NUTS code UK

**II.1.3) Information about a framework agreement or a dynamic purchasing system (DPS)**

The notice involves the establishment of a framework agreement

**II.1.4) Short description of the contract or purchase(s)**

Crown Commercial Service as the Authority has put in place a Pan Government Collaborative Framework Agreement for use by UK public sector bodies identified at VI.3 (and any future successors to these organisations), which includes Central Government Departments and their Arm's Length Bodies and Agencies, Non Departmental Public Bodies, NHS bodies and Local Authorities.

The above Public Sector Bodies have a need for PEPPOL Access Point Services for the electronic exchange of business documentation including invoices and purchase orders.

'PEPPOL (Pan-European Public Procurement Online)' was initiated in 2008 with the aim of simplifying electronic procurement across borders by developing technology standards that could be implemented across all governments within Europe. The overall objective was to enable businesses to communicate electronically with any government institution in the procurement process, increasing efficiencies and reducing costs.

This procurement gives access to PEPPOL Standards-based IT Transport Infrastructure through Access Points, and the services provided for eProcurement with standardised electronic document formats.

The Department of Health has publicly committed to the adoption of PEPPOL across all NHS Trusts. The implementation of PEPPOL was intended to remove unnecessary process inefficiencies which arose during the transfer of business documents. It was estimated that the current processes require significant manual intervention. It also meant that a single supplier wishing to trade with the NHS may have had to accept 150 different formats of purchase order.

The adoption of this single standard allows customers to exchange these business documents through a single 'Access Point'. The process reduces complexity and costs for the Contracting Body and for the Provider using what is commonly known as a 4 corner model. This allows the Contracting Body and the Provider to select their own Access Point Provider with PEPPOL mandating that information passes between the 2.

A key feature of the PEPPOL network is the freedom for suppliers to engage with an Access Point provider of their choice, to send and receive electronic documents with any organisation in the PEPPOL network through one single source, eliminating complex relationships with buyers, their service providers and related obligations.

The network is governed by the PEPPOL Transport Infrastructure Agreements, which establishes a many-to-many legal framework instead of the traditional bilateral agreements entered into between service providers. The documents are routed through Access Points and the receiver's capabilities can be discovered by using the PEPPOL Service Metadata Publisher (SMP) services. The content and validation rules ensure consistency for all parties.

It is estimated that anywhere between 0,48 GBP and 5,40 GBP can be saved per transaction each year (this is dependent on the current systems and how paper-reliant current processes are). For the Department of Health, if all Trusts were to on-board, this would result in savings of between 12,5 GBP and 135 000 000 GBP in savings each year. This money could be better spent elsewhere providing the National Health Service to UK taxpayers.

In addition, a further catalyst for this procurement is Directive 2014/55/EU of the European Parliament and of the Council on e-Invoicing which states that the public sector organisations of all European members must be able to send and receive an electronic invoice in a structure format by November 2018. The PEPPOL Standard will ensure that the Department of Health and other Contracting Bodies are compliant with the terms of this EU Directive which was intended to make the relationship between public sector organisations and their suppliers simpler, more secure and more cost effective.

While other Contracting Bodies are not mandated to use the PEPPOL standard, this Framework Agreement will provide them with a route to comply with that Directive 2014/55/EU of the European Parliament and of the Council.

The following services are not within the scope of this Framework Agreement:

- Archiving services;
- Invoice Retrieval;
- Remapping;
- Buyer connection;

The duration referred to in section II.1.40) is 2 years plus the option for 2 12-month extensions (potentially a 4 year total framework).

Crown Commercial Service reserves the right for an electronic auction to be held by Public Sector bodies during further competition among the parties to the Framework Agreement(s).

The Authority expressly reserves the rights as follows:  
(i) not to award any Framework Agreement as a result of the procurement process commenced by publication of this notice; and  
(ii) to make whatever changes it may see fit to the content and structure of the tendering competition; and in no circumstances will the Authority be liable for any costs incurred by the candidates.  
Any expenditure, work or effort undertaken prior to Framework Agreement award is accordingly a matter solely for the commercial judgement of Potential Providers.  
The value provided in Section II.2.1) is only an estimate. The authority does not provide any guarantee in respect of the levels or aggregate value of the Services which the authority shall require the Provider to provide during the Framework Agreement Period.  
In 2014, the government introduced its new Government Security Classifications (GSC) classification scheme to replace the previous Government Protective Marking Scheme (GPMS). A key aspect of this is the reduction in the number of security classifications used. All Potential Providers should make themselves aware of the changes as it may impact on the requirements of this Framework Agreement. The link below to the Gov.uk website provides information on the new GSC:  
<https://www.gov.uk/government/publications/government-security-classifications>  
The PEPPOL Authority for the UK is currently the Department of Health. Any public body is eligible to become a PEPPOL Authority. Please see the information contained on the OpenPEPPOL website for further details: [http://www.peppol.eu/peppol\\_elements/-transport-infrastructure/governance/peppol-coordinating-authority](http://www.peppol.eu/peppol_elements/-transport-infrastructure/governance/peppol-coordinating-authority)  
The Authority wishes to establish a Framework Agreement for use by the following UK public sector bodies (and any future successors to these organisations):

Central Government Departments, Local Government and Public Corporations that can be accessed at the Public Sector Classification Guide:

Any corporation established, or a group of individuals appointed to act together, for the specific purpose of meeting needs in the general interest, not having an industrial or commercial character, and

(i) financed wholly or mainly by another contracting authority listed above in this section VI.3) of this notice;

(ii) subject to management supervision by another contracting authority listed above in this section VI.3) of this notice; or

(iii) more than half of the board of directors or members of which, or, in the case of a group of individuals, more than half of those individuals, are appointed by another contracting authority listed above in this section VI.3) of this notice;

(iv) an association of or formed by one or more of the contracting authorities listed above in this section VI.3) of this notice.

Entities which are not public sector bodies may also use the Framework Agreements if the authority is satisfied that:

— such entity is calling-off goods and services directly, solely and exclusively in order to satisfy contractual obligations to one or more public sector bodies, all of which are entitled to use the Framework Agreements on their own account;

— all goods to be called-off by it are to be used directly, solely and exclusively to provide energy at sites occupied by such public sector body(ies); and

— it will pass the benefit of the call-off contract to such public sector body(ies) directly, in full and on a purely 'pass-through' basis. Accordingly there must be no mark-up, management fee, service charge or any similar cost solely in relation to the supply of energy imposed on the relevant public sector body(ies), who must be able to benefit from the terms of the Framework Agreements in a like manner and to the same extent as if using the Framework Agreements on its/their own account.
