Introduction	
What is the Independent Review Mechanism (IRM)	<p>The IRM provides an essential statutory service to prospective and existing foster parents, adopters and adult adoptees. The main function of the IRM is to offer an objective and independent route for applicants to request a review of decisions made by fostering and adoption services about their approval status and access to their records. The service offered by the IRM is unique within the sector and enables applicants to have their case heard by an independent panel of children's social care experts. The service is provided for in regulations and represents an important means of support, and a form of advocacy, for applicants.</p>
The IRM Process	<p>The service is provided for in regulations and as a result, some elements of its delivery are prescribed in legislation.</p> <p>The regulations make provisions in relation to:</p> <ul style="list-style-type: none"> • The scope of the IRM to review specific 'qualifying determinations' in relation to fostering and adoption • The constitution and membership of panels, their functions, meetings, and record-keeping of the panels • The procedure to be followed when reviewing qualifying determinations and provides for payment from the fostering/adoption service provider. <p>When a local authority or fostering or adoption agency makes a final decision on certain areas, they issue what is known as a qualifying determination (QD). QDs can cover:</p> <ul style="list-style-type: none"> • A person's suitability to foster or adopt • Terms of approval for foster carers where the fostering service wish to change them • Where people are applying to receive information from adoption records. <p>If the recipient of the decision is unhappy with the outcome, they can contact the IRM to request a review of that QD. Historically most applications to the IRM have come from foster carers who have been deemed no longer suitable to foster.</p> <p>Once it has been determined that an application is eligible for IRM consideration, the applicant is notified that their case has been accepted. Each case is then allocated to a case worker who reviews the applicant's case in detail, requesting further written evidence from their local authority/agency and from any other source, and where necessary, draws on advice from legal and medical experts. The IRM then organises a panel of social workers and others with experience of children's social care to review the case. All panellists are</p>

	<p>independent of the parties concerned. During the panel hearing, panellists hear from both the applicant and representatives from their local authority or agency.</p> <p>Following the hearing, the panel agrees a recommendation, which sets out whether they agree or disagree with the QD. This is communicated to both the applicant and the relevant agency. The panel's decision is not binding, and it is for the service to determine whether they change the original QD. In 2021/22 the IRM disagreed with the fostering service's decision in approximately 1 out of 4 cases. In those cases, around 40% of IRMs recommendations were accepted and the QD was overturned. In adoption, 3 cases were heard within 2021/2022, with the IRM making a positive recommendation in 1 of these cases. There were no adoption disclosure applications in 2021/2022.</p> <p>The current service aims to review each case and reach a recommendation within 4 months of receiving the applicant's application.</p>
Process Summary – an example for a fostering applicant	<p>The majority of IRM cases relate to qualifying determinations for foster carers. The process for considering these is as follows:</p> <ol style="list-style-type: none"> 1. A foster carer is issued a QD by their agency, which states that they are deemed as not eligible, or that changes will be made to their approvals, to practise as a foster carer with that agency. 2. The foster carer challenges the decision within 28 days of the date of the notice and approaches the IRM to review the case. 3. After gathering casework from the agency and applicant on the decision, the IRM panel convenes. 4. The panel decides whether they agree or disagree with the qualifying determination issued. 5. The IRM panel send their recommendation to both parties (applicant and agency). 6. The agency then decides whether to stand by their original qualifying determination /or the agency will change their original qualifying determination so that the foster carer can continue to practice with them.
Funding Structure	<p>The IRM is paid for through a combination of Department for Education funding (this contract) and by the local authority (LA) or agency whose decision is being reviewed. The LA or agency has a regulatory duty to contribute to the cost of a panel. The contribution from the service providers currently stands at £2,591 per agency per case.</p>
Background	
History of the IRM	<p>The IRM was introduced in 2005 through secondary legislation, under Sections 9 and 12 of the Adoption and Children Act 2002 . The purpose of the 2005 Regulations were to offer prospective adopters an opportunity to have decisions (Qualifying Determinations) reviewed by an independent panel if they had not been approved to adopt by their local authority or agency and were unhappy with the decision.</p> <p>The Independent Review of Determinations (Adoption and Fostering) Regulations 2009 expanded the original remit to provide a similar service to prospective and existing foster parents who are deemed ineligible to foster, or who face changes to their approvals; and to adult adoptees wishing to review historic decisions made about accessing their birth records.</p>

	<p>The current contract to deliver IRM expires at the end of March 2024. We wish to procure a supplier to deliver the IRM for 24 months (from April 2024 to 31 March 2026), with the option to extend for a further year.</p>				
Statutory Legislative Requirements of the Service	<p>The Independent Review of Determinations (Adoption and Fostering) Regulations 2009 make provisions in relation to:</p> <ul style="list-style-type: none">• The scope of the IRM to review specific qualifying determinations in relation to fostering and adoption• The constitution and membership of panels, their functions, meetings, and record-keeping of the panels• The procedure to be followed when reviewing qualifying decisions, and provides for payment from the fostering/adoption service provider. <p>For example, the regulations make clear that panels must be made up of social workers, people with experience of fostering and adoption (for example care experienced people, foster carers), education and health professionals and registered medical practitioners for panels where there are medical issues. The regulations prescribe that for panels reviewing fostering determinations, the panel must include at least:</p> <ul style="list-style-type: none">• Two social workers who have at least three years’ post-qualifying experience in child social care work including direct experience in fostering work; and• Four other panel members, including where reasonably practicable at least two people who are, or within the previous two years have been, a local authority foster parent. <p>We expect the successful bidder to have a thorough understanding of the relevant legislation and deliver the service to meet all regulatory requirements.</p>				
Volume of work	<p>The following table sets out how many applications the IRM has received over the last 3 years.</p> <table><tr><td></td><td></td><td></td><td></td></tr></table> <p>In 2021/2022, 132 of the fostering applications were accepted by the IRM and 113 fostering panels were conducted. Four out of the seven adoption applications were accepted within the year, with 3 adoption panels undertaken.</p> <p>As set out in Stable Homes, Built on Love, we committed to deliver a fostering recruitment and retention programme so that more foster carers are available for the children who need foster homes. Through this we are aiming to increase the number of new foster carers whilst retaining existing expertise in the current system. We expect the IRM to operate flexibly to a potential increase in demand.</p>				

Staffing	<p>IRM Service Staff The current service is run by 11 employed staff members (including part time members). This excludes IRM panel members.</p> <p>Further information on staffing and TUPE can be found in Document 9 of the ITT documents.</p> <p>IRM Panel members The current contractor has a pool of panellists that are able to be called upon to sit on IRM panels across the country. TUPE does not apply to panel members. However, the panellists' contact details could potentially be transferred to any new contractor, subject to the panellists giving their consent for this information to be shared. It will be the responsibility of the contractor to recruit and form relevant panels to meet the requirements of the IRM regulations.</p> <p>Annex A sets out a summary of the panellist experience needed, and the type of panellists required for each type of case as set out in the regulations.</p>
Key Stakeholders	<ul style="list-style-type: none"> • Local Authorities and/or fostering and adoption agencies • Prospective and current foster carers and adopters • Adult adoptees • Panel members • Fostering and adoption charities/organisations
Future vision	
Future Vision	<p>The IRM provides an objective, free and independent route for challenging and reviewing decision-making and is therefore an important service for applicants to have their voice heard and a chance for their case to be reviewed in full. It is therefore essential that high-quality customer service is maintained under this new contract. The Department's vision is to see the continued development of a streamlined, user-friendly, modern service that offers excellent value for money to DfE and for the IRM to build on its reputation within the sector.</p> <p>There is scope to develop the IRM to offer wider support to services and other stakeholders using the knowledge they develop through the course of their work, shaping best practice and providing evidence-based challenge to drive improvements. We want the IRM to be clear on the additional value it can offer to the sector and to share learning from the cases it examines to improve practice throughout children's services.</p> <p>The new contract is an opportunity for the IRM service to restate its importance as a quality assurance mechanism and provide key insight into fostering and adoption practice. The IRM has potential to drive up standards in agencies and local authorities, as processes and protocols are scrutinised when panelists review a case. By working in collaboration with other children's social care services, the profile and reach of the IRM has potential to be improved, increasing the numbers of applicants that can benefit from the service.</p>

to carry out such tests (including penetration tests) as it may deem necessary in relation to the ISMS and the Supplier's compliance with the ISMS and the Security Management Plan. The Buyer may notify the Supplier of the results of such tests after completion of each such test. If any such Buyer's test adversely affects the Supplier's ability to deliver the Deliverables so as to meet the KPIs, the Supplier shall be granted relief against any resultant under-performance for the period of the Buyer's test.

Subject to the Buyer's prior written Approval, the Supplier shall implement such changes to the ISMS and the Security Management Plan and repeat the relevant Security Tests in accordance with the timetable agreed with the Buyer or, otherwise, as soon as reasonably possible. For the avoidance of doubt, where the change to the ISMS or Security Management Plan is to address a non-compliance with the Security Policy or security requirements (as set out in Annex 1 (Baseline Security Requirements) to this Schedule) or the requirements of this Schedule, the change to the ISMS or Security Management Plan shall be at no cost to the Buyer.
- 6.5 If any repeat Security Test carried out pursuant to Paragraph 6.4 reveals an actual or potential Breach of Security exploiting the same root cause failure, such circumstance shall constitute a Material Default of this Contract.

- 7.2 If, on the basis of evidence provided by such security audits, it is the Buyer's reasonable opinion that compliance with the principles and practices of ISO/IEC 27001 (at least ISO/IEC 27001:2013) and/or, where relevant, the Security Policy are not being achieved by the Supplier, then the Buyer shall notify the Supplier of the same and give the Supplier a reasonable time (having regard to the extent and criticality of any non-compliance and any other relevant circumstances) to implement and remedy. If the Supplier does not become compliant within the required time then the Buyer shall have the right to obtain an independent audit against these standards in whole or in part.
- 7.3 If, as a result of any such independent audit as described in Paragraph the Supplier is found to be non-compliant with the principles and practices of ISO/IEC 27001 (at least ISO/IEC 27001:2013) and/or, where relevant, the

Security Policy then the Supplier shall, at its own expense, undertake those actions required in order to achieve the necessary compliance and shall reimburse in full the costs incurred by the Buyer in obtaining such audit.

8. Security Breach

- 8.1 Either Party shall notify the other in accordance with the agreed security incident management process as defined by the ISMS upon becoming aware of any breach of security or any potential or attempted Breach of Security.

 - (a) minimise the extent of actual or potential harm caused by any Breach of Security;

 - (c) apply a tested mitigation against any such Breach of Security or attempted Breach of Security and provided that reasonable testing has been undertaken by the Supplier, if the mitigation adversely affects the Supplier's ability to provide the Deliverables so as to meet the relevant Service Levels the Supplier shall be granted relief against any resultant under-performance for such period as the Buyer, acting reasonably, may specify by written notice to the Supplier;
 - (d) prevent a further Breach of Security or any potential or attempted Breach of Security in the future exploiting the same root cause failure; and
 - (e) supply any requested data to the Buyer (or the Computer Emergency Response Team for UK Government ("**GovCertUK**")) on the Buyer's request within two (2) Working Days and without charge (where such requests are reasonably related to a possible incident or compromise); and
 - (f) as soon as reasonably practicable provide to the Buyer full details (using the reporting mechanism defined by the ISMS) of the Breach of Security or attempted Breach of Security, including a root cause analysis where required by the Buyer.

- 8.3 In the event that any action is taken in response to a Breach of Security or potential or attempted Breach of Security that demonstrates non-compliance of the ISMS with the Security Policy (where relevant) or the requirements of this Schedule, then any required change to the ISMS shall be at no cost to the Buyer.

9. Vulnerabilities and fixing them

- 9.1 The Buyer and the Supplier acknowledge that from time to time vulnerabilities in the ICT Environment will be discovered which unless mitigated will present an unacceptable risk to the Buyer's information.
- 9.2 The severity of threat vulnerabilities for COTS Software shall be categorised by the Supplier as "Critical", "Important" and "Other" by aligning these categories to the vulnerability scoring according to the agreed method in the ISMS and using the appropriate vulnerability scoring systems including:
- 9.2.1 the "National Vulnerability Database" "Vulnerability Severity Ratings": "High", "Medium" and "Low" respectively (these in turn are aligned to CVSS scores as set out by NIST <http://nvd.nist.gov/cvss.cfm>); and
 - 9.2.2 Microsoft's "Security Bulletin Severity Rating System" ratings "Critical", "Important", and the two remaining levels ("Moderate" and "Low") respectively.
- 9.3 The Supplier shall procure the application of security patches to vulnerabilities within a maximum period from the public release of such patches with those vulnerabilities categorised as "Critical" within fourteen (14) days of release, "Important" within thirty (30) days of release and all "Other" within sixty (60) Working Days of release, except where:
- 9.3.1 the Supplier can demonstrate that a vulnerability is not exploitable within the context of any Service (e.g. because it resides in a software component which is not running in the service) provided vulnerabilities which the Supplier asserts cannot be exploited within the context of a Service must be remedied by the Supplier within the above timescales if the vulnerability becomes exploitable within the context of the Service;
 - 9.3.2 the application of a "Critical" or "Important" security patch adversely affects the Supplier's ability to deliver the Services in which case the Supplier shall be granted an extension to such timescales of five (5) days, provided the Supplier had followed and continues to follow the security patch test plan agreed with the Buyer; or
 - 9.3.3 the Buyer agrees a different maximum period after a case-by-case consultation with the Supplier under the processes defined in the ISMS.
- 9.4 The Specification and Implementation Plan (if applicable) shall include provisions for major version upgrades of all COTS Software to be upgraded within six (6) Months of the release of the latest version, such that it is no more than one major version level below the latest release (normally

codified as running software no older than the "n-1 version") throughout the Term unless:

9.4.1 where upgrading such COTS Software reduces the level of mitigations for known threats, vulnerabilities or exploitation techniques, provided always that such upgrade is made within twelve (12) Months of release of the latest version; or

9.4.2 is agreed with the Buyer in writing.

9.5 The Supplier shall:

9.5.1 implement a mechanism for receiving, analysing and acting upon threat information supplied by GovCertUK, or any other competent CrownBody;

9.5.3 ensure it is knowledgeable about the latest trends in threat, vulnerability and exploitation that are relevant to the ICT Environment by actively monitoring the threat landscape during the Contract Period;

9.5.4 pro-actively scan the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier) for vulnerable components and address discovered vulnerabilities through the processes described in the ISMS as developed under Paragraph 3.4.5;

9.5.5 from the date specified in the Security Management Plan provide a report to the Buyer within five (5) Working Days of the end of each Month detailing both patched and outstanding vulnerabilities in the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier) and any elapsed time between the public release date of patches and either time of application or for outstanding vulnerabilities the time of issue of such report;

9.5.6 propose interim mitigation measures to vulnerabilities in the ICT Environment known to be exploitable where a security patch is not immediately available;

9.5.7 remove or disable any extraneous interfaces, services or capabilities that are not needed for the provision of the Services (in order to reduce the attack surface of the ICT Environment); and

9.5.8 inform the Buyer when it becomes aware of any new threat, vulnerability or exploitation technique that has the potential to affect the security of the ICT Environment and provide initial indications of possible mitigations.

- 9.6 If the Supplier is unlikely to be able to mitigate the vulnerability within the timescales under this Paragraph 9.5, the Supplier shall immediately notify the Buyer.
- 9.7 A failure to comply with Paragraph 9.3 shall constitute a Default, and the Supplier shall comply with the Rectification Plan Process.

Part B – Annex 1: Baseline security requirements

1. Handling Classified information

The Supplier shall not handle Buyer information classified SECRET or TOP SECRET except if there is a specific requirement and in this case prior to receipt of such information the Supplier shall seek additional specific guidance from the Buyer.

2. End user devices

- 2.1 When Government Data resides on a mobile, removable or physically uncontrolled device it must be stored encrypted using a product or system component which has been formally assured through a recognised certification process of the National Cyber Security Centre ("**NCSC**") to at least Foundation Grade, for example, under the NCSC Commercial Product Assurance scheme ("**CPA**").
- 2.2 Other than in relation to Government Data which is licenced by the Supplier, devices used to access or manage Government Data and services must be under the management authority of Buyer or Supplier and have a minimum set of security policy configuration enforced. These devices must be placed into a 'known good' state prior to being provisioned into the management authority of the Buyer. Unless otherwise agreed with the Buyer in writing, all Supplier devices are expected to meet the set of security requirements set out in the End User Devices Security Guidance (<https://www.ncsc.gov.uk/guidance/end-user-device-security>). Where the guidance highlights shortcomings in a particular platform the Supplier may wish to use, then these should be discussed with the Buyer and a joint decision shall be taken on whether the residual risks are acceptable. Where the Supplier wishes to deviate from the NCSC guidance, then this should be agreed in writing on a case by case basis with the Buyer.

3. Data Processing, Storage, Management and Destruction

- 3.1 The Supplier and Buyer recognise the need for the Buyer's information to be safeguarded under the UK Data Protection regime or a similar regime. To that end, the Supplier must be able to state to the Buyer the physical locations in which data may be stored, processed and managed from, and what legal and regulatory frameworks Government Data will be subject to at all times.
- 3.2 The Supplier shall agree any change in location of data storage, processing and administration with the Buyer in accordance with Clause 18 (Data protection).
- 3.3 The Supplier shall:
 - 3.3.1 provide the Buyer with all Government Data on demand in an agreed open format;
 - 3.3.2 have documented processes to guarantee availability of Government Data in the event of the Supplier ceasing to trade;

- 3.3.3 securely destroy all media that has held Government Data at the end of life of that media in line with Good Industry Practice; and
- 3.3.4 securely erase any or all Government Data held by the Supplier when requested to do so by the Buyer, other than in relation to Government Data which is owned or licenced by the Supplier or in respect of which the Parties are either Independent Controllers or Joint Controllers.

4. Ensuring secure communications

- 4.1 The Buyer requires that any Government Data transmitted over any public network (including the Internet, mobile networks or un-protected enterprise network) or to a mobile device must be encrypted using a product or system component which has been formally assured through a certification process recognised by NCSC, to at least Foundation Grade, for example, under CPA.
- 4.2 The Buyer requires that the configuration and use of all networking equipment to provide the Services, including those that are located in secure physical locations, are at least compliant with Good Industry Practice.

5. Security by design

- 5.1 The Supplier shall apply the "principle of least privilege" (the practice of limiting systems, processes and user access to the minimum possible level) to the design and configuration of IT systems which will process or store Government Data.
- 5.2 When designing and configuring the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier) the Supplier shall follow Good Industry Practice and seek guidance from recognised security professionals with the appropriate skills and/or a NCSC certification (<https://www.ncsc.gov.uk/section/products-services/ncsc-certification>) for all bespoke or complex components of the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier).

6. Security of Supplier Staff

- 6.1 Supplier Staff shall be subject to pre-employment checks that include, as a minimum: identity, unspent criminal convictions and right to work.
- 6.2 The Supplier shall agree on a case by case basis Supplier Staff roles which require specific government clearances (such as "SC") including system administrators with privileged access to IT systems which store or process Government Data.
- 6.3 The Supplier shall prevent Supplier Staff who are unable to obtain the required security clearances from accessing systems which store, process, or are used to manage Government Data except where agreed with the Buyer in writing.

- 6.4 All Supplier Staff that have the ability to access Government Data or systems holding Government Data shall undergo regular training on secure information management principles. Unless otherwise agreed with the Buyer in writing, this training must be undertaken annually.
- 6.5 Where the Supplier or Subcontractors grants increased ICT privileges or access rights to Supplier Staff, those Supplier Staff shall be granted only those permissions necessary for them to carry out their duties. When staff no longer need elevated privileges or leave the organisation, their access rights shall be revoked within one (1) Working Day.

7. Restricting and monitoring access

The Supplier shall operate an access control regime to ensure all users and administrators of the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier) are uniquely identified and authenticated when accessing or administering the Services. Applying the "principle of least privilege", users and administrators shall be allowed access only to those parts of the ICT Environment that they require. The Supplier shall retain an audit record of accesses.

8. Audit

- 8.1 The Supplier shall collect audit records which relate to security events in the systems or that would support the analysis of potential and actual compromises. In order to facilitate effective monitoring and forensic readiness such Supplier audit records should (as a minimum) include:
 - 8.1.1 Logs to facilitate the identification of the specific asset which makes every outbound request external to the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier). To the extent the design of the Deliverables allows such logs shall include those from DHCP servers, HTTP/HTTPS proxy servers, firewalls and routers.
 - 8.1.2 Security events generated in the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier) and shall include: privileged account log-on and log-off events, the start and termination of remote access sessions, security alerts from desktops and server operating systems and security alerts from third party security software.
- 8.2 The Supplier and the Buyer shall work together to establish any additional audit and monitoring requirements for the ICT Environment.
- 8.3 The Supplier shall retain audit records collected in compliance with this Paragraph 8 for a period of at least six (6) Months.

The Supplier shall ensure that each of the Insurances is effective no later than the Effective Date in respect of those Insurances set out in the Annex to this Schedule and those required by applicable Law; and
- 1.2 The Insurances shall be:
 - 1.2.1 maintained in accordance with Good Industry Practice;
 - 1.2.2 (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent contractor in respect of risks insured in the international insurance market from time to time;

2. How to manage the insurance

- 2.1 Without limiting the other provisions of this Contract, the Supplier shall:
 - 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to Deliverables as it would be reasonable to expect of a prudent contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;
 - 2.1.2 promptly notify the insurers in writing of any relevant material fact under any Insurances of which the Supplier is or becomes aware; and
 - 2.1.3 hold all policies in respect of the Insurances and cause any insurance broker effecting the Insurances to hold any insurance slips and other evidence of placing cover representing any of the Insurances to which it is a party.

3. What happens if you aren't insured

- 3.2 Where the Supplier has failed to purchase or maintain any of the Insurances in full force and effect, the Buyer may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances and recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

The Supplier shall use all reasonable endeavours to notify the Buyer (subject to third party confidentiality obligations) as soon as practicable when it becomes aware of any relevant fact, circumstance or matter which has caused, or is reasonably likely to provide grounds to, the relevant insurer to give notice to cancel, rescind, suspend or void any insurance, or any cover or claim under any insurance in whole or in part.

7. Insurance claims

- 7.1 The Supplier shall promptly notify to insurers any matter arising from, or in relation to, the Deliverables, or this Contract for which it may be entitled to claim under any of the Insurances. 32.4. Where the legal status of the Buyer changes, such that it ceases to be a Crown Body:

32.4.1. the Supplier New and Existing IPR Licence is unaffected; and

32.4.2. any successor body of the Buyer that is a Crown Body shall have the benefit of the Supplier New and Existing IPR Licence.

32.5. The expiry or earlier termination of this Contract does not terminate any Supplier New and Existing IPR Licence.

33. Buyer approval for Supplier to exploit Buyer Existing IPR

33.1. Before using, copying or adapting any Buyer Existing IPR for any purpose other than fulfilling its obligations under this Contract, the Supplier must seek the approval of the Buyer in accordance with the provisions of this Paragraph.

and

33.2.4. such further information as the Buyer may reasonably require to properly consider the proposal.

33.3. The Buyer may only refuse the Supplier's proposal where it considers that if the Supplier were to implement the proposal it would harm:

33.3.1. the Buyer's reputation; or

33.3.2. the Buyer's interests.

33.4. Where the Buyer has not:

33.4.1. approved or declined the proposal; or

33.4.2. required further information,

within twenty (20) Working Days of the later of:

33.4.3. the date the proposal was first provided to the Buyer; or

34.1.2.1. the Sub-contractor enters into a confidentiality undertaking with the Supplier on the same terms as set out in Clause 19 (What you must keep confidential); and

34.1.2.2. the sub-licence does not purport to provide the sub-licensee with any wider rights than those granted to the Supplier under this Paragraph;

36.1.2.1. the owner or an authorised licensor of the relevant Third Party IPR has granted a direct Third Party IPR Licence on the terms set out in Paragraph 32.2;

36.1.2.2. if the Supplier cannot, after commercially reasonable endeavours, obtain for the Buyer a Third Party IPR Licence as set out in Paragraph 36.1.2.1, all the following conditions are met:

(a) the Supplier has notified the Buyer in writing giving details of:

(1) what licence terms can be obtained from the relevant third party; and

36.2. The Third Party IPR licence referred to in Paragraph 36.1 is the licence set out in Paragraph 32.2 as if:

36.2.1. the term Third Party IPR were substituted for the term New IPR or Supplier Existing IPR; and

36.2.2. the term third party were substituted for the term Supplier,
in each place they occur.

37. Patents

37.1. Where a patent owned by the Supplier is infringed by the use of the New IPR by the Buyer or any Replacement Supplier, the Supplier hereby grants to the Buyer and the Replacement Supplier a non-exclusive, irrevocable, royalty-free, worldwide patent licence to use the infringing methods, materials or software.

41.3. Where the Supplier's proposal provides for the development of new goods, services or software and those goods, services or software are subsequently purchased by the Buyer (by whatever means), the terms of that purchase must:

41.3.2. include a price that reflects the Charges.

41.4. The Supplier acknowledges that:

41.4.1. the Buyer may refuse, or require changes to, the Supplier's proposal in its sole discretion and for any reason; and

NSV is the net sales value of the item, that is the price for which the Supplier sold the item to a third party after the deduction of normal trade discounts and excluding VAT or any other tax or duty based directly on the price of the item and payable by the purchaser;

RR is [*insert the royalty payable on the item, expressed as a percentage*]; and

P is the proportion that the New IPR bears to the whole of the item, expressed as a percentage, subject to the following:

Part B: Intellectual Property Rights (ICT Services) – **NOT USED**

[Part B: Intellectual Property Rights – ICT Services]

[Guidance note: this Part B of the Schedule on Intellectual Property Rights (IPRs) should be amended depending on how you need to arrange ownership and licensing of all New IPR and Specially Written Software (“foreground IPR”) created for or pursuant to the contract. There are 5 suggested options available.

- **Option 1: Buyer owns all foreground IPR with limited Supplier rights to all foreground IPR in order to deliver this Contract;**
- **Option 2: Buyer ownership of all foreground IPR with non-exclusive Supplier rights;**
- **Option 3: Supplier ownership of all foreground IPR with Buyer rights for the current contract only;**
- **Option 4: Supplier ownership of foreground IPR with Buyer rights for the current contract and broader public sector functions; and**
- **Option 5: Options 2, 3, or 4, plus Buyer rights to royalties**

Once you have chosen an Option (or Options, if you are using Option 5 as a ‘bolt on’ to Options 2, 3, or 4), you should delete the unused options.

Option 1 should be considered for use in situations where the Buyer should retain ownership of any foreground IPR. In this situation, the Buyer will not look to publish the foreground IPR under Open Licence.

Option 2 should be considered for use in situations where the Buyer should retain ownership of any foreground IPR but where the Supplier should be able to use any foreground IPR developed, subject to Buyer approval. In this situation, the Buyer will not look to publish the foreground IPR under Open Licence.

Option 3 should be considered for use where (a) there is no clear benefit in the Buyer owning the foreground IPR, or (b) where any foreground IPR created cannot easily be separated from the Supplier Existing IPR (e.g. Software As A Service (SAAS)), but where a licence is only needed for the current contracted Deliverable and the IPR in question will not be needed for other services.

Option 4 is similar to Option 3, except it should be used where the licence to the Buyer for the IPR in question should extend to cover other contracts and services, which may include contracts and services not yet awarded, and broader public sector functions.

Option 5 should be considered if a Buyer has invested significant resource or funding in the development of the project and intends to seek a return on that

investment. Includes a right for the Buyer to request ownership of unexploited IPR after 3 years (except when used with Option 2).

Please refer to the Mid-Tier Guidance document for further detail on how these options are intended to operate.

When publishing as open licence, Buyers should be mindful that the terms of any input licence (that is the open source licence for any open source IP which has been used to create the foreground IPR) aligns with the 'output licence' (that is, the licence under which the Buyer will publish the foreground IPR as open licence).

Carefully check cross-references as these may need to be updated when unused clauses are deleted]

[Guidance note: for Option 1: Buyer owns all New IPR and Specially Written Software, with limited Supplier rights to all New IPR and Specially Written Software in order to deliver this Contract, please include the following drafting:]
