STATEMENT OF SERVICE REQUIREMENT

The Contractor shall undertake the following Statement of Service dated 18th December 2020.

Schedule B

GDPR

1. The contact details of the Controller's Data Protection Officer are:
2. The contact details of the Processor's Data Protection Officer are
3. The Processor shall comply with any further written instructions with respect to processing by the Controller.
4. Any such further instructions shall be incorporated into this Schedule.

Description	Details
Identity of the Controller and Processor	The Parties acknowledge that for the purpose of the Data Protection Legislation, the Customer (HSE) is the Controller and the Contractor (BMG Research) is the Processor. BMG Research will be contracting a number of online panel research companies to host the 'Combined survey' – these companies will therefore be the sub-processors.
Subject matter of the processing	The 'Combined survey' is a quantitative research study using online panels to interview 5,000 workers and 2,000 employers. The approximate completion length of the survey is 20 minutes. BMG Research have contracted a number of research companies which operate online panels to buy 'space' on their regular online panel surveys. Any personal data which is collected is held by the research companies which manage the online panels, with anonymised data provided to BMG Research and HSE; neither BMG Research nor HSE will collect or hold any personal information.
Duration of the processing	Fieldwork commissioned by BMG Research will be undertaken by the contracted online panel research companies via their panels between 02/02/2021- 26/02/2021. This data will be anonymised and passed to BMG Research for March 2021. The raw anonymised data and first report (with tables) will be delivered to HSE w/c Mon 29 th March 2021.
Nature and purposes of the processing	The Great British nationally representative samples of employers <u>and</u> workers will be asked about their awareness and understanding of work-related health issues, with a focus on occupational lung disease (OLD), work-related stress (WRS) and musculoskeletal disorders (MSD). Processing of the data will be undertaken by the online research panel companies prior to supplying the anonymised data to BMG Research, who will then supply it to HSE. The legal basis for processing is Public Task, and all data processing (including back-up systems) will be carried out exclusively in the UK.
Type of Personal Data	No personal information will be collected by BMG Research or HSE; any and all personal data (if there is any) will be collected by the sub-processors, namely the online research panel companies. While there is a question within the survey asking respondents if they are willing to take part in further research, all personal data resides with the online research panel companies. BMG Research will simply have anonymised data indicating whether the respondent said 'yes' or 'no' to this question; they wouldn't have any information or data which would allow re-contact to occur other than through the aforementioned online research panel companies.
Categories of Data Subject	Employers and workers who are members of the online panels, and who are nationally representative.

Description	Details
Plan for return and destruction of the data once the processing is complete UNLESS requirement under union or member state law to preserve that type of data	Unless otherwise agreed with clients, BMG Research retains all data and materials for a minimum of two years; personal data will be retained for a minimum of one year. Every twelve months all data is audited and archived/purged on a discretionary basis. All records (electronic and paper) are to be destroyed in a secure and environmentally friendly manner. Any data required to be returned, will be encrypted to AES 256-bit level and sent by FTP.
