Date Draft Tasking Issued

Deadline for Authority's receipt of Tenderer's
response to the Draft Tasking

1. Schedule of Requirements

Brief summary of requirement – expand/delete rows as appropriate (full details appear below in the Statement of Requirement)

Item No	Description	Firm Price £ (Ex VAT)
1.	Technical Support for Search, Application Hosting and Web Services. (Total contract value excluding T&S)	
2.	Travel and Subsistence - Travel to be authorised with the Authority before travel takes place. Please note that Travel and Subsistence (T&S) incurred can only be claimed in accordance with MOD T&S Policy and with receipted actuals only. No other expenses are permitted. There is a T&S Limit of Liability	

STATEMENT OF REQUIREMENT

Unique Tasking Number FTS5/CCT706	Issue Number & Date V1 20/03/2019	Supplier Reference Number: «mrgAltAddress»
Task Title: TECHNICAL SUPPORT FOR SEARCH,APPLICATION HOSTING AND WEB SERVICES		
Brief Description of Task (or see attached detailed Statement of Requirement): Highly experienced collaborative and core applications platform architecture subject matter expert with specific and detailed knowledge of DII and its underlying software components is required to provide support for the technical Design Application Architect team in delivering the NSoIT (Base) and other projects in the ISS portfolio as directed by the Architecture Practice Management team.		
Background/Justification: MOD CDIO's (Mike Stone) initiative to deliver a refreshed and evergreen IT system to Defence - The New Style of Information Technology (NSoIT) program is being implemented by ISS. NSoIT (Base) and NSoIT (Deployed) will provide a Defence-wide infrastructure in support of future operational and business needs [REDACTED] [REDACTED] The development of the Architecture function and the Defence Design Authority role within ISS requires contribution of Technical Support for all architecture activities and support to other NSoIT services especially migration of the legacy DII systems [REDACTED] Migration of community data is due to be migrated in Q3 2019 and it is imperative that there is technical support for this. The Search, Application Hosting and Web Services role is fundamental to this delivery. The Technical Contractor will be expected to offer proactive and innovative suggestions regarding the best and most appropriate uses of technology in defining architecture of this type and scale.		
Activities to be Undertake: Technical Support for Core and Collaborative Application Services to include: 1) As part of ISS Design Authority, assurance of Collaborative Services, EDRMS, Core and Deployed Applications technical designs. Assurance activities include formal review and walkthrough of designs to assure: - o that the technical design is suitable to meet the requirements - o compliance of the technical design to MOD policies and standards - o appropriate and efficient use of technology solutions - o production of the summary of issues affecting each of the technical designs - o that the technical design provides value for money 2) Undertake impact assessments of change requests and evaluate technical proposals from the Delivery Partner in response to the changes to ensure that the proposals are		

technically viable and represent a cost-effective solution.

3) Engage as the informed technical authority with:

- o Stakeholders
- o Customers highlighting the current situation and future developments
- o The DP taking a proactive attitude to the development of current issues and future tasks including migration for NSoIT
- o 3rd Party authorities e.g. ISS, Design, Architecture, Engineering, Security or implementation managers

4) Production of a Report of Assurance issues regarding each design, communicating identified issues to both the Delivery Partner and MOD authority.

5) Perform the Thru-Life Technical Assurance of the design, build, test and trials.

Monitoring and participating in atlas stages like test and trials carrying out MOD

Deliverables: (insert here or below Key Deliverables template)

See Key Deliverables template

Acceptance/Rejection criteria / provisions

Acceptance:

Rejection:

Key Project Indicators (KPIs) and Performance Management Requirements

Government Furnished Assets (GFA) (List all GFA applicable to the task in accordance with DEFCON 611 (Edn 02/16) & 694 (Edn 03/16)) Test Rig will be provided by Authority. Laptop will be provided by Authority

Additional Quality Requirements & Standards:

DV Clearance to be in place at start of Contract and maintained throughout life of the Contract

IR35 The intermediaries legislation does not apply to this engagement

Certificate of Conformity shall be provided in accordance with DEFCON 627

Concessions shall be managed in accordance with Def Stan. 05-61 Part 1 – Quality Assurance Procedural Requirements – Concessions

Timescale:

Commencement Date: 17 June 2019

End Date: 16 June 2020

Any contractor working parties shall be provided in accordance with Def Stan. 05-61 Part 4, Issue 3 – Quality Assurance Procedural Requirements - Contractor Working Parties

Def Stan 05-125 Avoidance of Counterfeit Material

Work will be based at ISS, Building 405,
Westwells Road, MOD Corsham, SN13 9NR
Please note that the supplier will be responsible for all Travel and subsistence costs incurred by their staff in relation to attendance at the MoD Corsham Site

KEY DELIVERABLES TEMPLATE *(Delete if not used)*

Task No	MKM Capability Area	Activities to be Undertaken by Supplier	Key Deliverable and Required Delivery Date	List all GFA (if required)	Acceptance Criteria
1		NSolT (Base) Build Phase 3 for Intranet publishing in O365	Provide technical lead role for Intranet publishing in O365 Phase 3 including: • Direct the Design, Implementation and configuration of the 3rd phase of the build based on O365 Modern Sites, ensuring its design is compliant and performant for O365 deployment. • Publish Archimate architecture artefacts for Design to include: ◦ Architecture Building Blocks (ABBs), ◦ Solution Building Blocks (SBBs) and ◦ Architecture Definition Document (ADD) Or as appropriate and directed by the Application Platform lead. • Documents to be available in Architecture Repository • Skills transfer of this work by internal briefing sessions to ISS and DBS crown servants monthly		• Phase 3 build configured and accepted by DBS as customer by Dec 19 • Architecture artefacts approved and published in the Architecture Repository when complete but no later than Dec 19 • At least one briefing to be held with the DBS to describe the details of the implementation Sep 19

2.	NSoIT Intranet publishing in O365 Phase 3 – Web Usage Reporting (O365) Design and Implement	Direct the design and implementation of the Web Usage Reporting on Office 365 in line with the business requirements and the published Intranet publishing in O365 IA by Sep 19 ○ Create and publish appropriate Archimate design artefacts including, but not restricted to: ○ Organizational-specific Reference Models ○ Architecture Requirements Specification ○ Architecture Definition document ○ Documents to be available in Architecture Repository when created but no later than Oct 2019 ○ Skills transfer of this work by internal briefing sessions to ISS and DBS Crown Servants monthly but no later than Feb 2020	○ Phase 2 build configured and accepted by DBS as customer by Aug 19 ○ Architecture artefacts approved and published in the Architecture Repository when complete but no later than Nov 19 At least monthly briefings to be held with the DBS to describe the details of the implementation by Sep 19	○ Solution configured and accepted by DBS as customer in line with project timescales but no later than Sep 19 ○ Architecture artefacts approved and published in the Architecture Repository when complete but no later than April 20 ○ At least monthly briefings to be
3.	Design and Implementation of (O365) Intranet publishing in O365 solution for Disadvantage and External Users including Industry Partners – Planned FUL 2020 – Design and Implementation	Direct the design and implementation of a solution providing access for disadvantage users, external users including Industry partners by Jan 2020. in line with business requirements and project published timescales. ○ Create and publish appropriate supporting Archimate design artefacts including, but not restricted to ○ Atomic and Solution Building Blocks Reference Models ○ Architecture Requirements Specification ○ Architecture Definition Document		

			- Update to Information Architecture Paper to include external access - Documents to be available in Architecture Repository when created Skills transfer of this work by internal briefing sessions and update emails to ISS and DBS Crown Servants monthly but no later than Feb 2020		held with the DBS to describe the details of the implementation - Monthly
4.	NSoIT Search Architecture Proactively examine and investigate the Cloud technical solution – to include Intranet publishing on Office 365	- Investigate, enhance and document search configuration options for the following areas of NSOIT and various repositories to include: - Modern Sites, - Teams and Groups, - Classic Sites, "Intranet publishing in O365" Corporate Intranet - Ensure enhancements on MODNET in Office 365 are captured in appropriate building blocks and published to Enterprise Architecture repository to be presented to Architecture Review Board. (ARB) - Produce and publish technical whitepapers for review by peers		Presentations and technical guidance papers/emails approx monthly and to be complete by April 2020	
5.	MODnet Application and Data Hosting. (official)	Provide technical support to the ISS App platform team in providing enterprise architecture direction to the Apps Hosting design Advise, guide and influence the ASDT design to deliver Application and data Hosting services that can		Documentation for Official hosting platforms written, assured and baselined by the following phased delivery dates: Phase 1 delivery: 6 Months Oct 19	

			be consumed by MODNet and in particular O365 ○ Provide supporting Architecture documentation including but not limited to Archimate and Togaf artefacts, e.g. ABBs/SBBs as appropriate, that will enable the exploitation of these services in MODNet Official environment ○ Ensure the ASDT-delivered hosting platforms provide scalable and conformant capability for use in MODNet official, in particular O365 Power Application suite. ○ Produce technical whitepaper(s) ○ Act as technical reviewer		Phase 2 delivery: 12 Months April 20
6.	Application and Data Hosting. [REDACTED]		Provide technical support to the ISS App platform team in providing enterprise architecture direction to the Apps Hosting design ○ Advise, guide and influence the ASDT design to deliver Application and data Hosting services that can be consumed by MODNet and in particular O365 ○ Provide supporting Architecture documentation including but not limited to Archimate and Togaf artefacts, e.g. ABBs/SBBs as appropriate, that will enable the exploitation of these services in MODNet Secret environment ○ Produce technical whitepaper(s) Act as ISS Apps Platform Point of Contact in support of Lead SME to innovate the enterprise Architecture with the focus on its integration with MODNET		Documentation for [REDACTED] hosting platforms written, assured and baselined by the following phased delivery dates: Phase 1 delivery: 6 Months Oct 19 Phase 2 delivery: 12 Months April 20
7.	Application and data hosting with Office 365 Keep up to date with latest technologies and				Knowledge transfer carried out. Implementation of best

	best practices for hosting, security, networking and identity. Share knowledge with the Architecture hosting team. Use knowledge to drive Innovation across all security tiers in the following areas:	○ Provide Monthly briefings ○ Review onboarding of new applications ○ Evergreening of existing application ○ Research and inform the enterprise architecture by way of technical whitepapers and presentations ○ Create relevant BBs, strategy and/or roadmaps for sign off by ARB ○ Create appropriate stakeholder views to influence and inform the Nsolt programme Phase 1 delivery: 3 Months Phase 2 delivery: 6 Months Phase 3 delivery: 9 Months Phase 4 delivery: 12 Months Complete by April 2020	practice, and latest technology. Implementation of Innovative ideas which could influence the solution architecture. Delivering support and influence the design for onboarding new applications Technical whitepapers/presentations reviewed and published. Phase 1 delivery: 3 Months July 2019 Phase 2 delivery: 6 Months Oct 2019 Phase 3 delivery: 9 Months Jan 2020 Phase 4 delivery: 12 Months April 2020	
8.	ADA TEST Rig Support	Provide Administrator role for ISS Design's EBR Rig which delivers, inter alia, application compatibility testing and environments for pre-production and innovation activities in support of enterprise architecture work and hosting of the EA repositories. ○ Provide consultancy and support	○ On ad-hoc Basis Configuration management ○ Support and admin documentation maintained and published ○ Provide regular updates on EBR	

			- Pass on skill knowledge to crown servant administrators to enable transfer of responsibilities in future - Maintain all documentation for rig - Provide a flexible and robust process for use of rig by stakeholders in ISS and other TLBs where appropriate Collaborate with Microsoft colleagues in keeping servers current and/or in line with MODNET and other builds.		
9.	Support options analysis and design input to Microsoft Windows 10 Build and future releases and updates.	- Document as a report, any findings in an approach and exploitation review. Report to be stored as artefact in repository. - Provide monthly briefing of report to Crown Servants as part of knowledge transfer.			Architecture artefacts approved and published in the Architecture Repository when complete but no later than 2 weeks after options provided – Ongoing until March 2020
10.	Provide SME technical expertise for Modern Management e.g. Intune, to inform design decisions and roadmaps.	- Document as a report, any findings in an approach and exploitation review. Report to be stored as artefact in repository. - Provide monthly briefing of report to Crown Servants as part of knowledge transfer.			Architecture artefacts approved and published in the Architecture Repository when complete but no later than 2 weeks after options provided – Ongoing until March 2020
11.	Intercept and review emerging Microsoft Windows 10 features.	- Document as a report, any findings in an approach and exploitation review. Report to be stored as artefact in repository. - Provide monthly briefing of report to Crown Servants as part of knowledge transfer.			Architecture artefacts approved and published in the Architecture Repository when complete but no later than 2 weeks after options provided – Ongoing until March 2020

12.		Review and report windows 10 security updates.	- Document as a report, any findings in an approach and exploitation review. Report to be stored as artefact in repository. - Provide monthly briefing of report to Crown Servants as part of knowledge transfer.		Architecture artefacts approved and published in the Architecture Repository when complete but no later than 2 weeks after options provided – Ongoing until March 2020
13.		Migration	- Provide Technical assistance to the NSoIT programme with DII migration onto MODnet - Provide supporting documentation on technical design, implementation and risk and review comments as appropriate. - Create new Information Architecture in a suitable format for stakeholders including the business to describe the IA approach in an on premises environment.		Architecture artefacts approved and published in the Architecture Repository when complete but no later than 2 weeks after options provided – Ongoing until Sep 2019 Information Architecture to be reviewed and published by August 2019.
14.		SharePoint Secret/Overseas design	In conjunction with #13 above, advise, guide and provide the required design for a future Information Architecture using SharePoint 2019 at Secret and Overseas Local Cloud Services (LCS). Create future IA for on premises environments to include: - options for upgrading/migrating from SharePoint 2013. - understanding how to exploit the new features - deprecated services and how these will affect our current build		Future Information Architecture using SharePoint 2019 at Secret and Overseas Local Cloud Services (LCS) to be published by January 2020. Supporting Architecture documentation in Archimate format, which includes Atomic and Solution Building Blocks, Strategy, Vision and

			○ how the Authority can migrate/upgrade from SharePoint 2013 to 2019. ○ Provide supporting Architecture documentation in Archimate format, which includes Atomic and Solution Building Blocks, Strategy, Vision and Roadmap		Roadmap as available but no later than March 2020

2. Order Conditions

All conditions of the framework shall apply as supplemented by the terms selected below. The two sets of conditions become a binding contract at the time of signature on the Schedule.
Applicant must be DV Cleared.

Type of Contract

Competitive Competitive Award Criteria Weightings	☒ Most Economically Advantageous Tender Technical – 60% Financial – 40% Commercial – Pass/Fail
Reverse Auction used?	☐
Single Source	☐

General Conditions

DEFCON 624 (Edn 04/10) – Use of Asbestos in Arms, Munitions or War Materials	☐	DEFCON 603 (Edn 10/04) – Aircraft Integration and Clearance Procedure	☐

Appendix 2 to Schedule 3 (Confidentiality Agreement)

The provisions of this Clause are supplemental to DEFCON 531

1. Both DEFCON 531 and the provisions of this Clause apply to:
 - (A) This Tasking;
 - (B) Any Information disclosed by either party prior to the issue of a draft Tasking and in contemplation of Work being placed by the Authority under a Tasking; and
 - (C) Any Tasking placed under this Agreement, provided that Information provided to a party for the purpose of Tendering for a Tasking shall only be used for that Tendering purpose, and Information provided to a party for performing a Task placed on it under this Agreement shall only be used for the performance of that Task.
2. Subject to its requirements of continued access to Information necessary to exercise its rights of disclosure and use hereunder including under any Tasking Order, and to the obligations set out herein in respect of any Controlled Information (Definition in Clause 42 Schedule 1), the recipient of any Information shall:
 - (A) Upon the expiry or termination of the Agreement; or
 - (B) Upon the expiry or termination of any Tasking Order (for the purposes of which Information is disclosed); or
 - (C) If the Authority decides not to proceed with the issue of a Tasking Order (for the purposes of which Information is disclosed),

in accordance with any reasonable directions given and/or a reasonable request made by the other party promptly:
 - (1) Return to the other party the Information and all copies thereof; or
 - (2) Take such other measures in respect of the Information and all copies thereof as may be required elsewhere in the Tasking Order.
3. The provisions of DEFCON 531 and of this Clause shall survive the expiry or termination of the Agreement or any Tasking Order in accordance with 2(A) or 2(B) or the decision not to proceed in accordance with 2(C).

Appendix 3 to Schedule 3 (Price Summary)

C ₂ H ₂ FBr ₃	C ₃ H ₂ F ₃ Br ₄	C ₃ H ₃ FBr ₄	C ₃ H ₆ FBr

HCFCs - Production to be run down and phased out by 2015.
 Certain use controls apply.

HCFC-21	HCFC-141	HCFC-225ca	HCFC-243
HCFC-22	HCFC-141b	HCFC-225cb	HCFC-244
HCFC-31	HCFC-142	HCFC-226	HCFC-251
HCFC-121	HCFC-142b	HCFC-231	HCFC-252
HCFC-122	HCFC-151	HCFC-232	HCFC-253
HCFC-123	HCFC-221	HCFC-233	HCFC-261
HCFC-124	HCFC-222	HCFC-234	HCFC-262
HCFC-131	HCFC-223	HCFC-235	HCFC-271
HCFC-132	HCFC-224	HCFC-241	
HCFC-133	HCFC-225	HCFC-242	

CARBON TETRACHLORIDE (CCl₄) - Production has stopped.

1,1,1-TRICHLOROETHANE (C₂H₃Cl₃) - Production has stopped.

METHYL BROMIDE (CH₃Br) - Production limits apply.
