

**CPD4124068**

## **Local Digital Cyber Support Programme**

### **More information on the contract**

The contract is expected to deliver outcomes across aspects of our cyber objectives

- Work with councils to assess and manage the cyber risk to local government
- Work with councils to substantially reduce disruption to local government services caused by cyber-attacks
- Work with councils to develop tried and tested routes for improving the usability, accessibility and security of local services
- Ensure councils have the skills, knowledge and tools they need to design and deliver modern digital public services
- Ensure councils have better access to key business systems that follow the standards outlined in the Technology Code of Practice, which include being accessible, user-centred, cloud-first and secure

The contract will meet key priority areas across the programme, including:

- Providing advisory skills to support the programme to design and deliver its outcomes by providing expert cyber and technical skills
- Operational skills to ensure the programme is able to fund and work closely with local government organisations to improve cyber health and reduce cyber risks
- Research, design and development skills to refine theories of change, horizon scan and support the programme to respond to growing cyber security threats
