X17: Low service damages

If Option X17 is used

Service Credits will be used to maintain service delivery through the contract, based on the Key Performance Indicators set out below (monitored and recorded on a quarterly basis).

The Service Credits approach is set out below:

- Contractors are required to score **at least 80%** per quarter. If they achieve a score below this, they are required to submit a Performance Improvement Plan to the Service Manager to set out how they will improve their performance to the required levels.
- If a Contractor **scores below 70%**, service credits would apply on a sliding scale basis as seen below (the below numbers have been used as an example and will be calculated based on a quarterly price from the returned pricing schedule):

KPI Score	Percentage retained	Amount retained per quarter (based on £4,134 weekly fee; £53,742/quarter)	Equivalent amount retained per week
66-70	30	£16,122.60	£1,240.20
61-65	40	£21,496.80	£1,653.60
51-60	50	£26,871	£2,067
45-50	75	£40,306.50	£3,100.50
Below 45	100	£53,742	£4,134

- If in the **following quarter** the Contractor then scores **above 80**, any retained credits from the previous quarter would be repaid (this relates to the previous quarter only and not any previous quarters).
- Alternatively, if in the **following quarter** the Contractor **scores between 70 and 80**, half of the retained credits from the previous quarter only would be repaid. The other half of the retained credits are permanently lost.
- OR if the Contractor does not reach a score of 80 in the following quarter, all previous retained credits are permanently lost.

Examples are shown in the following table:

EXAMPLE: OUTCOMES BASED ON KPI's	SUPPLIER KPI SCORE FOR QUARTER					ACTION TAKEN
	Quarter 1	Q2	Q3	Q4	Q5	
Contractor KPI score above 80	82					No action taken
A score of less than 80 in any quarter requires the Contractor to provide an Improvement Plan		76				Contractor must provide an Improvement Plan
A score of less than 70 in any quarter results in service credits applying: every percentage below 70 results in the same reduction in % payments of the quarterly invoice amount (to a capped maximum reduction of 100% of management fee)			66			EA retains 30% of the management fee from the quarterly invoiced totals Contractor must provide an Improvement Plan
If following a Service Credit quarter, the Contractor KPI score exceeds 80 in the following quarter , any retained service credits from the previous quarter would be repaid				81		Service Credits from previous quarter (30% of management fee) are paid (along with regular quarterly payment).
OR If following a Service Credit quarter, in the next quarter the Contractor KPI score achieves a score of 70 but fails to achieve a score of 80 , half of the service credits retained in the previous quarter are paid; half are permanently lost. The Contractor is required to provide an Improvement Plan				72		Half of the previously retained 30% is repaid (15% along with regular quarterly payment), (15% of previous quarters management fee) is permanently retained. Contractor must provide an Improvement Plan
OR If following a Service Credit quarter, in the next quarter the Contractor KPI score again fails to achieve a score of 70 , the same % is deducted from the quarterly invoice amount (to a capped maximum reduction of 100%)				50		EA retains 75% of management fee from the quarterly invoiced totals AND the previously retained 30% of management fee is permanently retained. Contractor must provide an Improvement Plan

If following two Service Credit quarters, the Contractor KPI score exceeds 80 in the following quarter , any retained service credits from the previous quarter only would be repaid					81	Service Credits from previous quarter (100% of management fee) are paid, along with regular quarterly payment. Note that any previously retained Service Credits are not repaid.
