Section 4 – Specification

Introduction

Innovate UK Loans Limited (IUKL) is a special purpose vehicle established in February 2018 to deliver the Innovation Loans programme, a subsidised finance product aimed at single SMEs undertaking later stage research and development activities with a clear route to commercial success.

IUKL is a wholly owned subsidiary of UK Research and Innovation, a non-departmental public body sponsored by the Department for Business, Energy and Industrial Strategy (BEIS). Functionally, IUKL sits within Innovate UK, a council of UKRI, making use of a mix of IUK's core systems and processes and its own bespoke solutions.

From a regulatory perspective, IUKL has relied to date on a business lending exemption and the outsourcing of its lending administration (making and collecting payments, interest calculations, KYC and AML etc.) to a third party provider, regulated by the FCA.

However, as Innovation Loans moves from pilot to BAU, it is exploring its evolving business model and seeking professional advice and support around its regulatory status and related compliance functions. This procurement seeks a provider to supply that advice and support.

Scope

It is envisaged that this procurement will cover four work packages. One of these work packages stands alone and will need to be completed regardless of the others; the remaining packages cascade into each other, depending on the outcomes at each stage of their development.

Package 1: FCA Registration

Whether IUKL moves into regulated activities directly or not, the Directors of the company wish to complete a registration with the FCA, which it is understood requires its policies and processes to achieve a regulatory standard in certain areas. This work package will include:

- Preparing, testing and submitting a successful application for registration with the FCA;
- In achieving this, reviewing, updating and assuring key policies and processes to ensure a successful outcome; and
- Training IUKL's operational team to ensure changes and improvements are implemented

Package 2: Options Analysis

Three options are under consideration for IUKL's future business model:

- Continuing to outsource lending administration to a regulated third party provider;
- Bringing lending administration activities in-house, either as part of IUKL or as a function undertaken by Innovate UK on behalf of IUKL; or
- A hybrid model in which non-regulated activities are brought in-house while those requiring specific regulatory permissions are outsourced to a third party

In preparing an options analysis, a prospective provider would be expected to set out:

- What can be in-sourced now, prior to registration or regulatory approvals;
- What can be in-sourced post-registration; and
- What can be in-sourced but would require regulatory approvals first

The current readiness of IUKL and/or Innovate UK to take on those activities would form an additional pillar of this analysis. Products under consideration for future delivery will also need to be included in this review, including but not limited to the provision of junior debt and or equity products, both on IUKL's own behalf, on a managed basis from its own balance sheet and as a managing agent off third party balance sheets.

Package 3: Regulatory Application(s)

Once IUKL has determined its preferred way forward in response to the options analysis, work package 3 would require the provider to develop and submit an application to FCA for the required permissions (if any). As with work package 1, any required changes to IUKL's systems and processes would fall within scope of this work along with training and handover to IUKL staff.

Package 4: Compliance Call-Off

Finally, post-completion of any regulatory approvals, IUKL would seek to retain the provider for a further period of 6 months to provide advice and support to IUKL on matters of compliance with any new regulatory approvals.

Contract Structure

- **Work package 1:** fixed price agreement to complete the registration process with a target date of 12 months from contract start date, FCA dependent. [Under NDA, IUKL is willing to make its current policy suite available to bidders to assess the work likely to be required and to make itself available for pre-bid engagement where further clarity is required.
- **Work package 2:** fixed price agreement to deliver the options analysis within 2 months of the contract start date.
- **Work package 3:** (if required), a fixed price within a range determined at the point of application and refined once the scope of work is determined. Assuming the highest cost would apply to a fully in-sourced model, a cost for this option should be provided.
- **Work package 4:** Either an hourly rate for compliance advice or a fixed cost for call of support for a period of 18 months from the start of the contract up to 2 days per month.

Budget

This Contract has an estimated budget of £75,000 excluding VAT. This budget is intended to cover all 4 work packages.

Work packages 1, 2 and 3 will be at a fixed cost based on your bid submission costs within AW5.1 and AW5.2.

Work package 4 will be managed on a call off basis against the rates submitted within your AW5.2 bid response.

Bidders must ensure that the rates set within the Rate card tab of the AW5.2 pricing schedule are the same as those that are used to calculate the Work Package costs tab within the AW5.2 Pricing Schedule

Section 5 – Evaluation of Bids

The evaluation model below shall be used for this ITQ, which will be determined to two decimal places.

Where a question is 'for information only' it will not be scored.

The evaluation team may comprise staff from UK SBS and the Contracting Authority and any specific external stakeholders the Contracting Authority deems required.

To maintain a high degree of rigour in the evaluation of your bid, a process of commercial moderation will be undertaken to ensure consistency by all evaluators.

After evaluation and if required moderation scores will be finalised by performing a calculation to identify (at question level) the mean average of all evaluators (Example – a question is scored by three evaluators and judged as scoring 5, 5 and 6. These scores will be added together and divided by the number of evaluators to produce the final score of 5.33 ($5+5+6=16 \div 3 = 5.33$))

Scoring criteria

Evaluation Justification Statement

In consideration of this particular requirement the Contracting Authority has decided to evaluate Potential Providers by adopting the weightings / scoring mechanism detailed within this ITQ. The Contracting Authority considers these weightings to be in line with existing best practice for a requirement of this type.

Evaluation Envelope	Q No.	Question subject	Maximum Marks	
			Overall	Breakdown
Commercial	AW5.1	Price	20.00%	20.00%
Technical	PROJ1.1	Understanding the Requirement and Context	80.00%	30.00%
Technical	PROJ1.2	Risk Management		15.00%
Technical	PROJ1.3	Capability & Team Expertise		25.00%
Technical	PROJ1.5	Social Value		10.00%

Evaluation of criteria

Non-Commercial Elements

Each question will be judged on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20%.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation:

$$\text{Score} = \{\text{weighting percentage}\} \times \{\text{bidder's score}\} = 20\% \times 60 = 12$$

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The Question is not answered, or the response is completely unacceptable.
10	Extremely poor response – they have completely missed the point of the question.
20	Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
40	Poor response only partially satisfying the question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.
60	Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.
80	Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.

100	Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing full assurance consistent with a quality provider.
All questions will be scored based on the above mechanism. Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows: Example Evaluator 1 scored your bid as 60 Evaluator 2 scored your bid as 60 Evaluator 3 scored your bid as 40 Evaluator 4 scored your bid as 40 Your final score will $(60+60+40+40) \div 4 = 50$ Once the above evaluation process has been undertaken and the scores are apportioned by evaluator(s) this will then be subject to an independent commercial review and moderation meeting, if required by the commercial lead, any and all changes will be formally recorded relative to the regulatory obligations associated with this procurement, so as to ensure that the procurement has been undertaken in a robust and transparent way.	
Commercial Elements will be evaluated on the following criteria.	
The lowest price for a response which meets the pass criteria shall score 100. All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the Commercial criterion. For example - Bid 1 £100,000 scores 100. Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80 Bid 3 £150,000 differential £50,000 remove 50% from price scores 50. Bid 4 £175,000 differential £75,000 remove 75% from price scores 25. Bid 5 £200,000 differential £100,000 remove 100% from price scores 0. Bid 6 £300,000 differential £200,000 remove 100% from price scores 0. Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50. In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: Score/Total Points multiplied by 50 $(80/100 \times 50 = 40)$ The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price. This evaluation criteria will therefore not be subject to any averaging, as this is a mathematical scoring criterion, but will still be subject to a commercial review.	

Evaluation process

The evaluation process will feature some, if not all, the following phases.

Stage	Summary of activity
Receipt and Opening	- ITQ logged upon opening in alignment with UK SBS's procurement procedures. - Any ITQ Bid received after the closing date will be rejected unless circumstances attributed to UK SBS, the Contracting Authority or the eSourcing Portal beyond the bidder control are responsible for late submission.
Compliance check	- Check all Mandatory requirements are acceptable to the Contracting Authority. - Unacceptable Bids maybe subject to clarification by the Contracting Authority or rejection of the Bid.
Scoring of the Bid	Evaluation team will independently score the Bid and provide a commentary of their scoring justification against the criteria.
Clarifications	The Evaluation team may require written clarification to Bids
Re - scoring of the Bid and Clarifications	Following Clarification responses, the Evaluation team reserve the right to independently re-score the Bid and Clarifications and provide a commentary of their re-scoring justification against the Evaluation criteria.
Moderation meeting (if required to reach an award decision)	- To review the outcomes of the Commercial review - To agree final scoring for each Bid, relative rankings of the Bids - To confirm contents of the feedback letters to provide details of scoring and relative and proportionate feedback on the unsuccessful Bidders response in comparison with the successful Bidders response
Due diligence of the Bid	- the Contracting Authority may request the following requirements at any stage of the Procurement: - Submission of insurance documents from the Bidder - Request for evidence of documents / accreditations referenced in the / Invitation to Quote response / Bid and / or Clarifications from the Bidder - Taking up of Bidder references from the Bidders Customers. - Financial Credit check for the Bidder
Validation of unsuccessful Bidders	To confirm contents of the letters to provide details of scoring and meaningful feedback on the unsuccessful Bidders Bid in comparison with the successful Bidders Bid.

All Bidders are encouraged to make themselves aware of the changes and identify any potential impacts in their Bid, as the protective marking and applicable protection of any material passed to, or generated by, you during the procurement process or pursuant to any Contract awarded to you as a result of this tender process will be subject to the new GSC. The link below to the Gov.uk website provides information on the new GSC:

The Contracting Authority reserves the right to amend any security related term or condition of the draft contract accompanying this ITQ to reflect any changes introduced by the GSC. In particular where this ITQ is accompanied by any instructions on safeguarding classified information (e.g. a Security Aspects Letter) as a result of any changes stemming from the new GSC, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies or otherwise. This may relate to the instructions on safeguarding classified information (e.g. a Security Aspects Letter) as they apply to the procurement as they apply to the procurement process and/or any contracts awarded to you as a result of the procurement process.
