Suppliers interested in working with the MOD should register on its Supplier Information Database (SID), available at [www.contracts.mod.uk](http://www.contracts.mod.uk). The SID is a catalogue of potential suppliers available to all MOD procurement staff, and is the main supplier database used by MOD. Please note that the registration and publication of a company profile on the SID does not mean or imply that the supplier has in any way been vetted or approved by the MOD. Suppliers wishing to compete for a contract opportunity must respond to any specific call for competition by submitting a separate expression of interest in accordance with the instructions in the contract notice.

From 2 April 2014 the Government is introducing its new Government Security Classifications Policy (GSC) to replace the current Government Protective Marking Scheme. A key aspect of

this is the reduction in the number of security classifications used. All suppliers to the Department are encouraged to make themselves aware of the changes as it may impact on this Requirement. The link below to the Gov.uk website provides information on the new GSC.

<https://www.gov.uk/government/publications/government-security-classifications>

The Authority reserves the right to amend any condition related to security of information to reflect any changes in national law or government policy. If any contract documents are accompanied by instructions on safeguarding classified information (e.g. a Security Aspects Letter), the Authority reserves the right to amend the terms of these instructions to reflect any changes in national law or government policy, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies, or otherwise.
