Urgent Communications Advice and Support

SSRO-C-60

Tender Clarification #1

Date: 20th February 2018

NUMBER	QUESTION	ANSWER
1	Do the issues you face tend to be contained within the UK, or do they extend into other countries?	They tend to be contained with the UK.
2	Will you require any international communications counsel or support in other countries? If so, which countries?	None will be required.
3	Do you consider companies such as BAE Systems, Lockheed Martin and Airbus (as mentioned in the ITT) as conflicts of interest?	As stated in section 3.38 of our ITT, a third party may experience a conflict of interest "due to working with, or having worked with, organisations or individuals the SSRO may regulate". This could include the organisations listed.
4	What would you consider as conflicts of interests?	Based on section 29 of the ITT terms and conditions document, a conflict of interest would be anything which subordinate or otherwise undermine the SSRO's interests to the advantage of its own interests of those of any third party.
