inform and guide all its activities:
 - i) Do no harm;
 - ii) Supporting, enabling, facilitating and strengthening efforts to end the practices that are led from within affected communities and countries;
 - iii) Taking a human rights, gender equality and girls' empowerment approach to ending FGM;
 - iv) Understanding FGM as a form of violence against women and girls, held in place by social norms.

Recipient

10. The recipients will be the ALM Supplier and FCDO, as well as the wider community of civil society and governments working to end FGM who will benefit from the global goods.

Scope

11. The programme is firmly situated within the context of FCDO's Strategic Vision for Gender Equality; directly contributing to the pillars on *Universal Sexual and Reproductive Health and Rights* and *Ending all forms of Violence Against Women and Girls*.
12. Based on a wide-ranging review of the best available evidence, FCDO considers an approach based on an understanding of social norms and how they change to be the most compelling approach to ending FGM. The whole programme is therefore underpinned by the idea of changing social norms so that FGM is no longer considered necessary or desirable, and so is no longer carried out. Fundamental to this, therefore, is a shift in gender relations and how women and girls are valued in their communities and societies. The evidence shows that a combination of approaches (a "multi-pronged" approach) is needed to bring about this change in social norms.

13. Efforts to end FGM face a range of significant data, measurement and monitoring challenges – both ethical and practical. These include, for instance, the challenges of dealing with a taboo, sensitive and intimate issue; a practice which is carried out on increasingly young babies and girls; reliance on reported data, in contexts with increasing exposure to messaging about ending FGM; social sanctions on women and families that decide not to practise; fragile contexts; locally/ethnically specific variations on the practice; long-term, unpredictable and non-linear processes of change; patchy data availability; etc.
14. This programme will therefore address FGM through three complementary and mutually reinforcing approaches (see Annex A for more detailed information). The DM Supplier will be the delivery mechanism contributing directly to the overall programme impact and **outcome v)** below. The DM Supplier will be expected to work with the other programme delivery partners to contribute to the achievement of all outcomes (see Annex A for further details).
15. The working outcomes of the overall programme are:
 - i) Increased community level commitment to end FGM
 - ii) Laws, policies and action plans are in place and implemented (UNICEF/UNFPA)
 - iii) Systems (including, but not limited to, health, education, security and justice) and their staff working effectively to end FGM (WHO)
 - iv) Increased global commitment to end FGM
 - v) **The Africa-led movement is informed by improved data and measurement tools (DM Supplier)**
16. The DM Supplier will improve the use of data, and improve monitoring and measurement approaches and tools, to understand and monitor change and trends at different levels and to be use-able as a global good by end-FGM programmes, including the ALM component, to inform design, implementation, flexibility and course correction.
17. To deliver outcome **v.**, the DM Supplier is expected to deliver the following objectives. The final workplan will be agreed with FCDO during the co-creation phase following discussion based on initial scoping of opportunities, challenges, gaps and feasibility.
 - **Undertake new analysis of existing quantitative and qualitative data** to inform FCDO's and other global efforts to end FGM. This includes scoping out available relevant data and existing analysis at different levels and identifying scope for new analysis, as well as identifying gaps in data collection. This should seek to complement any existing FGM data efforts such as those by UNICEF.

- **Develop improved and robust approaches to measuring and monitoring incidence and prevalence of FGM, changes in norms and attitudes relating to FGM and in the practice of FGM.** This will include changes in social norms and practices and measuring direction of travel in the short to medium term towards ending the practice, using both quantitative and qualitative approaches, at both programme and population levels. This will also include innovative approaches and draw on learning and experience from other sectors that have significant data collection challenges. The DM Supplier will also identify how these approaches can be integrated into government data systems and make steps towards this. The component may also be informed by some pilot trial data collection (to be decided during co-creation and in collaboration with the ALM component).
- Based on the above, **develop good practice guidance and training** for use by governments and implementing partners to robustly collect, analyse and use quantitative and qualitative data meaningfully to inform the design, implementation and monitoring of programmes and other efforts to end FGM.
- **Provide technical assistance to the ALM component and potentially the UNICEF/UNFPA and WHO-implemented components,** to support the programme's real-time monitoring and evaluation; including supporting timely development of baselines as well as a full programme monitoring plan.

18. The DM Supplier will deliver the following:

- i) Ambition, innovation, agility and flexibility; including the ability to gather and respond nimbly to new data, evidence, opportunities and changing contexts;
- ii) An innovative strategy for working with and adding value to the other programme components as well as other actors to complement and strengthen existing work and bring in new actors;
- iii) A catalytic approach that brings about maximum impact, leveraging people and resources towards ending FGM;
- iv) Cost effectiveness and value for money/value added.

Final decisions, the detailed workplan, results framework and schedule of interventions will be agreed during the co-creation phase and approved by FCDO.

Geographical Scope

19. The overall programme will take an intensive approach in 4-6 countries or regions in Africa, whilst laying the foundations for change more widely. This may include specific countries, cross-border regions, and sub-national regions. The final selection will be discussed with the ALM Supplier from and agreed

with FCDO during the co-creation phase. The Data and Measurement component will complement this country selection whilst also having a global element.

20. The ALM Supplier will finalise (in conjunction with the DM Supplier and FCDO) the most strategic combination of countries/regions that together will help achieve the aims of this programme; **accelerating the pace of change and achieving results at scale**, and avoiding resources and effort being spread too thinly, taking into account FGM prevalence rates; absolute numbers of girls and women affected by FGM; trends in the practice and rates of decline; cross-border issues; political commitment, opportunities and entry points, and the strategic importance of countries/regions for leveraging a knock-on or ripple effect of change – along with understanding of what is likely to be feasible within the five years of this phase of programming.

Requirements

21. The DM Supplier will demonstrate adherence to the overarching programme principles of understanding FGM within the wider context of violence and discrimination against women and girls and social norms: supporting, enabling, facilitating and strengthening efforts to end the practice that are led from within affected communities and countries; taking a human rights, gender equality and girls' empowerment approach to ending FGM; and Do No Harm.
22. The DM Supplier will be required to demonstrate data responsibility by producing a specific Do No Harm framework for this component of the programme. This will identify specific risks, monitoring and proactive mitigation strategies that relate to the sensitive nature of the issue of FGM, and will be adaptable to the geographic areas where the programme focuses. The DM Supplier will be expected to monitor this on a frequent and regular basis and demonstrate where it has adapted and responded to arising issues. FCDO takes this very seriously and will also include it as a central focus in its programme monitoring.
23. The DM Supplier will be required to work particularly closely and collaboratively with the ALM Supplier, feeding in to their design during the programme's co-creation phase, particularly in developing a robust monitoring framework, as well as for the duration of the programme itself.

Co-creation Phase

24. There will be a 6-9 month co-creation phase where the DM and ALM Suppliers will work together with FCDO to:
- Define an overall programme strategy and Theory of Change.
 - Produce an operational plan including country level plans, breakdown of activities and resources.

- Confirm the programme geography in 4-6 countries and establish delivery for each geography and context-specific theories of change.
- Finalise their supply chains to ensure they have the right skills and expertise following the co-creation phase.
- Finalise the results framework with specific deliverables and milestones that can be achieved through the life of the programme including robust indicators for all levels of the programme.
- Finalise the workplan and key deliverables.
- Finalise the risk matrix and the detailed budget breakdown.
- Finalise the formats for the quarterly and annual reports.
- Agree an approach for adaptive programming and learning strategy.
- Finalise a Do No Harm framework.
- Agree trial data collection in collaboration with the ALM Supplier.

25. Performance in this co-creation phase will be measured through regular monthly performance reports and a comprehensive six-month review. The DM Supplier will be required to prepare inception reports and an operational plan 9 months after the date of signing the contract.

26. The final programme design will be subject to FCDO approval.

27. Transition from co-creation to implementation may take place earlier at the agreement of all parties and on completion of all co-creation phase deliverables.

Implementation Phase

28. Following approval of the inception reports and operational plan, implementation will be for 51-54 months. The full implementation plan will be finalised during the inception period with a suite of specific programme outputs, programme performance measures and payment milestones agreed by FCDO and the DM Supplier.

29. Contract and supplier performance will be managed through the life of the programme via quarterly meetings and annual reviews.

30. Activity and process-oriented milestones will be closely monitored throughout the programme, through contract management and payments linked to results, quarterly meetings of all Partners and annual programme reviews.

Reporting

31. The Supplier will provide the following reports:

- Quarterly and annual forecasts of expenditure, to ensure strong financial management; annual financial reports, and a certified annual audit statement showing funds received and expended.
- Quarterly concise, evidence-based reports detailing key progress on activities, successes against results framework, emerging risks to delivery and capturing lessons learnt.
- An annual report in early March of each year to support the drafting of the Annual Review which is due in May of each year.
- Annual budget report identifying cost efficiencies and demonstrating value for money across all activities and during the life time of the programme.
- The Risk matrix updated quarterly setting out a clear strategy for monitoring, managing and mitigating risks and contingency plans.

Programme Management

32. The DM Supplier will be led by a Team Leader. The Team Leader will combine technical expertise, project management skills and experience in facilitating relations between multiple stakeholders. The Team Leader will be a well-respected and highly credible leader with a proven ability to bring a wide range of people and organisations together when working on complex and sensitive issues. **This is a crucial role that must be appropriately resourced.**

33. The DM Supplier will specify a “**Core Team**”, which will be responsible for overseeing adherence to these Terms of Reference and overall management of the programme across all outputs and deliverables. The Core Team should consist of **all** long and short term staff required to deliver the programme and should include the following expertise:

- i) **Leadership Team:** To include (but may not be limited to), the Programme Director, Team Leader and Deputy Team Leader, Senior Operational Manager(s) (including Finance). The Leadership Team will:
 - Be responsible for overall technical strategy and overall management of the programme in line with the ToR.
 - Be responsible for overall contract and budget management, management of risks including fiduciary risks; management of subs/supply chain partners; ensuring that the results of monitoring and lesson learning feed into programme implementation; procurement,

logistical and administrative oversight; overall management of relationships with key external partners including communities.

- The Team Leader is the overall lead for the programme responsible for overseeing the delivery of interventions, management and retention of staff and downstream partners, ensuring a strong working relationship between the DM Supplier and the supply chain partners, ensuring appropriate performance management and ongoing management to deliver the programme, with support from the Deputy Team Leader. The Team Leader is the key focal point for FCDO.

ii) **Management Team:**

- Responsible for developing and managing the workplan; managing and ensuring technical delivery; managing and ensuring appropriate monitoring and reporting and feedback loops into the programme; responsible for managing relationships with communities; ensuring appropriate communications and knowledge management both internally within the project and with external stakeholders.
- Responsible for providing leadership of outputs – developing and delivering the strategic direction for their Output; providing reliable data to inform the ALM interventions; ensuring appropriate technical inputs; ensuring consistency between the supporting data for the interventions and the overarching ToC and objectives of the Programme.

iii) **Technical teams:** Long and short term staff required to provide technical expertise **in each of the four working Output areas** to ensure development and delivery of a robust monitoring framework, in line with Outputs and Outcomes, including expertise in areas required such as Data Analysis, Monitoring, Verification and Evaluation, Operations, Finance, Admin, etc.

34. FCDO expects that the DM Supplier will deploy appropriate strategic, technical and management/ oversight, operational and administrative expertise within long and short-term staff in the Core Team as set out above.

35. The Core Team will be supported by the “**Extended Team**”. The Extended Team should provide timebound technical inputs which are not being provided by the Core Team and which are necessary for the delivery of Interventions across all four working Outputs.

36. FCDO expects that the Core and Extended Team should have sufficient levels of expertise to deliver across all four working Outputs.

37. The DM Supplier will be asked to pre-finance activities under the programme and be reimbursed by FCDO.

38. The DM Supplier will also need to provide, if applicable, a regular update of the delivery chain map illustrating the relationship with downstream partners.

Payment by Results

39. A payment by results model will be used to enable effective delivery of some aspects of the contract, although will be designed in such a way as not to disincentivise innovation and flexibility. The Supplier will be contracted under a hybrid model where a proportion of the contract will be linked to successful delivery of agreed Key Performance Indicators (KPIs) focusing initially on performance of contract management and adaptive approach. These will be finalised in coordination with the ALM Supplier and FCDO during the co-creation phase. Further output- or outcome-based financing may be agreed later in the programme to scale up successful approaches.

Co-Creation Phase:

40. 100% of Fees against Milestones for the tangible deliverables set in paragraph 24 for the co-creation phase.

Implementation Phase:

41. Payments will be made quarterly in arrears, with a quarterly review mechanism and payment schedule for the KPIs agreed in the co-creation phase. Expenses and Fee costs not linked to KPIs will be reimbursed based on actual spend.

- 15% of Fees against Contract Management KPIs linked to FCDO's SRM Scorecard (see Annex C)
- Not less than 20% of Fees against progress against outcomes/deliverables in the results framework (logframe or alternative) defined in co-creation phase and updated on an annual basis to ensure they are accurate and stretching and reflect the current context.

Programme Coherence

42. It is vital that all components of the programme work coherently together; collaborating closely to produce a programme that is more than the sum of its parts.

43. The DM Supplier's monitoring framework will include monitoring of partnership working across the whole programme. All Partners will participate in the Programme Board, which will meet once a year and will be chaired by a senior FCDO official. All Partners will also come together for an annual workshop to share learning and build synergies across all components of the programme.

Ways of working

44. The DM Supplier and supply chain partners will adopt ways of working based on mutual respect and understanding, learning and improving, and

partnerships that value each organisation and the expertise, experience and value that they bring to the programme. The DM Supplier should retain any supply chain partners and expertise throughout the life of the programme as far as possible.

FCDO Co-ordination

45. The Team Leader will report to the FCDO FGM Programme SRO in the Sexual and Reproductive Health and Rights Team and to an FCDO-chaired board. The board will provide strategic guidance on the delivery of the programme. The programme's SRO will make final decisions.
46. The DM Supplier will maintain regular dialogue with FCDO's programme management team to ensure compliance with all terms and conditions set out in the contract, as guided by FCDO's procurement department; best practice financial management, including timely and accurate financial forecasting and invoicing and cost control and effective contract management, including early notification of any proposed changes to the contract, before formal agreement is sought from FCDO's contract office.
47. The DM Supplier will ensure provision for periodic dialogue between FCDO and the non-lead suppliers in the supply chain.
48. FCDO will approve all senior appointments to the DM Supplier and any changes in downstream partners.

Timeframe

49. The contract will start in September 2020 and run for 5 years until September 2025.
50. The DM component will have a 6-9 month co-creation phase, followed by a 51-54 month implementation phase, in alignment with the ALM component.
51. There will be review points at:
 - The end of the co-creation phase 6-9 months after the Contract is signed. Transition to the implementation phase will be approved by FCDO.
 - At the mid-way point of the Contract, 2.5 years after the contract is signed.
 - At the end of March 2025. HMT Approval to spend beyond March 2025 will be required. FCDO will process this requirement in good time. In the event that funds are not secured, there will be no liability for FCDO beyond the approved period to 31 March 2025. An amendment will be required to confirm progression to the final phase of the contract.

Scale Up/down and Extension Options

52. There will be an option to extend the Contract by up to an additional 2 years in duration and £1.5m in value, taking the total potential contract duration to 7 years, depending on the success of the programme, performance and achievement of targets and if increased funds become available. Additional funds may be provided by FCDO, other donors, or a combination of donors.

UK Aid Communications and Branding

53. The DM Supplier will acknowledge UK Government funding in any press release or other contact with the media, including interviews, and agree any such statement with the FCDO press office before it is issued unless agreed otherwise with the FCDO SRO for reasons of sensitivity.
54. The DM Supplier will support FCDO in delivering its own media and communications work related to the funds provided and the expected results and impact, including contributions from the field such as case studies, photos and videos. It will collaborate with FCDO on other awareness raising activities where feasible and appropriate, in the UK and overseas, to profile the partnership and the results it is delivering.
55. The DM Supplier and FCDO will agree and regularly review an approach to use of the UK Aid logo and otherwise acknowledging UK support.
56. The DM Supplier and FCDO will agree appropriate communications and branding. The DM Supplier will not communicate the existence of this contract or details regarding the Programme without first having agreed the form and format for such communication with FCDO in writing.

Duty of Care

57. The DM Supplier is responsible for the safety and well-being of their Personnel (as defined under Contract Section 2, paragraph 10, Duty of Care of the contract) and Third Parties affected by their activities under this contract, including appropriate security arrangements. They will also be responsible for the provision of suitable security arrangements for their domestic and business property.
58. FCDO will share available information with the DM Supplier on security status and developments in-country where appropriate.
59. The DM Supplier is responsible for ensuring appropriate safety and security briefings for all their Personnel working under this contract. Travel advice is also available on the FCO website and the DM Supplier must ensure they and their Personnel are up to date with the latest position.
60. The DM Supplier is fully responsible for Duty of Care in line with the details provided above and the example risk assessment matrix provided by FCDO in Annex B. FCDO will provide a separate assessment for each proposed country

once they have been finalised in the co-creation phase. The DM Supplier must confirm:

- i) They fully accept responsibility for Duty of Care and Security
- ii) They have made a full assessment of security requirements
- iii) They have the capability to provide security and Duty of Care for the duration of the contract.

61. Acceptance of responsibility must be supported with evidence of Duty of Care capability and FCDO reserves the right to clarify any aspect of this evidence throughout the Contract term.

Transparency

62. FCDO requires suppliers receiving and managing funds, to release open data on how this money is spent, in a common, standard, re-usable format and to require this level of information from immediate subcontractors, sub-agencies and partners. It is a contractual requirement for all suppliers to comply with this, and to ensure they have the appropriate tools to enable routine financial reporting, publishing of accurate data and providing evidence of this FCDO. Further information is available from: <http://www.aidtransparency.net/>

Ethical Principles

63. It is a requirement that all FCDO evaluations comply with FCDO's Ethics Principles and the DM Supplier will include consideration of ethical issues and comply with the ethics principles throughout the delivery of the Contract. In practice this will involve:

- Considering whether external ethics approval is needed
- Ensuring that the research will not cause harm to participants
- Ensuring participation is voluntary
- Ensuring confidentiality is protected
- Taking account of international and local legislation
- Checking research and evaluation designs respect gender and cultural sensitivities
- Ensuring data is stored securely and safely
- Publication of research findings
- Protecting the independence of research and evaluation

- Seeking to ensure participation of marginalised groups

Safeguarding

64. FCDO maintains a zero-tolerance approach to sexual exploitation and abuse and sexual harassment within Supplier and Partner organisations, which includes their downstream supply chains. We expect FCDO Suppliers to follow our lead and robustly consider environmental and social safeguards through their own processes. The capacity of our Suppliers to do this and their effective performance should be a key risk assessment factor in programme design, delivery and monitoring and evaluation.
65. The DM Supplier and supply chain will identify, consider and mitigate their own safeguarding risks. FCDO will need to be satisfied prior to contact signing that the DM Supplier has robust safeguarding policies and procedures in place at all levels. FCDO will review this during each annual review.
66. FCDO does not envisage the necessity to conduct any environmental impact assessment for the implementation of the programme. However, it is important to adhere to principles of “Do No Harm” to the environment.
67. FCDO requires assurances regarding protection from violence, exploitation and abuse through involvement, directly or indirectly, with FCDO suppliers and programmes. This includes sexual exploitation and abuse but should also be understood as all forms of physical or emotional violence or abuse and financial exploitation.
68. The DM Supplier and supply chain must have a zero-tolerance approach towards sexual exploitation, abuse and harassment. The DLM Supplier will immediately contact FCDO via reportingconcerns@FCDO.gov.uk or +44 (0)1355 843747, to report any credible suspicions of, or actual incidents of sexual exploitation, abuse or harassment related to this Arrangement. The DM Supplier should assess credibility based on the source of the allegation, the content, and the level of detail or evidence provided. All sexual activity with children (persons under the age of 18) is prohibited, regardless of the age of majority, or age of consent locally. The DM Supplier must also report any credible suspicions of, or actual incidents that are not directly related to this Arrangement but would be of significant impact to their partnership with FCDO or the reputation of FCDO or UK aid. For example, events that affect the governance or culture of the DM Supplier, such as those related to senior management, must be reported.
69. In addition to FCDO’s overall zero-tolerance approach to safeguarding, given the nature of this programme there will be additional requirements of Suppliers, in line with the programme’s Do No Harm principle. The DM Supplier will be required to demonstrate appropriate safeguarding policy and measures for staff, supply chain partners, stakeholders, activists and beneficiaries involved in the programme specifically related to the issue of FGM, related trauma and the challenges of working on this issue, particularly but not only for women who have experienced the practice. This may include provision of counselling.

General Data Protection Regulation (GDPR)

70. Please refer to the details of the GDPR relationship status and personal data (where applicable) for this project as detailed in Annex D and the standard clause 33 in section 2 of the contract.

Background

71. The World Health Organization (WHO) defines FGM as ‘all procedures that involve partial or total removal of the external female genital organs for nonmedical reasons’. Both the practice and the age at which it is carried out vary across affected communities.
72. The United Nations Population Fund (UNFPA) estimates that at least 200 million girls and women alive today have undergone FGM, and 68 million more girls are at risk by 2030. The practice is mainly carried out in 29 African countries but also in the Middle East, Indonesia and some communities in other parts of Asia; and within diaspora communities around the world.
73. FGM has been carried out for thousands of years, and in practising communities is usually considered an ordinary part of life, and essential to being considered a proper woman in society. Traditionally, girls and women who have not been cut have been ostracised.
74. FGM is an extreme manifestation of gender inequality. It is a form of violence against women and girls. It is a human rights violation that can result in a lifetime of physical, psychological and emotional suffering.
75. FGM can cause serious physical harm including bleeding, pain, shock, genital tissue damage, fever, infections, urination and menstrual problems, and in the worst case it can cause death. There is also evidence of increased risk of complications at childbirth putting mothers and newborns at risk. The practice also reduces sexual functioning because of painful intercourse, lack of satisfaction and reduced sexual desire. Having FGM carried out, as well as the complications linked to the practice, may trigger psycho-social complications including acute anxieties, depression, psychoses, neuroses and post-traumatic stress-disorder. There is no health benefit to the practice.
76. There is strong African leadership to end FGM and significant momentum for change in Africa. Efforts to end FGM are being led from within affected communities and countries, and thousands of communities across Africa have already decided to abandon the practice. The UK’s role is to support this Africa-led movement to end FGM, and our efforts have helped accelerate change. This is an important moment to consolidate the significant progress already made, accelerate the pace of change and give the Africa-led movement the support it needs to end FGM once and for all.
77. This programme is designed as the second phase of a 20-year investment and will contribute to the long-term vision of a world where FGM is no longer practiced by 2030, in line with the Sustainable Development Goals.

Annex A: Full FCDO programme

In November 2018, FCDO announced a new programme of up to £35 million to support global efforts to end FGM. This will build on the foundations of FCDO's first phase of investment in ending FGM (2013 – 2018) and will provide support at multiple levels and at scale to accelerate the pace of change to help end FGM, through:

- i. **Supporting and building the capacity of the Africa-led movement to end FGM at multiple levels and at scale**, through:
 - The delivery of targeted interventions at community level, which will include a comprehensive, structured package of support to a set of communities to end the practice
 - The establishment of a small-grants mechanism to build the capacity and ability of, grassroots women's and youth-led organisations and activists to lead change and hold governments to account in their own countries
 - Testing and developing best practice guidance on how to integrate ending FGM interventions into existing development programmes with significant grassroots reach, helping to reinforce ending FGM efforts at scale
 - The strategic use of media and campaigns to amplify and diffuse the process of change
 - Enhanced global advocacy to encourage more actors at different levels to help end FGM and increase the pace of change
 - Real-time monitoring and evaluation which allows the programme to respond quickly to learning as it progresses
- ii. **Getting laws, policies and systems at multiple levels to work effectively to end FGM**, by:
 - Helping to get laws and policies in place and implemented where they are still needed, with reference to international law and agreements
 - Supporting key sectors and government ministries (such as health, education and security and justice) to work effectively to end FGM
- iii. **Fixing some of the global data challenges that are holding progress back**, through:
 - In-depth analysis of existing data so global programming is strategic, evidence-based and has greatest possible impact
 - Improving ways to measure change in social attitudes and progress towards behaviour change, so we know in much quicker time which interventions are working

Annex B - Duty of Care Matrix

Please note, this is an example Duty of Care Matrix based on Nigeria. FCDO will provide a separate assessment for each proposed country and the Supplier will be responsible for validating this assessment and incorporating onto their Duty of Care Arrangements.
