Instruction to Tenderers

1. **Small and Medium-sized Enterprises** The Authority is committed to supporting the Government's small and medium-sized enterprise (SME) initiative; its ambitious target is that every £1 in every £3 that the Government spends should be with small businesses by 2020. Our goal is that 25% of MOD spending should be spent with SMEs by 2020; this applies to the money which the MOD spends directly with SMEs and through the supply chain. The Authority uses the European Commission definition of an SME.

A key aspect of the Government's SME Policy is ensuring that its suppliers throughout the supply chain are paid promptly. All suppliers to the Authority and their sub-contractors are encouraged to make their own commitment and register with the Prompt Payment Code.

Suppliers are also encouraged to work with the Authority to support the Authority's SME initiative. Information on the Authority's purchasing arrangements, our commercial policies and our SME policy can be found at Gov.UK.

2. **Price** In order to facilitate the comparison of tenders, the prices quoted for the Deliverables and Packaging must reflect the terms of the Purchase Order and be set out in strict accordance with the requirements of the Schedule to Purchase Order.

3. **Orders for Parts of the Tender** The Authority reserves the right, **unless the Tenderer expressly states that parts of the tender may not be accepted separately in their tender**, to order some or all of the Deliverables stated in the Schedule to the Purchase Order.

4. **Alternative Conditions** The Tenderer shall comply with the notices and instructions set out in this ITT and submit a tender compliant with the MOD Terms and Conditions for Less Complex Requirements. Any offer made subject to additional or alternative contractual conditions will not be considered and will be rejected on the grounds of those conditions alone.

5. **Tender Evaluation** The tender evaluation shall be carried out in accordance with the Evaluation Criteria stated in the ITT tender documentation. **The Authority can only evaluate those things stated in your tender.**

6. **Alteration to Purchase Order** Any alteration to the Purchase Order suggested by the Tenderer e.g. an alternative Delivery offer, should be effected by striking through the original entry and inserting the alternative adjacent to it. The Tenderer's attention is, however, drawn to paragraphs 3 to 5 above.

7. **Completion of Tender**

a. In the event of a Deliverable appearing more than once in the attached Schedule of Requirements, whether separately or as part of an assembly, the Tenderer is requested to quote on the basis of the total quantity for that Deliverable.

b. The Tenderer should ensure that their tender is clear and in a form which will allow the Authority to take copies for evaluation purposes.

8. **Tenders for Selected Deliverables** Tenders need not necessarily be for all the Deliverables listed in the Schedule to the Purchase Order. The words "No Tender" should be inserted in the price column against items for which no offer is made.

9. **Bid costs** The Tenderer will bear all costs associated with preparing and submitting their Tender. If the Tender process is terminated or amended by the Authority, the Tenderer will not be reimbursed.

10. **ITT Material**

a. ITT Material means information (including for example, drawings, handbooks, manuals, instructions, specifications and notes of pre-tender clarification meetings, in whatever form or medium, patterns and samples) issued to you by the Authority or on its behalf, or to which you have been given access, for the purposes of responding to this ITT. ITT Material remains the property of the Authority or other owners and is released solely for the purpose of tendering. The Tenderer shall notify the Authority's Representative (Commercial Officer) without delay if any additional ITT Material is required for the purpose of tendering. The Tenderer shall be responsible for the safe custody and due return of ITT Material, and shall be responsible for all loss or damage sustained while in their care, and until re-delivered to the Authority.

b. **Destruction of ITT Material** You must immediately confirm destruction of (or in the case of software, that it is beyond use) all ITT Documentation, ITT Material and derived information of an unmarked nature, should you decide not to respond to this ITT, or you are notified by the Authority that your Tender has been unsuccessful.

c. **Intellectual Property Rights in ITT Material** The Intellectual Property Rights in ITT Material may belong to the Authority or a third party. The ITT Material may only be used for the purpose of responding to this ITT and shall not be copied or disclosed to anyone other than employees of the Tenderer involved in the preparation of the tender, without the prior written approval of the Authority. If the Tenderer discloses the ITT Material other than to employees involved in the tender preparation, or uses the ITT Material other than for the purpose of tendering, the Authority, or the third party owner, may suffer damage for which compensation may be sought from the Tenderer.

d. **Confidentiality Agreements** Some or all of the ITT Material issued in connection with this ITT may already be the subject of Confidentiality Agreements. The provisions of such agreements are in addition to, and not in substitution for, any obligations arising from receipt of or access to ITT Material under the terms of this ITT, and the provisions of sub-paragraphs 10.a - c above.

11. **Samples**

a. Where it is indicated in Annex B that samples may be required for evaluation, the Tenderer must be prepared to submit them without charge. Samples should be clearly labelled with the following particulars:

- (1) The Tenderer's name and address.
- (2) The ITT Reference Number and tender return date.
- (3) Description and Item Number as shown in the Schedule to the Purchase Order.

b. The Authority shall retain all samples for twelve (12) months. After this period the Authority shall destroy the samples unless you specifically state you require their return. The sample of any subsequent contracts shall be kept indefinitely.

12. **Notification of Inventions etc.**

a. The Tenderer acknowledges that their prices shall include the use of any intellectual property rights which they own or control to the extent that their use is required for the performance of any resultant Contract. The Tenderer also acknowledges that their prices include subsequent use by the Authority of anything delivered under the Contract.

b. In their tender the Tenderer shall notify the Authority of:

- (1) any invention or design the subject of patent or registered design rights (or application therefore) of which the Tenderer is aware , and;
- (2) any other restriction (including any export requirement or restriction) as to disclosure or use or obligation to make payments in respect of intellectual property (including technical information) to which the Tenderer is subject, and;
- (3) any allegation of infringement of intellectual property rights made against the Tenderer;

which pertains to or appears to be relevant to the performance of any resultant Contract or to subsequent use by the Authority of anything required to be done or delivered under any resultant Contract.

c. The Tenderer shall, at the request of the Authority, give the Authority particulars of every restriction and obligation referred to in sub-paragraph 12.b.(2). above.

d. If the information required under this Paragraph 12 has been provided previously, the Tenderer may satisfy these requirements by giving details of the previous notification.

13. **Ozone Depleting Substances** The Tenderer must state whether the Contractor Deliverables or any item provided in accordance with the Terms and Conditions of the Contract (including Packaging) use Substances that deplete the Ozone Layer, as defined in Regulation (EC) 1005/2009, as it applies in Great Britain as retained EU law, and as it applies in Northern Ireland directly.

14. **Hazardous Deliverables and Substances** It is a condition of this ITT that where the ITT calls for, or the Tenderer proposes, the use of Hazardous Deliverables or substances, the Tenderer shall provide with his tender a completed Safety Data Sheet in accordance with Clause 9 of the Terms and Conditions. Failure to comply fully with this condition may result in the tender being deemed non-compliant thus rendering it ineligible for further consideration by the Authority.

15. **Elimination Of Asbestos** It is a condition of this ITT that the Deliverables shall not incorporate asbestos of any kind. The Tenderer will confirm this by signing and returning the tender form at Annex A to this ITT as part of their tender.

16. **Transparency, Freedom of Information and Environmental Information Regulations**

a. Tenderers should be aware that, if they are awarded the Contract, the content of the Contract may be published by the MOD to the general public in line with government policy set out in the Prime Minister's letter of May 2010 (<https://www.gov.uk/government/policies/improving-the-transparency-and-accountability-of-government-and-its-services>).

b. Before publishing the Contract, the MOD will redact any information which would be exempt from disclosure if it was the subject of a request for information under the Freedom of Information Act 2000 ("the FOIA") or the Environmental Information Regulations 2002 ("the EIR").

c. The FOIA and the EIR provide a more general statutory right of access to information held by or on behalf of public authorities, including information provided by third parties such as suppliers. This right of access is subject to a number of exemptions, including confidential information and commercially sensitive information. Further details of MOD policy on FOIA and EIR can be found on the Acquisition Operating Framework (<https://www.aof.mod.uk/aofcontent/tactical/toolkit/index.htm> click on "Commercial Toolkit" then "MOD Commercial Management" then "Freedom of Information").

d. In order to assist the MOD in applying the exemptions in the FOIA and the EIR, Tenderers should complete the appropriate Tenderer's Commercially Sensitive Information box in the Purchase Order, explaining which parts of their tender they consider to be sensitive or confidential. Tenderers are also requested to include in the box the details of a named individual who may be contacted with regard to this information.

e. Tenderers should note that, while their views will be taken into consideration, the

ultimate decision whether to publish or disclose information provided to the MOD lies with the MOD. Tenderers are advised to give as much detail as possible on the Form. It is highly unlikely that a contract will be exempt from disclosure in its entirety. Should the MOD decide to publish or disclose information against the wishes of a Tenderer, the Tenderer will be given prior notification.

17. **Consultation with Credit Reference Agencies** The Authority may consult credit reference agencies to assess the creditworthiness of a Tenderer. Information on creditworthiness may be used by the MOD to support and influence decisions to enter into business with a Tenderer.

18. **Conflicts of Interest**

a. MOD policy states that it is sometimes in the MOD's wider business interests to allow suppliers to operate on both the client and supply side. Conflicts of Interest (Col) can occur outside of direct commercial relationships between the MOD and its suppliers and therefore all personnel involved in acquisition (both Authority and Tenderer) should be familiar with the Conflicts of Interest Commercial Policy Statement (CPS).

b. Accordingly, Tenderers shall notify immediately the Authority of any current or potential Col relating to the requirement and shall give particulars of every instance.

c. Where the Authority permits the Tenderer or any entity within the Tenderer's potential supply chain or any entity providing advisory services to the Tenderer or its potential supply chain to work on both the client and supply side, the Contractor shall, as a legally binding agreement or Condition of Contract, be required to:

- (g) Physical and Managerial separation.

(2) Identify potential or actual Conflicts of Interest;

(3) Investigate breaches.

22. **Authority Remedies for Breach of Contract** Tenderers should be aware of the contractual remedies set out at Clause 17 of the Terms and Conditions of the Contract which may apply in the event of a breach of contract by the Contractor. Damages for breach of contract are not limited under the Contract. However Tenderers should also note under Clause 17 that in exercising its rights and remedies under the Contract the Authority must act in a reasonable and proportionate manner having regard to the nature and consequences of the breach of contract. If Tenderers are unsure about the potential liability under the Contract, they should seek advice as appropriate.

23. **Confidential Information.** All Central Government Departments and their Executive Agencies and Non Departmental Public Bodies are subject to control and reporting within Government, in particular, they report to the Cabinet Office and HM Treasury for all expenditure, Further, the Cabinet Office has a cross-governmental role delivering overall Government policy on public procurement, including ensuring value for money and related aspects of good procurement practice.

For these purposes, the Authority may share within Government any of the Contractor's documentation / information (including any that the Contractor considers to be confidential and/or commercially sensitive such as specific bid information) submitted by the Contractor to the Authority during this Procurement. The information will not be disclosed outside Government. Contractors taking part in this competition must identify any sensitive material in the DEFFORM 539A and consent to these terms as part of the competition process.

24. **Cyber Essentials Accreditation** For all new requirements advertised from 1st January 2016 which entail the transfer of MOD identifiable information from customer to supplier or the generation of information by a supplier specifically in support of the MOD contract, MOD will require suppliers to have a Cyber Essentials certificate by the contract start date at the latest, and for it to be renewed annually. This requirement must be flowed down the supply chain.
