# CORE CAPRICORN – 3MW Battery Energy Storage System

# **INSTRUCTION DOCUMENT**

# I. INTRODUCTION

# I.I The Requirement

CORE Capricorn ('CORE') is working in partnership with Plymouth City Council ('The Council') to develop a 3MW (up to 5MW) Battery Energy Storage System. We would like to invite you to provide a tender for the provision of the system.

Creacombe Farm is currently host to two solar PV projects, the FIT subsidised 4.4MWp Creacombe Solar C.I.C. and the unsubsidised 2.9MWp Marlands Solar Limited. Both assets are wholly owned by CORE Capricorn Limited and have operated since December 2019. CORE Capricorn operates for the benefit of Yealm Community Energy, a local Community Benefit Society.

It is proposed that the System will be co-located with Marlands Solar Limited but operate separately as an AC coupled system with independent MPANs within the shared customer substation.

The size of the Battery Energy Storage System will be driven by the overall project economics. We are interested in options for a modular system that can be expanded over time.

We have assumed a battery duration of 1.5hrs (3MW / 4.5 MWh) however will consider proposals for system of 1 hour(s) or greater.

The proposed System is being developed in partnership with Plymouth City Council through the ERDF Interreg programme. The project is also supported by Finance Earth and Eden Renewables.

The following documents are available and provide important information for potential tenderers.

• Appendix A – Specification / RFP

The anticipated deadline for the procurement of the battery system (including a down payment) is by early July 2022. With the development on the system to take place over the course of 2022-2023.

# 3. **TENDER EVALUATION - Open Procedure**

Evaluation will be undertaken in accordance with the overall evaluation strategy for the project.

Failure to provide a satisfactory response to any of the questions may result in CORE not proceeding further with the Tenderer.

CORE will evaluate tender submissions as a two part process.

The first part will consist of an assessment of the Tenderer's suitability in principle to deliver the requirement as detailed in the ITT document pack and checking that all required documents are completed and submitted. Only Tenderers passing this first part will have their Tenders evaluated at the second part.

The second part is the award and considers the merits of the eligible Tenders in order to assess which is the most economically advantageous. In this part only quality and price criteria that are linked to the subject matter of the contract are used.

CORE reserves the right to seek independent financial and market advice to validate information declared, or to assist in the evaluation of tenders.

CORE intends to award any Contract based on the most economically advantageous offer.

CORE will not be bound to accept the lowest price of any Tender submitted.

# 3.1 Part I- Suitability Assessment

This section will assess the Tenderer's suitability to undertake the contract requirement.

The questions included in this Schedule, as advised in PPN Action Note 8/16 9th September 2016, have been informed by the Crown Commercial Services Standard Selection Questionnaire (SQ).

For ease of completion, where you have completed a European Single Procurement Document (ESPD) for a separate procurement process, provided the ESPD remains valid and accurate, you may submit this previously completed document as part of your response to this procurement process.

If it is your intention to submit a previous ESPD, where a question is from ESPD please insert 'SEE ESPD' into the response box provided and detail the relevant attachment.

Where the Council considers your ESPD document as not providing a sufficient response to its question(s) you may be required to submit additional information.

Please Note: Whilst it is not anticipated that the wording of the SQ/ESPD/PAS91 questions will be amended; in the event they do change then the above section cannot be used as fair evaluation and comparison cannot take place.

Part I assessments are made against the responses to the suitability schedule included at Schedule I.

#### 3.1.1 Evaluation Criteria and Methodology

Each module within the Return Document will be clearly identified as being evaluated on a; for information only, pass/fail or scored basis. Please ensure that all questions are completed in full using the boxes provided.

**For Information Only Questions -** Questions identified as for information only are for this purpose only and will not be evaluated.

**Pass/Fail Questions -** Questions identified as PASS/FAIL will be evaluated on a pass/fail basis. Each question will clearly indicate what response constitutes as PASS and what response constitutes as FAIL. In the event of the Tenderer being awarded a 'fail' on any of the criteria, the remainder of your Tender will not be evaluated and you will be eliminated from the process. Your company will be disqualified if you do not submit these completed questions.

In accordance with the regulations, wherever possible CORE is permitting Tenderers to selfcertify they meet the minimum PASS/FAIL requirements without the need to attached evidence or supporting information. Any supporting information CORE regards as critical to the success of the procurement this will be specifically requested.

The return document will clearly indicate whether 'Self-certification' is acceptable or whether 'Evidence is required' for each question.

Where Tenderers are permitted to self-certify, evidence will be sought from the **successful Tenderer** at **contract award stage**. Please note the successful Tenderer must be able to provide all evidence to the satisfaction of CORE at contract award stage within a reasonable period, if the successful Tenderer is unable to provide this information CORE reserves the right to amend the contract award decision and award to the next compliant Tenderer.

Where a plan or other documentary evidence is specifically requested, this should be provided in Annex format. You should clearly identify which question you are answering by using headings and

sub-headings. Please note plans or other documentary evidence specifically requested does/does not count towards the word count. Annexes are not a space for extending your response.

The suitability assessment is a self-declaration, made by you (the Tenderer), that you do not meet any of the grounds for exclusion. If there are grounds for exclusion, there is an opportunity to explain the background and any measures you have taken to rectify the situation (we call this selfcleaning). In such instances where a breach has occurred and self-cleaning mitigations submitted, the reliability of these measures must be to the satisfaction of the council in order to Pass.

If the question does not apply to you, please state 'N/A'.

Only the information provided in your responses will be taken into account. Do not assume that assessors will have any previous knowledge of your organisation. Do not cross-reference your responses. Different parties may evaluate different sections of your Tender. It is important therefore that all information is provided under the appropriate heading. Duplicate your answers if necessary.

A completed declaration of Part I and Part 2 provides a formal statement that the organisation making the declaration has not breached any of the exclusions grounds. Consequently we require all the organisations that you will rely on to meet the selection criteria to provide a completed Part I and Part 2.

For example these could be parent companies, affiliates, associates, or essential sub-contractors, if they are relied upon to meet the selection criteria. This means that where you are joining in a group of organisations, including joint ventures and partnerships, each organisation in that group must complete one of these self-declarations. Sub-contractors that you rely on to meet the selection criteria must also complete a self-declaration (although sub-contractors that are not relied upon do not need to complete the self-declaration).

For answers to Part 3 - If you are bidding on behalf of a group, for example, a consortium, or you intend to use sub-contractors, you should complete all of the questions on behalf of the consortium and/ or any sub-contractors, providing one composite response and declaration.

# 3.2 Part 2 - AWARD

This section will assess how the Tenderer proposes to deliver the required service as detailed in the specification.

Tenderers passing all the pass/fail criteria in part I will have their responses made to part 2 evaluated by CORE to determine the most economically advantageous Tender based on the quality and price criteria that are linked to the subject matter of the contract.

#### 3.2.1 Award criteria

The high level award criteria is as follows:

Criteria	Weighting
Price	75%
Quality	25%
TOTAL	100%

Weightings for individual sub-criteria contained under each of the above are detailed in the return document.

# 3.2.2 Evaluation Methodology

# 3.2.2.1 PRICE (Schedule 2)

Evaluation made against comparison of pricing schedules.

# **PRI Total Tender Sum**

The Tenderer's Total Tender Sum will be evaluated using the scoring system below:

# 3.2.2.2 QUALITY (Schedules 3-5)

Strength of proposals to comply with the CORE's specification - evaluation made on proposals submitted in response to the requirements set out in specification and taking into consideration the CORE's aims and mission.

Each question will be clearly identified as being evaluated on a pass/fail or scored basis.

**Pass/Fail Questions**- Questions identified as PASS/FAIL will be evaluated on a pass/fail basis. Each question will clearly indicate what response constitutes as PASS and what response constitutes as FAIL. In the event of the Tenderer being awarded a 'fail' on any of the criteria, the remainder of your Tender will not be evaluated and you will be eliminated from the process. Your company will be disqualified if you do not submit these completed questions.

**Scored Questions -** Questions identified as SCORED will be evaluated in accordance with the following sub-criteria and weightings:

Section	Weighting
MSI: Provision of suitable Battery Energy Storage System (and ancillaries)	15%
MS2: Provision of appropriate equipment warranties	5%
MS3: Support of installation and commissioning	2.5%
MS4: Provision of ongoing support including repairs and spare parts	2.5%
Total	25%

Where individual questions carry either more or less importance than others they have been grouped and weighted accordingly. Section weightings are identified at the top of each group of questions and sub-weightings are identified against individual questions. The question or group of questions will be allocated a score and the appropriate weightings will then be applied. The weighted score will be rounded to 2 decimal places.

Questions identified as SCORED will be evaluated using the Scoring Table I below:

#### Scoring Table I

Response	Score	Definition
Excellent	5	Response is completely relevant and excellent overall. The response is comprehensive, unambiguous and demonstrates a thorough understanding of the requirement/outcomes and provides details of how the requirement/outcomes will be met in full.

Very good	4	Response is particular relevant. The response is precisely detailed to demonstrate a very good understanding of the requirements and provides details on how these will be fulfilled.
Good	3	Response is relevant and good. The response is sufficiently detailed to demonstrate a good understanding and provides details on how the requirements/outcomes will be fulfilled.
Satisfactory	2	Response is relevant and acceptable. The response addresses a broad understanding of the requirements/outcomes but lacks details on how the requirement/outcomes will be fulfilled in certain areas.
Poor	I	Response is partially relevant and poor. The response addresses some elements of the requirements/outcomes but contains insufficient/limited detail and explanation to demonstrate how the requirements/outcomes will be fulfilled.
Unacceptable	0	No or inadequate response. Fails to demonstrate an ability to meet the requirement/deliver the required outcomes.

# 4. Tender Conditions

# 4.1 Acceptance of Tender

The Tender shall constitute an irrevocable offer to provide the Requirements. The successful Tenderer shall conclude a formal Contract with CORE which shall embody the Tenderer's offer.

The Tenderer shall have no claim whatsoever against CORE or the Council in respect of such matters and in particular (but without limitation) CORE shall not make any payments to the successful Tenderer save as expressly provided for in the Contract and (save to the extent set out in the Contract) no compensation or remuneration shall otherwise be payable by CORE or the Council to the Tenderer in respect of the Works (and any associated Goods and Services) by reason of the Specification being different to that envisaged by the Tenderer or otherwise.

For the avoidance of doubt the provision of clarification or further information in relation to the ITT or any other associated documents (including the Schedules) is only authorised to be provided following a query made in accordance with Condition 1.1.4 of this ITT.

This ITT is issued on the basis that nothing contained in it shall constitute an inducement or incentive nor shall have in any other way persuaded a Tenderer to submit a Tender or enter into any other contractual agreement.

Under no circumstances shall CORE or the Council be liable to a Tenderer in respect of any costs incurred by a Tenderer (whether directly or otherwise) in relation to the preparation or submission of a Tender.

# 4.6 Legal relations

Nothing contained in this ITT or in any other communication made between CORE or/and the Council and any other party shall be taken as constituting a contract, agreement or representation between the Council and any other party (excluding a formal award of contract). The terms of the Contract set out in Schedule 4 are subject to contract and without prejudice to CORE or the Council's legal position.

This ITT does not constitute an offer and neither CORE nor the Council is committed to any course of action as a result of issuing this ITT or communicating with Tenderers in respect of it or any other communication between the Council, CORE and any other party. In particular Tenderers should note that the CORE reserves the right, in its absolute discretion:
