Where a resolution cannot be reached, the matter shall be dealt with under the Dispute Resolution Procedure.
- 37.4 If the Parties agree the Variation, the Variation shall be effected upon both Parties signing the Contract Amendment Letter (Appendix A) and the Supplier shall implement such Variation and be bound by the same provisions so far as is applicable, as though such Variation was stated in this Contract.

Default and Termination

39. DFID REMEDIES FOR DEFAULT

39.1 Remedies

39.1.1 Without prejudice to any other right or remedy of DFID howsoever arising if the Supplier commits any Default of this Contract then DFID may (whether or not any part of the Services have been provided) do any of the following:

- (a) at DFID's option, give the Supplier the opportunity (at the Supplier's expense) to remedy the Default together with any damage resulting from such Default (where such Default is capable of remedy) or to supply Replacement Services and carry out any other necessary work to ensure that the terms of this Contract are fulfilled, in accordance with the DFID's instructions;
- (b) carry out, at the Supplier's expense, any work necessary to make the provision of the Services comply with this Contract;
- (c) if the Default is a material Default that is capable of remedy (and for these purposes a material Default may be a single material Default or a number of Defaults or repeated Defaults - whether of the same or different obligations and regardless of whether such Defaults are remedied - which taken together constitute a material Default):
 - (i) instruct the Supplier to comply with the Rectification Plan Process;
 - (ii) suspend this Contract (whereupon the relevant provisions of Clause 43 (Partial Termination, Suspension and Partial Suspension) shall apply) and step-in to itself supply or procure a third party to supply (in whole or in part) the Services;
 - (iii) without terminating or suspending the whole of this Contract, terminate or suspend this Contract in respect of part of the provision of the Services only (whereupon the relevant provisions of Clause 43 (Partial Termination, Suspension and Partial Suspension) shall apply) and step-in to itself supply or procure a third party to supply (in whole or in part) such part of the Services.

39.1.2 Where DFID exercises any of its step-in rights under Clauses 39.1.1 (c) (ii) or 39.1.1 (c) (iii), DFID shall have the right to charge the Supplier for and the Supplier shall on demand pay any costs reasonably incurred by DFID (including any reasonable administration costs) in respect of the supply of any part of the Services by DFID or a third party and provided that DFID uses its reasonable endeavours to mitigate any additional expenditure in obtaining Replacement Services.

39.2 Rectification Plan Process

39.2.1 Where DFID has instructed the Supplier to comply with the Rectification Plan Process pursuant to 39.1.1 (c) (i):

- (a) the Supplier shall submit a draft Rectification Plan to DFID for it to review as soon as possible and in any event within 10 (ten) Working Days (or such other period as may be agreed between the Parties) from the date of DFID's instructions. The Supplier shall submit a draft Rectification Plan even if the Supplier disputes that it is responsible for the Default giving rise to the DFID's request for a draft Rectification Plan.
- (b) the draft Rectification Plan shall set out:
 - (i) full details of the Default that has occurred, including a root cause analysis;
 - (ii) the actual or anticipated effect of the Default; and
 - (iii) the steps which the Supplier proposes to take to rectify the Default (if applicable) and to prevent such Default from recurring, including timescales for such steps and for the rectification of the Default (where applicable).

- 39.2.2 The Supplier shall promptly provide to the DFID any further documentation that the DFID requires to assess the Supplier's root cause analysis. If the Parties do not agree on the root cause set out in the draft Rectification Plan, either Party may refer the matter to be determined by an expert in accordance with Dispute Resolution Procedure.
- 39.2.3 DFID may reject the draft Rectification Plan by notice to the Supplier if, acting reasonably, it considers that the draft Rectification Plan is inadequate, for example because the draft Rectification Plan:
- (a) is insufficiently detailed to be capable of proper evaluation;
 - (b) will take too long to complete;
 - (c) will not prevent reoccurrence of the Default; and/or
 - (d) will rectify the Default but in a manner which is unacceptable to DFID.
- 39.2.4 DFID shall notify the Supplier whether it consents to the draft Rectification Plan as soon as reasonably practicable. If DFID rejects the draft Rectification Plan, DFID shall give reasons for its decision and the Supplier shall take the reasons into account in the preparation of a revised Rectification Plan. The Supplier shall submit the revised draft of the Rectification Plan to DFID for review within five (5) Working Days (or such other period as agreed between the Parties) of the DFID's notice rejecting the first draft.
- 39.2.5 If DFID consents to the Rectification Plan, the Supplier shall immediately start work on the actions set out in the Rectification Plan.

40. FORCE MAJEURE

- 40.1 Subject to the remainder of this Clause 40, a Party may claim relief under this Clause 40 from liability for failure to meet its obligations under this Contract for as long as and only to the extent that the performance of those obligations is directly affected by a Force Majeure Event. Any failure or delay by the Supplier in performing its obligations under this Contract which results from a failure or delay by an agent, Sub-Contractor or supplier shall be regarded as due to a Force Majeure Event only if that agent, Sub-Contractor or supplier is itself impeded by a Force Majeure Event from complying with an obligation to the Supplier.
- 40.2 The Affected Party shall as soon as reasonably practicable issue a Force Majeure Notice, which shall include details of the Force Majeure Event, its effect on the obligations of the Affected Party and any action the Affected Party proposes to take to mitigate its effect.
- 40.3 If the Supplier is the Affected Party, it shall not be entitled to claim relief under this Clause 40 to the extent that consequences of the relevant Force Majeure Event:
- 40.3.1 are capable of being mitigated by any of the provision of any Services but the Supplier has failed to do so; and/or
 - 40.3.2 should have been foreseen and prevented or avoided by a prudent provider of services similar to the Services, operating to the standards required by this Contract.
- 40.4 Subject to DFID's right to terminate set out in Clause 40.5, the Parties shall at all times following the occurrence of a Force Majeure Event and during its subsistence use their respective reasonable endeavours to prevent and mitigate the effects of the Force Majeure Event. Where the Supplier is the Affected Party, it shall take all steps in accordance with Good Industry Practice to overcome or minimise the consequences of the Force Majeure Event.
- 40.5 Where DFID receives a Force Majeure Notice, from the date of receipt of the Force Majeure Notice, DFID may, at its sole discretion, either suspend this Contract for a period of up to six (6) months ("the Suspension Period") or terminate this Contract forthwith.
- 40.6 The Affected Party shall notify the other Party as soon as practicable after the Force Majeure Event ceases or no longer causes the Affected Party to be unable to comply with its obligations under this Contract.
- 40.7 Relief from liability for the Affected Party under this Clause 40 shall end as soon as the Force Majeure Event no longer causes the Affected Party to be unable to comply with its obligations under this Contract and shall not be dependent on the serving of notice under Clause 40.6.
- 40.8 If by the end of the Suspension Period the Parties have not agreed a further period of suspension or re-instatement of the Contract, this Contract shall terminate automatically.

41. TERMINATION WITHOUT DEFAULT OF THE SUPPLIER

- 42.2 For the purpose of Clause 42.1, a material Default may be a single material Default or a number of Defaults or repeated Defaults (whether of the same or different obligations and regardless of whether such Defaults are remedied) which taken together constitute a material Default.
- 42.3 DFID may, without prejudice to its other rights, including but not limited to the right to claim for Losses incurred, issue a Termination Notice where:
- 42.3.1 the Supplier or any Supplier Personnel, either directly or through their servants or agents or Sub-Contractors breaches any of their obligations under this Contract; or

- 43.1 Where DFID has the right to terminate this Contract, DFID shall be entitled to terminate or suspend all or part of this Contract provided always that, if DFID elects to terminate or suspend this Contract in part, the parts of this Contract not terminated or suspended can, in DFID's reasonable opinion, operate effectively to deliver the intended purpose of the surviving parts of this Contract.
- 43.2 Any suspension of this Contract under Clause 43.1 shall be for such period as DFID may specify and without prejudice to any right of termination which has already accrued, or subsequently accrues, to DFID.
- 43.3 The Parties shall seek to agree the effect of any Variation necessitated by a partial termination, suspension or partial suspension in accordance with the procedure set out in Clause 37 (Variation), including the effect that the partial termination, suspension or partial suspension may have on the provision of any other Services and the Charges, provided that the Supplier shall not be entitled to:
- 43.3.1 an increase in the Charges in respect of the provision of the Services that have not been terminated if the partial termination arises due to the exercise of any of DFID's termination rights under Clause 42 (Termination With Default of the Supplier) except Clause 41 (Termination Without Default of the Supplier); and

 - 1.5.2 make, promise, propose, permit or implement any material changes to the terms and conditions of employment of the Supplier Personnel (including any payments connected with the termination of employment);
 - 1.5.3 increase the proportion of working time spent on the Services (or the relevant part of the Services) by any of the Supplier Personnel save for fulfilling assignments and projects previously scheduled and agreed;
 - 1.5.4 introduce any new contractual or customary practice concerning the making of any lump sum payment on the termination of employment of any employees listed on the Supplier's Provisional Supplier Personnel List;

 - 1.5.6 terminate or give notice to terminate the employment or contracts of any persons on the Supplier's Provisional Supplier Personnel List save by due disciplinary process,

and shall promptly notify, and procure that each Sub-Contractor shall promptly notify, DFID or, at the direction of DFID, any Replacement Supplier and any Replacement Sub-Contractor of any notice to terminate employment given by the Supplier or

relevant Sub-Contractor or received from any persons listed on the Supplier's Provisional Supplier Personnel List regardless of when such notice takes effect.

- 1.6 During the Term, the Supplier shall provide, and shall procure that each Sub-Contractor shall provide, to DFID any information DFID may reasonably require relating to the manner in which Services are organised, which shall include:
- 1.6.1 the numbers of employees engaged in providing the Services;
 - 1.6.2 the percentage of time spent by each employee engaged in providing the Services;
 - 1.6.3 the extent to which each employee qualifies for membership of any of the Schemes or any broadly comparable scheme set up pursuant to the provisions of paragraph 2.2 of the Annex (Pensions) to Part A of this Schedule 2 or paragraph 2.3 of the Annex (Pensions) to Part B of this Schedule 2 (as appropriate); and
 - 1.6.4 a description of the nature of the work undertaken by each employee by location.
- 1.7 The Supplier shall provide, and shall procure that each Sub-Contractor shall provide, all reasonable cooperation and assistance to DFID, any Replacement Supplier and/or any Replacement Sub-Contractor to ensure the smooth transfer of the Transferring Supplier Employees on the Service Transfer Date including providing sufficient information in advance of the Service Transfer Date to ensure that all necessary payroll arrangements can be made to enable the Transferring Supplier Employees to be paid as appropriate. Without prejudice to the generality of the foregoing, within five (5) Working Days following the Service Transfer Date, the Supplier shall provide, and shall procure that each Sub-Contractor shall provide, to DFID or, at the direction of DFID, to any Replacement Supplier and/or any Replacement Sub-Contractor (as appropriate), in respect of each person on the Supplier's Final Supplier Personnel List who is a Transferring Supplier Employee:

Such change in the identity of the Supplier of such Services may constitute a Relevant Transfer to which the Employment Regulations and/or the Acquired Rights Directive will apply. DFID and the Supplier further agree that, as a result of the operation of the Employment Regulations, where a Relevant Transfer occurs, the contracts of employment between the Supplier and the Transferring Supplier Employees (except in relation to any contract terms disapplied through operation of regulation 10(2) of the Employment Regulations) will have effect on and from the Service Transfer Date as if originally made between the Replacement Supplier and/or a Replacement Sub-Contractor (as the case may be) and each such Transferring Supplier Employee.
- 2.2 The Supplier shall, and shall procure that each Sub-Contractor shall, comply with all its obligations in respect of the Transferring Supplier Employees arising under the Employment Regulations in respect of the period up to (but not including) the Service Transfer Date and shall perform and discharge, and procure that each Sub-Contractor shall perform and discharge, all its obligations in respect of all the Transferring Supplier Employees arising in respect of the period up to (and including) the Service Transfer Date (including the payment of all remuneration, benefits, entitlements and outgoings, all wages, accrued but untaken holiday pay, bonuses, commissions, payments of PAYE, national insurance contributions and pension contributions and all such sums due as a result of any Fair Deal Employees' participation in the Schemes which in any case are attributable in whole or in part to the period ending on (and including) the Service Transfer Date) and any necessary apportionments in respect of any periodic payments shall be made between: (i) the Supplier and/or the Sub-Contractor (as appropriate); and (ii) the Replacement Supplier and/or Replacement Sub-Contractor.
- 2.3 Subject to Paragraph 2.4, where a Relevant Transfer occurs the Supplier shall indemnify DFID and/or the Replacement Supplier and/or any Replacement Sub-Contractor against any Employee Liabilities arising from or as a result of:

- 2.3.2 the breach or non-observance by the Supplier or any Sub-Contractor occurring on or before the Service Transfer Date of:

 - (b) in relation to any employee who is not identified in the Supplier's Final Supplier Personnel List, and in respect of whom it is later alleged or determined that the Employment Regulations applied so as to transfer his/her employment from the Supplier to DFID and/or Replacement Supplier and/or any Replacement Sub-Contractor, to the extent that the proceeding, claim or demand by HMRC or other statutory authority relates to financial obligations arising on or before the Service Transfer Date;
- 2.3.5 a failure of the Supplier or any Sub-Contractor to discharge or procure the discharge of all wages, salaries and all other benefits and all PAYE tax deductions and national insurance contributions relating to the Transferring Supplier Employees in respect of the period up to (and including) the Service Transfer Date);
- 2.3.6 any claim made by or in respect of any person employed or formerly employed by the Supplier or any Sub-Contractor other than a Transferring Supplier Employee identified in the Supplier's Final Supplier Personnel List for whom it is alleged DFID and/or the Replacement Supplier and/or any Replacement Sub-Contractor may be liable by virtue of this Contract and/or the Employment Regulations and/or the Acquired Rights Directive; and
- 2.3.7 any claim made by or in respect of a Transferring Supplier Employee or any appropriate employee representative (as defined in the Employment Regulations) of any Transferring Supplier Employee relating to any act or omission of the Supplier or any Sub-Contractor in relation to its obligations under regulation 13 of the Employment Regulations, except to the extent that the liability arises from the failure by DFID and/or Replacement Supplier to comply with regulation 13(4) of the Employment Regulations.
- 2.4 The indemnities in Paragraph 2.3 shall not apply to the extent that the Employee Liabilities arise or are attributable to an act or omission of the Replacement Supplier and/or any Replacement Sub-Contractor whether occurring or having its origin before, on or after the Service Transfer Date, including any Employee Liabilities:
 - 2.4.1 arising out of the resignation of any Transferring Supplier Employee before the Service Transfer Date on account of substantial detrimental changes to his/her working conditions proposed by the Replacement Supplier and/or any Replacement Sub-Contractor to occur in the period on or after the Service Transfer Date; or
 - 2.4.2 arising from the Replacement Supplier's failure, and/or Replacement Sub-Contractor's failure, to comply with its obligations under the Employment Regulations.
- 2.5 If any person who is not identified in the Supplier's Final Supplier Personnel List claims, or it is determined in relation to any person who is not identified in the Supplier's Final Supplier Personnel List that his/her contract of employment has been transferred from the Supplier or any Sub-Contractor to the Replacement Supplier and/or Replacement Sub-Contractor pursuant to the Employment Regulations or the Acquired Rights Directive, then:
 - 2.5.1 DFID shall procure that the Replacement Supplier shall, or any Replacement Sub-Contractor shall, within five (5) Working Days of becoming aware of that fact, give notice in writing to the Supplier; and
 - 2.5.2 the Supplier may offer (or may procure that a Sub-Contractor may offer) employment to such person within fifteen (15) Working Days of the notification by the Replacement Supplier and/or any and/or Replacement Sub-

Contractor or take such other reasonable steps as it considers appropriate to deal with the matter provided always that such steps are in compliance with Law.

2.6 If such offer is accepted, or if the situation has otherwise been resolved by the Supplier or a Sub-Contractor, DFID shall procure that the Replacement Supplier shall, or procure that the Replacement Sub-Contractor shall, immediately release or procure the release of the person from his/her employment or alleged employment.

2.7 If after the fifteen (15) Working Day period specified in Paragraph 2.5.2 has elapsed:

2.7.1 no such offer of employment has been made;

2.7.2 such offer has been made but not accepted; or

2.7.3 the situation has not otherwise been resolved

the Replacement Supplier and/or Replacement Sub-Contractor, as appropriate may within five (5) Working Days give notice to terminate the employment or alleged employment of such person.

2.8 Subject to the Replacement Supplier and/or Replacement Sub-Contractor acting in accordance with the provisions of Paragraphs 2.5 to 2.7, and in accordance with all applicable proper employment procedures set out in applicable Law, the Supplier shall indemnify the Replacement Supplier and/or Replacement Sub-Contractor against all Employee Liabilities arising out of the termination of employment pursuant to the provisions of Paragraph 2.7 provided that the Replacement Supplier takes, or shall procure that the Replacement Sub-Contractor takes, all reasonable steps to minimise any such Employee Liabilities.

2.9 The indemnity in Paragraph 2.8:

(a) any claim for:

(i) discrimination, including on the grounds of sex, race, disability, age, gender reassignment, marriage or civil partnership, pregnancy and maternity or sexual orientation, religion or belief; or

(ii) equal pay or compensation for less favourable treatment of part-time workers or fixed-term employees,

in any case in relation to any alleged act or omission of the Replacement Supplier and/or Replacement Sub-Contractor; or

(b) any claim that the termination of employment was unfair because the Replacement Supplier and/or Replacement Sub-Contractor neglected to follow a fair dismissal procedure; and

2.9.2 shall apply only where the notification referred to in Paragraph 2.5.1 is made by the Replacement Supplier and/or Replacement Sub-Contractor to the Supplier within six (6) months of the Service Transfer Date.

2.10 If any such person as is described in Paragraph 2.5 is neither re-employed by the Supplier or any Sub-Contractor nor dismissed by the Replacement Supplier and/or Replacement Sub-Contractor within the time scales set out in Paragraphs 2.5 to 2.7, such person shall be treated as a Transferring Supplier Employee.

 - 2.13.4 any proposal by the Replacement Supplier and/or Replacement Sub-Contractor to change the terms and conditions of employment or working conditions of any Transferring Supplier Employees identified in the Supplier's Final Supplier Personnel List on or after their transfer to the Replacement Supplier or Replacement Sub-Contractor (as the case may be) on the Service Transfer Date, or to change the terms and conditions of employment or working conditions of any person identified in the Supplier's Final Supplier Personnel List who would have been a Transferring Supplier Employee but for their resignation (or decision to treat their employment as terminated under regulation 4(9) of the Employment Regulations) before the Service Transfer Date as a result of or for a reason connected to such proposed changes;
 - 2.13.5 any statement communicated to or action undertaken by the Replacement Supplier or Replacement Sub-Contractor to, or in respect of, any Transferring Supplier Employee identified in the Supplier's Final Supplier Personnel List on or before the Service Transfer Date regarding the Relevant Transfer which has not been agreed in advance with the Supplier in writing;

SCHEDULE 3: INSURANCE REQUIREMENTS

1.OBLIGATION TO MAINTAIN INSURANCES

The Supplier shall ensure that each of the Insurances is effective no later than the Commencement Date.
- 1.2 The Insurances shall be maintained in accordance with Good Industry Practice and (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent Contractor in respect of risks insured in the international insurance market from time to time.
- 1.3 The Insurances shall be taken out and maintained with insurers who are of good financial standing and of good repute in the international insurance market.
- 1.4 The Supplier shall ensure that the public and products liability policy shall contain an indemnity to principals clause under which DFID shall be indemnified in respect of claims made against DFID in respect of death or bodily injury or third party property damage arising out of or in connection with the Services and for which the Supplier is legally liable.

2.GENERAL OBLIGATIONS

- 2.1 Without limiting the other provisions of this Contract, the Supplier shall:
 - 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to the Services as it would be reasonable to expect of a prudent Contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;
 - 2.1.2 promptly notify the insurers in writing of any relevant material fact under any Insurances of which the Supplier is or becomes aware; and
 - 2.1.3 hold all policies in respect of the Insurances and cause any insurance broker effecting the Insurances to hold any insurance slips and other evidence of placing cover representing any of the Insurances to which it is a party.

3.FAILURE TO INSURE

- 3.1 The Supplier shall not take any action or fail to take any action or (insofar as is reasonably within its power) permit anything to occur in relation to it which would entitle any insurer to refuse to pay any claim under any of the Insurances.
- 3.2 Where the Supplier has failed to purchase any of the Insurances or maintain any of the Insurances in full force and effect, DFID may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances, and DFID shall be entitled to recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

4.EVIDENCE OF POLICIES

- 4.1 The Supplier shall upon the Commencement Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to DFID, that the Insurances are in force and effect and meet in full the requirements of this Framework Schedule 2. Receipt of such evidence by DFID shall not in itself constitute acceptance by DFID or relieve the Supplier of any of its liabilities and obligations under this Agreement.

5.AGGREGATE LIMIT OF INDEMNITY

- 5.1 Where the minimum limit of indemnity required in relation to any of the Insurances is specified as being "in the aggregate":
 - 5.1.1 if a claim or claims which do not relate to this Contract are notified to the insurers which, given the nature of the allegations and/or the quantum claimed by the third party(ies), is likely to result in a claim or claims being paid by the insurers which could reduce the level of cover available below that minimum, the Supplier shall immediately submit to DFID:
 - (a) details of the policy concerned; and

- (b) its proposed solution for maintaining the minimum limit of indemnity specified; and
- 5.1.2 if and to the extent that the level of insurance cover available falls below that minimum because a claim or claims which do not relate to this Contract are paid by insurers, the Supplier shall:
 - (a) ensure that the insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified for claims relating to this Contract; or
 - (b) if the Supplier is or has reason to believe that it will be unable to ensure that insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified, immediately submit to DFID full details of the policy concerned and its proposed solution for maintaining the minimum limit of indemnity specified.

6. CANCELLATION

- 6.1 The Supplier shall notify DFID in writing at least five (5) Working Days prior to the cancellation, suspension, termination or non-renewal of any of the Insurances.

7. INSURANCE CLAIMS

- 7.1 The Supplier shall promptly notify to insurers any matter arising from, or in relation to, the Services and/or this Contract for which it may be entitled to claim under any of the Insurances. In the event that DFID receives a claim relating to or arising out of the Services or this Contract, the Supplier shall co-operate with DFID and assist it in dealing with such claims including without limitation providing information and documentation in a timely manner.
- 7.2 Except where DFID is the claimant party, the Supplier shall give DFID notice within twenty (20) Working Days after any insurance claim in excess of £100,000 relating to or arising out of the provision of the Services or this Contract on any of the Insurances or which, but for the application of the applicable policy excess, would be made on any of the Insurances and (if required by DFID) full details of the incident giving rise to the claim.
- 7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.
- 7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible. DFID Supply Partner Code of Conduct

Principles

DFID aims to create an inclusive culture of best practice with the delivery partners with whom it engages and which receive UK taxpayers' funds. All supply partners should adhere to the overarching principles of the Supply Partner Code of Conduct (Code).

Overarching Principles for Supply Partners

- ✓ **Act responsibly and with integrity**
- ✓ **Demonstrate commitment to poverty reduction and DFID priorities¹**, including work in fragile and conflict affected states, recognition of human rights, focus on girls and women, youth engagement, climate change and wealth creation
- ✓ **Demonstrate commitment to wider HMG priorities²**
- ✓ **Seek to improve value for money**
- ✓ **Be transparent and accountable**

DFID Supply Partner responsibilities

Supply partners and their Sub-Contractors should ensure they have read and understood the Code and their required compliance level and seek clarification from DFID where necessary. In particular, it is important that the supply partners and their Sub-Contractors understand any risks and have systems in place to manage them. The 3 compliance levels are:

Compliance Level 1 - Supply partners with an individual contract value of £1m or above, or two or more contracts with DFID with a combined value of £5m or above

Compliance Level 2 - Supply partners with an individual contract value below £1m, or two or more contracts with DFID with a value of less than £5m

¹ <https://www.gov.uk/government/organisations/department-for-international-development/about#priorities>

² <https://www.gov.uk/government/organisations/hm-treasury/about#priorities>

Compliance Level 3 – Supply partners with an individual contract value, or component of a Contract, with a value below the EU Threshold. At this level supply partners are required to adhere to the overarching Code principles and recognise, mitigate and manage risks. These supply partners will not be monitored against the contractual KPIs.

Scope

This Code forms part of DFID's standard contractual terms and conditions and full compliance and annual verification via a signed declaration, to be found at Annex 1b, is mandatory for supply partners. DFID will monitor supply partners in six priority areas as set out below using a set of Key Performance Indicators (KPIs) referenced in Annex 1a and 1b.

1. Value for Money and Governance Key Performance Indicators KPI 1 a - c

Value for Money is an essential requirement of all DFID commissioned work. All supply partners must seek to maximise development results, whilst driving cost efficiency, throughout the life of commissioned programmes. This includes budgeting and pricing realistically and appropriately to reflect delivery requirements and levels of risk over the life of the programme. It also includes managing uncertainty and change to protect value in the often challenging environments that we work in.

Supply partners must demonstrate that they are pursuing continuous improvement to reduce waste and improve efficiency in their internal operations and within the delivery chain. DFID expects supply partners to demonstrate openness and honesty and to be realistic about capacity and capability at all times, accepting accountability and responsibility for performance along the full delivery chain, in both every-day and exceptional circumstances.

Specific requirements include:

- ✓ Provision of relevant VfM and governance policies and a description of how these are put into practice to meet DFID requirements (e.g. codes on fraud and corruption, due diligence);
- ✓ A transparent, open book approach, which enables scrutiny of value for money choices, applies pricing structures that align payments to results and reflects an appropriate balance of performance risk;
- ✓ Processes for timely identification and resolution of issues and for sharing lessons learned.

2. Ethical Behaviour Key Performance Indicators KPI 2 a- f

DFID supply partners and their Sub-Contractors act on behalf of government and interact with citizens, public sector/third sector organisations and the private sector. These interactions must therefore meet the highest standards of ethical and professional behaviour that upholds the reputation of government.

Arrangements and relationships entered into, whether with or on behalf of DFID, must be free from bias, conflict of interest or the undue influence of others. Particular care must be taken by staff who are directly involved in the management of a programme, procurement, contract or relationship with DFID, where key stages may be susceptible to undue influence. In addition, supply partners and their Sub-Contractors must not attempt to influence a DFID staff to manipulate programme monitoring and management to cover up poor performance.

Supply partners and their Sub-Contractors must declare to DFID any instances where it is intended that any direct or delivery chain staff members will work on DFID funded business where those staff members have any known conflict of interest or where those staff members have been employed by DFID or the Crown in the preceding two

years. Supply partners and their Sub-Contractors must provide proof of compliance with the HMG approval requirements under the Business Appointment Rules.

Supply partners and their Sub-Contractors must have the following policies and procedures in place:

- ✓ Recruitment policy (which must address circumstances where there may be potential or actual conflict of interest)
- ✓ Ongoing conflict of interest, mitigation and management
- ✓ Refresher ethical training and staff updates (including awareness of modern day slavery and human rights abuses)
- ✓ A workforce whistleblowing policy
- ✓ Procedures setting out how, staff involved in DFID funded business, can immediately report all suspicions or allegations of aid diversion, fraud, money laundering or counter terrorism finance to the Counter Fraud and Whistleblowing Unit (CFWU) at fraud@dfid.gov.uk or on +44(0)1355 843747

3. Transparency and Delivery Chain Management

Key Performance Indicators KPI 3 a – f

DFID requires full delivery chain transparency from all supply partners. All delivery chain partners must adhere to wider HMG policy initiatives including the support of micro, small and medium sized enterprises (MSMEs), prompt payment, adherence to human rights and modern slavery policies and support for economic growth in developing countries.

DFID's direct/prime supply partners (tier 1) must engage their delivery chain supply partners in a manner that is consistent with DFID's treatment of its prime supply partners. This includes, but is not limited to: pricing; application of delivery chain risk management processes; and taking a zero tolerance approach to tax evasion, corruption, bribery and fraud in subsequent service delivery or in partnership agreements.

Specific requirements for prime supply partners include:

- ✓ Provide assurance to DFID that the policies and practices of their delivery chain supply partners and affiliates are aligned to this Code;
- ✓ Maintaining and sharing with DFID up-to-date and accurate records of all downstream partners in receipt of DFID funds and/or DFID funded inventory or assets. This should map how funds flow from them to end beneficiaries and identify risks and potential risks along the delivery chain;
- ✓ Ensuring delivery chain partner employees are aware of the DFID fraud mail box³ found on DFID's external website and of the circumstances in which this should be used;
- ✓ Publication of DFID funding data in accordance with the International Aid Transparency Initiative (IATI)⁴
- ✓ Supply partners shall adhere to HMG prompt payment policy not use restrictive exclusivity agreements with sub-partners.

4. Environmental issues

Key Performance Indicators KPI 4 a – b

DFID supply partners must be committed to high environmental standards, recognising that DFID's activities may change the way people use and rely on the environment, or may affect or be affected by environmental conditions. Supply partners must demonstrate they have taken sufficient steps to protect the local environment and

⁴ <http://www.aidtransparency.net/>

community they work in, and to identify environmental risks that are imminent, significant or could cause harm or reputational damage to DFID.

Commitment to environmental sustainability may be demonstrated by:

- ✓ Formal environmental safeguard policies in place;
- ✓ Publication of environmental performance reports on a regular basis
- ✓ Membership or signature of relevant Codes, both directly and within the delivery chain such as conventions, standards or certification bodies (eg the Extractive Industries Transparency Initiative⁵).

5. Terrorism and Security

Key Performance Indicators KPI 5 a – d

DFID supply partners must implement due diligence processes to provide assurance that UK Government funding is not used in any way that contravenes the provisions of applicable terrorism legislation.

Specific requirements:

- ✓ DFID suppliers must safeguard the integrity and security of their IT and mobile communications systems in line with the HMG Cyber Essentials Scheme⁶. Award of the Cyber Essentials or Cyber Essential Plus badges would provide organisational evidence of meeting the UK Government-endorsed standard;
- ✓ All DFID supply partners who manage aid programmes with a digital element must adhere to the global Principles for Digital Development⁷, which sets out best practice in technology-enabled programmes
- ✓ Ensure that DFID funding is not linked to terrorist offences, terrorist activities or financing

6. Social Responsibility and Human Rights

Key Performance Indicators: KPI 6 a – d

Social responsibility and respect for human rights are central to DFID's expectations of its Supply Partners. We will ensure that robust procedures are adopted and maintained to eliminate the risk of poor human rights practices within the complex delivery chain environments funded by DFID. These include unethical and illegal employment practices, such as modern day slavery, forced and child labour and other forms of exploitative and unethical treatment of workers. DFID will expect a particular emphasis on management of these issues in high risk fragile and conflict affected states (FCAS), with a focus on ensuring remedy and redress if things go wrong.

Specific requirements:

- ✓ All Supply Partners must be fully signed up to the UN Global Compact⁸;
- ✓ Practices in line with the International Labour Organisation (ILO) 138⁹ and the Ethical Trading Initiative (ETI) Base Code¹⁰ are encouraged;

¹⁰ <http://www.ethicaltrade.org/eti-base-code>

- ✓ Policies to embed good practice in line with the UN Global Compact Guiding Principles 1 & 2 on business and human rights, as detailed in Annex 2;
- ✓ A Statement of Compliance outlining how the organisation's business activities help to develop local markets and institutions and contribute to social and environmental sustainability, whilst complying with international principles on labour and ethical employment, social inclusion and environmental protection.
- ✓ Overarching consideration given to building local capacity and promoting the involvement of people whose lives are affected by business decisions;

UN Global Compact – Human Rights

Principle 1: businesses should support and respect the protection of internationally proclaimed Human Rights

Principle 2: businesses should ensure they are not complicit in Human Rights abuse

Organisations should do this by giving attention to vulnerable groups including women, children, people with disabilities, indigenous groups, migrant workers and older people.

Organisations should comply with all laws, honouring international standards and giving particular consideration to high risk areas with weak governance.

Examples of how suppliers and partners should do this are set out below:

In the workplace

- by providing safe and healthy working conditions
- by guaranteeing freedom of association
- by ensuring non-discrimination in personnel practices
- by ensuring that they do not use directly or indirectly forced labour or child labour
- by providing access to basic health, education and housing for the workers and their families, if these are not provided elsewhere
- by having an affirmative action programme to hire victims of domestic violence
- by making reasonable accommodations for all employees' religious observance and practices

In the community

- by preventing the forcible displacement of individuals, groups or communities
- by working to protect the economic livelihood of local communities
- by contributing to the public debate. Companies interact with all levels of government in the countries where they operate. They therefore have the right and responsibility to express their views on matters that affect their operations, employees, customers and the communities of which they are a part
- through differential pricing or small product packages create new markets that also enable the poor to gain access to goods and services that they otherwise could not afford
- by fostering opportunities for girls to be educated to empower them and also helps a company to have a broader and more skilled pool of workers in the future, and
- perhaps most importantly, a successful business which provides decent work, produces quality goods or services that improve lives, especially for the poor or other vulnerable groups, is an important contribution to sustainable development, including human rights
- If companies use security services to protect their operations, they must ensure that existing international guidelines and standards for the use of force are respected

Global Mine Action Programme 2

Terms of Reference

Introduction

1. This document comprises the Terms of Reference (ToR) for a new global mine action programme, The Global Mine Action Programme 2 (GMAP2), to be procured by the Department for International Development (DFID).
2. The UK has had an historic role in tackling the legacy of landmines and explosive remnants of war (ERW), being one of the founding signatories to the Land Mine Ban Treaty in 1997. In the 20 years since then, the UK has supported some of the poorest countries around the world to clear landmines and ERW after conflict, building up considerable knowledge and experience in the mine action sector. UK funding for mine action saves lives, releases land for productive use and helps pave the way for further development programming.
3. The Secretary of State for International Development announced on 4th April 2017 that the UK would triple spend on mine action to £100million over the three financial years to March 2020. This will contribute to results including making safe 150 km² of land, helping 800,000 people to live their lives free from the threat of mines and over 100,000 people – especially children – fully understand the dangers posed by landmines and how to avoid them by receiving mine risk education (MRE) sessions. DFID expects this contract to deliver at least 106.3 km² of the land release target.
4. The GMAP2 Business Case allows for DFID to contract a Supplier for land mine and ERW clearance, MRE activities and capacity development of national and provincial authorities in Angola, Burma, Cambodia, Laos, Lebanon, Somalia, South Sudan, Vietnam and Zimbabwe. DFID expects this programme to deliver a significant proportion of the results committed to on 4th April 2017. Separate programmes in Afghanistan and the Middle East will also contribute to the overall targets but will be delivered through other channels.
5. The requirements set out in these ToR will be completed through two separate Lots. The programme Lots are as follows:
 - Lot 1 – Angola, Cambodia, Somalia and Zimbabwe
 - Lot 2 – Burma, Laos, Lebanon, South Sudan and Vietnam
6. In the eventuality that one Supplier is successful in winning both lots, DFID may choose to utilise one contract to accommodate requirements of both lots.
7. This ToR details what is required from the Supplier for delivery of services under Lot 1, encompassing Angola, Cambodia, Somalia, and Zimbabwe.

Objective

8. The objective of this programme is to provide a significant scale up in mine clearance, MRE and support to national mine action authorities. The programme will deliver a set of services that ultimately lead to increased peace and security, and support towards development in countries affected by mines and ERW.
9. The intended beneficiaries of this programme are:
 - Communities currently at risk of harm from mines and ERW;
 - Communities unable to use land productively because of the fear of harm from mines and ERW;
 - Communities unable to access basic services, facilities and vital infrastructure because of mines and ERW; and
 - Governments of selected countries.

Scope

10. This ToR refers to delivery under Lot 1 in Angola, Cambodia, Somalia, and Zimbabwe. Details for each selected country are included in Table 2 at para 27 below.
11. The contract will provide services that deliver:
 - Technical surveys and clearance of mines and ERW;
 - MRE and community liaison visits and;
 - Capacity development of national mine action authorities.

Collectively, these services will be referred to as "Mine Action Activities". Certain countries have additional specific requirements (see paragraph 28).
12. There may be a need to adapt the weighting of Mine Action Activities in Angola, Cambodia, Somalia and Zimbabwe, over the lifetime of the programme. This may be due to unexpected losses (for instance sudden onset of conflict or severe weather rendering areas unworkable) in one country, which may need to be offset by increased work in another in order to deliver DFID's land release target. Should this occur, budgets and workplans will be revised.
13. There may be a need for additional Mine Action Activities in Sri Lanka. Suppliers should submit proposals for possible Mine Action Activities (clearance, risk education and capacity development) in Sri Lanka. The funding which may become available for this could range from £800,000 to £2.4 million. Suppliers must demonstrate the extent of their ability to operate

in Sri Lanka. DFID is not committed to undertaking work in Sri Lanka until approved by Ministers which may occur during the programme lifecycle. At such a time, DFID will run a mini-competition between the successful Suppliers selected for Lots 1 and 2.

14. If the Supplier is unable to meet its agreed performance targets, DFID reserves the right to amend the said Lot to reduce the Mine Action Activities to be delivered by that Supplier. An inability to meet targets may be triggered by a range of factors, including but not limited to:
 - a. conflict inhibiting the safe operation of deminers' work
 - b. natural disasters
 - c. the supplier has consistently shown not to be on track to meet the minimum output target for a country
 - d. Supplier's work has been delayed significantly by events which could have been foreseen (e.g. religious holidays, staff departures) but were not accounted for in a timely manner in delivery plans (i.e. logframe)
15. The supplier has agreed to deliver a combination of the activities outlined in paragraph 11 above, depending on context. In addition to projecting outputs targets for mine clearance and MRE for all countries forming part of the contract, Supplier proposals detail how they will build the capacity of National Mine Action Authorities in all countries except Zimbabwe.
16. DFID will assess bids in accordance with the evaluation criteria set out in Volume 2 – Scoring methodology and Evaluation Criteria.

Timeframe

17. The contract will run from 01 July 2018 until 31 March 2020.
18. There will be a formal Review Point in the contract at the end of the **mobilisation phase** [2 months after contract start date] and another at the end of the first year of Implementation. Movement from mobilisation to Implementation and continuation of the contract beyond the Implementation review point will be subject to the satisfactory performance and progress of the Supplier. As per DFID's standard Terms and Conditions, DFID reserves the right to terminate the contract with 30 days notice to the Supplier. The Supplier must allow for a 90 day termination period after giving notice to DFID of conclusion of the contract.
19. DFID reserves the right to scale back or discontinue this programme at any point (in line with our Terms and Conditions) dependant on performance of the Supplier (especially where unsatisfactory) or if the programme is not achieving the results anticipated.
20. Unsatisfactory performance may include but is not limited to: a consistent (more than twice) breach in fulfilling obligations related to reporting in a timely

fashion; a consistent (more than twice) failure to achieve agreed targets as set out in the Logframe; a severe disregard for due care towards its staff or employees; evidence of malfeasance, fraud or corruption and/or a failure to respond to such instances in a timely manner.

21. Subject to the satisfactory performance of the Supplier and the continuing need and availability of funding, the contract may be extended for a period of up to 12 months to cover continuing work in one or more countries, and a possible expansion of work to Sri Lanka, Burma, Laos, Lebanon, South Sudan and/or Vietnam.

Budget

22. The maximum budget for Lot 1 is £36.8million. This figure represents up to £24.5M for the 18.5 month period of the contract and up to £12.25M for up to a 12 months extension. Note that DFID programmes are not automatically

tax exempt and therefore Suppliers will be liable to pay any relevant taxes in the country of operation. Tax liabilities should therefore be taken into consideration in commercial proposals.

23. Subject to the satisfactory performance of the Supplier, continuing need and availability of funding, the contract may be extended, utilising a negotiated procedure, for a period of up to 12 months and up to the contract values shown above to cover continuing work in one or more countries, including Sri Lanka. Proposals will be assessed on the basis of having the capacity, including financial capacity, to quickly scale up activities if required.
24. There will be a quarterly payment schedule for each country based on the estimated actual cost of anticipated delivery targets against each output during each quarter, taking account of external factors, which may cause variances in delivery (seasonal weather fluctuations, different terrains, local influences, etc.). Forecasts will be revisited and subject to approval by DFID each quarter to ensure accurate activity planning and financial management. For the avoidance of doubt, the payment schedules shall include outputs delivered during recognised UK financial quarters.

Requirements

25. The supplier has submitted proposals that respond to all aspects of the DFID Mine Action Theory of Change (see Annex E) and these ToR. This includes an expected 'technical' baseline, i.e. the availability, accuracy and reliability of information on suspected and confirmed hazardous areas, and the types and predicted distribution of mines and ERW to be cleared. Specifically, the proposal will:
 - detail how the Supplier will release the minimum amounts of land listed below;
 - detail how programmes will maximise the number of beneficiaries of land release;
 - provide workplans for how the capacity of National Mine Action Authorities will be supported;
 - provide detailed proposals on how the Supplier will respond to the minimum set of country specific requirements described below.
26. DFID has estimated output land release results targets for each country based on the performance of previous programmes. Details of previous DFID mine action programmes are available on <https://devtracker.dfid.gov.uk/>. The Supplier will include in its proposals the assumptions used to calculate its productivity (including the size of its survey, clearance, community liaison and MRE teams, equipment used, access to information such as minefield records, and the Supplier's experience in surveying and clearing similar contaminated land) and the project risk(s) associated with the Supplier's assumptions. The minimum land release targets should be used as a

baseline. If suppliers wish to submit proposals with a different weighting of land release across the countries they may do so, but the overall land release minimum for the contract must be met.

27. The supplier has provided evidence they have consulted with national mine action authorities or regulators to ensure proposals are aligned with national priorities and, where available, national mine action strategies or equivalents. The Supplier will include in their proposal how they will (i) include all relevant development partners as per the theory of change; (ii) maximise DFID funding alongside other streams of funding to enable these outcomes to be achieved. With emphasis given to:

- to the degree, quality and sustainability of the benefits (in terms of increased security and enhanced livelihoods) of land release and MRE activities; and
- to activities which meet the expectations – in addition to addressing the needs – of communities at risk.

Table 2. Minimum Land Release

Lot 1 Maximum value £24.5 million for the contract period with a potential additional value of £12.25 million for an addition of up to 12 month extension period Minimum land release 73.9km²	
Country	Land release minimum
Angola	2.6km ²
Cambodia	65.5km ²
Somalia	2.8km ²
Zimbabwe	3km ²

28. **Country specific requirements:** The GMAP2 programme is designed to save lives in some of the most landmine and ERW contaminated countries in the world. When preparing proposals Suppliers should refer to the objectives; inputs; and outputs section of the ToC; ensure their proposals can as a minimum meet or exceed the minimum land release outputs above; and explicitly respond to the country specific requirements below. For more information on past and ongoing DFID support to mine action in these environments please see Annex F.

Lot 1: Cambodia. The Supplier shall

- address contamination of both mines and unexploded ordnance (UXO) in the north and north west of Cambodia.
- design a programme of work to support the CMAA to improve prioritisation, quality management and information management capabilities.
- where possible, partner with the operational arm of CMAA to share best practice and innovative approaches to survey, clearance and MRE.

Lot 1: Somalia. The Supplier shall:

- propose a programme that will contribute to the completion of all mine action related work in Somaliland so that the area can be declared mine impact free;
- focus on achieving land release in south-central Somalia;
- engage national mine action partners to conduct a proportion of clearance, survey and MRE activity to ensure national capacity and capability is developed.

29. **Value for Money:** The supplier proposal demonstrates how they will deliver maximum value for money from the budgetary envelope. Proposals include a detailed approach to value for money metrics and the cost of survey and clearance. The Supplier has demonstrated how the intended outcomes will be achieved effectively through provincial authorities and/or development partners. The proposal:

- a. identifies how the supplier will maximise value for money, including how they will evaluate and report value for money elements
- b. provides any cost benchmarking information where available to allow DFID to make a good value for money assessment.
- c. presents a full breakdown of costs specifying any management or overhead costs and profit margins if applicable. Such detail must be provided within the pricing pro-formas.

30. **Conflict sensitivity:** The Supplier has provided, as part of their proposal, a conflict sensitivity strategy which includes an assessment of work in the proposed area and steps to avoid aggravating the causes and consequences of conflict wherever possible.

31. **Gender:** The Supplier has provided, as part of their proposal, a gender strategy that will detail how the Supplier shall design, develop and implement the project in a way that takes into account the different needs, priorities, knowledge and capabilities of women, girls, men and boys, ensuring that they participate in, and benefit equally from, the proposed project.

32. **Disability and Inclusion:** The Supplier has outlined in their proposal how they will design, develop and implement the project in ways that take into account the needs and capabilities of people with disability and other vulnerable groups. The Supplier has also include details of how they will encourage inclusive employment practices.
33. **Risk Assessment:** The Supplier has evaluated the risks associated with the successful design, development and implementation of the project, and will continue to propose measures which aim to reduce the probability and mitigate the impact of the risks. The Supplier has proposed how they will systematically monitor risk throughout the project lifecycle and the escalation chain. Risks will be identified in accordance with DFID risk matrix. For the avoidance of doubt, this risk assessment is in addition to the risk assessments required to meet the Supplier's Duty of Care set out in Annex G.

Mobilisation Phase

34. The contract will have a two-month mobilisation phase which will run from the Contract start date. The performance of the Supplier will be assessed at the end of this two-month mobilisation phase, which will also serve as a formal review point. During the mobilisation phase the Supplier shall produce and agree a final logframe with DFID. In order to agree this DFID will expect the Supplier to:
- submit a final/updated baseline data report for output indicators, based on that provided within the original bid;
 - commence activities that will contribute to delivery of the agreed contractual outputs;
 - the Supplier, collaborating with DFID and the monitoring and evaluation (M&E) supplier, will consult the DFID Mine Action Theory of Change and supporting documents to agree country specific outcome indicators that will be tracked through the lifetime of the programme.
35. **Baseline Data:** Within 30 days of the Start date of the contract, the Supplier shall work with the Monitoring and Evaluation supplier to refine their technical baseline data and to submit to DFID for approval a report setting out the baseline data to be used as a reference point against which project performance will be measured. The report shall:
- describe the expected 'technical' baseline, i.e. the availability, accuracy and reliability of information on suspected and confirmed hazardous areas, and the types and predicted distribution of mines and ERW to be cleared; and
 - provide quantitative and qualitative data on the quality of life of mine/ERW-affected communities prior to land release and MRE interventions in the areas proposed for operations, disaggregating by gender and disability.

- describe the capacity development baseline for the leading government department, mine action centre and/or mine action authority depending on which institutions lead on mine action regulation and coordination.
- provide a conflict sensitivity strategy which includes an assessment of work in the proposed area and steps to avoid aggravating the causes and consequences of conflict wherever possible.
- assess the impact of mine action on men, women and children and provide a final gender equality strategy which includes how operator employment practices, Mine Action Activities and data disaggregation will be gender sensitive.
- assess the impact of mine action on vulnerable communities including the disabled. Detail how operator employment practices, Mine Action Activities and data disaggregation will be sensitive to issues of disability and inclusion.

36. **Logframe:** within 30 days of the start date of the contract, the Supplier shall submit to DFID an updated draft project logframe which takes into account the refined baseline data. This will be the first milestone for agreeing a logframe which will be finalised within 60 days of the start date of the contract. The logframe shall be based on a Theory of Change (ToC) diagram (see Annex E) which the Supplier shall include in its proposal for this task. During the mobilisation phase (first 60 days of the contract) DFID will work with the chosen Supplier to agree a set of context specific outcome indicators the Supplier will report on at 6 monthly intervals. These indicators are expected to differ according to country context.

37. The outputs from the Mobilisation Phase are agreed Key Performance Indicators (KPIs) and thus act as payment triggers for the Mobilisation Phase. KPIs for the Implementation Phase will be included in the agreed final logframe and will include:

- Monthly / Quarterly land release target achieved
 - o Cancelled land
 - o Reduced Land
 - o Cleared Land
- Community liaison visit targets achieved (Households per quarter)
- Mine Risk Education (MRE) community briefing targets achieved (Sessions per quarter)
- Number of MRE beneficiaries reached

The percentage of payments linked to performance has been provided by Suppliers at tender stage

Implementation Phase

38. The Supplier will be required to have the information, knowledge, experience, procedures, equipment and trained people ready to implement the project by 01 July 2018. This must include having all necessary licencing and government approvals in place prior to the start date of the contract. Tenderers will need to include detailed evidence of existing licences within their bids and provide confidence that any other necessary licencing will be in place to ensure mobilisation in all countries by 01 July 2018.
39. The Supplier will ensure DFID is informed of any significant changes in expected results and make recommendations for adjustments in the programme to ensure overall delivery of results is on track, any such changes must be agreed in advance and in writing by DFID. If the Supplier significantly exceeds land release targets over three consecutive quarters in one or more countries, the Supplier will be required to provide a detailed set of recommendations to DFID on how funding could release land and reach beneficiaries elsewhere across the programme.
40. **Value for Money (VfM):** The Supplier has detailed VfM through all phases of the project. Resources shall be used economically and outputs shall be achieved efficiently.
41. **Outputs:** The nature of national mine action prioritisation and planning means it is normally not possible to predict well in advance the location and timing of land release and MRE tasks. For the purposes of this project, the Supplier shall provide indicative outputs which show the expected productivity of land release and MRE tasks in each country as part of their bid. The following indicators are to be used:
- Cancelled land (square metres per quarter);
 - Reduced land (square metres per quarter);
 - Cleared land (square metres per quarter);
 - Community liaison visits (households visited per week);
 - MRE community briefing sessions (briefing sessions per week).
42. **Task selection:** The Supplier shall work closely with the national and provincial authorities to select tasks which will contribute to the project outcomes. The supplier will confirm these targets with DFID. The focus must always be to reach the highest number of beneficiaries. Suppliers will set out their process for engaging with national authorities and influencing effective land prioritisation within their technical response.
43. **Intended outcomes:** The intended outcomes of this project are to provide communities at risk with increased security and enhanced livelihoods, and to enable broader humanitarian and development projects to be implemented.

Country specific outcomes will be agreed during the mobilisation phase, based on the UK Mine Action Theory of Change.

44. **Lessons learned:** The Supplier shall work with the M&E provider to establish a formal system which aims to identify, document, validate and disseminate lessons learned across the GMAP2 countries and the wider mine action industry. Of particular importance will be lessons learned on the trialling and use of innovative operational procedures.
45. **Project phase out:** The need for continued UK Government funding of mine action in GMAP2 countries will be considered in due course. The Supplier must consider the possibility there will not be a follow-on mine action contract and will therefore plan to demobilise to minimise the impact on the Supplier's national staff and development partners, and the disposal of vehicles and equipment bought and used with project funds. In this respect please see below for end of contract activities.

End of Contract Activities

46. Three months before the expiry date of the contract the Supplier will prepare for DFID's approval a draft Exit Plan which shall include:
- a) A disposal plan for all assets procured throughout the lifetime of the programme in accordance with DFID procedures on asset management and disposal;
 - b) Addresses any material items that are necessary or desirable for the continued co-operation of the UK Government with selected countries after the contract ends;
 - c) The Supplier's plans on co-operating to ensure the smooth transfer of responsibilities from the Supplier to any persons or organisation taking over such responsibilities after the contract ends;
 - d) The Supplier's plan to deliver to DFID (if requested or as otherwise directed by DFID) prior to the contract end date (or termination of the contract), any finished work or unfinished materials or work-in-progress which relate to the contract;
 - e) The Supplier's plans to provide DFID before the contract ends a summary of the status and next steps in relation to any on-going projects or other material and unfinished activities being conducted or monitored by the supplier;
 - f) The return by the Supplier of all Confidential Information to DFID before the contract end date.
 - g) Allow for a period of up to sixty days after the contract end date (or termination date) for the exit process to be properly implemented.

Management Arrangements, Quality Control and Reporting

47. GMAP2 will be managed directly through the Conflict, Humanitarian Assistance and Security Department (CHASE) within DFID.
48. The Supplier will provide quarterly reports to the M&E provider who will quality assure the reports and update DFID including alerting it to any significant challenges that the Supplier is facing with programme delivery. The quarterly progress report must be submitted within two weeks after the completion of a quarter. DFID uses a standard modality in the form of the logframe (see Annex C).
49. Provide annual audited statements. The audit reports must be completed within six months of the completion of financial year.
50. The Supplier will be required to set out in their proposal how they will ensure good governance and monitoring across all countries, including the frequency and means of monitoring. This includes the ability to manage risk matrixes across the full set of countries. The Supplier will be required to submit a risk framework for each country programme which will be reviewed on a quarterly basis with DFID.
51. The supplier has chosen to submit a proposal which will be delivered through a consortium model, and included a governance plan which sets out the proposed management structure including lines of reporting and accountability.
52. In the case of proposals delivered by consortia and/or through downstream partners, the proposal must include full details of governance arrangements and how the engagement, capacity development and management of specific downstream partners will be managed.
53. The Supplier's work will be monitored by the M&E provider. The M&E provider will work under the overall supervision of the Senior Responsible Officer (SRO). The M&E provider will report back on all GMAP2 deliverables to the Programme Manager in the Conflict, Security and Justice team in CHASE.
54. The Supplier will be expected to contribute to the evidence (including lessons learned and best practice) gathered by the M&E provider for the programme evaluation

Transparency

55. DFID has transformed its approach to transparency, reshaping our own working practices and pressuring others across the world to do the same. DFID requires Suppliers receiving and managing funds, to release open data on how this money is spent, in a common, standard, re-usable format and to require this level of information from immediate sub-contractors, sub-agencies and partners.

56. It is a contractual requirement for all Suppliers to comply with this, and to ensure they have the appropriate tools to enable routine financial reporting, publishing of accurate data and providing evidence of this – further information is available from www.aidtransparency.net

UK Aid Branding

57. Suppliers that receive funding from DFID must use the UK aid logo on their development and humanitarian programmes, to be transparent and acknowledge that they are funded by UK taxpayers. Suppliers should also acknowledge funding from the UK government in broader communications but no publicity is to be given to this Contract without the prior written consent of DFID. There may be locations where the use of the UK Aid logo will not be appropriate. Any exceptions to the rule above must be discussed with DFID on a case by case basis.

Duty of Care

58. The Supplier is responsible for the safety and well-being of their Personnel and Third Parties affected by their activities under this contract, including appropriate security arrangements. They will also be responsible for the provision of suitable security arrangements for their domestic and business property.
59. DFID will share available information with the Supplier on security status and developments in-country where appropriate. Travel advice is also available on the FCO website and the Supplier must ensure they (and their Personnel) are up to date with the latest position.
60. The security situation in the GMAP2 countries may be volatile and subject to change at short notice. The Supplier should be comfortable working in such an environment and should be capable of deploying to any areas required within the region in order to deliver the contract (subject to travel clearance being granted).
61. The Supplier is responsible for ensuring that appropriate arrangements, processes and procedures are in place for their Personnel, taking into account the environment they will be working in and the level of risk involved in delivery of the Contract (such as working in dangerous, fragile and hostile environments etc.). The Supplier must ensure their Personnel receive the required level of training prior to deployment.
62. The supplier has developed their Tender Responses on the basis of being fully responsible for Duty of Care in line with the details provided above. They have confirmed in their SQ Response that:
- They fully accept responsibility for Security and Duty of Care.

- They understand the potential risks and have the knowledge and experience to develop an effective risk plan.
 - They have the capability to manage their Duty of Care responsibilities throughout the life of the contract.
63. Acceptance of responsibility has been supported with evidence of Duty of Care capability.

Do No Harm

64. DFID requires assurances regarding protection from violence, exploitation and abuse through involvement, directly or indirectly, with DFID suppliers and programmes. This includes sexual exploitation and abuse, but should also be understood as all forms of physical or emotional violence or abuse and financial exploitation.
65. The programme is targeting a highly sensitive area of work. The Supplier must demonstrate a sound understanding of the ethics in working in this area and applying these principles throughout the lifetime of the programme to avoid doing harm to beneficiaries. In particular, the design of interventions including research and programme evaluations should recognise and mitigate the risk of negative consequence for women, children and other vulnerable groups. The supplier will be required to include a statement that they have duty of care to informants, other programme stakeholders and their own staff, and that they will comply with the ethics principles in all programme activities. Their adherence to this duty of care, including reporting and addressing incidences, should be included in both regular and annual reporting to DFID;
66. A commitment to the ethical design and delivery of evaluations including the duty of care to informants, other programme stakeholders and their own staff must be demonstrated.
67. DFID does not envisage the necessity to conduct any environmental impact assessment for the implementation of the Issue based programme. However, it is important to adhere to principles of “Do No Harm” to the environment.

General Data Protection Regulations (GDPR) Requirements:

68. General Data Protection Regulations (GDPR) came into effect from 25th May 2018. This aims to protect the privacy of all EU citizens and prevent data breaches. Established key principles of data privacy remain relevant in the new data protection legislation but there are also a number of changes that affect commercial arrangements, both new and existing, with suppliers. Under GDPR the contract must be clear on roles and responsibilities relating to the Controller and the Processor. A Controller determines the purposes and means of processing personal data. A Processor is responsible for processing personal data on behalf of a controller. In the majority of contracts, government would normally expect the Controller to be DFID and the Processor to be the Supplier. However, there is

the potential for DFID programme funded contracts to require a different relationship for these roles.

The Controller must:

- ☐ Clearly state what personal data can be gathered under the contract, along with the purpose and means.
- ☐ Ensure the processor has the capability to meet the requirements of GDPR.
- ☐ Ensure a Data Protection Impact Assessment (DPIA) is carried out (where appropriate) prior to contract award.

The Processor must:

- ☐ Process data in line with GDPR
- ☐ Process the data within the scope stated by the Controller in the contract.
- ☐ Ensure any sub-processors they contract have the capability and provide assurance of compliance.

69. The revised DFID Terms and Conditions have been adjusted to include a new Personal Data clause. The clause (32), is on the basis of DFID as the Controller and the Supplier as the Processor and you will see that the clause links directly to the details provided within Appendix A of this ToR. Further discussion between the preferred supplier and DFID will agree roles and responsibilities with regard to GDPR compliance.

GLOSSARY

The definitions of terms used in this ToR are taken from International Mine Action Standards, apart from 'beneficiary' which has been defined by the current Global Mine Action Programme (GMAP) contractors and accepted by DFID.

Beneficiary

There are six types of beneficiary in GMAP, one for each category of land use. For example, direct beneficiaries of agricultural/pastoral land are people in households (including labourers) who are using/will use released land to cultivate crops, market gardens or to regularly graze animals, whereas the direct beneficiaries of community/public services are people in households who frequently use/will frequently use released land to forage, fish, hunt, collect material or use natural water sources.

Cancelled land

A defined area where there is no evidence of mine/ERW contamination following the non-technical survey of contaminated or suspected hazardous areas.

Clearance

In the context of mine action, the term refers to tasks or actions to ensure the removal and/or the destruction of all mine and ERW hazards from a specified area to a specified depth.

Cluster munition (CM)

A conventional munition that is designed to disperse or release explosive sub-munitions each weighing less than 20 kilograms, and includes those explosive sub-munitions.

Explosive remnants of war (ERW)

All munitions (including CM) containing explosives, nuclear materials, or biological and chemical agents. The munitions may have been fired and not detonated and therefore potentially dangerous, or left behind or dumped by a party to an armed conflict.

Land release

The process of applying all reasonable effort to identify, define, and remove the presence and suspicion of mines/ERW through non-technical survey, technical survey and/or clearance. The criteria for "all reasonable effort" shall be defined by the National Mine Action Authority (NMAA).

Mobilisation Phase

The 60 day period which runs from the contract start date

Mine action

Activities which aim to reduce the risk from landmines, ERW and improvised explosive to a level where people can live safely; in which economic, social and health development can occur free from the constraints imposed by landmine and ERW contamination. Mine action comprises: (a) MRE; (b) humanitarian demining, i.e. mine and ERW survey, mapping, marking and clearance; (c) victim assistance, including rehabilitation and reintegration; (d) stockpile destruction; and (e) advocacy against the use of anti-personnel mines.

Mine free

An area that has been certified as clear of mines to a specified depth.

Mine risk education (MRE)

Activities which seek to reduce the risk of injury from mines/ERW by raising awareness of men, women, and children in accordance with their different vulnerabilities, roles and needs, and promoting behavioural change.

National Mine Action Authority (NMAA)

The authority which ensures the effective coordination of mine action activities, implements policies, develops national mine action standards, identifies mine action responsibilities in accordance with national mine action priorities and coordinates mine action activities with relevant international parties as the national counterpart.

Non-technical survey (NTS)

The collection and analysis of data without the use of technical interventions about the presence, type, distribution and surrounding environment of mine/ERW contamination, to define better where mine/ERW contamination is present, and where it is not.

Reduced land

A defined area concluded not to contain evidence of mine/ERW contamination following the technical survey of contaminated or suspected hazardous areas.

Senior Responsible Owner (SRO)

A DFID staff member who has been designated as the SRO is accountable for the vision and overall performance of a project/programme.

Technical survey (TS)

The collection and analysis of data using appropriate technical interventions using mine detectors and/or the mine detection dogs about the presence, type, distribution and surrounding environment of mine/ERW contamination, to define better where mine/ERW contamination is present, and where it is not.

ANNEX F Country Overviews

The information below is presented to provide bidders with information related to current and past programming in mine action. It is presented to provide context and background information, and ensure all bidders have a baseline level of awareness of the extent of UK support for mine action in various contexts. Bidders should refer to the GMAP annual review and all available documents on the Development Tracker (located at <https://devtracker.dfid.gov.uk/projects/GB-1-203243>).

Country	UK support for mine action
<i>Angola</i>	Angola is still one of the most heavily-contaminated countries with experts reporting all 18 provinces as containing mined areas. Between 2000 and 2014, there were close to 3,000 casualties in Angola, including 970 people killed. DFID will be adding Angola to its list of recipient countries as part of GMAP2.
<i>Cambodia</i>	DFID funded work has included non-technical survey, technical survey, clearance, and MRE activities in north-west Cambodia in provinces of Battambang, Banteay Meanchey, Otdar Meanchey, Preah Vehear, Pursat and Pailin. The area (known as K5 mine belt) is heavily contaminated with 1000 landmines per km along 720km border. Work on capacity development is focused on training and developing the capacity of the national Cambodian Mine Action Authority and the provincial Mine Action Planning Units (MAPUs) in areas such as prioritisation, quality management, mainstreaming gender and improving ability to run procurements in line with international standards. UK-funded staff are embedded in the CMAA to provide ongoing support in areas of management, training and database management.
<i>Somalia</i>	The UK Government has supported mine action in Somalia for many years, focusing on survey, clearance of exploded remnants of war (ERW), including Cluster Munitions (CM) and mine risk education (MRE) at numerous sites including schools, as well as capacity development. Mine clearance and mine risk education work, supported by the UK, has focused on a combination of mine activities in Somaliland and southern Somalia. Manual mine clearance and threat reduction of roads using a mechanical system and MRE is being carried out in Somaliland, and technical survey is ongoing along the Somali-Ethiopian border in Southern Somalia. UK funds also support MRE in Jubaland and Southwest State, and manual demining (survey and clearance) and MRE along Somali-Ethiopian border in the disputed region of Sool between Somaliland and Puntland. Work on capacity development is being undertaken under the current programme which is due to end 31 March 2018. Capacity development project has focused on defining the national and state information requirements and transferring data from UNMAS to SEMA, and conducting a management training needs

	assessment.
<i>Zimbabwe</i>	The UK Government has been funding mine action in Zimbabwe for a number of years. This has covered survey, clearance of exploded remnants of war (ERW), including Cluster Munitions (CM) and mine risk education (MRE) at numerous sites including schools. Mine clearance and mine risk education work, supported by the UK, has focused on conducting technical survey, mine clearance, community liaison and MRE along the northern and eastern border with Mozambique. Land release has occurred in Rushinga District which has shown to benefit local farmers and cross border traders.

13. Break Points

There will be a formal review point in the contract at the end of the 2 month mobilisation period, after which DFID will review performance and progress of the Supplier before taking the decision to proceed to implementation, there will be a second formal review point after the first year of Implementation. Quarterly reporting and review will be continuous throughout the contract duration. Movement from mobilisation to implementation and continuation of the contract beyond the implementation review point will be subject to the satisfactory performance and progress of the Supplier.

14. Scale Up/Down

The supplier shall commit to being fully prepared, in the event that, the weighting of Mine Action activities in:

LOT 1: Angola, Cambodia, Somalia and Zimbabwe

Require to be adapted, due to unexpected losses, (for instance sudden onset of conflict or severe weather rendering areas unworkable) in one country, which may require to be offset by increased work in another in order to deliver DFID's land release target. Should this occur, budgets and workplans will be revised.

Dependant on need, the supplier shall commit to being fully prepared to deliver additional Mine Action Activities in Sri Lanka pending approval by ministers which may occur during the programme lifecycle.

15. Extension Options

The contract includes the option to extend for a period of up to 12 months to cover continuing work in one or more countries (Angola, Cambodia Somalia and/or Zimbabwe) and a possible expansion of work to Sri Lanka. This extension was advertised, with a possibility for the contract to be increased by up to £12.25M.

Any option to extend will be reviewed subject to satisfactory performance of the supplier, the continuing need and availability of funding, and agreement on work-plans and budgets for the proposed extension period.

16. Payment Mechanism

A quarterly payment schedule based on the estimated actual cost of anticipated delivery targets against each output during each quarter. Forecasts will be revisited and subject to approval by DFID each quarter to ensure accurate activity planning and financial management.

As direct costs are relatively fixed due to the standardised makeup and number of teams, assets and equipment to be mobilised, these payments will not be aligned to "payment by results indicators" (for example, square meters cleared). With no profit, risk, or contingency margin included in this proposal, these approved, eligible, direct costs of delivery will be paid.

Whilst no profit margin has been included, the commercial proposal includes an element of overhead (the 'plus' element of a 'cost plus' contract), representing 9.5% of total direct costs (8.68% of the total contract value) and the supplier has agreed to set 100% of this overhead against the total land release KPI (as the PBR element)

The payment schedule is linked to agreed KPI's based on actual, planned (outlook) and re-forecast data, in order to ensure that variances from the approved plan are identified in sufficient time for any corrective action to be taken, with a clear focus on delivering contracted outputs, on time, to budget.

The payment model is linked to the technical work plan with payment structures linking the full value of the project to milestone deliverables.

17. Monitoring of Contract Performance

The obligations in Clause 12 of Section 2 (Standard Terms and Conditions) shall not apply and monitoring of contract performance shall be carried out in accordance with the obligations set out in Section 3 (Terms of Reference) and agreed baseline KPIs identified in Contract section 2, Schedule 4 which will subsequently be refined between The HALO Trust and DFID during mobilisation.

18. Supplier Covenants

The supplier will ensure that neither it, nor any of its Affiliates, embarrasses the Customer or otherwise brings the Customer into disrepute by engaging in any act or omission which is reasonably likely to diminish the trust that the public places in the Customer, regardless of whether or not such act or omission is related to the Supplier's obligations under this Contract.

19. Purchasing of Assets

In addition to Condition 10 (Procurement of Equipment) of the Standard Terms and Conditions, the Supplier must liaise and seek approval with the Project Officer in advance of purchase of any assets that are not already agreed within the contract. Supplier should also provide a forwarding looking plan to ensure that the purchase of assets (including vehicles) is effectively programmed to maximise delivery and minimise asset expenditure in the latter stages of the contract, even for those assets identified on the "approved list".
