# Section 1 – About UK Shared Business Services

## Putting the business into shared services

UK Shared Business Services Ltd (UK SBS) brings a commercial attitude to the public sector; helping our Contracting Authorities improve efficiency, generate savings and modernise.

It is our vision to become the leading service provider for the Contracting Authorities of shared business services in the UK public sector, continuously reducing cost and improving quality of business services for Government and the public sector.

Our broad range of expert services is shared by our Contracting Authorities. This allows Contracting Authorities the freedom to focus resources on core activities; innovating and transforming their own organisations.

Core services include Procurement, Finance, Grants Admissions, Human Resources, Payroll, ISS, and Property Asset Management all underpinned by our Service Delivery and Contact Centre teams.

UK SBS is a people rather than task focused business. It's what makes us different to the traditional transactional shared services centre. What is more, being a not-for-profit organisation owned by the Department for Business, Energy & Industrial Strategy (BEIS), UK SBS' goals are aligned with the public sector and delivering best value for the UK taxpayer.

UK Shared Business Services Ltd changed its name from RCUK Shared Services Centre Ltd in March 2013.

## Our Customers

Growing from a foundation of supporting the Research Councils, 2012/13 saw Business, Energy and Industrial Strategy (BEIS) transition their procurement to UK SBS and Crown Commercial Services (CCS – previously Government Procurement Service) agree a Memorandum of Understanding with UK SBS to deliver two major procurement categories (construction and research) across Government.

UK SBS currently manages £700m expenditure for its Contracting Authorities. Our Contracting Authorities who have access to our services and Contracts are detailed [here](#).

## **Privacy Statement**

At UK Shared Business Services (UK SBS) we recognise and understand that your privacy is extremely important, and we want you to know exactly what kind of information we collect about you and how we use it.

This privacy notice link below details what you can expect from UK SBS when we collect your personal information.

- We will keep your data safe and private.
- We will not sell your data to anyone.

- We will only share your data with those you give us permission to share with and only for legitimate service delivery reasons.

<https://www.ukpbs.co.uk/use/pages/privacy.aspx>

## **Privacy Notice**

This notice sets out how the Contracting Authority will use your personal data, and your rights. It is made under Articles 13 and/or 14 of the UK General Data Protection Regulation (UK GDPR).

### **YOUR DATA**

The Contracting Authority will process the following personal data:

Names and contact details of employees involved in preparing and submitting the bid;  
Names and contact details of employees proposed to be involved in delivery of the contract;  
Names, contact details, age, qualifications and experience of employees whose CVs are submitted as part of the bid.

#### *Purpose*

The Contracting Authority are processing your personal data for the purposes of the tender exercise, or in the event of legal challenge to such tender exercise.

#### *Legal basis of processing*

The legal basis for processing your personal data is processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the data controller, such as the exercise of a function of the Crown, a Minister of the Crown, or a government department; the exercise of a function conferred on a person by an enactment; the exercise of a function of either House of Parliament; or the administration of justice.

#### *Recipients*

Your personal data will be shared by us with other Government Departments or public authorities where necessary as part of the tender exercise. The Contracting Authority may share your data if required to do so by law, for example by court order or to prevent fraud or other crime.

#### *Retention*

All submissions in connection with this tender exercise will be retained for a period of 7 years from the date of contract expiry, unless the contract is entered into as a deed in which case it will be kept for a period of 12 years from the date of contract expiry.

### **Your Rights**

You have the right to request information about how your personal data are processed, and to request a copy of that personal data.

You have the right to request that any inaccuracies in your personal data are rectified without delay.

You have the right to request that any incomplete personal data are completed, including by means of a supplementary statement.

You have the right to request that your personal data are erased if there is no longer a justification for them to be processed.

You have the right in certain circumstances (for example, where accuracy is contested) to request that the processing of your personal data is restricted.

You have the right to object to the processing of your personal data where it is processed for direct marketing purposes.

You have the right to object to the processing of your personal data.

### ***International Transfers***

As your personal data is stored on our IT infrastructure and shared with our data processors Microsoft and Amazon Web Services, it may be transferred and stored securely in the UK and European Economic Area. Where your personal data is stored outside the UK and EEA it will be subject to equivalent legal protection through the use of Model Contract Clauses.

### **Complaints**

If you consider that your personal data has been misused or mishandled, you may make a complaint to the Information Commissioner, who is an independent regulator. The Information Commissioner can be contacted at:

Information Commissioner's Office  
Wycliffe House  
Water Lane  
Wilmslow  
Cheshire  
SK9 5AF  
0303 123 1113  
[casework@ico.org.uk](mailto:casework@ico.org.uk)

Any complaint to the Information Commissioner is without prejudice to your right to seek redress through the courts.

### **Contact Details**

The data controller for your personal data is:

The Department for Business, Energy & Industrial Strategy (BEIS)

You can contact the Data Protection Officer at:

BEIS Data Protection Officer, Department for Business, Energy and Industrial Strategy, 1 Victoria Street, London SW1H 0ET. Email: [dataprotection@beis.gov.uk](mailto:dataprotection@beis.gov.uk).

## Section 2 – About the Contracting Authority

### Department for Business, Energy & Industrial Strategy (BEIS)

The Department for Business, Energy, and Industrial Strategy (BEIS) was created as a result of a merger between the Department of Energy and Climate Change (DECC) and the Department for Business, Innovation and Skills (BIS), as part of the Machinery of Government (MoG) changes in July 2016.

The Department is responsible for:

- developing and delivering a comprehensive industrial strategy and leading the government's relationship with business;
- ensuring that the country has secure energy supplies that are reliable, affordable, and clean;
- ensuring the UK remains at the leading edge of science, research, and innovation; and
- tackling climate change.

BEIS is a ministerial department, supported by 46 agencies and public bodies.

We have around 2,500 staff working for BEIS. Our partner organisations include 9 executive agencies employing around 14,500 staff.

<http://www.beis.gov.uk>

## Section 3 - Working with the Contracting Authority.

In this section you will find details of your Procurement contact point and the timescales relating to this opportunity.

Section 3 – Contact details		
3.1.	Contracting Authority Name and address	<b>Department for Business, Energy, and Industrial Strategy (BEIS)</b> 1 Victoria Street, Westminster, London, SW1H 0ET
3.2.	Buyer name	Joe Wightman
3.3.	Buyer contact details	<a href="mailto:Joseph.wightman@uksbs.co.uk">Joseph.wightman@uksbs.co.uk</a>
3.4.	Maximum value of the Opportunity	<b>£60,000.00 (Maximum) Excluding VAT</b>
3.5.	Process for the submission of clarifications and Bids	<b>All correspondence shall be submitted within the Messaging Centre of the e-sourcing. Guidance Notes to support the use of Delta eSourcing is available <a href="#">here</a>. Please note submission of a Bid to any email address including the Buyer <u>will</u> result in the Bid <u>not</u> being considered.</b>

Section 3 - Timescales		
3.6.	Date of Issue of Contract Advert on Contracts Finder	Tuesday, 07 December 2021 Contracts Finder
3.7.	Latest date / time ITQ clarification questions shall be received through Delta eSourcing messaging system	Monday, 20 December 2021 11:00
3.8.	Latest date / time ITQ clarification answers should be sent to all Bidders by the Buyer through Delta eSourcing Portal	Thursday, 23 December 2021
3.9.	Latest date and time ITQ Bid shall be submitted through Delta eSourcing	Wednesday, 12 January 2022 11:00
3.10.	Anticipated notification date of successful and unsuccessful Bids	Tuesday, 18 January 2022
3.11.	Anticipated Contract Award date	Friday, 21 January 2022
3.12.	Anticipated Contract Start date	Monday, 24 January 2022
3.13.	Anticipated Contract End date	Friday, 22 April 2022
3.14.	Bid Validity Period	90 Working Days

## Section 4 – Specification

### Introduction

The Industrial Energy Directorate (IE) sits at the heart of the Government's commitment to delivering net zero emissions across the UK economy by 2050. The Directorate will contribute to this goal by incentivising and supporting industry to reduce their emissions and invest in innovative, clean technology. Our projects will transform industrial energy use and help businesses to seize the opportunities of clean growth in the global economy.

The Industrial Energy Delivery Team is working to improve the availability and quality of data within IE. This is essential for the development of evidence-based policies, and to ensure that we can monitor and evaluate their success. We have identified a list of priority, cross-cutting data gaps which are of strategic importance to IE policy.

BEIS is looking for specialist external resource to undertake a 3-month research project to address one of our priority data gaps – site-level emissions of smaller industrial sites.

### Background

Most site level greenhouse gas emissions are captured via the Emissions Trading Scheme (ETS) and reported in the National Atmospheric Emissions Inventory (NAEI) large point source dataset. However, this does not cover smaller sites traditionally outside the scope of the ETS (c.25-33% of industrial emissions). This research is the first step in capturing greenhouse gas emissions for these sites.

The research is needed to improve our understanding across our portfolio of where industrial emissions occur. This will improve our decision-making, targeting and timing of policies on an ongoing basis up to 2050, futureproof our evidence base for policy development and monitoring, and ultimately support decarbonisation of industry in line with Carbon Budget and Net Zero targets.

### Aims and objectives

The project aims to develop a methodology to estimate site-level emissions of smaller industrial sites traditionally outside the scope of the ETS.

#### Project objectives:

1. Evaluate multiple (recommended at least 3) methods for estimating site-level industrial emissions based primarily on already-published datasets.
2. Demonstrate accuracy and robustness of methods, by at least testing outputs against trusted sources of emissions data (e.g., NAEI) or energy data (e.g., ND-NEED)
3. Recommend a methodology for this analysis – this could be one of the methodologies evaluated in the previous step, or a combination of multiple.
4. Provide a dataset of industrial sites with site-level emissions estimates calculated using the chosen methodology.
5. Provide recommendations for how this data can be maintained and improved in future.

Outputs from this research will inform the direction of future research projects, which will aim to improve emissions estimates through other methods (e.g., verification against physical data collection).

### Benefits for policy

There are a number of policy areas which will benefit from achieving the project aims and objectives listed above. We will share the detailed list with the winning supplier. We expect two categories of benefits, depending on whether the methodologies tested can provide:

**1) broad-brush emissions estimates:** Informing targeting and prioritisation of policy development across our portfolio. In particular for non-ETS sites understanding system impacts of carbon capture, informing the development of future policies on carbon pricing, informing our modelling of industrial decarbonisation pathways, and setting the foundations for more granular modelling of industrial energy consumption and equipment stock.

**2) more accurate emissions estimates:** Monitoring and evaluation of emissions reduction impacts of funds and policies across our portfolio.

The project will, at minimum, be expected to deliver a product which BEIS can use to benefit the outcomes described in “1) broad-brush emissions estimates” above.

### **Scope**

- Priority scope: we expect the methodologies and dataset produced to cover all UK industrial (manufacturing SIC 10-33, mining and quarrying SIC 5, 7-9) sites.
- Secondary scope: We expect the methodologies and datasets to cover sites contained within following SIC codes, including those currently below the ETS thermal threshold. However, we acknowledge that it may be time-intensive to include these. If the contractor decides to exclude these sites, this must be agreed with the BEIS project team, with a clear justification for their exclusion and recommendations for how the methodology can be extended to cover these in future.
  - 35.11 – production of electricity
  - 35.22 – Distribution of gaseous fluids through mains
  - 35.3 – Steam and air conditioning supply
  - 36 – Water collection, treatment & supply
  - 37 – sewage
  - 38.2 – Energy from Waste
- We do not expect the methodologies and datasets produced to include sites covered by the following SIC codes, but the contractor should note where the methodologies can be extended to cover these sites:
  - 51.1 – Passenger air transport
  - 63.11 – Data Process, hosting and related activities
  - 84.22 – Defence activities
  - 85.42 – Tertiary education
  - 86.1 – Hospital activities
  - 1.19 – Growing of other non-perennial crops
- The focus is on smaller sites not captured in NAEI data. However larger sites are kept in scope for purposes of verifying outputs against NAEI.
- Scope 1 emissions.
- All greenhouse gases presented as carbon dioxide equivalents

A site is defined as either the building or the business where industrial emissions occur – whichever is smallest.

## **Methodology**

The core of this project is an evaluation of multiple methodologies for estimating site-level emissions data. To encourage innovation, we will allow flexibility for bidders to propose their own methodologies during both the bidding process and the project itself.

We anticipate that this could include:

- Analysis and linking of multiple datasets, including national-level emissions data (e.g., Greenhouse Gas inventory), site-level location data (e.g., Valuation Office Agency, Ordnance Survey) and company-level data (e.g., Companies House).
- Triangulation of outputs against bottom-up analysis of energy data (e.g., ND-NEED), and between different methodologies.
- Validation of the method against trusted sources of larger site level emissions (e.g., NAEI).

We expect all methodologies to be based on accessible quantitative data. The contractor should demonstrate how their outputs can be reconciled with National Statistics, in particular via IPCC codes in Final UK Greenhouse Gas Emissions Statistics (see Table "2019 UK greenhouse gas emissions: final figures - dataset of emissions by source" in <https://www.gov.uk/government/statistics/final-uk-greenhouse-gas-emissions-national-statistics-1990-to-2019>)

The contractor should clearly indicate in their tender whether they would expect any of their proposed data would be provided by BEIS and, if so, the specifications of these data. The contractor should note that the methods should be based on publicly available information, so the ability of BEIS to provide extra detail is limited.

We expect to publish the outputs of this research, including the methodologies evaluated and, if robust, the dataset produced. The contractor should consider the sensitivity and confidentiality of any outputs and include any recommendations for managing this in the final report.

## **Quality assurance and transparency**

We expect the contractor to only make use of open source, or widely available, software when it comes to data handling and processing. For example, Python, R or SQL. Other software may be used provided it is open source and free to use.

All methods, models and modelling must be quality assured and documented.

Contractors should include a Quality Assurance (QA) plan that they will apply to all of the research tasks and modelling. This QA plan should be no longer than 2 sides of A4 paper. It should include the delivery of a BEIS QA Log.

[This link](#) contains an externally accessible version of the BEIS Modelling QA guidance, and the QA log: The QA log should be filled during the project and submitted at project completion as a deliverable to demonstrate the QA undertaken.

When models are submitted to BEIS, during the project or at completion, they should be accompanied by confirmation by a senior (partner or equivalent) of the contracting organisation, that the assurance has taken place in accordance with approaches outlined in the QA plan agreed with BEIS. Evidence of testing through development provided in support of the QA Log ratings greatly improves the level of confidence in it.

For all projects contractors must supply quality assurance evidence for any existing models they wish to submit to BEIS. This must be to a standard that is at least the equivalent of BEIS's internal standard, available at [this link](#), and accepted as suitable by BEIS.

### **Deliverables**

At project initiation (week 1)

1. A two-page QA plan at the start of the project

Interim deliverables (week 8)

2. A detailed technical report of the methodologies (recommended at least three) evaluated to produce emissions estimates. This should include:
  - a. A clear description of the assessment criteria used.
  - b. Detailed description of the data quality and limitations of each methodology.
  - c. A justification of the chosen recommended methodology and assumptions.
3. Draft report summarising the recommended methodology, with recommendations for how the dataset should be maintained and improved in future, including a consideration of any sensitivities for publishing.
4. First version of dataset of UK industrial sites, their sectors and locations, with site-level emissions data

Final deliverables (week 12)

1. Final version of report as described in deliverable #3
2. Final version of dataset as described in deliverable #4
3. Complete BEIS QA log which demonstrates the validity of the way the method was picked and the implementation of the recommended method. Any issues highlighted in the QA log must be resolved before the project completes.

NB: this is an indicative timeline and may have to be adjusted to fit with internal governance and policy development timelines

### **Additional criteria:**

The research outputs should be designed with the following criteria in mind:

- The dataset should be updateable on a regular basis, preferably annual, and be possible to maintain by BEIS in-house.
- The dataset should be designed to be easily linkable with other datasets in future – thus increasing its value (e.g., with energy network capacity, financials, intel). We will provide guidance on our linking requirements.
- The dataset should be in a csv file at a minimum, with an accompanying data dictionary.

### **Payment**

The successful supplier will be paid based on delivery of the research outputs listed above.

**Terms and Conditions**

Bidders are to note that any requested modifications to the Contracting Authority Terms and Conditions on the grounds of statutory and legal matters only, shall be raised as a formal clarification during the permitted clarification period.

## Section 5 – Evaluation model

The evaluation model below shall be used for this ITQ, which will be determined to two decimal places.

Where a question is 'for information only' it will not be scored.

The evaluation team may comprise staff from UK SBS and the Contracting Authority and any specific external stakeholders the Contracting Authority deems required.

The evaluation and if required team may comprise staff from UK SBS and the Contracting Authority and any specific external stakeholders the Contracting Authority deems required. After evaluation and if required moderation scores will be finalised by performing a calculation to identify (at question level) the mean average of all evaluators (Example – a question is scored by three evaluators and judged as scoring 5, 5 and 6. These scores will be added together and divided by the number of evaluators to produce the final score of 5.33 ( $5+5+6=16 \div 3 = 5.33$ ))

Pass / Fail criteria		
Commercial	SEL1.2	Employment breaches/ Equality
Commercial	SEL1.3	Modern Slavery
Commercial	SEL1.4	Classification of organisation
Commercial	SEL1.5	Size of organisation
Commercial	SEL2.10	Cyber Essentials
Commercial	SEL2.12	General Data Protection Regulations (GDPR) Act and the Data Protection Act 2018
Commercial	FOI1.1	Freedom of Information
Commercial	AW1.1	Form of Bid
Commercial	AW1.3	Certificate of Bona Fide Bid
Commercial	AW3.1	Validation check
Commercial	AW4.1	Compliance to the Contract Terms
Commercial	AW4.2	Changes to the Contract Terms
Price	AW5.1	Firm and Fixed Price
Price	AW5.3	Maximum Budget
Quality	AW6.1	Compliance to the Specification
Quality	AW6.2	Variable Bids

Scoring criteria			
Evaluation Justification Statement			
In consideration of this particular requirement the Contracting Authority has decided to evaluate Potential Providers by adopting the weightings/scoring mechanism detailed within this ITQ. The Contracting Authority considers these weightings to be in line with existing best practice for a requirement of this type.			
Questionnaire	Q No.	Question subject	Maximum Marks
Price	AW5.2	Price	20%
Quality	PROJ1.1	Approach / Methodology	40%
Quality	PROJ1.2	Skills & Expertise	15%
Quality	PROJ1.3	Understanding the Project Environment	12.5%
Quality	PROJ1.4	Project plan and Timescales	12.5%

## Evaluation of criteria

### Non-Price elements

Each question will be judged on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20%.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation:

$$\text{Score} = \{\text{weighting percentage}\} \times \{\text{bidder's score}\} = 20\% \times 60 = 12$$

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The Question is not answered, or the response is completely unacceptable.
10	Extremely poor response – they have completely missed the point of the question.
20	Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
40	Poor response only partially satisfying the question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.
60	Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.
80	Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.
100	Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing full assurance consistent with a quality provider.

All questions will be scored based on the above mechanism. Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows:

### Example

Evaluator 1 scored your bid as 60

Evaluator 2 scored your bid as 60

Evaluator 3 scored your bid as 40

Evaluator 4 scored your bid as 40

Your final score will  $(60+60+40+40) \div 4 = 50$

Once the above evaluation process has been undertaken and the scores are apportioned by evaluator(s) this will then be subject to an independent commercial review and moderation meeting, if required by the commercial lead, any and all changes will be formally recorded relative to the regulatory obligations associated with this procurement, so as to ensure that the procurement has been undertaken in a robust and transparent way.

**Price elements** will be judged on the following criteria.

The lowest price for a response which meets the pass criteria shall score 100.  
All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the price criterion.

For example - Bid 1 £100,000 scores 100.

Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80

Bid 3 £150,000 differential £50,000 remove 50% from price scores 50.

Bid 4 £175,000 differential £75,000 remove 75% from price scores 25.

Bid 5 £200,000 differential £100,000 remove 100% from price scores 0.

Bid 6 £300,000 differential £200,000 remove 100% from price scores 0.

Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50.

In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: Score/Total Points multiplied by 50 ( $80/100 \times 50 = 40$ )

The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

This evaluation criteria will therefore not be subject to any averaging, as this is a mathematical scoring criteria, but will still be subject to a commercial review.

## Evaluation process

The evaluation process will feature some, if not all, the following phases.

Stage	Summary of activity
Receipt and Opening	<ul style="list-style-type: none"><li>ITQ logged upon opening in alignment with UK SBS's procurement procedures.</li><li>Any ITQ Bid received after the closing date will be rejected unless circumstances attributed to the Contracting Authority or the e-sourcing tool beyond the bidder control are responsible for late submission.</li></ul>
Compliance check	<ul style="list-style-type: none"><li>Check all Mandatory requirements are acceptable to the Contracting Authority.</li><li>Unacceptable Bids maybe subject to clarification by the Contracting Authority or rejection of the Bid.</li></ul>
Scoring of the Bid	<ul style="list-style-type: none"><li>Evaluation team will independently score the Bid and provide a commentary of their scoring justification against the criteria.</li></ul>
Clarifications	<ul style="list-style-type: none"><li>The Evaluation team may require written clarification to Bids</li></ul>
Re - scoring of the Bid and Clarifications	<ul style="list-style-type: none"><li>Following Clarification responses, the Evaluation team reserve the right to independently re-score the Bid and Clarifications and provide a commentary of their re-scoring justification against the Evaluation criteria.</li></ul>
Moderation meeting (if required to reach an award decision)	<ul style="list-style-type: none"><li>To review the outcomes of the Commercial review</li><li>To agree final scoring for each Bid, relative rankings of the Bids</li></ul>
Due diligence of the Bid	<ul style="list-style-type: none"><li>the Contracting Authority may request the following requirements at any stage of the Procurement.</li></ul>

	<ul style="list-style-type: none"> <li>• Submission of insurance documents from the Bidder</li> <li>• Request for evidence of documents / accreditations referenced in the / Invitation to Quote response / Bid and / or Clarifications from the Bidder</li> <li>• Taking up of Bidder references from the Bidders Customers.</li> <li>• Financial Credit check for the Bidder</li> </ul>
Validation of unsuccessful Bidders	<ul style="list-style-type: none"> <li>• To confirm contents of the letters to provide details of scoring and meaningful feedback on the unsuccessful Bidders Bid in comparison with the successful Bidders Bid.</li> </ul>

## **Section 6 – Evaluation questionnaire**

Bidders should note that the evaluation questionnaire is located within the **e-sourcing questionnaire**.

Guidance on how to register and use the e-sourcing portal is available at <http://www.uksbs.co.uk/services/procure/Pages/supplier.aspx>

**PLEASE NOTE THE QUESTIONS ARE NOT NUMBERED SEQUENTIALLY**

## Section 7 – General Information

### What makes a good bid – some simple do's 😊

#### DO:

- 7.1 Do comply with Procurement document instructions. Failure to do so may lead to disqualification.
- 7.2 Do provide the Bid on time, and in the required format. Remember that the date/time given for a response is the last date that it can be accepted; we are legally bound to disqualify late submissions. Responses received after the date indicated in the ITQ shall not be considered by the Contracting Authority, unless the Bidder can justify that the reason for the delay, is solely attributable to the Contracting Authority
- 7.3 Do ensure you have read all the training materials to utilise e-sourcing tool prior to responding to this Bid. If you send your Bid by email or post it will be rejected.
- 7.4 Do use Microsoft Word, PowerPoint Excel 97-03 or compatible formats, or PDF unless agreed in writing by the Buyer. If you use another file format without our written permission, we may reject your Bid.
- 7.5 Do ensure you utilise the Delta eSourcing messaging system to raise any clarifications to our ITQ. You should note that we will release the answer to the question to all Bidders and where we suspect the question contains confidential information, we may modify the content of the question to protect the anonymity of the Bidder or their proposed solution
- 7.6 Do answer the question, it is not enough simply to cross-reference to a 'policy', web page or another part of your Bid, the evaluation team have limited time to assess bids and if they can't find the answer, they can't score it.
- 7.7 Do consider who the Contracting Authority is and what they want – a generic answer does not necessarily meet every Contracting Authority's needs.
- 7.8 Do reference your documents correctly, specifically where supporting documentation is requested e.g. referencing the question/s they apply to.
- 7.9 Do provide clear, concise and ideally generic contact details; telephone numbers, e-mails and fax details.
- 7.10 Do complete all questions in the questionnaire or we may reject your Bid.
- 7.11 Do ensure that the Response and any documents accompanying it are in the English Language, the Contracting Authority reserve the right to disqualify any full or part responses that are not in English.
- 7.12 Do check and recheck your Bid before dispatch.

## What makes a good bid – some simple do not's Ⓜ

### DO NOT

- 7.13 Do not cut and paste from a previous document and forget to change the previous details such as the previous buyer's name.
- 7.14 Do not attach 'glossy' brochures that have not been requested, they will not be read unless we have asked for them. Only send what has been requested and only send supplementary information if we have offered the opportunity so to do.
- 7.15 Do not share the Procurement documents, they are confidential and should not be shared with anyone without the Buyers written permission.
- 7.16 Do not seek to influence the procurement process by requesting meetings or contacting UK SBS or the Contracting Authority to discuss your Bid. If your Bid requires clarification the Buyer will contact you. All information secured outside of formal Buyer communications shall have no Legal standing or worth and should not be relied upon.
- 7.17 Do not contact any UK SBS staff or the Contracting Authority staff without the Buyers written permission or we may reject your Bid.
- 7.18 Do not collude to fix or adjust the price or withdraw your Bid with another Party as we will reject your Bid.
- 7.19 Do not offer UK SBS or the Contracting Authority staff any inducement or we will reject your Bid.
- 7.20 Do not seek changes to the Bid after responses have been submitted and the deadline for Bids to be submitted has passed.
- 7.21 Do not cross reference answers to external websites or other parts of your Bid, the cross references and website links will not be considered.
- 7.22 Do not exceed word counts, the additional words will not be considered.
- 7.23 Do not make your Bid conditional on acceptance of your own Terms of Contract, as your Bid will be rejected.
- 7.24 Do not unless explicitly requested by the Contracting Authority either in the procurement documents or via a formal clarification from the Contracting Authority send your response by any way other than via e-sourcing tool. Responses received by any other method than requested will not be considered for the opportunity.

## Some additional guidance notes

- 7.25 All enquiries with respect to access to the e-sourcing tool and problems with functionality within the tool must be submitted to Delta eSourcing, Telephone 0845 270 7050
- 7.26 Bidders will be specifically advised where attachments are permissible to support a question response within the e-sourcing tool. Where they are not permissible any attachments submitted will not be considered as part of the evaluation process.
- 7.27 Question numbering is not sequential and all questions which require submission are included in the Section 6 Evaluation Questionnaire.
- 7.28 Any Contract offered may not guarantee any volume of work or any exclusivity of supply.
- 7.29 We do not guarantee to award any Contract as a result of this procurement
- 7.30 All documents issued or received in relation to this procurement shall be the property of the Contracting Authority / UKSBS.
- 7.31 We can amend any part of the procurement documents at any time prior to the latest date / time Bids shall be submitted through the Delta eSourcing Portal.
- 7.32 If you are a Consortium you must provide details of the Consortiums structure.
- 7.33 Bidders will be expected to comply with the Freedom of Information Act 2000, or your Bid will be rejected.
- 7.34 Bidders should note the Government's transparency agenda requires your Bid and any Contract entered into to be published on a designated, publicly searchable web site. By submitting a response to this ITQ Bidders are agreeing that their Bid and Contract may be made public
- 7.35 Your bid will be valid for 90 days or your Bid will be rejected.
- 7.36 Bidders may only amend the contract terms during the clarification period only, only if you can demonstrate there is a legal or statutory reason why you cannot accept them. If you request changes to the Contract terms without such grounds and the Contracting Authority fail to accept your legal or statutory reason is reasonably justified, we may reject your Bid.
- 7.37 We will let you know the outcome of your Bid evaluation and where requested will provide a written debrief of the relative strengths and weaknesses of your Bid.
- 7.38 If you fail mandatory pass / fail criteria we will reject your Bid.
- 7.39 Bidders are required to use IE8, IE9, Chrome or Firefox in order to access the functionality of the Delta eSourcing Portal.
- 7.40 Bidders should note that if they are successful with their proposal the Contracting Authority reserves the right to ask additional compliancy checks prior to the award of

any Contract. In the event of a Bidder failing to meet one of the compliancy checks the Contracting Authority may decline to proceed with the award of the Contract to the successful Bidder.

- 7.41 All timescales are set using a 24-hour clock and are based on British Summer Time or Greenwich Mean Time, depending on which applies at the point when Date and Time Bids shall be submitted through the Delta eSourcing Portal.
- 7.42 All Central Government Departments and their Executive Agencies and Non-Departmental Public Bodies are subject to control and reporting within Government. In particular, they report to the Cabinet Office and HM Treasury for all expenditure. Further, the Cabinet Office has a cross-Government role delivering overall Government policy on public procurement - including ensuring value for money and related aspects of good procurement practice.

For these purposes, the Contracting Authority may disclose within Government any of the Bidders documentation/information (including any that the Bidder considers to be confidential and/or commercially sensitive such as specific bid information) submitted by the Bidder to the Contracting Authority during this Procurement. The information will not be disclosed outside Government. Bidders taking part in this ITQ consent to these terms as part of the competition process.

- 7.43 The Government introduced its new Government Security Classifications (GSC) classification scheme on the 2<sup>nd</sup> April 2014 to replace the current Government Protective Marking System (GPMS). A key aspect of this is the reduction in the number of security classifications used. All Bidders are encouraged to make themselves aware of the changes and identify any potential impacts in their Bid, as the protective marking and applicable protection of any material passed to, or generated by, you during the procurement process or pursuant to any Contract awarded to you as a result of this tender process will be subject to the new GSC. The link below to the Gov.uk website provides information on the new GSC:

<https://www.gov.uk/government/publications/government-security-classifications>

The Contracting Authority reserves the right to amend any security related term or condition of the draft contract accompanying this ITQ to reflect any changes introduced by the GSC. In particular where this ITQ is accompanied by any instructions on safeguarding classified information (e.g. a Security Aspects Letter) as a result of any changes stemming from the new GSC, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies or otherwise. This may relate to the instructions on safeguarding classified information (e.g. a Security Aspects Letter) as they apply to the procurement as they apply to the procurement process and/or any contracts awarded to you as a result of the procurement process.

#### **USEFUL INFORMATION LINKS**

- [Contracts Finder](#)
- [Equalities Act introduction](#)
- [Bribery Act introduction](#)
- [Freedom of information Act](#)

## **8.0 Freedom of information**

8.4.1 In accordance with the obligations and duties placed upon public authorities by the Freedom of Information Act 2000 (the 'FoIA') and the Environmental Information Regulations 2004 (the 'EIR') (each as amended from time to time), UK SBS or the Contracting Authority may be required to disclose information submitted by the Bidder to the Contracting Authority.

8.4.2 In respect of any information submitted by a Bidder that it considers to be commercially sensitive the Bidder should complete the Freedom of Information declaration question defined in the Question FOI1.2.

8.4.3 Where a Bidder identifies information as commercially sensitive, the Contracting Authority will endeavour to maintain confidentiality. Bidders should note, however, that, even where information is identified as commercially sensitive, the Contracting Authority may be required to disclose such information in accordance with the FoIA or the Environmental Information Regulations. In particular, the Contracting Authority is required to form an independent judgment concerning whether the information is exempt from disclosure under the FoIA or the EIR and whether the public interest favours disclosure or not. Accordingly, the Contracting Authority cannot guarantee that any information marked 'confidential' or "commercially sensitive" will not be disclosed.

8.4.4 Where a Bidder receives a request for information under the FoIA or the EIR during the procurement, this should be immediately passed on to UK SBS or the Contracting Authority and the Bidder should not attempt to answer the request without first consulting with the Contracting Authority.

8.4.5 Bidders are reminded that the Government's transparency agenda requires that sourcing documents, including ITQ templates such as this, are published on a designated, publicly searchable web site, and, that the same applies to other sourcing documents issued by UK SBS or the Contracting Authority, and any contract entered into by the Contracting Authority with its preferred supplier once the procurement is complete. By submitting a response to this ITQ Bidders are agreeing that their participation and contents of their Response may be made public.

## **8.5. Response Validity**

8.5.1 Your Response should remain open for consideration for a period of 90 days. A Response valid for a shorter period may be rejected.

## **8.6. Timescales**

8.6.1 [Section 3](#) of the ITQ sets out the proposed procurement timetable. the Contracting Authority reserves the right to extend the dates and will advise potential Bidders of any change to the dates.

## **8.7. The Contracting Authority's Contact Details**

8.7.1 Unless stated otherwise in these Instructions or in writing from UK SBS or the Contracting Authority, all communications from Bidders (including their sub-contractors, consortium members, consultants and advisers) during the period of this procurement must be directed through the e-sourcing tool to the designated UK SBS contact.

#### 8.7.2

All enquiries with respect to access to the e-sourcing tool may be submitted to Delta eSourcing on 0845 270 7050 please note this is a free self-registration website and this can be done by completing the online questionnaire at <https://uksbs.delta-esourcing.com/>

8.7.3 Bidders should be mindful that the designated Contact should not under any circumstances be sent a copy of their Response outside of the e-sourcing tool. Failure to follow this requirement will result in disqualification of the Response.
