- 4.2.12 The Buyer will not be liable for any actions, claims, costs and expenses incurred by the Supplier or any third party during Delivery of the Goods unless and to the extent that it is caused by negligence or other wrongful act of the Buyer or its servant or agent. If the Buyer suffers or incurs any damage or injury (whether fatal or otherwise) occurring in the course of Delivery or installation then the Supplier shall indemnify the Buyer from any losses, charges, costs or expenses which arise as a result of or in connection with such damage or injury where it is attributable to any act or omission of the Supplier or any of its Subcontractors or Supplier Staff.

- 4.3.1 Late Delivery of the Services will be a default of the Contract.

- 4.3.3 The Buyer must provide the Supplier with reasonable access to its premises at reasonable times for the purpose of supplying the Services

- 5.2 All Charges:
- 5.2.1 exclude VAT, which is payable on provision of a valid VAT invoice; and

 - 5.4.2 includes a detailed breakdown of Deliverables which have been delivered.
- 5.5 If there is a dispute between the Parties as to the amount invoiced, the Buyer shall pay the undisputed amount. The Supplier shall not suspend the provision of the Deliverables unless the Supplier is entitled to terminate the Contract for a failure to pay undisputed sums in accordance with clause 11.6. Any disputed amounts shall be resolved through the dispute resolution procedure detailed in clause 36.
- 5.6 The Buyer may retain or set-off payment of any amount owed to it by the Supplier under this Contract or any other agreement between the Supplier and the Buyer if notice and reasons are provided.
- 5.7 The Supplier must ensure that all Subcontractors are paid, in full, within 30 days of receipt of a valid, undisputed invoice. If this doesn't happen, the Buyer can publish the details of the late payment or non-payment.

- 7.6 The Parties will bear their own costs when an Audit is undertaken unless the Audit identifies a Material Breach by the Supplier, in which case the Supplier will repay the Buyer's reasonable costs in connection with the Audit.
- 7.7 If the Supplier is not providing any of the Deliverables, or is unable to provide them, it must immediately:
- 7.7.1 tell the Buyer and give reasons;
 - 7.7.2 propose corrective action; and
 - 7.7.3 provide a deadline for completing the corrective action.
- 7.8 If the Buyer, acting reasonably, is concerned as to the financial stability of the Supplier such that it may impact on the continued performance of the Contract then the Buyer may:
- 7.8.1 require that the Supplier provide to the Buyer (for its approval) a plan setting out how the Supplier will ensure continued performance of the Contract and the Supplier will make changes to such plan as reasonably required by the Buyer and once it is agreed then the Supplier shall act in accordance with such plan and report to the Buyer on demand; and
 - 7.8.2 if the Supplier fails to provide a plan or fails to agree any changes which are requested by the Buyer or fails to implement or provide updates on progress with the plan, terminate the Contract immediately for Material Breach (or on such date as the Buyer notifies) and the consequences of termination in Clause 11.5.1 shall apply.
- 7.9 If there is a Material Breach, the Supplier must notify the Buyer within 3 Working Days of the Supplier becoming aware of the Material Breach. The Buyer may request that the Supplier provide a Rectification Plan within 10 Working Days of the Buyer's request alongside any additional documentation that the Buyer requires. Once such Rectification Plan is agreed between the Parties (without the Buyer limiting its rights) the Supplier must immediately start work on the actions in the Rectification Plan at its own cost.

- 8.5 The Buyer indemnifies the Supplier against all claims brought by any person employed or engaged by the Buyer caused by an act or omission of the Buyer or any of the Buyer's employees, agents, consultants and contractors.
- 8.6 The Supplier shall use those persons nominated (if any) as Key Staff in the Order Form or otherwise notified as such by the Buyer to the Supplier in writing, following agreement to the same by the Supplier to provide the Deliverables and shall not remove or replace any of them unless:

9 RIGHTS AND PROTECTION

- 9.1 The Supplier warrants and represents that:
 - 9.1.1 it has full capacity and authority to enter into and to perform the Contract;
 - 9.1.2 the Contract is entered into by its authorised representative;
 - 9.1.3 it is a legally valid and existing organisation incorporated in the place it was formed;
 - 9.1.4 there are no known legal or regulatory actions or investigations before any court, administrative body or arbitration tribunal pending or threatened against it or its affiliates that might affect its ability to perform the Contract;
 - 9.1.5 all necessary rights, authorisations, licences and consents (including in relation to IPRs) are in place to enable the Supplier to perform its obligations under the Contract and the Buyer to receive the Deliverables;
 - 9.1.6 it doesn't have any contractual obligations which are likely to have a material adverse effect on its ability to perform the Contract; and

- 9.1.7 it is not impacted by an Insolvency Event.
- 9.2 The warranties and representations in clause 3.3 and clause 9.1 are repeated each time the Supplier provides Deliverables under the Contract.

- 9.5 All third party warranties and indemnities covering the Deliverables must be assigned for the Buyer's benefit by the Supplier for free.

10 INTELLECTUAL PROPERTY RIGHTS ("IPRS")

- 10.1 Each Party keeps ownership of its own Existing IPRs. The Supplier gives the Buyer a non-exclusive, perpetual, royalty-free, irrevocable, transferable, sub-licensable worldwide licence to use, copy and adapt the Supplier's Existing IPR to enable the Buyer and its sub-licensees to both:
- 10.1.1 receive and use the Deliverables; and
 - 10.1.2 use the New IPR.
- The termination or expiry of the Contract does not terminate any licence granted under this clause 10.
- 10.2 Any New IPR created under the Contract is owned by the Buyer. The Buyer gives the Supplier a royalty-free, non-exclusive, non-transferable licence to use, copy, and adapt any Existing IPRs and the New IPR which the Supplier reasonably requires for the purpose of fulfilling its obligations during the Term and commercially exploiting the New IPR developed under the Contract. This licence is sub-licensable to a Subcontractor for the purpose of enabling the Supplier to fulfil its obligations under the Contract, and in that case the Subcontractor must enter into a confidentiality undertaking with the Supplier on the same terms as set out in clause 15 (What you must keep confidential).
- 10.3 Unless otherwise agreed in writing, the Supplier and the Buyer will record any New IPR and keep this record updated throughout the Term.
- 10.4 Where a Party acquires ownership of intellectual property rights incorrectly under this Contract, it must do everything reasonably necessary to complete a transfer assigning them in writing to the other Party on request and at its own cost.
- 10.5 Neither Party has the right to use the other Party's intellectual property rights, including any use of the other Party's names, logos or trademarks, except as provided in this clause 10 or otherwise agreed in writing.
- 10.6 If any claim is made against the Buyer for actual or alleged infringement of a third party's intellectual property arising out of, or in connection with, the supply or use of the Deliverables (an **"IPR Claim"**), then the Supplier indemnifies the Buyer against all losses, damages, costs or expenses (including professional fees and fines) incurred as a result of the IPR Claim.

- 10.7 If an IPR Claim is made or anticipated, the Supplier must at its own option and expense, either:
- 10.7.1 obtain for the Buyer the rights in clause 10.1 without infringing any third party intellectual property rights; and
 - 10.7.2 replace or modify the relevant item with substitutes that don't infringe intellectual property rights without adversely affecting the functionality or performance of the Deliverables.
 - 10.7.3 If the Supplier is not able to resolve the IPR Claim to the Buyer's reasonable satisfaction within a reasonable time, the Buyer may give written notice that it terminates the Contract from the date set out in the notice, or where no date is given in the notice, the date of the notice. On termination, the consequences of termination in clauses 11.5.1 shall apply.
- 10.8 The Supplier shall not use in the Delivery of the Deliverables any Third Party IPR unless:
- 10.8.1 the Buyer gives its approval to do so; and
 - 10.8.2 one of the following conditions applies:
 - 10.8.2.1 the owner or an authorised licensor of the relevant Third Party IPR has granted the Buyer a direct licence that provides the Buyer with the rights in clause 10.1; or
 - 10.8.2.2 if the Supplier cannot, after commercially reasonable endeavours, obtain for the Buyer a direct licence to the Third Party IPR as set out in clause 10.8.2.1:
 - (a) the Supplier provides the Buyer with details of the licence terms it can obtain and the identity of those licensors;
 - (b) the Buyer agrees to those licence terms; and
 - (c) the owner or authorised licensor of the Third Party IPR grants a direct licence to the Buyer on those terms; or
 - 10.8.2.3 the Buyer approves in writing, with reference to the acts authorised and the specific intellectual property rights involved.
- 10.9 In spite of any other provisions of the Contract and for the avoidance of doubt, award of this Contract by the Buyer and the ordering of any Deliverable under it, does not constitute an authorisation by the Crown under Sections 55 and 56 of the Patents Act 1977, Section 12 of the Registered Designs Act 1949 or Sections 240 – 243 of the Copyright, Designs and Patents Act 1988.

11 ENDING THE CONTRACT

- 11.1 The Contract takes effect on the Start Date and ends on the earlier of the Expiry Date or termination of the Contract, or earlier if required by Law.
- 11.2 The Buyer can extend the Contract where set out in the Order Form in accordance with the terms in the Order Form.

11.3 Ending the Contract without a reason

- 11.3.1 The Buyer has the right to terminate the Contract at any time without reason or liability by giving the Supplier not less than 90 days' written notice, and if it's terminated clause 11.6.2 applies.

11.4 When the Buyer can end the Contract

- 11.4.1 If any of the following events happen, the Buyer has the right to immediately terminate its Contract by issuing a termination notice in writing to the Supplier and the consequences of termination in Clause 11.5.1 shall apply:

 - 11.4.1.5 the Supplier or its affiliates embarrass or bring the Buyer into disrepute or diminish the public trust in them; or
 - 11.4.1.6 the Supplier fails to comply with its legal obligations in the fields of environmental, social, equality or employment Law when providing the Deliverables.
- 11.4.2 If any of the events in 73(1) (a) or (b) of the Regulations happen, the Buyer has the right to immediately terminate the Contract and clauses 11.5.1.2 to 11.5.1.7 apply.

11.5 What happens if the Contract ends

- 11.5.1 Where the Buyer terminates the Contract under clause 10.9, 11.4, 7.8.2, 28.4.2, or Paragraph **Error! Reference source not found.** of **Error! Reference source not found.** of Annex 1 – Processing Personal Data (if used), all of the following apply:
- 11.5.1.1 the Supplier is responsible for the Buyer's reasonable costs of procuring replacement Deliverables for the rest of the term of the Contract;
 - 11.5.1.2 the Buyer's payment obligations under the terminated Contract stop immediately;

 - 11.5.1.5 the Supplier must promptly return any of the Buyer's property provided under the Contract;
 - 11.5.1.6 the Supplier must, at no cost to the Buyer, give all reasonable assistance to the Buyer and any incoming supplier and co-operate fully in the handover and re-procurement; and

11.5.1.7 the Supplier must repay to the Buyer all the Charges that it has been paid in advance for Deliverables that it has not provided as at the date of termination or expiry.

11.5.2 The following clauses survive the expiry or termination of the Contract: 1, 4.2.9, 5, 7, 8.4, 10, 11.5, 12, 14, 15, 16, 18, 19, 32.2.2, 36 and 37 and any clauses which are expressly or by implication intended to continue.

11.6 When the Supplier can end the Contract and what happens when the contract ends (Buyer and Supplier termination)

11.6.1 The Supplier can issue a reminder notice if the Buyer does not pay an undisputed invoice on time. The Supplier can terminate the Contract if the Buyer fails to pay an undisputed invoiced sum due and worth over 10% of the total Contract value or £1,000, whichever is the lower, within 30 days of the date of the reminder notice.

11.6.2 Where the Buyer terminates the Contract in accordance with clause 11.3 or the Supplier terminates the Contract under clause 11.6 or 23.4:

11.6.2.1 the Buyer must promptly pay all outstanding charges incurred by the Supplier;

11.6.2.2 the Buyer must pay the Supplier reasonable committed and unavoidable losses as long as the Supplier provides a fully itemised and costed schedule with evidence - the maximum value of this payment is limited to the total sum payable to the Supplier if the Contract had not been terminated; and

11.6.2.3 clauses 11.5.1.2 to 11.5.1.7 apply.

11.6.3 The Supplier also has the right to terminate the Contract in accordance with Clauses 20.3 and 23.4.

11.7 Partially ending and suspending the Contract

11.7.1 Where the Buyer has the right to terminate the Contract it can terminate or suspend (for any period), all or part of it. If the Buyer suspends the Contract it can provide the Deliverables itself or buy them from a third party.

11.7.2 The Buyer can only partially terminate or suspend the Contract if the remaining parts of it can still be used to effectively deliver the intended purpose.

11.7.3 The Parties must agree (in accordance with clause 25) any necessary variation required by clause 11.7, but the Supplier may not either:

11.7.3.1 reject the variation; or

11.7.3.2 increase the Charges, except where the right to partial termination is under clause 11.3.

11.7.4 The Buyer can still use other rights available, or subsequently available to it if it acts on its rights under clause 11.7.

However, based on information the Buyer has on likely failure modes for this product type, the Buyer may seek to test a limited scope of the requirements set out in tests specified Schedule of work of Lot 1- Tumble Dryers. Where this is the case, the Buyer will provide exact instructions to the Supplier as to which clauses will be required in testing.

The product list for tumble dryers has not been finalised, as such the sizes and weights are just estimates at this time. The sizes range from 596 mm (width) x 850 mm (height) x 600

mm (depth) to 640 mm (width) x 900 mm (height) x 710 (depth). The weights range from 34 kg to 62 kg.

Cost Requirements

As part of the evaluation criteria, Tenderers will be asked to provide costs for various services. These costs shall be fixed for the duration of the Contract. The main part of the evaluation will require Tenderers to provide costs for testing various types of Tumble Dryers to the tests specified Schedule of work of Lot 1, this will include testing of all applicable clauses.

The Supplier will further provide indicative details of any additional costs that may be incurred during the testing lifecycle. This includes costs for the following:

- Any preparation and conditioning of samples required for testing (if not included).
- The provision of any Sub-contractors to deliver the required testing (if not included).
- Transportation of samples from our Teddington facility – TW11 0JZ - to the testing location (where testing will take place) and subsequent return to Teddington. *Note: In practice, sample collection and return may be requested from/to another location within the UK. Supplier will be informed in advance of this.*
- Export and Import customs charges.
- Storage of samples post testing – This should be provided as a cost per month.
- Disposal of samples (if required).

All of the above pricing shall be provided by the Supplier as part of their Pricing Schedule submitted within the Commercial Envelope of their Tender response, and Pricing Schedule information shall be used to evaluate Supplier Tender submissions in line with the guidance provided within the Invitation to Tender.

Budget

The maximum contract value of this project is £57,000 excluding VAT. The budget reflects the Buyer's anticipated use of the Contract; however, usage will be variable and dependent on the actual testing needs of the Department within the Contract Period. There will be no obligation to undertake testing to reach the maximum budget.

DBT will implement a break clause at the end of each financial year. Continuation of the contract at this point will be subject to approval of the budget for each year.

Payments will be linked to delivery of key milestones. The indicative milestones and phasing of payments is noted under the heading Milestone Payments. This can be adjusted and agreed with the contractor based on the tender response.

Accreditations

The Buyer requires that the Supplier provides a comprehensive breakdown of any accreditations they currently hold that are specific to the testing required for Tumble Dryers. This will evidence the robust testing programme that shall be undertaken and provide confidence to the Buyer that the Supplier holds a range of accreditations suitable for undertaking this Contract. Suppliers that do not hold any accreditation should demonstrate any equivalent competency to this level.

Examples of the accreditations that Supplier may hold include:

Accredited to ISO/IEC 17025/2017 with scope covering EN 60335-2-11 and EN 60335-1 but we will accept submissions from Suppliers that do not hold this accreditation and can demonstrate competency to this level.

2. Lot 2 – Washer Dryers:

Schedule of Works

The Contract period is four months, with an optional three month extension.

Testing shall take place on an ad-hoc basis as samples become available to the Buyer. Therefore, a definitive sample list cannot be provided to the Supplier before the Contract Start Date.

During the Contract Period, the Buyer will issue the Supplier testing requests in the form of Task Orders. Each Task Order will contain specific details of the number and type of products to be tested. The Supplier shall price each Task Order using the prices provided within the Supplier's Pricing Schedule (as submitted in Tender and subsequently documented in Schedule 3 - Charges).

Products shall be made available at the Buyer's Teddington facility (Postcode: TW11 0JZ) and the Supplier shall be required to arrange transportation from Teddington to the Supplier's testing location (where testing will take place) and subsequent return of the products to Teddington.

The initial requirement of how many Washer Dryers that are to be tested, will depend on the cost of the testing, so a definitive number cannot be provided. The buyer would like the testing to cover up to five (5) Washer Dryers, to assess their conformity with the Electrical Equipment (Safety) Regulations 2016. [Utilising](#) the test methods following below stipulated clauses in designated standards EN 60335-2-7: 2010 +A11:2013+A1:2013 + A2: 2019 and EN 60335-2-11: 2022 + A1:2022 used in conjunction with EN 60335-1:2012 +A11:2014 +A13:2017 +A1:2019 +A14:2019 +A2:2019 the supplier will need to establish:

Depending on product availability/supplier capacity the initial five (5) products may be spread out in batches, to make the process easier but this will be confirmed with the Supplier once the Contract has been awarded.

Methodology

This Specification of Requirements covers testing a selection of Washer Dryers to verify their compliance and to assess the conformity against the tests specified in Schedule of work of Lot 2 - Washer Dryers. The aims of the testing are

- To perform a series of screen tests on products on the UK market against to assess their compliance against the tests specified in Schedule of work of Lot 2 - Washer Dryers.
- To gather data on this product sector and compliance for analysis by OPSS to establish any sector issues, provide follow-up guidance or formal action to be taken.

The Supplier shall provide all required testing of the products.

The test methods to be used for this Specification of Requirements should follow the tests specified in Schedule of work of Lot 2 - Washer Dryers. However, based on information the Buyer has on likely failure modes for this product type, the Buyer may seek to test a limited scope of the tests specified in Schedule of work of Lot 2 - Washer Dryers. Where this is the case, the Buyer will provide exact instructions to the Supplier as to which clauses will be required in testing.

The product list for washer dryers has not been finalised, so the sizes and weights are just estimates at this time. The sizes range from 600 mm (width) x 850 mm (height) x 530 mm (depth) to 640 mm (width) x 900 mm (height) x 640 (depth). The weights range from 64 kg to 73 kg.

Accreditations

The Buyer requires that the Supplier provides a comprehensive breakdown of any accreditations they currently hold that are specific to the testing required for Washer Dryers. This will evidence the robust testing programme that shall be undertaken and provide confidence to the Buyer that the Supplier holds a range of accreditations suitable for undertaking this Contract. Suppliers that do not hold any accreditation should demonstrate any equivalent competency to this level.

Examples of the accreditations that Supplier may hold include:

Accredited to ISO/IEC 17025/2017 with scope covering EN 60335-2-7, EN 60335-2-11, and EN 60335-1 but we will accept submissions from Suppliers that do not hold this accreditation and can demonstrate competency to this level.

General Testing Requirements

Quality – General:

- **Competency:** It would be desirable if Suppliers are accredited to ISO/IEC 17025/2017 but we will accept submissions from Suppliers that do not hold this accreditation and can demonstrate competency to this level.
- **Quality management systems:** Suppliers must utilise a quality management system, whether certified or not, to ensure quality assurance throughout the lifetime of the Contract.
- **Impartiality:** The Buyer may choose to test items from any manufacturer of the specified products. Suppliers must ensure that all testing will be carried out with complete impartiality and independence. The Buyer must be notified within a reasonable timeframe if there is any incident that could affect this request. Failure to do so could constitute a breach of contract.
- **Prosecution Support requirement:** Testing may be used as part of a criminal investigation. Therefore, the Supplier must provide evidence to support and corroborate the findings of the testing process. This may take the form of a witness statement for use in Court. The Buyer will provide a standard template if required. Furthermore, OPSS may require the supplier to give evidence in a court of law and the supplier should be prepared to make available the required representative to attend court, which will apply for witnesses located outside the UK. If we require this action to be taken, then costs for this will be fully reimbursed and we will ask the supplier to provide indicative costs, in the pricing schedule, for producing witness statements and attendance at court. However, OPSS will discuss the matters outside of this tendering process.

Quality – Management

- **Single point of contact:** The Supplier shall ensure there is a single point of contact, that the Buyer will liaise with, during the Contract Period. This could be achieved via a shared mailbox or an individual contact.
- **Status report:** The Supplier shall provide a status report, at minimum on a fortnightly basis but to be agreed per Task Order. The status reports shall include, as a minimum, a testing schedule, testing completion status (%), schedule for the completion of draft and final reports, issues requiring discussion and issues resolved. The Supplier shall notify the Buyer immediately if any urgent issues, or the risk of the project not being completed on time are identified.
- **Chain of custody:** The Supplier must have sufficient controls and processes in place to guarantee the chain of custody of the products, from collection to return, to ensure that any element of the testing procedure is not compromised. The Supplier's chain of custody controls and processes must cover any involvement of their Subcontractors and any use of multiple facilities. Chain of custody controls and procedures shall include secure and methodical methods of handling and storing samples to avoid damage or tampering. Appropriate data shall be collected at each stage of the project lifecycle, including but not limited to movement of samples throughout the testing lifecycle, and this shall be recorded in the Supplier's systems,
- **Security assurance:** The Supplier must have robust controls and processes in place to ensure security assurance throughout the lifetime of the contract. This shall include specific measures to prevent loss or damage (accidental or otherwise). Security assurance shall include access controls and record keeping surrounding access to sample storage areas and labs.
- **Peripherals:** The Supplier must notify the Buyer if any peripherals are missing from the products, as soon as is practically possible. the **Buyer**, unless agreed otherwise, will purchase the peripherals, and get them sent straight to the Supplier.

Transportation

The Supplier shall collect all products from the **Buyer's Premises** and return them on a pre-arranged day after the completion of testing. In addition to the controls detailed in the 'Chain of custody' and 'Security assurance' requirements, the Supplier must guarantee the following as a minimum for transportation: Samples must be packed in a manner that will mitigate risk of damage and guarantee security.

Provide a fully auditable, evidential traceability process and/or procedure for all samples, including the use of security seals/stickers during the transportation, to and from The Buyer's Office in Teddington.

Subcontractors

Suppliers must provide details as to how they will manage any sub-contractors and what percentage of the tendered activity (in terms of monetary value) will be sub-contracted.

All requirements apply equally to any sub-contractors used, including courier services where applicable, and the supplier must inform all sub-contractors of the requirements and responsibilities. Notwithstanding this requirement, the supplier remains responsible for the act and omissions of its sub-contractors at all times in accordance with the terms of the contract.

Where the supplier is sub-contracting any testing work, they must provide the accreditation document for the sub-contracted test facility and the specific information on how that test facility will meet OPSS' requirements.

Environmental Management Systems:

The Supplier must utilise an environmental management system, in line with ISO 14001:2015, to ensure that OPSS' testing programme and its test processes reduce the negative impact on the environment. This should include reduction of carbon footprint throughout the lifetime of the contract.

Evidential Traceability

Testing results may also be used to support the Buyer's market surveillance activities. Therefore, Tenderers may be required to fulfil specific evidential traceability requirements in addition to the testing requirements of the contract.

The general approach of the Buyer is to make use of Tamper Evident Bags (TEBs). However, wherever this is not practical due to product size or dimensions there are alternatives. Evidential

traceability requirements may also be met by use of, some, or all, of the following (not an exhaustive list):

- Exhibit Labels.
- Tamper proof tags or ties.
- Package strapping.
- Security seals.
- Shrink wrapping.

The specific evidential traceability requirements will be detailed fully to the Supplier as part of each Task Order to ensure compliance. However, they will generally fall into one of the following categories:

Level 1: Basic Evidential Traceability

- Samples will need to be marked with a unique identifier which will normally be done by OPSS. Where this is not the case, the Supplier shall mark all sample packaging, indelibly, with the unique identifier code upon receipt of samples. This code will be supplied by OPSS and must be referenced in all subsequent documentation regarding the sample.
- The Supplier shall provide photographic evidence of the samples once received at their facility. This will include the sample as delivered, including images of all delivery notes and packaging labels.
- The Supplier shall ensure that all photographs are such that the information contained within is clearly visible and legible.
- The Supplier shall photograph and retain all documentation that comes with the sample, on the day of receipt and provide the photographs to OPSS upon request.
- The Supplier shall generate any reports/summaries, as defined by the testing standard, or testing remit, as soon as practicably possible, following completion of testing.
- The Supplier shall retain all samples tested until such time as OPSS states or confirms otherwise. The samples must be stored securely and in a manner that eliminates the risk of damage or tampering.

Level 2: Full Evidential Traceability

- Samples will need to be marked with a unique identifier which will normally be done by OPSS. Where this is not the case, the Supplier shall will be required to mark all sample packaging, indelibly, with the unique identifier code upon receipt of samples. This code will be supplied by OPSS and must be referenced in all subsequent documentation regarding the sample.
- The Supplier shall be required to make use of appropriate evidential tools (provided by OPSS) on the samples and must follow instructions detailed by OPSS at the start of the contract.
- The Supplier shall be required to provide full photographic evidence of the sample, its packaging and any documentation immediately upon receipt. This will include ensuring any relevant information is clearly visible and legible, which includes but is not limited to, unique identifiers, evidential tag numbers, serial numbers, batch numbers, production dates, courier details, delivery notes etc.
- The Supplier shall be required to retain all documentation received and generated with regards to the sample until a decision has been issued by OPSS. The documents will need to be made available to all relevant parties upon request.
- The Supplier shall be required to promptly track receipt, dispatch, and all movements of samples (including staff access) once under their care and provide the data to OPSS. At a minimum, this data must cover time/date stamps for all movements/actions and full names of those who had access.
- The Supplier shall be required to generate any reports, as defined by the testing standard, as soon as practicably possible, following completion of testing.

- The Supplier shall be required to provide full witness statements for samples that were tested, if requested by OPSS.
- The Supplier shall be required to make available, relevant members of staff to attend court as witnesses, if required by OPSS.
- The Supplier shall be required to make available, relevant members of staff to attend court as an expert witness, if required by OPSS. The Supplier shall retain all samples tested until such time as OPSS states or confirms otherwise. The samples must be stored separately, securely and in a manner that eliminates the risk of damage or tampering.

Disposals

After testing has been completed, it is important that the Supplier retains all samples until OPSS provides instruction as to next steps. This decision will be made within 90 working days of the finalised results being provided to OPSS.

Generally, this process will lead to one of three outcomes:

- The Supplier shall package the remaining samples up and return them to a location within the UK specified by OPSS. This will normally be our testing facility in Teddington but may be elsewhere in the UK.
- The Supplier shall place the items in secure storage at their facility for the long-term. The length of time required will depend on the actions OPSS are taking but may be upwards of 12 months.
- The Supplier shall dispose of the samples. With the disposal process, it is important that the Supplier disposes of samples in a safe and environmentally friendly manner. Ensuring all practical measures are taken to minimise the negative impacts on the environment because of the disposal process. In addition to this, once disposals have taken place, the Supplier shall provide proof to OPSS. This is usually supplied as a signed declaration of the actions taken and a list of the samples disposed of.

Test Reports

In addition to any requirements/format described in relevant testing standards and in accordance with EN ISO/IEC 17025 (or equivalent competency to this level), the following Buyer specific content shall apply:

- The Supplier shall provide a test report for each individual sample subjected to testing. This can further be subdivided by the test type if required.
- A draft report must be provided as soon as possible after a product is tested to allow OPSS the opportunity to check the report is in line with the requirements. All final test reports are expected to be validated by the lab before sharing with us, as any changes to the test report once issued to OPSS may compromise the integrity of the testing and any regulatory actions taken.
- As the test report may be presented to persons with limited technical knowledge, a clear and concise summary of the findings should be provided as part of each test report. This should include, but is not limited to, the following:
 - Product classification/result.
 - Test result for each test performed.
 - Tolerances (if applicable).
 - Any comments/remarks regarding testing.
- Each test report should include and refer to the unique identifier as supplied by OPSS, which is traceable throughout the entire testing process. Any production codes specific to the product should also be documented and referred to throughout the report.
