3 Tender Specification

1.1 Scope and Specification

In 2015 CPI was awarded a project to develop a National Formulation Centre (NFC). The Press Release is available here:-

<http://www.uk-cpi.com/news/14-4m-investment-into-formulation-innovation-centre/>

CPI's National Formulation Centre is a UK based open-access innovation centre for advanced formulated product design and manufacture. The centre is industry driven and brings together world class cross expertise, technology and infrastructure to provide the environment for companies to accelerate the commercialisation of next generation formulated products.

The National Formulation Centre is driving a step-change in the way formulated products are made and delivered, providing the platform for UK based companies to bring new, high value innovations to market, many years ahead of competitors. The model is driven to solve the key challenges for industry and we are working with global market leaders to do so.

1.2 Scope of Contract

This contract is for the supply and delivery of a Particle Viewer and will include training on how to use the equipment along with technical support to be provided after purchase.

The scope of contract includes but is not limited to the sourcing and supply of component parts, any design or engineering work required, integration of component parts.

Packing, shipping, delivery to the University Of Birmingham, and training of users as well as any maintenance, spare or replacement parts and supply of consumables where applicable, are also within the scope of this procurement. The system must be capable of being disassembled for relocation to our National Formulation Centre in the future.

Division of Contract into Lots

CPI has made an assessment that this contract is not suitable to be divided into lots. In order to ensure continuity of service / supply we require one supplier to be responsible for the performance of the contract. If you are able to provide some but not all of the scope of services, CPI will accept consortium/joint tenders. For consortium/joint tenders please provide full details of the companies involved and the proposed structure. Please note that all parties to the contract should complete Parts A and B of the appended standard questionnaire.
