Schedule 2

SPECIFICATION

THE SPECIFICATION, INCLUDING PROJECT TIMETABLE AND EVALUATION OF TENDERS

GENERAL INTRODUCTION

The Food Standards Agency (FSA) is an independent Government department working across England, Wales and Northern Ireland to protect public health and consumers wider interest in food. We make sure food is safe and what it says it is.

The Agency is committed to openness, transparency and equality of treatment to all suppliers. As well as these principles, for science projects the final project report will be published on the FSA website (www.food.gov.uk). For science projects we will encourage contractors to publish their work in peer reviewed scientific publications wherever possible. Also, in line with the Government's Transparency Agenda which aims to encourage more open access to data held by government, the Agency is developing a policy on the release of underpinning data from all of its science- and evidence-gathering projects. Underpinning data should also be published in an open, accessible, and re-usable format, such that the data can be made available to future researchers and the maximum benefit is derived from it. The Agency has established the key principles for release of underpinning data that will be applied to all new science- and evidence-gathering projects which we would expect contractors to comply with.

A. SPECIFICATION – MEAT OFFICIAL CONTROLS CHARGES DEBTS

1.1 Background

- (a) The FSA is responsible for official controls in FSA approved fresh meat premises. It carries out official controls by undertaking specific inspection tasks and determining, through audit and verification, whether Food Business Operators' (FBOs') arrangements will achieve full compliance with the appropriate Regulations. Through the proportionate enforcement of GB and Retained EU Law (REUL), the work of the FSA contributes to ensuring businesses in the meat industry meet their obligations regarding food safety and animal health and welfare.

1.2 Scope Of The Tender

- (a) The FSA provides official controls meat inspection services throughout England, Wales and Northern Ireland. Prior to 1st April 2015, the FSA was also responsible for official controls in Scotland. This tender exercise includes all approved meat premises subject to debt recovery action in England and Wales. The Agency is seeking a service provider that can deliver a service across England and Wales.
- (b) The collection of charges invoiced to the FSA's customers within Government is not included within the scope of this contract.

Schedule 2

SPECIFICATION

- (c) The issue of Dunning (reminder) letters for overdue accounts is not included in this tender.

1.3 Customer Base

- (a) The FSA has approximately 900 meat customers and issues approximately 350 invoices each month representing an industry income of over £37m per annum. In addition to the industry customers, the FSA also invoices Government Departments for the work which it carries out on their behalf within approved premises.

1.4 Level Of Debt

- (a) At any one time the FSA has approximately 350 invoices with outstanding charges with an approximate average value of £3million. It is estimated that in any one month the FSA would refer approximately 20-25 invoices to the Contractor for the issue of letters before action and subsequent proceedings. The total value of these invoices would likely vary between £100k and £150k each month.

1.5 Legislation

- (a) The FSA charges approved meat premises for the official controls that operational staff carry out. Provisions requiring FBOs to pay charges are contained within Regulation 2017/625, which forms part of retained EU law at the conclusion of the transition period, the Meat (Official Controls Charges) (England) Regulations 2009 in respect of controls carried out in England and the Meat (Official Controls Charges) (Wales) Regulations for Wales, and the Official Controls (Animal, Feeds and Food, Plant Health Fees, etc) Regulations 2019.
- (b) The domestic Regulations include a provision enabling the Agency as a last resort to withdraw its controls in cases of non-payment, where a Judgment has been obtained and other methods of collection have been unsuccessful or would not be appropriate. There are potentially strong objections to the withdrawal of the service because it prevents approved premises from operating. This mechanism is used infrequently but the withdrawal of service process may require use of a process server to serve documents at approved premises on behalf of the FSA.

1.6 FSA Charging Policy

- (a) The FSA issues details of its charging policy to all approved meat premises in the Agency's Charges Guide. The latest published version is dated 27 March 2023. The Charges Guide (which can be viewed at <https://www.food.gov.uk/business-guidance/charges-for-official-controls-in-meat-premises>) sets out in detail the policy the FSA follows in calculating and levying charges for meat controls. Tenderers are advised to read the Guide carefully (along with the Regulations which can be viewed at www.opsi.gov.uk) to gain an understanding of what is involved in conducting litigation on behalf of the FSA.

2 SPECIFICATION FOR RAW DRINKING MILK SAMPLING DEBTS

2.1 Background

- (a) Dairy Hygiene Inspectors (DHIs) take samples for microbiological testing, of raw drinking milk sold direct to the public. Farmers may only sell raw drinking milk direct to the final consumer at the farm gate. Any farmer wishing to do so must be

Schedule 2

SPECIFICATION

specifically registered with the FSA for this purpose and is subject to a minimum of four sampling visits every year. Food Hygiene Policy teams are responsible for policy issues arising in connection with sampling visits made by FSA Dairy Hygiene Inspectors under the Food Hygiene (England) Regulations 2006.

- (b) The Dairy Products (Hygiene) (Charges) Regulations 1995 (DPHCRs) introduced a charge of £63 per visit. There are currently 131 registered raw drinking milk sellers in England and Wales, and around 375 chargeable sampling visits per year. There are 6 raw drinking milk sellers in Northern Ireland and the sale of raw drinking milk has been banned in Scotland since 1983. The scope of this tender for raw drinking milk sampling debts is limited to England and Wales.

2.2 **Level of Debt**

- (a) Approximately 375 invoices will be issued in the next financial year. This represents a potential turnover of approximately £22,000 per annum.
