Annex 4 – Tender Submission

Please Provide a statement of your understanding of Cefas' requirements for this contract and how you would propose delivering them.

LEES are renowned nationally as being specialist grant auditors, and have successfully provided this service to CEFAS for a number of years. We understand that CEFAS require an independent auditor for their European Commission research projects, in particular Horizon 2020 and INTERREG. We also offer assistance with any other project funding as and when required.

LEES (in particular Jeremy Hyde) are currently appointed First Level Controller on 110 INTERREG V projects, covering all programmes relevant to the UK (2 Seas, North Sea, France (Channel) England, North West Europe, and Europe). We also act as First Level Controller of the France Channel England Managing Authority. First Level Control assignments test 100% of expenditure incurred and declared at regular intervals throughout the project, and follow a strict audit checklist.

We have performed over 500 Horizon 2020 audits (which requires an audit at the project end if its direct costs exceed €325,000). We have also performed several Horizon:2020 audit training courses across the UK, and regularly present a sessions on Horizon:2020 auditing at national conferences. We are fully conversant with the current Horizon:2020 regulations and Annotated Model Grant Agreement (and are aware of its frequent amendments), and its 64 audit requirements (compared to 14 in FP7).

We will work towards CEFAS's draft annual audit plan, but have the capacity to accommodate ad hoc audits if they arise. We will complete audits within two weeks of their commencement (from planning to issuance of reports), and you will be familiar with our turnaround times.

In addition to the grant audit services, we also provide the following value-added services to clients:

- A Management Report highlighting error rates, required adjustments and proactive commentary to identify corrective action required on future claim periods.
- A quarterly client service meeting.
- Our online Knowledge Base for grant audit issues which includes questions and answers on specific issues arising from our experience in this field.
- Our helpline provides free advice and support on relevant issues and interpretations.
- Assistance with audit queries and clarifications from the Lead Partner, Joint Technical Secretariat, or MHCLG.
- Assistance with Second Level Control audit, including access to our audit working papers if necessary.
- In the past we have also provided CEFAS with independent non-audit services regarding overhead recovery on non-EU contracts.

The Grant Audit Process

Planning

We believe that efficient planning results in an effective grant audit. All grant audits follow the same premise of planning, fieldwork and completion. We will illustrate the process with reference to INTERREG and Horizon:2020 below.

When an audit is required, we will ask for copies of the Grant Agreement and Annex 1 (Horizon:2020), and Subsidy Contract and latest Application Form (INTERREG).

Once CEFAS has completed their draft claim (on the relevance INTERREG platform, or the Horizon:2020 Financial Statements), we ask for a screenshot to be sent to us. We also request breakdown of the transactions claimed, along with reconciled expenditure ledger to the books and records in order for us to carry out our planning procedures.

We review the data, on a line-by-line basis, to ensure:

- The breakdown of costs reconciles to the draft claim;
- The costs are in the correct budget line;
- The claims are arithmetically correct;
- The correct exchange rates have been used;
- There are no immediately identified anomalies.

We will then select a sample of transactions for testing, which is a minimum sample of 10 items or 10% of items per budget line (for Horizon:2020). For each INTERREG claim 100% costs are reviewed.

We will also prepare the standardised proforma Horizon:2020 Terms of Reference, and send, in a word format, to CEFAS for e-signing as these form part of the CFS package.

Audit Testing

We request that CEFAS upload their evidence to our secure document exchange system, **LEES** Portal. We can also use any document exchange system that CEFAS utilise if this is preferable. As we emerge from the COVID pandemic, we are also happy to attend onsite to perform our audit testing, as we are local to the area.

Our testing will be performed in line with each INTERREG programme's guidelines and those referenced from the eligible costs methodologies issued under the Annotated Model Grant Agreement (AMGA) for Horizon:2020 audits.

The specific testing will depend on the budget line, but the key principles we look at for each transaction are:

- The project costs relate to activities necessary for carrying out the project activities and for achieving the project's objectives, and be included in the estimated budget;
- The project costs must be reasonable, justified, consistent with the usual internal rules of CEFAS;
- The project costs must be identifiable, verifiable, plausible, and determined in accordance with the relevant accounting principles;
- The project costs must be incurred and paid by CEFAS, debited from its bank account after the start date and no later than the project end date (For INTERREG grants only);
- Each project cost must be substantiated by sufficient evidence, allowing identification and verification;
- Ensure no recoverable VAT has been claimed;
- Ensure any relevant procurement procedures have been adhered to;
- Ensure the correct exchange rate has been used.

Completion

After completing our remote audit testing, we will issue our “Queries & Findings” schedule within 2 working days. We liaise directly with CEFAS staff to clear these queries and agree any adjustment to the draft claim.

Once we have agreed any adjustments required with CEFAS, we will issue our draft Reports, which are mandated by the funders. We will ensure the most up-to-date and correct reporting formats are utilised. At this stage, CEFAS may make comments on our draft reports, and we will liaise with CEFAS to ensure all parties are satisfied with our reports.

Review

The file and working papers will undergo a robust Manager and Director review, to ensure that once all parties are satisfied, we can issue our signed reports immediately.

We will undertake a final “pre-issuance” review on each file to ensure the reports are correct, with no typographical errors.

We will then send CEFAS a PDF of our finalised reports, and hard copies in the post, should they be required.

Describe in detail, giving dates, your current and previous experience of comparable projects your organisation has been awarded by similar clients and undertaken in the past 3 years.

We perform grant audit services, covering all funding streams, including European funding (INTERREG and other ERDF funding, Horizon:2020, ERASMUS+), UK Government (InnovateUK, DEFRA, DFID), and US Federal Funds (the “Single Audit”) on projects for the following organisations, amongst others.

[illegible]

We have worked with all of the above organisations in the past three years. We are currently the incumbent providers to CEFAS for EU assurance. We currently report on approximately 600 projects per year, including providing exclusive grant auditing services to several of the largest HEIs in the UK. We have never been disengaged by a grant audit client, and have always had the contract extension granted. We pride ourselves on client service delivery, and feel this is reflected in our client base, and frequent client referrals.

We provide grant audit services to 8 out of the top 10 organisations listed in the 2021 Research Excellence Framework, as ranked by The Times Higher Education Supplement, on Grade Point Average. We are currently engaged as First Level Controller on over 110 INTERREG V projects.

Service Delivery

Based on our experience, service delivery and compliance with reporting deadlines is a key issue. It is important that all parties work together and hold discussions early and at the appropriate stages, to ensure an effective grant process and compliance with the relevant deadlines. Typically, our clients require grant audits to be completed within two weeks of commencement, however, we aim to complete audits and audit reports ready for submission within seven days of the audit commencing.

We also understand that you may have routine queries and require some technical support on an ongoing basis. Dealing with such queries is very much part of the core service for our clients and good relationships are not developed if you feel the “clock is running” every time you pick up the telephone. For this reason, all routine queries incur no additional charges.

We will comply with all contractual requirements of the specific funding body, which will include the use of pre-defined template letters and reports.

LEES have adequate staff availability and a dedicated grant audit team to service CEFAS's existing and expected growth in projects. We are regularly required to react quickly to ad hoc reporting requirements.

Technical Updates

We regularly send out technical updates from the grant bodies, and other information pertinent to funding, when these are identified. Most recently, this has included how INTERREG projects deal with COVID-related government assistance (such as the CJRS).

Funder Changes

The **LEES'** grant audit team are proud to be members of the UK's Association of Research Managers and Administrators (ARMA). As a founding member of the Audit and Compliance Special Interest Group, we assist other members with their specific questions around grant audit procedures and eligible costs. At a wider level, we attend ARMA conferences and feed into discussions around the financial administration of research grants. We attend regular workshops to fully understand the financial rules and practical interpretation of grant reporting, and attend regular CPD update courses for all sponsor types. We then disseminate this information via our professional networks, and run dedicated training sessions for our clients as required. We always attend First Level Controller training sessions performed by MHCLG at no cost to our clients.

Sub-Contracting

We do not sub-contract any of our grant audit procedures.

First Level Controller Approval is essential for each INTERREG project, it is therefore vital that a named individual is assigned to the contract to perform the INTERREG audits. Please provide the name and supporting CV of the proposed assignee for this contract. Please explain what contingency will be in place, in the event that the assignee is unavailable at any time during the contract duration.

For other funding streams, our alternate signatory is [REDACTED] in the rare case of [REDACTED] absence.

[illegible]

Your key contacts at **LEES** will be [REDACTED]. As co-managers of the dedicated team, they are your first point of contact for audit engagements and day- to-day enquiries. Further details of the senior team can be found below.

2. Environmental Principles

The Company's Green Team have implemented three ways to reduce our negative impact on the environment in commercially viable ways:

2.1 Reduce

The Company uses energy-efficient kettles, which allow people to accurately measure the exact amount of water required. These use, on average, 31% less energy than a standard 3kW kettle, saving enough to power 50 light bulbs.

2.2 Re-use

The Company composts all their kitchen waste in their registered onsite compost bin, reducing the amount they send to landfill and producing a useful by-product, which can be used to fertilise the Company's garden.

2.3 Recycle

The Company has changed their waste contractor to a supplier with recycling facilities, which has enabled it to recycle 85% of their office waste and cut their waste disposal costs in half.

3. The Company's Green Policies

- 3.1 Turning off computers when not using for long periods of time or at least switching the monitor off
- 3.2 Using non-confidential paper as scrap paper pad on desks
- 3.3 Ensuring the dual-flush system on the toilets is used
- 3.4 Not plugging in laptops unnecessarily; use the battery and then recharge
- 3.5 Turning off lights in empty rooms
- 3.6 Turning off air-conditioning in meeting rooms when not in use
- 3.7 Opening windows and turning off air-conditioning if possible
- 3.8 Installing movement sensor lights in rooms used rarely
- 3.9 Printing double-sided, where possible, and only what is required
- 3.10 Using only enough water in the kettle for what is required
- 3.11 Turning taps off when washing up
- 3.12 Recycling everything possible
- 3.13 Using a food compost bin in the kitchens
- 3.14 Setting up computer monitors to switch off after a few minutes
- 3.15 Encouraging car share to the office or clients

3. How the Contract works

3.1 The Order Form is an offer by the Authority to purchase the Deliverables subject to and in accordance with the terms and conditions of the Contract.

3.2 The Supplier is deemed to accept the offer in the Order Form when the Authority receives a copy of the Order Form signed by the Supplier.

3.3 The Supplier warrants and represents that its Tender Submission and all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.

4. What needs to be delivered

4.1 All Deliverables

(a) The Supplier must provide Deliverables: (i) in accordance with the Specification and Tender Submission; (ii) to a professional standard; (iii) using all reasonable skill and care; (iv) using Good Industry Practice; (v) using its own policies, processes and internal quality control measures as long as they don't conflict with the Contract; (vi) in accordance with such policies and procedures of the Authority (as amended from time to time) that may be specified in the Contract (vii) on the dates agreed; and (viii) in compliance with all applicable Law.

(b) Without prejudice to the Specification the Supplier must provide Deliverables with a warranty of at least 90 days (or longer where the Supplier offers a longer warranty period to the Authority) from Delivery against all obvious damage or defects.

4.2 Goods clauses

- (a) All Goods Delivered must be capable of meeting the requirements set out in the Specification and be either (i) new and of recent origin, (ii) reused or (iii) recycled.
- (b) All manufacturer warranties covering the Goods will be assigned to the Authority on request and for free.
- (c) The Supplier transfers ownership of the Goods on completion of Delivery (including off-loading and stacking) or payment for those Goods, whichever is earlier.
- (d) Risk in the Goods transfers to the Authority on Delivery but remains with the Supplier if the Authority notices any damage or defect following Delivery and lets the Supplier know within three Working Days of Delivery.
- (e) The Supplier must have full and unrestricted ownership of the Goods at the time of transfer of ownership.
- (f) The Supplier must Deliver the Goods on the date and to the specified location during the Authority's working hours.
- (g) The Supplier, its subcontractor(s) and supply chain must minimise packaging used whilst providing sufficient packaging for the Goods to reach the point of Delivery safely and undamaged. The Supplier must take back any primary packaging where it is possible to do so. Packaging must be 100% re-usable, recyclable or compostable, use recycled content where reasonably practicable and support the Government's commitment to eliminate single use plastic.
- (h) All Deliveries must have a delivery note attached that specifies the order number, type, quantity of Goods, contact and details of traceability through the supply chain.
- (i) The Supplier must provide all tools, information and instructions the Authority needs to make use of the Goods. This will include, where appropriate, any operation manuals which, unless specified otherwise, will be written in English and provided in electronic form.
- (j) The Supplier will notify the Authority of any request that Goods are returned to it or the manufacturer after the discovery of safety issues or defects that might endanger health or hinder performance and shall indemnify the Authority against the costs arising as a result of any such request. Goods must be disposed of in line with the waste management hierarchy as set out in Law. The Supplier will provide evidence and transparency of the items and routes used for disposal to the Authority on request.
- (k) The Authority can cancel any order or part order of Goods which have not been Delivered. If the Authority gives less than 14 calendar days' notice then it will pay the Supplier's reasonable and proven costs already incurred on the

cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.

(l) The Supplier must at its own cost repair, replace, refund or substitute (at the Authority's option and request) any Goods that the Authority rejects because they don't conform with clause 4.2. If the Supplier doesn't do this it will pay the Authority's costs including repair or re-supply by a third party.

(m) The Authority will not be liable for any actions, claims, costs and expenses incurred by the Supplier or any third party during Delivery of the Goods unless and to the extent that it is caused by negligence or other wrongful act of the Authority or its servant or agent. If the Authority suffers or incurs any damage or injury (whether fatal or otherwise) occurring in the course of Delivery or installation then the Supplier shall indemnify from all losses, damages, costs or expenses (including professional fees and fines) which arise as a result of or in connection with such damage or injury where it is attributable to any act or omission of the Supplier or, where related to the Contract, any of its subcontractors or suppliers.

4.3 Services clauses

(a) Late delivery of the Services will be a breach of the Contract.

(b) The Supplier must co-operate with the Authority and third party suppliers on all aspects connected with the delivery of the Services and ensure that Supplier Staff comply with any reasonable instructions including any security requirements.

(c) The Authority must provide the Supplier Staff with reasonable access to its premises at such reasonable times agreed with the Authority for the purpose of supplying the Services.

(g) On completion of the Services, the Supplier is responsible for leaving the Authority's premises in a clean, safe and tidy condition and making good any damage that it has caused to the Authority's premises or property, other than fair wear and tear and any pre-existing cleanliness, safety or tidiness issue at the Authority's premises that existed before the commencement of the Term.

(h) The Supplier must ensure all Services, and anything used to deliver the Services, are of the required quality and free from damage or defects.

(i) The Authority is entitled to withhold payment for partially or undelivered Services or for Services which are not delivered in accordance with the Contract but doing so does not stop it from using its other rights under the Contract.

5. Pricing and payments

5.1 In exchange for the Deliverables delivered, the Supplier shall be entitled to invoice the Authority for the charges in Annex 3. The Supplier shall raise invoices promptly and in any event within 90 days from when the charges are due.

Any disputed amounts shall be resolved through the dispute resolution procedure detailed in clause 35.

5.6 If any sum of money is recoverable from or payable by the Supplier under the Contract (including any sum which the Supplier is liable to pay to the Authority in respect of any breach of the Contract), that sum may be deducted unilaterally by the Authority from any sum then due, or which may become due, to the Supplier under the Contract or under any other agreement or contract with the Authority. The Supplier shall not be entitled to assert any credit, set-off or counterclaim against the Authority in order to justify withholding payment of any such amount in whole or in part.

5.7 The Supplier must ensure that its subcontractors and supply chain are paid, in full, within 30 days of receipt of a valid, undisputed invoice. If this doesn't happen, the Authority can publish the details of the late payment or non-payment.

6. The Authority's obligations to the Supplier

6.1 If the Supplier fails to comply with the Contract as a result of an Authority Cause:

- (b) as to the sustainability or health and safety conduct of the Supplier, subcontractors and supply chain in the performance of the Contract;

then the Authority may:

- (i) require that the Supplier provide to the Authority (for its approval) a plan setting out how the Supplier will ensure continued performance of the Contract (in the case of (a)) or improve its sustainability conduct or performance (in the case of (b)) and the Supplier will make changes to such plan as reasonably required by the Authority and once it is agreed then the Supplier shall act in accordance with such plan and report to the Authority on demand
