Estimated value of requirement:

Category A: 400M GBP and above ▼

Short description of requirement: The Land Integrated Operating Service (LIOS) sets out to improve the through-life management of the Army's current in-and near-service military vehicles and selected equipment (Land Equipment) in line with Defence and Security Industrial Strategy. Specifically targeting the MoD's support contracts, it broadly seeks better equipment availability and readiness (upkeep), improved technical performance through life (regular updates), and a more routine and deliverable programme of capability upgrades (discrete upgrades). **Please see the attached Pre-Market Engagement Document for further information.** Should you wish to participate in this opportunity, it would be appreciated if you could provide your responses to this document no later than 12:00 on 28 January 2022 to the following email address: DESLEVS-Futures.gov.uk to enable MoD to analyse and consider responses.

Additional Information: Suppliers interested in working with the Ministry of Defence should register on the MOD Supplier Information Database (SID) Register, available at [www.contracts.mod.uk](http://www.contracts.mod.uk). The MOD SID is a database of active and potential suppliers available to all MOD and UK Defence procurement personnel, and is the main supplier database of MOD Procurement organisations. Please note: the registration and publication of a company profile on the MOD SID does not mean or imply that the supplier has in any way been vetted or approved by the MOD. Suppliers wishing to compete for advertised MOD contracts must respond to any specific call for competition by submitting a separate expression of interest in accordance with the instructions of the purchasing organisation.

The Authority reserves the right to amend any condition related to security of information to reflect any changes in national law or government policy. If any contract documents are accompanied by instructions on safeguarding classified information (e.g. a Security Aspects Letter), the Authority reserves the right to amend the terms of these instructions to reflect any changes in national law or government policy, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies, or otherwise.
