## 1. Purpose

Department for Education, referred to as ‘the Authority’ hereafter, is looking for a supplier to provide and implement a new nationally representative survey of teachers and leaders, with supporting qualitative research with teachers, leaders, and pupils, to provide robust data about the implementation of the new RSHE statutory requirements and non-statutory guidance.

## 2. Background to the Contracting Authority

The Department for Education (the Department) wants to support all young people to be happy, healthy, and safe. We want to equip them for adult life and to make a positive contribution to society. We therefore made Relationships Education compulsory for all primary school-aged pupils, Relationships and Sex Education (RSE) compulsory for all secondary school-aged pupils and Health Education compulsory for all pupils in primary and secondary state-funded schools. Collectively, these subjects are known as Relationships, Sex and Health Education (RSHE). The teaching of RSHE supports a range of cross-Government strategies including ones led by the Department for Health and Social Care on sexual and reproductive health and women’s health, the Department for Culture, Media and Sport’s media literacy strategy, and the Home Office violence against women and girls strategy. RSHE is also an important part of the Department’s response to the Ofsted review into sexual abuse in schools.

## 3. Definitions

Expression or Acronym	Definition
RSHE	Relationships, Sex and Health Education
RSE	Relationships and Sex Education
ToC	Theory of Change

## 4. Summary

- Relationships, Sex and Health Education (RSHE) became statutory in September 2020.

The content of the [statutory RSHE guidance](#) resulted from the fact that today’s children and young people are growing up in an increasingly complex world that presents many opportunities, but also challenges and risks. Children and young people need to know how to

be safe and healthy, and how to manage their academic, personal, and social lives in a positive way, including online. The RSHE requirements focus on updated content, so that teaching is relevant for young people today.

- During the academic year 2020/21, schools were legally required to teach some RSHE, although they had flexibility over how they did this to meet the immediate needs of pupils in the context of the pandemic. However, schools must now deliver a full RSHE curriculum from September 2021.
- Our central research aim is to investigate whether and how schools have implemented the new statutory guidance/resources to deliver effective RSHE education for their pupils. To meet that aim, our research objectives are focused on a need to understand approaches to curriculum development and implementation, teacher Continuing Professional Development (CPD) and use of resources, engagement with parents, teacher confidence, and the potential for effective implementation of the statutory guidance and DfE resources to lead to beneficial outcomes for pupils.
- We are therefore commissioning one initial survey of RSHE teachers, RSHE/PSHE leads and senior leaders, with data to be collected during Autumn term 2021. Initial results from this survey should then be used to inform the design and implementation of qualitative research with school staff and pupils, the goal of which is to further understanding about the quality of implementation, barriers, and experiences relating to implementation of the new requirements. We expect the research to be informed by, help to test, and subsequently refine, our draft programme Theory of Change (ToC).
- Findings will be used to inform continuing support for schools to ensure quality implementation and support for RSHE in education recovery. The findings will allow us to further explore implementation of the curriculum in the light of Ofsted's review of sexual abuse in schools and colleges (June 2021). They will also inform future DfE policy development and support our input into other government department strategies, influencing support and intervention they might want to offer both in and out of school. Ultimately the findings from this research will inform decisions about a departmental review of the statutory guidance, which will include a review of areas where more guidance is needed, and topics to be considered for inclusion.
- Data from this survey forms part of a developing wider evaluation strategy that will provide a broad understanding of implementation, progress, and pupil outcomes. The survey and qualitative data will be used in combination with other sources, such as data on pupil

outcomes from existing research and evidence from Ofsted inspections of school provision for RSHE teaching in the context of a wider judgment of pupils' personal development.

- Bidders should ensure that their bids clearly demonstrate all the requirements for delivering this research, including capacity and capability to deliver a robust survey at scale, detailed knowledge of RSHE teaching and delivery in schools and expertise in developing and testing Theories of Change. As such we welcome bids from consortia, or lead and sub-contractor arrangements, where different organisations' expertise complement the other'(s') to deliver impactful research in this area.

#### **Potential for further waves**

- The Department reserves the right to consider a variation(s) and/or extension(s) covering further waves of the survey and qualitative research. Any decision to extend or vary the requirements will be taken by the Department under consideration of a robust review of the value offered from the first wave and other criteria it deems important. This review will be based upon an assessment of how the outputs satisfy clear key performance indicators (to be agreed with the successful bidder), as well as obtaining appropriate Departmental signoff for possible future activity. The focus and methodology of any future waves, including the composition of quantitative and/or qualitative elements and research objectives, would be informed by the review of this initial wave of data collection, and, if approved, agreed with the contractor through the formal change control notice procedure.

## **5. Background to the Requirement**

The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019, made under sections 34 and 35 of the Children and Social Work Act 2017, made relationships education compulsory for all pupils receiving primary education and RSE compulsory for all pupils receiving secondary education. They also made health education compulsory in all schools except independent schools. Personal, Social, Health and Economic Education (PSHE) continues to be compulsory in independent schools.

The statutory requirements aim to support schools to deliver high-quality relationships education and RSE to ensure that all young people are taught to stay safe and are prepared for life in modern Britain. The subjects enable schools to effectively address issues such as internet safety and unhealthy relationships and ensure pupils learn in an age-appropriate way about respectful and healthy relationships, including friendships and family relationships. As a result, we expect pupils at primary and secondary schools to have the necessary knowledge to help build healthy relationships, stay safe

and become successful adults. Statutory health education covers the characteristics of good physical health and mental wellbeing and equips pupils to understand their changing bodies; develop the language to talk about their bodies, emotions, and health; identify potential problems and know how to seek help.

To understand how best to provide support to help schools prepare for teaching the content of the new subjects, the DfE consulted with a wide range of stakeholders, including schools and expert organisations. The consultation<sup>1</sup> highlighted the need for training, and the resource implications that the new subjects will have on schools.

To address the needs highlighted by the consultation, the DfE published an online service on [GOV.UK](https://www.gov.uk) in September 2020, featuring non-statutory implementation guidance and training modules covering all of the teaching requirements in the statutory guidance. The DfE training materials were developed in collaboration with stakeholders, including Early Adopter schools, a reference group of over 1,500 schools who started teaching the new subjects from September 2019.

The Department also funded four waves of a “train the trainer” and peer support programme, delivered through regional teaching school networks. The first three waves of the programme have reached 3,800 schools, and provisional data for the fourth wave – which ended in July – shows a further 1,000 schools have been supported.

Anecdotal feedback from participants in the ‘train the trainer’ programme suggests that many schools struggled to implement a full RSHE curriculum last academic year, in the context of the pandemic. The department has been clear that, whilst it was appropriate last academic year for schools to prioritise RSHE teaching to meet the needs of pupils, schools must deliver a full RSHE curriculum from September 2021. The then Parliamentary Under-Secretary of State for Children, Vicky Ford made this point in her Oral Statement to the House of Commons on 17 June and encouraged all schools to

---

<sup>1</sup> <https://www.gov.uk/government/consultations/relationships-and-sex-education-and-health-education>, p 19

dedicate some of their in-service training time to this. The department will continue to take every opportunity to reinforce this message.

RSHE delivery is even more important in the context of the Everyone's Invited testimonies and Ofsted's subsequent review of sexual abuse in schools. The review, which was published in June 2021, revealed how prevalent sexual harassment and online sexual abuse are for children and young people. In response to the findings, the review recommended a carefully sequenced RSHE curriculum that specifically includes sexual harassment and sexual abuse, including online. The review also recommended high quality training for teachers delivering RSHE. The review and its findings are further evidence that effective implementation of the statutory RSHE guidance is critical. It is crucial that all young people understand what healthy relationships look like and how to stay safe, and teachers must have the knowledge and the confidence to teach pupils about these subjects effectively. In this context, it is also critical that we have robust national data to monitor the implementation of RSHE subjects.

The Government has accepted the findings of the Ofsted review in full and ensuring all pupils receive the high quality RSHE they need is an essential part of the department's response. Work is already underway, and includes:

- Planning non-statutory guidance covering specific topics mentioned by the Ofsted review. This will build on the statutory guidance for RSHE and will include detail on when specific content should be taught.
- Designing national and regional events for teachers, using experts from the field, to support them to network and share best practice.
- Extending the designated safeguarding lead supervision trials, involving 30 local areas, to up to 10 further local authorities and 500 further schools, with a specific focus on sexual abuse. The learning from these pilots will be made available to all designated safeguarding leads.

## 6. The Requirement

### 6.1. RESEARCH AIM AND OBJECTIVES

#### Overall research aim

To investigate whether and how schools are implementing the new RSHE statutory guidance to deliver effective RSHE education for their pupils.

#### Research objectives

Our general research objective is to test and refine our high-level programme Theory of Change (ToC; See section 6.2). This ToC aims to capture a hypothesised series of activities, outputs, outcomes, and impacts which would represent effective implementation of the RSHE statutory guidance and resources. Testing our ToC should involve an interrogation of our assumptions about how the DfE RSHE resources and guidance are used by schools, the challenges schools face in their implementation, and any effects for pupils resulting from any changes that schools may have made to their RSHE teaching to address the statutory requirements.

To meet this general research objective, we have identified five more specific research objectives, each representing a key element of our ToC that we hypothesise is central to achieving the desired impacts on children and young people. We wish to investigate:

- How schools are implementing the statutory guidance, tailoring DfE resources, and identifying and using other available resources to develop an effective RSHE curriculum which meets the needs of their pupils.
- How schools assess and meet teacher training and networking needs.
- How schools engage with parents on the curriculum design and implementation.
- The extent to which the implementation of the statutory guidance and tailoring of resources has increased teachers' confidence and ability to teach an effective RSHE curriculum.

- The extent to which the implementation of the statutory guidance and tailoring of resources can increase pupils' ability to develop healthy relationships and healthy behaviour, including physical, mental and sexual health.

We have identified several potential research questions which we would like to be answered within each specific objective. However, these should be seen as a starting point for discussion and refinement, rather than a proscriptive list of research questions.

*How schools are implementing the statutory guidance and tailoring resources to develop an effective RSHE curriculum which meets the needs of their pupils.*

- Have leaders and teachers read and understood the guidance?
- How/have schools assessed existing provision against the requirements/guidance?
- How do schools assess pupils' diverse needs, including the needs of pupils with protected characteristics, including LGBT pupils, black or ethnic minority pupils, and pupils with SEND, and has the guidance supported schools to address these diverse needs?
- What enablers and challenges have schools faced in implementing the guidance?
- How are schools timetabling RSHE lessons and integrating teaching within a whole school approach?

*How schools assess and meet teacher training and networking needs.*

- What are the characteristics of the RSHE workforce, e.g. primary specialisms, patterns of working, levels of experience?
- What is the range and quality of teaching resources for RSHE available in schools?
- How do school leaders assess teacher training needs?
- What networking opportunities are available to teachers for RSHE teaching?

*How schools engage with parents on the curriculum design and implementation.*

- How do schools engage with pupils and parents to communicate changes in curriculum content and teaching practices?

- What challenges have been experienced while engaging with parents and pupils on the curriculum, and how effectively are difficulties handled?
- To what extent do parents/pupils feel represented/included in decisions around RSHE?

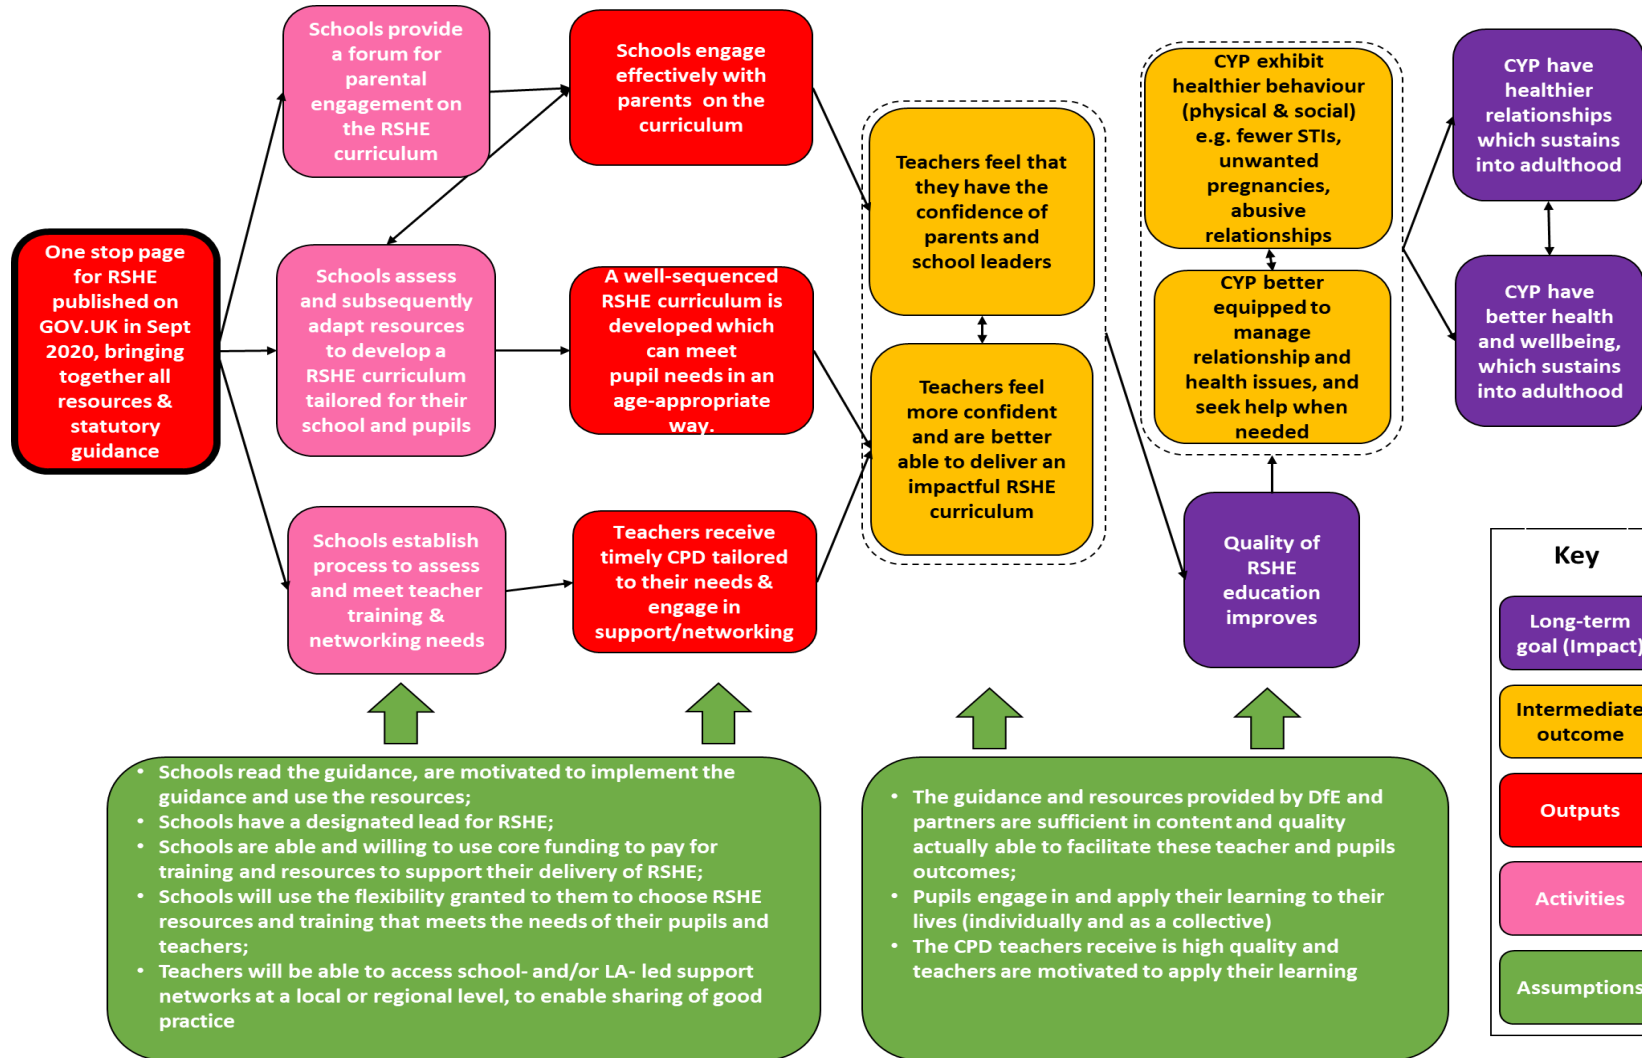

*The extent to which the implementation of the statutory guidance and tailoring of resources increase teacher confidence and ability to teach an effective RSHE curriculum.*

- How effective are current a) teacher networking opportunities, b) guidance and resources, and c) CPD opportunities for increasing confidence to teach RSHE?
- How effective are current a) teacher networking opportunities, b) guidance and resources, and c) CPD opportunities for increasing knowledge and ability to teach RSHE?
- To what extent are teachers and leaders using RSHE content to meet pupils' pastoral support needs in and beyond the classroom and how are they doing this?

*The extent to which the implementation of the statutory guidance and tailoring of resources can increase pupils' ability to develop healthy relationships and develop healthier behaviour (including physical health, sexual health, and mental wellbeing).*

- To what extent have changes in the curriculum content and teaching practices altered pupils' behaviour including:
  - Pupils' confidence in seeking help, e.g. in school or within the wider community.
  - Healthy behaviours, including physical health, sexual health and mental wellbeing
  - Healthy relationships, including with family, friends romantic / sexual partners and others

## 6.2. THEORY OF CHANGE

### **6.3. TARGET PARTICIPANT GROUP**

Our target populations are school leaders, RSHE/PSHE curriculum leads and RSHE/PSHE teachers. The sample should be structured to provide similar numbers of respondents between the primary and secondary phase, with a proportionately smaller sample of other school types. The sample should include special schools and alternative provision providers. Within each phase we would like to achieve a sample nationally representative of school characteristics by type of establishment; disadvantage e.g., % eligible for Free School Meals (FSM) or Indices of Multiple Deprivation; Current Ofsted judgement; School size; Region.

### **6.4. SUGGESTED APPROACH AND ANALYSIS**

#### **Survey development**

Bidders should clearly set out how they think the research aims and sample requirements can be best achieved. We have envisaged a mixed-mode (sequential push to web / telephone) survey of a representative sample of school leaders, RSHE/PSHE curriculum leads and teachers but are open to other options to maximise response rates and quality of data.

Questionnaires should be developed to be role and phase specific to efficiently address the research objectives, and we envisage that each survey interview should last approximately 20 minutes (telephone mode).

Bidders should clearly set out how they will develop survey questions, including how and where they will draw on wider expert and sector advice and an approach for a workshop and other engagement as needed with DfE to ensure quality of questions.

We expect bidders to have proven expertise with developing Theories of Change (ToC) and applying them to research design and survey development; the winning bidder will be expected to run two ToC workshops as a central output of the project (See sections 6.5 and 6.7).

Alongside the activities proposed by the winning bidder to achieve this, DfE will set up and maintain an independent advisory group to advise the project leads in the department, including on methods and questionnaire design.

We encourage suppliers to consider these initial steers and to outline the approach they would take to develop questions, who would they involve in this process, how they would cognitively test and pilot approaches, and strategies to maximise response rates.

#### **Survey sampling**

**Secondary-** We would like to ensure the sample represents different subgroups of secondary teachers of RSHE topics, including those who have a specialist role, form tutors who have less formal training in PSHE, and non-teaching staff who are involved in RSHE delivery. This will enable us, for example, to understand the role of TAs and other support staff who could be involved SEND provision. We will also want to know the extent to which non-specialist teachers have been offered and engaged in CPD. We are also keen to ensure the sample includes school with and without timetabled RSHE lessons.

**Primary-** All classroom teachers should be considered for sampling, with a proportion expected not to respond, or to be screened out based on having no PSHE/RSHE teaching responsibilities.

**Methodology-** We invite bidders to describe what they think the most efficient sampling approach is to meet these needs. We have envisaged that the main sample frame for school leaders and PSHE/RSHE teachers could be the School Workforce Census, supplemented with data on school characteristics from Get Information About Schools, however also welcome bidders to explain other sample options they feel are appropriate

As a comprehensive sample frame of PSHE/RSHE curriculum leads does not exist bidders should clearly set out how they would sample schools and identify the appropriate person to take part in the research. For example, this may need a telephone approach to schools to gain contact details for the correct individuals in schools for a push to web method. We believe that the programme, our ToC, and evidence needs could merit a sampling methodology conducted at school-level, with surveys administered to different staff groups within the same school, rather than maximising the number of schools by targeting only one staff group (e.g. SLT / teachers) within each school. This would allow us the added flexibility to explore how differences in how activities and outputs the left side of the ToC could relate to outcomes on the right of the ToC within-schools. On this basis, we suggest a stratified sampling method at the school level to enable investigation of differences in responses at primary and secondary level by type of establishment; disadvantage e.g., % eligible for FSM or Indices of Multiple Deprivation; Current Ofsted judgement; School size; and Region.

We are aware that this method would not necessarily ensure that we obtain a sufficient sample of different teacher types. Further, as we are interested in understanding variation in survey responses at two levels- by different participant characteristic (e.g. specialist RSHE and non-specialist teachers) which are themselves nested within different school types- considerations will need to be made as to an appropriate sample size for each subgroup. As such we seek advice and recommendations for an effective sampling methodology which achieves a sufficient sample of each population group that will enable robust comparisons between different participant types. We invite bidders to reflect on the pros and cons of different sampling approaches and recommend what they think best meets the evidence needs set out above.

## **Survey recruitment and fieldwork**

Given the potential implications of educational recovery on the priorities and workload within school, we anticipate that recruitment to the survey will be challenging. We have set an expectation for a 50% successful response rate. Bidders should also set out the actions that they will take to meet this expected response rate, as well as any mitigations against lower-than-expected response rates. If bidders feel they could commit to a greater target response rate they should set out the rationale and evidence for this being achievable.

We ask bidders to clearly set out their strategies to maximise response rates including any innovative ideas. Where beneficial and appropriate, we may look to test any innovations using a randomized experimental method.

### **Survey analysis**

As a minimum, we would require analysis and presentation of survey responses at school level cut by:

- school-level disadvantage e.g., % eligible for FSM or Indices of Multiple Deprivation;
- Current Ofsted judgement;
- School size;
- and Region.

And at participant characteristic level where questions are administered to each sub-group, for example RSHE leads and support teachers.

Where sample size allows, we would want to see breakdowns of responses at participant and school level, simultaneously, on key characteristics. Further descriptive analyses may also be possible through linking to the School Workforce Census (if used as the sample frame), and/or Get Information About Schools.

We would also welcome the addition of multivariate analysis to further explore the data in light of the ToC. In particular, it would be helpful to more deeply explore the potential relationships between participant- and school- level factors and responses. Further, if we are able to obtain a sufficient range of within-school participation, we would want to understand the relationship between school leader and teacher responses, controlling for relevant covariates. We invite bidders to describe what analyses they think would be useful and achievable.

### **Qualitative design and methodology.**

We also require that a qualitative element such as depth interviews or focus groups with teachers and pupils will follow, and be informed by, interim findings from the national survey. The aim of this research element is to further our understanding about the quality of implementation, barriers, and experiences of the new requirements.

We anticipate that the detail of the qualitative design and sample will be informed by initial analysis of the survey data with reference to the ToC, so the details below are indicative of current expectations.

We envisage that the qualitative research with school staff will particularly focus on questions relating to how the curriculum has been developed, for example to meet particular needs including relating to pupil diversity, how schools negotiate between and adapt to the differing needs of pupils, how teacher confidence is being built, for example through training or resources and how schools integrate external providers or support staff into the delivery of RSHE. We expect that adult participants would be recruited from the pool of survey participants.

Qualitative research with pupils could particularly focus on experience of teaching methods and how well adapted the curriculum is to their context and needs. For example, we are interested in understanding the extent to which pupils feel that they have been consulted about their schools' provision; and how they rate the teaching of different topics in terms of relevance, timing, age-appropriateness, and whether teaching is making a difference and how/why. We would like to target different age groups, to understand to what extent RSHE is preparing pupils for change (e.g. primary pupils about puberty; and 15-16 year olds who will be leaving school).

We expect that the form and scope of the qualitative research is likely to evolve through the lifecycle of the national survey, and so we invite bidders to submit initial ideas on the potential design and scope of this research element along with evidence of previous experience of developing qualitative research approaches to build on survey findings. Bidders' should also provide their thinking about research methodologies and any differentiation required to ensure pupils feel safe to discuss the range of sensitive topics covered by the RSHE curriculum.

## **6.5. RESEARCH OUTPUTS**

See section 6.7 for the intended timings for the following outputs.

### **Survey outputs**

- We require an interim quantitative report to be produced based on initial analyses of the survey data, to inform the design of the qualitative element of the research.
- We also require a final report that integrates both qualitative and quantitative findings
- A detailed presentation and discussion session with relevant DfE colleagues should be given upon provision of the interim report, to inform the design of the qualitative element as well as decisions about further survey analyses.
- Another detailed presentation with discussion session should be given on completion of the final report.
- We would require ongoing sharing of emerging findings, as appropriate, in routine contract management meetings to ensure any ongoing decision making in the department can be informed by the available evidence. This may include, for example, emerging findings from survey analyses between interim and final report.

- The contractor should organise and lead two theory of change workshops to further develop the ToC One should take place at the outset to further develop the ToC and inform survey development, before the survey development is at an advanced stage and include relevant stakeholders (including representatives from the sector) to input. This could include stakeholders identified by the contractor, and/or representatives from the DfE advisory group. A final session with DfE analytical and policy teams should take place on completion of the reporting of quantitative and qualitative findings to further aid in the refinement of the theory of change.
- We also require final copies of data collection tools, the anonymised survey data sets, including any linked admin data, and accompanying documentation.

### **Qualitative outputs**

- We anticipate some interim reporting of emerging qualitative findings will be required to inform ongoing policy decision making. The format and timing of this will be agreed as part of the qualitative research design.

### **School and sector facing outputs**

- We will discuss with winning bidder what shorter school- and wider sector-focused outputs/reports might be appropriate. We ask bidders to set out their recommendations for products that are appropriate and will help disseminate evidence and improve practice. For example, this might include case studies focused on different methods for RSHE development and curriculum implementation that schools have employed.

## **6.6. LIAISON ARRANGEMENTS**

- An inception meeting will be held with the successful bid team and DfE analysts and policy representatives shortly after contract signing.
- We expect to meet regularly with project leads, via video call. The frequency of these meetings is to be confirmed with the winning bidder; we anticipate on average once a fortnight, reduced at quieter times and potentially increased at key times such as during fieldwork.
- We envisage setting up an independent advisory group, set up, led and managed by DfE, to advise us on decisions in respect of the delivery of the research. The role of this group would be to inform decisions such as on sampling, survey design, analysis, and reporting. Meetings should take place around the time of important project milestones in the timetable. We expect meetings will be roughly quarterly through to the end of the project.
- A standing agenda item for the advisory group meetings will be written and presented updates from the research team. Any other papers or agenda items will be agreed as needed.

- During fieldwork, we expect regular email updates on achieved sample (perhaps on a weekly basis), and written update reporting for advisory group meetings.

#### 6.22. Additional Proposal Requirements – The Use of Incentives

6.23. With some important exceptions, the Authority believes that the routine use of respondent incentives in surveys is, in general, not justified as they are rarely cost effective in either increasing participation or reducing non-response biases. If you are proposing the use of respondent incentives in your proposal you must set out why you feel they are necessary, why it is not possible to achieve the required sample sizes or response rates without the use of incentives, how and to what extent they will raise the overall response rate, how you will mitigate any specific biases that could be introduced, and provide a cost comparison with non-incentive methods. Your arguments should be supported by empirical evidence from past use.

6.24. The exceptions to this are payment for participation in group discussions or in-depth qualitative interviews, payment to cover respondent expenses e.g., travel and childcare costs, and compensation for excessive demand on respondents, e.g., taking basic skills tests, diary keeping, panel maintenance and compensating schools for the respondent’s time. If you wish to use a prize draw incentive then you must also set out in your proposal how you will comply with all relevant legislation and codes of practice (e.g., the British Code of Advertising and Sales Promotion), state that you shall be solely liable for any breach of these and that you shall indemnify the Authority against any claims that may be made under them.

## 7. Key Milestones and Deliverables

7.1. The following Contract milestones/deliverables shall apply:

Milestone	Description	Delivery Date or Timeframe
Final reporting	Production of final reports and presentations to be delivered	End of September 2023

Timing of other deliverables should be as indicated in section 6.7, with specific dates to be agreed with the successful bidder, at this time we do not have fixed interim milestone requirements.

## 8. Continuous Improvement

- 8.1. The successful supplier shall maintain open channels of communication with the Authority to resolve issues, share lessons learned and present new ways of working during project review meetings. Any proposed new ways of delivering the Services shall be brought to the Authority's attention and formally agreed prior to any changes being implemented.

## 9. Social Value and Sustainability

- 9.1. Technical Evaluation Criteria 4 (TEC) 'Wellbeing - Improve health and wellbeing' in **Attachment 2 Instructions to Bidders** takes into account Social Value in the Award of Central Government Contracts. Bidding organisations should outline their commitment to social value in this area by,

Demonstrating:

- Action to support the health and wellbeing, including physical and mental health, in the contract workforce.
- Influence staff, suppliers, customers and communities through the delivery of the contract to support health and wellbeing, including physical and mental health.

## 10. Price

- 10.1. Prices are to be submitted within **Attachment 4 Price Schedule** as per the instructions set out in **Attachment 2 Instructions to Bidders** excluding VAT and including all other expenses relating to Contract delivery.
- 10.2. Prices must not exceed the agreed thresholds for RM6018 Research Marketplace.

## 11. Staff and Customer Service

- 11.1. The Supplier shall provide a sufficient level of resource throughout the duration of the Contract to consistently deliver a quality service.

- 11.2. The Supplier's staff assigned to the Contract shall have the relevant qualifications and experience to deliver the Contract to the required standard.
- 11.3. The Supplier shall ensure that staff understand the Authority's vision and objectives and will provide excellent customer service to the Authority throughout the duration of the Contract.
- 11.4. The Supplier shall communicate all changes to the Key Personnel as defined in the Call-Off Contract throughout the Term.

## **12. Security and Confidentiality Requirements**

### **12.1. Departmental Security Standards for Business Services and ICT Contracts**

- 12.2. The Authority's security standards clauses are included within the Additional Clauses Schedule in **Attachment 6a Call-Off Contract Terms**.

### **12.3. Supplier Security Assurance Questionnaire**

- 12.4. Suppliers and any sub-contractors are required to complete **Attachment 5 Supplier Security Questionnaire** as part of their bid, for the Authority to obtain a level of assurance with regards to our assets throughout the life of the contract.

### **12.5. Data Collection**

- 12.6. Suppliers will be expected to clear any data collection tools with the Authority before engaging in field work. Suppliers should include Data Privacy Notices for research participants via respondent documentation and/or interviewer briefing notes, and clearly state what the data is being collected for and on behalf of the Authority and that no reference is made, implied or otherwise, to the data being used solely by or available only to the supplier. Suppliers should establish with the Authority the legal basis for data processing under the General Data Protection Regulation and the Data Protection Act 2018.

- 12.7. The respondent documentation and/or interviewer shall ensure that the respondent clearly understands (before they give their consent to be interviewed) the purpose of the interview, that the information they provide will only be used for research purposes and, in the case of interviews (telephone or face-to-face), that they have the right to withdraw from the interview at any time. Where consent is used as the legal basis for data processing, consent procedures should ensure compliance with the General Data Protection Regulation and the Data Protection Act 2018.

### **12.8. Burden**

12.9. The Authority seeks to minimise the burdens on schools and Local Authorities (LAs) taking part in surveys. It is therefore important that bids should set out how the proposed methodology will minimise the burden on schools and/or LAs and a justification for the proposed sample size.

12.10. When assessing the relative merits of data collection methods, the following issues should be considered:

- only data essential to the project shall be collected;
- data should be collected electronically where appropriate and where schools and/or LAs prefer this;
- questionnaires should be pre-populated wherever possible and appropriate;
- schools must be given at least four working weeks to respond to the exercise from the date they receive the request; and
- LAs should receive at least two weeks, unless they need to approach schools in which case, they too should receive 4 weeks to respond.

12.11. The Contractor shall clear any data collection tools with the Authority before engaging in field work.

12.12. Researchers shall check with the Authority whether any of the information that they are requesting from schools can be provided centrally from information already held.

#### 12.13. **Consent Arrangements**

12.14. The Authority and the supplier shall agree in advance of any survey activity taking place the consent arrangements that shall apply for each of the participant groups. All participants should be informed of the purpose of the research, that the supplier is acting on behalf of the Authority and that they have the option to refuse to participate (opt out). Where opt-in consent is used, the approach should be compliant with the General Data Protection Regulation and Data Protection Act 2018. Contact details should be provided including a contact person at the Authority. Children who are 16 or over will usually be able to give their own consent but even where this is so, the Contractor, in consultation with the Authority, should consider whether it is also appropriate for parents, guardians or other appropriate gatekeepers (e.g., schools, Local Authorities) to be informed when a child has been invited to participate in research.

## Contract Terms

This Contract is made on the **2<sup>nd</sup>** day of **February 2022**  
between:

The Department for Education with offices at Sanctuary Buildings, Great Smith Street, London SW1P 3BT ("the **Customer**"); and

IFF Research Limited a company registered in England and Wales under Company Number 00849983 whose registered office is at 5th Floor St Magnus House, 3 Lower Thames St, London, EC3R 6HD ("the **Supplier**"),

Both the Customer and the Supplier can be referred to as a "**Party**" or together the "**Parties**".

## INTRODUCTION

- (1) The Supplier is one of a number of organisations appointed by Crown Commercial Service (**CCS**) to the Dynamic Purchasing System (DPS) and is therefore able to enter into this Contract to provide the Project(s) to the Customer.
- (2) This Contract, made between the Customer and the Supplier, sets out the terms of the Supplier's appointment as a provider of the Project to the Customer. The Project will be delivered according to the terms of this Contract, any agreed Statement of Work, and the DPS Agreement.
- (3) The Supplier's appointment has been confirmed in the Letter of Appointment.
- (4) The Parties agree that the Project and associated Deliverables shall be supplied in accordance with the terms of the DPS Agreement and this Contract.

## 1. **APPOINTMENT & STATEMENTS OF WORK**

- 1.1. Throughout the Term of this Contract, the Supplier will perform Projects in accordance with agreed Statements of Work.
- 1.2. Subject to Clause 1.4 the Parties may agree new Projects to be delivered under this Contract by agreeing a new Statement of Work. This must be done in writing and using the form set out at Schedule 2 (Statement of Work). Once both Parties have signed a Statement of Work, it shall form part of this Contract.
- 1.3. Any schedule attached to a Statement of Work will describe in detail the different types of Services to be provided under that Statement of Work. A schedule attached to a Statement of Work only applies to the relevant Project to be delivered under that Statement of Work, and not to any other Statement of Work, or to the provision of the Project as a whole.
- 1.4. Where a Customer requires changes to the Project being provided this shall be dealt with as a proposed Variation to this Contract in accordance with the Variation procedure set out in Clause 9.

## 2. **TERM**

- 2.1. This Contract starts on the **Effective Date** and ends on the **Expiry Date**, as stated in the Letter of Appointment unless changed in accordance with the terms of this Contract.
- 2.2. The Customer may extend this Contract for any period up to the Extension Expiry Date by giving the Supplier notice in writing before the Expiry Date. The minimum notice which must be given in order to amend the Expiry Date is specified in the Letter of Appointment.
- 2.3. The revised date the contract will end (the **New Expiry Date**) will be set out in the notice given under Clause 2.2 above.
- 2.4. The terms and conditions of this Contract will apply throughout any extended period.
- 2.5. Each Project starts on the Project Commencement Date and ends on the Project Completion Date, unless it is terminated earlier in accordance with Clause 23.

## 3. **CONTRACT GUARANTEE**

- 3.1. Where the Customer has stated in the Letter of Appointment that this Contract is conditional on receipt of a Guarantee, then, on or prior to the Effective Date (or on any other date specified by the Customer), the Supplier must provide:
  - 3.1.1. an executed Guarantee from a Guarantor; and

- 3.1.2. a certified copy extract of the board minutes and/or resolution of the Guarantor approving the execution of the Guarantee.
- 3.2. The Customer may at any time agree to waive compliance with the requirement in Clause 3.1 by giving the Supplier notice in writing.

#### 4. CUSTOMER'S OBLIGATIONS

- 4.1. The Customer will give the Supplier instructions as to its requirements for the Project. These will be included in a Statement of Work and may include start and end dates for each stage of the proposed Project.

#### 5. SERVICE DELAY, DELIVERY & RECTIFICATION Service

##### Delivery

- 5.1. The Supplier will give the Customer full and clear instructions as to what, if any, Customer Materials it reasonably requires to perform the Project.
  - 5.1.1 comply with all Law;
  - 5.1.2 use all reasonable and proper skill and care in its performance of Project;
  - 5.1.3 comply with all reasonable Customer instructions regarding the Project, as long as these instructions do not materially amend the Statement of Work (unless the amendment has been agreed in accordance with Clause 9.1);
  - 5.1.4 keep Customer Materials under its control safe and secure and in accordance with any security policy provided by the Customer; and
  - 5.1.5 provide all Deliverables by any dates set out in the applicable Statement of Work or any other date(s) agreed by the parties in writing.

##### Delay

- 5.2. If the Customer materially breaches its obligations in connection with this Contract (including its payment obligations), and consequently delays or prevents the Supplier from performing any of the agreed Services or providing any of the agreed Deliverables this will be a "**Customer Cause**". In the event of a Customer Cause, the Supplier will be granted an appropriate extension of time (to be approved by the Customer, acting reasonably) to perform the agreed Services or provide the agreed Deliverables. The Supplier will not be liable for any Losses incurred by the Customer as a result of Customer Cause, provided the Supplier complies with its obligations set out at Clause 5.4.
- 5.3. The Supplier must notify the Customer within two (2) Working Days of the Supplier becoming aware that the Customer has breached, or is likely to breach, its obligations in connection with this Contract. This notice must detail:
  - 5.3.1 the Customer Cause and its actual or potential effect on the Supplier's ability to meet its obligations under this Contract, and
  - 5.3.2 any steps which the Customer can take to eliminate or mitigate the consequences and impact of such Customer Cause.

- 5.4. The Supplier must use all reasonable endeavours to eliminate or mitigate the consequences and impact of a Customer Cause. The Supplier must try to mitigate against any Losses that the Customer or the Supplier may incur, and the duration and consequences of any delay or anticipated delay.
- 5.5. If at any time the Supplier becomes aware that it may not be able to deliver the Project by any date set out in the applicable Statement of Work (or any other deadline agreed by the Parties in writing), this will constitute a Default and the Supplier will immediately notify the Customer of the Default and the reasons for the Default.
- 5.6. If the Default described in Clause 5.5 above is in the Customer's opinion capable of remedy the Customer may, up to 10 Working Days from being notified of the Default, instruct the Supplier to comply with the Rectification Plan Process.

#### **Rectification Plan Process**

- 5.7. If instructed to comply with the Rectification Plan Process by the Customer under Clause 5.6 above, the Supplier will submit a draft Rectification Plan to the Customer to review as soon as possible and in any event within ten (10) Working Days (or such other period as may be agreed between the Parties) from being instructed to do so. The Supplier shall submit a draft Rectification Plan even if the Supplier does not agree that the Default is capable of remedy.
- 5.8. The draft Rectification Plan shall set out:
  - 5.8.1 full details of the Default that has occurred, including the underlying reasons for it;
  - 5.8.2 the actual or anticipated effect of the Default; and
  - 5.8.3 the steps which the Supplier proposes to take to rectify or mitigate the Default and to prevent any recurrence of the Default, including timescales for such steps and for the rectification of the Default (where applicable).
- 5.9. The Supplier shall promptly provide to the Customer any further documentation that the Customer requires to assess the Supplier's reasoning behind the default. If the Parties do not agree on the root cause set out in the draft Rectification Plan, either Party may refer the matter to be determined in accordance with paragraph 5 of Schedule 4 (Dispute Resolution Procedure).
- 5.10 The Customer may reject the draft Rectification Plan by notice to the Supplier if, acting reasonably, it considers that the draft Rectification Plan is inadequate. An example of an inadequate draft Rectification Plan is one which:
  - 5.10.1 is insufficiently detailed to be capable of proper evaluation;
  - 5.10.2 will take too long to complete;
  - 5.10.3 will not prevent reoccurrence of the Default;
  - 5.10.4 will rectify the Default but in a manner which is unacceptable to the Customer;  
or
  - 5.10.5 will not rectify the Default.

- 5.11 The Customer will tell the Supplier as soon as reasonably practicable if it agrees to or rejects the draft Rectification Plan.
- 5.12 If the customer rejects the draft Rectification Plan, the customer will give reasons for its decision in its rejection notice. The Supplier must take these reasons into account in the preparation of a revised Rectification Plan. The Supplier shall submit a revised draft of the Rectification Plan to the Customer for review within five (5) Working Days (or such other period as agreed between the Parties) of the Customer's rejection notice.
- 5.13 If the Customer agrees the draft Rectification Plan, or any revised draft Rectification Plan, the Supplier shall immediately start work on the actions set out in the Rectification Plan.

## **6. SUPPLIER: OTHER APPOINTMENTS**

- 6.1 Adverse public perception could have a detrimental impact on the Customers desired outcomes for the Project. To minimise this risk, the Supplier must not, without the Customer's Approval (not to be unreasonably withheld), provide research services to a third party during the Term of this Contract where the provision of such services (in the reasonable opinion of the Customer):
  - 6.1.1 has the potential to adversely affect the Customer's desired outcome of the Project or diminish the trust that the public places in the Customer; or
  - 6.1.2 is likely to cause embarrassment to the Customer or bring the Customer into disrepute or may result in a conflict of interest for the Customer.
- 6.2 Where the Supplier is already providing research services to a third party in the situations set out in 6.1 prior to the Effective Date, the Supplier warrants that it has informed the Customer of this before entering into this Contract.
- 6.3 If the Supplier becomes aware of a breach, or potential breach, of its obligations under Clause 6.1, the Supplier must notify the Customer immediately, providing full details of the nature of the breach and the likely impact on any Projects
- 6.4 If the Supplier breaches Clause 6.1, the Customer may terminate this Contract, a Project, or any part of a Project with immediate effect in accordance with Clause 23.3.

## **7. CUSTOMER: OTHER APPOINTMENTS**

- 7.1 Subject to Clause 6 the relationship between the Parties is non-exclusive. The Customer is entitled to appoint any other Supplier to perform the Project which are the same or similar to the Project.

## **8. PERSONNEL**

- 8.1 The Supplier must ensure that Supplier personnel who provide the Project:
- 8.1.1 are appropriately experienced, qualified and trained to provide the Project in accordance with this Contract;
  - 8.1.2 apply all reasonable skill, care and diligence in providing the Project;
  - 8.1.3 obey all lawful instructions and reasonable directions of the Customer and provide the Project to the reasonable satisfaction of the Customer, and
  - 8.1.4 are vetted in accordance with Good Industry Practice and where applicable, the security requirements of the Customer and the Standards.
- 8.2 The Supplier will be liable for all acts or omissions of the Supplier personnel. Any act or omission of a member of any Supplier personnel which results in a breach of this Contract is a breach by the Supplier.
- 8.3 The Customer acknowledges and agrees that it may be necessary for the Supplier to replace the personnel providing the Project with alternative personnel with similar levels of seniority and experience.
- 8.4 The Supplier will seek to ensure that any Key Individual responsible for the provision of the Project will remain involved in the Project. If any Key Individual leaves the Supplier, or ceases to be involved in the provision of the Project for any reason (for example, if they are promoted to a different role within the Supplier), the Supplier will consult with the Customer and, subject to the Customer's Approval, appoint a suitable replacement.
- 8.5 If the Customer reasonably believes that any of the Supplier personnel are unsuitable to undertake work on this Contract, it will notify the Supplier who will then end the person's involvement in providing the Project.

## **9. VARIATIONS AND CANCELLATIONS**

- 9.1 Either Party may request a change to this Contract, a Project or a Statement of Work. Any requested change must not amount to a material change of this Contract (within the meaning of the Regulations and the Law). A change, once implemented, is called a "**Variation**".
- 9.2 A Party may request a Variation by completing, signing and sending the Variation Form to the other Party. The requesting Party must give sufficient information for the receiving Party to assess the extent of the proposed Variation and any additional cost that may be incurred by it.
- 9.3 Subject to Clause 9.5, the receiving Party must respond to the request within the time limits specified in the Variation Form. The time limits shall be reasonable and ultimately at the discretion of the Customer, having regard to the nature of the Project and the proposed Variation.
- 9.4 If the Supplier requests a Variation, the Customer can ask the Supplier to carry out an assessment of the effects of the proposed Variation (an **Impact Assessment**). The Impact Assessment must consider:
- 9.4.1 the impact of the proposed Variation on the Project and Supplier's ability to meet its other obligations under this Contract (including in relation to other Statements of Work);
  - 9.4.2 the initial cost of implementing the proposed Variation and any ongoing costs post- implementation;
  - 9.4.3 any increase or decrease in the Contract Charges, any alteration in the resources or expenditure required by either Party and any alteration to the working practices of either Party;
  - 9.4.4 a timetable for the implementation, together with any proposals for the testing of the Variation; and
  - 9.4.5 any other information the Customer reasonably asks for in response to the Variation request.
- 9.5 The Parties may agree to adjust the time limits specified in the Variation Form so the Impact Assessment can be carried out.
- 9.6 If the Parties agree the Variation, the Supplier will implement it, and be bound by it as if it was part of this Contract.

- 9.7 Until a Variation is agreed, the Supplier must continue to perform and be paid for the Project as originally agreed, unless otherwise notified by the Customer.
- 9.8 Subject to Clauses 9.9 and 23.1 the Customer can require the Supplier to suspend or cancel any Project or Statement of Work, or any part of a Project, including any plans, schedules or work in progress at any time, regardless of whether a Variation has been requested. Any request shall be made by an Authorised Customer Approver in writing. The Supplier will take all reasonable steps to comply with any such request as soon as possible.
- 9.9 In the event of any cancellation under Clause 9.8, the Customer will pay the Supplier all Contract Charges reasonably and properly incurred by the Supplier during the Project Notice Period, provided that the Supplier uses all reasonable endeavours to mitigate any charges or expenses.

## **10. APPROVALS AND AUTHORITY**

- 10.1 For the purposes of this Contract, any reference to Customer Approval means written approval in one of the following ways:
- 10.1.1 the Customer issuing a purchase order bearing the signature of an Authorised Customer Approver, or
  - 10.1.2 e-mail from the individual business e-mail address of an Authorised Customer Approver, or
  - 10.1.3 the signature of an Authorised Customer Approver on the Supplier's documentation
- 10.2 Any reference to Supplier Approval means written approval in one of the following ways:
- 10.2.1 e-mail from the individual business e-mail address of an Authorised Supplier Approver, or
  - 10.2.2 the signature of an Authorised Supplier Approver on the Customer's documentation
- 10.3 The Supplier will seek the Customer's Approval of:

- 10.3.1 any estimates or quotations for any costs to be paid by the Customer that are not agreed in a Statement of Work.
- 10.4 The Supplier will seek the Customer's Approval of any draft Deliverables. The Customer's Approval will be the Supplier's authority to proceed with the use of the relevant Deliverables.
- 10.5 If the Customer does not approve of any matter requiring Approval, it must notify the Supplier of its reasons for disapproval within fourteen (14) days of the Supplier's request.
- 10.6 If the Customer delays giving Approval or notifying the Supplier as to its disapproval, the Supplier will not be liable for any resulting delays or adverse impact caused to the delivery of the Project.

## **11. PROJECT MANAGEMENT**

- 11.1 During the Term of this Contract, the Supplier will:
  - 11.1.1 keep the Customer fully informed as to the progress and status of all Services and Deliverables, by preparing and submitting written reports at such intervals and in such format as is agreed by the Parties.
  - 11.1.2 promptly inform the Customer of any actual or anticipated problems relating to provision of the Deliverables.
- 11.2 During the Term, the Parties' respective project managers will arrange and attend meetings to review the status and progress of the Project(s) and to seek to resolve any issues that have arisen. These meetings will be held at locations and intervals as agreed by the parties.
- 11.3 Unless otherwise agreed in the Statement of Work, the Supplier will produce contact reports providing each Party with a written record of matters of substance discussed at meetings or in telephone conversations between the parties within three (3) Working Days of such discussions. If the Customer does not question any of the subject matter of a contact report within seven (7) Working Days of its receipt, it will be taken to be a correct record of the meeting or telephone conversation.

## **12. FEES AND INVOICING**

- 12.1. The Contract Charges for the Project will be the full and exclusive remuneration of

the Supplier for supplying the Project. Unless expressly agreed in writing by the Customer in the Statements of Work, the Contract Charges will include every cost and expense of the Supplier directly or indirectly incurred in connection with the performance of the Project.

- 12.2. All amounts stated are exclusive of VAT which will be charged at the prevailing rate. The Customer shall, following the receipt of a valid VAT invoice, pay to the Supplier a sum equal to the VAT chargeable in respect of the Project.
- 12.3. The Supplier will invoice the Customer in accordance with the payment profile agreed in the Statements of Work. Each invoice will include all supporting information required by the Customer to verify the accuracy of the invoice, including the relevant Purchase Order Number and a breakdown of the Project supplied in the invoice period.
- 12.4. The Customer will pay the Supplier the invoiced amounts no later than thirty (30) days after verifying that the invoice is valid and undisputed and includes a valid Purchase Order Number. The Customer may, without prejudice to any other rights and remedies under this Contract, withhold or reduce payments in the event of unsatisfactory performance.
- 12.5. If the Customer does not pay an undisputed amount properly invoiced by the due date, the Supplier has the right to charge interest on the overdue amount at the interest rate specified in the Late Payment of Commercial Debts (Interest) Act 1998.
- 12.6. The Customer is entitled to deduct from any sum due any money that the Supplier owes the Customer. This includes any sum which the Supplier is liable to pay to the Customer in respect of breach of this Contract. In these circumstances, the Supplier may not assert any credit, set-off or counterclaim against the Customer.
- 12.7. The Supplier will indemnify the Customer on a continuing basis against any liability (to include any interest, penalties or costs incurred, levied, demanded or assessed) on the Customer at any time in respect of the Supplier's failure to account for or to pay any VAT on payments made to the Supplier under this Contract. Any amounts due under Clause 12.2 will be paid by the Supplier to the Customer not less than five (5) Working Days before the date upon which the tax or other liability is payable by the Customer.
- 12.8. If there is a dispute between the Parties about an amount invoiced, the Customer will pay the undisputed amount by the due date. The Supplier will not suspend the supply of the Project in any Project, unless the Supplier is entitled to terminate that Project for a failure to pay undisputed sums in accordance with Clause 23.7.7.

### **13. THIRD PARTY AGENCIES: ASSIGNMENT AND SUB-CONTRACTING Assignment and Sub-Contracting**

- 13.1. Other than where a Sub-Contractor is agreed in the Letter of Appointment or a Statement of Work, the Supplier will not, without the Approval of the Customer, assign, sub-contract, novate or in any way dispose of the benefit or the burden

of this Contract or any part of it.

- 13.2. In requesting Approval to sub-contract, the Supplier will:
  - 13.2.1 use reasonable care and skill in the selection of proposed Sub-Contractors;
  - 13.2.2 if the Customer requests, the Supplier will obtain more than one quote for a particular sub-contracted service; and
  - 13.2.3 provide the Customer with a business case for sub-contracting all or part of the Project, identifying the reasons for the Supplier to sub-contract to its proposed Sub-Contractor. The Customer may reject the Supplier's request to appoint a proposed Sub-Contractor if it considers the proposed Sub-Contractor does not provide value for money.
- 13.3. If the Customer consents to the Supplier's proposed Sub-Contractor, it shall be a Sub- Contractor as the term is defined in Schedule 1 (Definitions).
- 13.4. In granting consent to any assignment, novation sub-contracting or disposal, the Customer may set additional terms and conditions it considers necessary.
- 13.5. The Supplier shall ensure that its Sub-Contractor does not further sub-contract all or part of the Project or Deliverables without the Customer's Approval.
- 13.6. Any contracts the Supplier enters into with third party suppliers for Services and Deliverables ("**Sub-Contracts**") must be on terms that are in line with the Supplier's standard contractual terms and conditions, must not permit further sub-contracting, and must not conflict with the terms of this Contract.
- 13.7. Provided that the Supplier has notified the Customer of any significant restrictions or contract terms contained in any Sub-Contracts, the Customer hereby acknowledges that:
  - 13.7.1. its right to use or otherwise benefit from any Services or Deliverables acquired under Sub-Contracts will be as set out in the Sub-Contracts; and
  - 13.7.2. it will be responsible for any reasonable and proper charges or liabilities (including cancellation payments) that the Supplier is directly liable for under Sub-Contracts only to the extent that that these are caused by an act or omission of the Customer or its Affiliates.
- 13.8. The Supplier will promptly provide the Customer with a copy of any Sub-Contract if requested to do so.
- 13.9. The Supplier will be responsible for the acts and omissions of its sub-contractors as though those acts and omissions were its own.
- 13.10. The Supplier will obtain the Customer's Approval before commissioning services from any Supplier Affiliate.

#### **Supply Chain Protection**

- 13.11. The Supplier will ensure that all Sub-Contracts contain provisions:

**Review:**

A review point of 15/10/2023 is hereby factored to assess the viability and desirability of extending the contract, as per provisions made in the statement of requirements, to undertake further research. On this date the DfE contract manager and policy lead will decide whether to pursue approvals for extended work or not.

The Customer will meet with the Supplier on 15/09/2023 to discuss the factors that will contribute to this decision.

For the Customer to make a judgement on whether it is viable to extend the contract, the Supplier will provide a draft of final findings by 30/09/2023, and revised Theory of Change by 06/10/2023, to ensure adequate time is given for the review process and notice periods stated in the contract.

The decision to extend the work will be based on consideration of:

- i. The contractor's performance in delivery of the schedule of works set out here
- ii. The quality of data provided by the research – including, where appropriate, it is based on development of theory-based measurement scales, and validation of input, output and outcome measures to ensure robustness. Qualitative work feeds into quantified theory of change measures where appropriate.
- iii. The extent to which the data provided gives effective measurement and exploration of the theory of change and meets research objectives – as mapped against the evaluation framework.
- iv. The extent to which issues under points ii and iii can be resolved within scope of this contract. For example, whether data collected in wave one and/or future waves can be used to improve and/or validate measures for future waves.
- v. The current policy position and plans, including response that may be taken to the findings of this research, and thus the value of additional data collection on this topic.

To facilitate this discussion further information about the running of the contract and the research findings may be requested from the contractor

If the Customer determines that there is further government policy need to conduct more research, or the draft final findings indicate that further research is necessary and that this aligns with government policy requirements and remains within scope of this contract and the provisions set out in the statement of requirements, DfE approvals processes for additional research will be followed for final decision on whether the contract will be extended, giving the Supplier notice as given under Clause 2.2.

If, following the review process stated above, the Customer determines that it is not viable to extend the project, the contract will end on the Expiry Date as stated in the Letter of Appointment.

- 1.3 The Processor shall comply with any further written instructions with respect to Processing by the Controller.
2. Any such further instructions shall be incorporated into this Schedule.

Description	Details
Subject matter of the processing	DfE has commissioned IFF to undertake a survey of 500 headteachers, 500 RSHE leads and 500 staff responsible for delivering RSHE to pupils, and a qualitative stage will involve 12 case study site visits to schools in which we will conduct depth interviews with RSHE leads and delivery staff as well as interviews with pupils in 'friendship pairs'. The Department's aim, and the purpose of the research, is to investigate whether and how schools are implementing the new RSHE statutory guidance to deliver effective RSHE education for their pupils. Data processing relates to: 1) the sample of heads, leads and teachers that we will be contacting, and then analysing survey completions; 2) pupils, who will be identified by their teachers, interviewed, the audio recording transcribed and analysed.

Duration of the processing	<p>The quantitative survey fieldwork is May to October 2022, with analysis of the data collected and reporting going through to January 2023. The qualitative recruitment and fieldwork is from March to May 2023, with analysis and reporting through to August 2023. Identifiable data will be destroyed by 31<sup>st</sup> December 2023 or the date of the extended contract as described in the review process in Schedule 2.</p>
Nature and purposes of the processing	<p>Data will be collected in the following ways:</p> <ul style="list-style-type: none"> <li>- Survey data, completed by headteachers, RSHE leads and delivery staff</li> <li>- Interviews with RSHE leads and delivery staff</li> <li>- Interviews with pupils</li> <li>- Pupils' socio-economic and demographic information</li> <li>- Contact details for schools</li> </ul> <p>The legal basis for processing these data for the research project is public interest (Article 6 (1)(e) and Article 9(2)(j) of the General Data Protection Regulation). This means personal data can be processed where necessary for the performance of a task carried out in the public interest. In this case, it is to carry out research and inform future RSHE provision.</p> <p>All data related to the project will stored within the business' own London office data centre. The data centre is contained within locked, access and environmentally controlled server room. Logical data storage is to fully encrypted storage volumes hosted upon redundant SAN units. All business data and systems are backed up daily, utilising a 3-2-1 backup strategy. Off-site backup and replication is to UK hosted Microsoft Azure Cloud storage.</p> <p>IFF's data systems are password protected and data will only be accessed by authorized users.</p> <p>Any identifiable data (interview recordings, transcripts, survey responses) will be deidentified within a month of the report being signed off.. Any other identifiable data (such as names and contact details) will be destroyed as soon as possible and by the end of the project.</p>

Type of Personal Data	<p>Types of personal data may include:</p> <p>Pupils: name, age, school name, school year, gender, ethnicity, religion, sexuality, whether they receive free school meals, English as a second language.</p> <p>Headteachers, RSHE leads and delivery staff: name, gender, ethnicity, religion, sexuality, age, job title, school type, school address, telephone number, email.</p>
Categories of Data Subject	Headteachers, teachers, pupils
<p>Plan for return and destruction of the data once the processing is complete</p> <p>UNLESS requirement under union or member state law to preserve that type of data</p>	<p>Any identifiable data (such as names, contact details) will be destroyed as soon as possible and by the end of the contract (31<sup>st</sup> December 2023, or the date of the extended contract as described in the review process in Schedule 2). The Supplier will supply the Customer with the deidentified survey data in an SPSS or csv file. Deidentified data to be securely stored for 10 years and then destroyed, to be kept under review. Deidentified survey data may be deposited with the UK Data Archive in line with open science principles and research best practice.</p>
