Building Futures Together

The vision statement reflects our aim to grow through *building* more homes. It is our intention to enable our customers to consider their *future* knowing they have a place they can call home. The Association will work *together* with staff, customers and other stakeholders in making our vision a reality.

The three goals of the Association are as follows:

1. Sustain

We will provide good quality homes that people want to live in and provide value for money services, delivering quality at an affordable cost. We will maintain a healthy business in terms of its finances, expertise and governance.

2. Innovate

We will make the best use of technology to improve the efficiency and effectiveness of services and find ways to work smarter. We will adapt to change in our business and operating environment to remain competitive.

 - Best Value for money
 - High customer satisfaction
 - Consolidated monthly invoices
 - Advice on any legislative requirements related to the contract

4.4 Rates

The Association is looking to have in place **Pre-Agreed**, **Fixed Rates** for all items provided under the agreement for the duration of the contract term. That is to say that the rates may not be increased by the tenderer from year 1 of the agreement to years 2 and 3.

Tenderers are referred to the Pricing Matrix within this Invitation to Tender to provide details of their prices.

5.0 Evaluation of Tender Submissions

- 5.1 The Association reserves the right to exclude a Tender from evaluation if it does not conform to the tender requirements or does not demonstrate sufficient capability to perform the required work.
- 5.2 Award will be based on the most suitable solution and most economically advantageous tender received, where Price tendered accounts for 80% of the overall score and Quality accounting for 20%.
- 5.3 The scoring mechanism is as follows:

i. Pricing: (80% of the overall score)

This sets out the pricing information required by the Association for evaluation and appointment of the successful Partner(s).

A price score shall be calculated for each tender by reference to the lowest tender, which is given a points score of 100. One point shall be deducted from each of the other tenders for each percentage point above the lowest in accordance with the following formula:

Maximum Available Price Score (100) x <u>Lowest Price received</u>
Tenderer's Price

A maximum price ratio score of 80% shall be given to the lowest price. The price ratio score shall then be calculated for each other tender according to the points achieved as a proportion of 100.

Tenderers shall note that tenders considered to be priced very low shall be scrutinised to ensure that this is not as a result of a failure to understand the requirements of the Contract. The Association shall have the right to disregard any tender that it considers to be abnormally low.

ii. Quality (20% of the overall score)

This measures the responses to the Quality Questions set and will be scored in accordance with the table below:

Evaluation of answer	Marks
Completely fails to meet required standard or does not provide a proposal	0
Proposal falls short of achieving expected standard in a number of identifiable respects	1
Proposal meets the required standard in all material respects	2

The responses to the questions should be strictly restricted to the page count identified. Responses will only be evaluated up to the specified page count per question. Text that exceeds the specified page count will be discounted. All tender responses must be submitted as a <u>read-only MS Word document</u> with 'Arial' Font, size 11.

Supporting information may be submitted as appendices, but will not be scored.

The highest scoring Tenderer for **Quality** will be awarded the full 20% available. The remaining Tenderers will be awarded a percentage score based on the following calculation.

Maximum Available Quality Score (12) x <u>Tenderer's Total Score out of 12</u> Highest Score awarded out of 12

iii. The adjusted percentage scores for Quality/Price will be added together to give an overall percentage score.
