4.2 that each Buyer is severally liable for the performance of his or her obligations arising under its Call-Off Contract and that no single Buyer is responsible or liable in respect of the obligations of any other Buyer arising under any other Call-Off Contract created by this Order Form; and

4.3 that each Buyer shall have full power and authority to enforce his or her rights against the Supplier under its Call-Off Contract without the consent or authority of any other Buyer.

Special Term 1. Order Cancellation

Please note that the following term supersedes that which is stated within Core Term 3.2.11. The Buyer can cancel any Purchase Order or part Purchase Order of Goods which has not been Delivered. If the Buyer gives less than 30 days' notice for standard, non-converted vehicles up to 3.5 tonnes, then it will pay the Supplier's reasonable and proven costs already incurred on the cancelled Purchase Order as long as the Supplier takes all reasonable steps to minimise these costs. Cancellation terms for converted vehicles or vehicles above 3.5 tonnes should be agreed by the Buyer and Supplier prior to award of the Call-Off Contract.

Special Term 2. Not Used

Special Term 3. Work on Premises

For the avoidance of doubt the Buyer will be entitled during any period of suspension to engage another supplier to provide the Goods which the Supplier is unable to provide by reason of the suspension.

Following a suspension pursuant to this Special Term 4 the Buyer shall keep the matter under review and should the reasons for the suspension be resolved to the satisfaction of the Buyer then the Buyer may give written notice lifting suspension of the Call-Off Contract.

The obligation in this Special Term 9 shall only apply in respect of subcontract opportunities arising after the contract award date.

Notwithstanding this Special Term 9, the Buyer may by giving its prior written approval, agree that a subcontract opportunity is not required to be advertised on Contracts Finder.

Special Term 10. Management Charges and Information

The Buyer shall give at least thirty (30) days' notice in writing of any such change and shall specify the date from which it must be used.

The Supplier further agrees and acknowledges that it may not make any amendment to the current MI Reporting Template without the prior written approval of the Buyer.

2. Supplier's Obligations

- 2.2 The Supplier must adopt a policy of continuous improvement in relation to the Deliverables, which must include regular reviews with the Buyer of the Deliverables and the way it provides them, with a view to reducing the Buyer's costs (including the Charges) and/or improving the quality and efficiency of the Deliverables. - 2.3 In addition to Paragraph 2.1, the Supplier shall produce at the start of each Contract Year a plan for improving the provision of Deliverables and/or reducing the Charges (without adversely affecting the performance of this Contract) during that Contract Year ("**Continuous Improvement Plan**") for the Buyer's Approval. The Continuous Improvement Plan must include, as a minimum, proposals:
 - 2.3.1 identifying the emergence of relevant new and evolving technologies;

- 2.7 If the Buyer wishes to incorporate any improvement into this Contract, it must request a Variation in accordance with the Variation Procedure and the Supplier must implement such Variation at no additional cost to the Buyer or CCS.

- 2.12 At any time during the Contract Period of the Call-Off Contract, the Supplier may make a proposal for gainshare. If the Buyer deems gainshare to be applicable then the Supplier shall update the Continuous Improvement Plan so as to include details of the way in which the proposal shall be implemented in accordance with an agreed gainshare ratio.

As specified in the CCS Framework RM6060, “these vehicles will be required to be standard production vehicles, which are converted to meet the specific requirements of the Buyer. Where the Buyer requires such conversions, the Supplier shall ensure that the conversion work is undertaken by itself or by a Sub-Contractor.” Please see clauses 4.6.2 to 4.6.10 of the RM6060 Specification document for further details of mandatory requirements.
2. Forces may have differing requirements in respect of the equipment to be fitted to the vehicle, and these requirements will be discussed and agreed with the manufacturer at the point of order. For the purpose of this further competition a standard turnkey specification has been provided, on which bidders can price and agree to the standard delivery time. For clarity BLC requires a 26 week delivery time in respect of the standard turnkey/managed service specification. This 26 week timescale or any alternative delivery time agreed will commence at point of order for the purpose of any claims for liquidated damages.
3. Some of the items required to be fitted to the above mentioned vehicles may be supplied free of issue to the manufacturer by the relevant participating organisation. Where these items are refurbished they will be supplied in a serviceable condition.

Warranty

4. CCS Framework RM6060 specifies a mandatory requirement at clause 4.5.1 of a minimum warranty period of 3 years or 100,000 miles (whichever comes first) in respect of all vehicles covered by this further competition.
5. In addition to this mandatory requirement, BLC requires additional warranty in order to cover all of the vehicles BlueLight life expectancy. BLC’s required number of years and miles for each vehicle type can be found in the relevant Appendix 2 for each Technical Specification.
6. The warranty cover is expected to be covered by the supplying manufacturer or, if they have taken on a third party supplier to provide extended warranty, any claims will still be managed by the supplying manufacturer.
7. For the duration of the warranty period, BLC requires that all of the vehicle and its parts will be covered and the commercial response at ITT Part 4 allows for submission of any related costs.

8. BLC aspires to undertake in-house warranty work relevant to the operational requirements and the vehicles purchased (specifically to reduce downtime) this will also depend on the capability of in-house workshops. To support this BLC will require manufacturers to provide a mechanism for this warranty work to be undertaken. This work will be undertaken to the same terms and conditions as other commercial outlets throughout the UK. To support this BLC requires the Manufacturer to ensure that a documented process is implemented and managed on an on-going basis throughout the contract period.
9. As per the mandatory requirement in clause 4.5.6 of Specification in the CCS Framework RM6060, “The Supplier shall ensure that any conversion work to vehicles carried out or procured by the Supplier in order to satisfy the requirements of the Buyer, shall be covered by the warranty set out in paragraph 4.6.2 such that the whole vehicle, as converted, will be warranted on the terms set out above unless otherwise agreed with the Buyer”

Dealership Networks

10. It is important to all Fleet Managers that they can develop good business relationships with suppliers so that the process of ordering and receiving vehicles can be simplified and efficient. It is also imperative to the running of Fleets, that vehicles are not off the road for long periods of time and that officer time and resource is minimised with regards to delivery and collection of vehicles presented for essential warranty or recall work. Short lead times on the supply of vehicles is therefore considered to be of key importance to us and access to a good network of UK dealerships is also key to the running of the Fleet. Bidding manufacturers will need to demonstrate that they are able to meet the needs of all the Participating Organisations across the UK regardless of their geographic location and BLC will be looking for innovative solutions in those areas where local dealerships and franchises are scarce or not currently equipped to deal with BlueLight vehicles.
11. BLC requires high standards of service levels and manufacturers will be expected to sign up to the Service Levels set out in paragraph Call-off Schedule 14.

Demonstrator Vehicles

12. On occasion, participating organisations may have a requirement for the provision of demonstrator vehicles. In addition to the requirement under clause 4.1.16 of the Specification in the CCS Framework RM6060 for demonstrator vehicles for the purpose of testing, circumstances sometimes arise where for operational reasons, for example, high profile events, warranty recall situations and other periods of high demand, additional vehicles may be needed by Forces on a temporary basis. Bidding manufacturers will need to demonstrate how they propose to assist participating organisations in such circumstances.

Social Value

13. **Environmental** – It is clear from the work done on assessing sustainability impacts for this particular tender, that vehicles play a major role in the escalation of climate change and that forces have a collective responsibility to try to minimise that effect. BLC is therefore, considering various fuel types and will need contracts

that are flexible enough to address those concerns as manufacturers continue to develop their alternative fuel offering and the infrastructure to support them grows.

14. **Social/Economic** – Participating organisations want to support Sustainable Procurement by addressing the wider issue of sustainability where it can influence the type and quantity of resources we consume and the effect on the local and national economy. In accordance with the Public Services (Social Value) Act 2012, Commissioners across the UK have a duty to ensure that they consider how services can improve the social, economic and environmental well-being of their location and consider, then demonstrate, that some degree of social value has been sought and achieved where possible in contracts. One definition of Social Value, relevant to our particular organisations, is as follows:

“Outcomes, measures and activity that will create safer, more resilient communities, reduce offending and reoffending and improve the quality of life of residents.”

In terms of the procurement of BlueLight Fleet Vehicles and associated services, we will be looking as part of this tender opportunity, for bidders to demonstrate how they can help us to achieve Social Value out of these contracts in a way that is relevant to the contract. So, for example and not limited to, making roads safer, reducing car crime, enhancing vehicle security, changing driver behaviour, supporting training and economies and so on. We are looking to our suppliers to be innovative in their ideas of how they can provide positive social value outcomes across the UK given that this is a national procurement exercise. Police Forces also have a particular concern in terms of the technology now available, which is aiding car crime and are keen to hear how manufacturers are responding to this escalating threat.

Parts

15. The availability and provision of parts is of key importance to BLC and the cost of replacement parts will have an effect on the whole life costs of police vehicles. Manufacturers should refer to the specification in CCS Framework RM6060 starting from clause 4.4.4 in terms of the obligations under the framework agreement. BLC requires a discount structure to be applied across this collaboration and has therefore, included provision for proposals in terms of percentage discount in the pricing evaluation element of this competition as well as fixed price costing for a number of specified service items, additional wear items and front-end damage repair items.

Diagnostic Equipment

16. A number of BlueLight organisations run their own workshops in house to undertake repairs, servicing and warranty work. BLC therefore, requires as part of this competition, manufacturers to facilitate direct access to vehicle diagnostic equipment, updates, processes and training, pursuant to vehicles supplied

as per clause 4.4.13 of the Specification in CCS Framework RM6060. Any costs associated with provision of this needs to be included in the relevant part of the commercial response.

Training

17. Due to our numbers BLC requires support for warranty and servicing. Therefore BLC needs manufacturers to provide the following training. Bidding manufacturers will be required to demonstrate how they will facilitate this across the UK.
 - 1) At least 2 regionally based on or off-site product update training session p/a for up to 12 technicians.
 - 2) Successful bidders to provide evidence of Technical training calendar and adequate availability of courses available to police workshops nationally.

After-Sales Services

18. BLC requires manufacturers to provide a high quality of after-sales support services to participating organisations. This is to include access to appropriately qualified and experienced technical expertise with at least one dedicated point of contact. This shall be a named individual(s) which may be supported by a helpline.
19. In addition to the above, BLC requires manufacturers to provide a clear escalation route and process for vehicle off road issues in order to maximise vehicle availability.
20. All critical service recalls and campaigns must be notified to the nominated contacts as listed in Appendix 4 – Participating Organisations Fleet Contacts immediately.
21. BLC requires the manufacturer to put in place a Service Level Agreement with any nominated local dealerships/franchises in liaison with Fleet Managers. A template is provided as an example in Call-off Schedule 14.
