THE SPECIFICATION, INCLUDING PROJECT TIMETABLE AND EVALUATION OF TENDERS

GENERAL INTRODUCTION

The Food Standards Agency (FSA) is an independent government department working to protect public health and consumers' wider interests in relation to food in England, Wales and Northern Ireland. [Our mission is food we can trust.](#)

The FSA is committed to openness, transparency and equality of treatment to all suppliers. As well as these principles, for science projects the final project report will be published on the Food Standards Agency website (www.food.gov.uk). For science projects we will encourage contractors to publish their work in peer reviewed scientific publications wherever possible. Also, in line with the Government's Transparency Agenda which aims to encourage more open access to data held by government, the Agency is developing a policy on the release of underpinning data from all of its science- and evidence-gathering projects. Data should be made freely available in an accessible format, as fully and as promptly as possible. Consideration should be given to data management as new contracts are being negotiated. Resource implications for this should be taken into account. The mechanism for publishing underpinning data should allow the widest opportunity for to enable its re-use. Where possible, underpinning data should be included in the final project report. Where data are included in the final report in pdf format, they should also be published separately in a format that can be used for further analysis. Large data sets can be provided separately in an annex to the report, and published, where possible, alongside the final report online. Where it is more appropriate to publish underpinning data in an existing database, archive, repository or other community resource, or for data to be saved in a specialist proprietary format, information will be provided on how the data can be accessed. There will be some circumstances where release of data may need to be restricted or anonymised for reasons of commercial and/or personal sensitivities.

Understanding the views and interests of Parliamentarians and other opinion formers is critical to achieving the FSA's objectives. Our parliamentary monitoring supports our ongoing engagement and legislative work across the FSA's entire policy and delivery remit.

A. THE SPECIFICATION

Background

The Food Standards Agency is looking to appoint a supplier for parliamentary monitoring and research services.

We require three services:

1. Parliamentary and political monitoring across Westminster, Wales and NI
2. Access to background information such as parliamentarians' biographies
3. Ad hoc research and analysis

The Specification

Tenders are invited to carry out:

1. Parliamentary monitoring

We require:

- Daily monitoring of the following for specific keywords, or issues of interest to the FSA:
 - House of Commons and House of Lords, including (but not exclusively) debates, oral and written questions, Early Day Motions, select committee hearings, and Ministerial statements;
 - Senedd Cymru (Welsh Parliament) monitoring as above;
 - Northern Ireland Assembly monitoring as above;
 - Other relevant publications and activities e.g. political parties and MPs'/MSs'/MLAs' press releases, tweets; party political conference activity, manifestos.
- We would like the above to be delivered via accessible email to a list of approximately 5-10 FSA staff as soon as possible and within 24 hours after broadcast / publication. We are open to alternative accessible format suggestions, but it must meet the minimum [Web Content Accessibility Guidelines 2.1 AA](#), including but not limited to the use of colour, text size and line spacing.
- A sample list of the keywords we currently monitor is annexed. This is provided to give suppliers an example of our current monitoring requirements, and is subject to change.
- Suppliers should note that the FSA already monitors social media for issues of interest to us and this monitoring will pick up posts/tweets where we are tagged or where our hashtags are used. But it will be important for suppliers to help us see the bigger picture beyond the formal proceedings of Parliament and our own social media monitoring, and to identify where MPs or parties might be campaigning on issues of interest to the FSA. So, for example, if an MP speaks in a debate and later issues a press release or tweets about the subject, it is helpful to have that detail as well as the debate contribution.

Desirable:

- A monthly summary of activity, to include volumes but potentially also sentiment analysis.

Our objective for this service:

- An alert service and accurate report of parliamentary and political activity relating to our keywords/areas of interest which will ensure our people are up-to-date on issues relevant to the FSA.

2. Access to background information

We require:

- Access for a small number of staff (<5) to a database which might include elements such as: up-to-date biographies of parliamentarians; information on progress of bills and other parliamentary business across Westminster parliament, Wales and NI; forward planners/calendars of key political events; ability for FSA staff to identify MPs/MSs/MLAs with an active interest in food related issues

Desirable:

- Ability to bulk mail parliamentarians and to track contact with parliamentarians.

Our objective for this service:

- To be able to manage our contacts with parliamentarians with up to date information on their activities and interests.

3. Ad hoc research and analysis

We require:

- A small amount of research and analysis (2-3 hours per month) on parliamentary activity relating to issues of interest to the FSA. For example researching an MP's interest in a particular area that may have prompted them to ask a parliamentary question.

Our objective for this service:

- Enable the FSA to understand Parliamentarians and Assembly members' views on key issues; to identify MPs/MSs/MLAs who may support FSA objectives; to plan future engagement on issues of strategic importance to us.

We would value the opportunity to see how the service would look. This could be an example email, or a link to a mocked up page on a website, or an example of a service provided to an existing client.

Please confirm in your tender that you have in place, or that you will have in place by contract award, the human and technical resources to perform the contract to ensure compliance with the UK General Data Protection Regulation (UK GDPR) (implemented by the Data Protection Act 2018) and to ensure the protection of the rights of data subjects.

Please provide details of the technical facilities and measures (including systems and processes) you have in place, or will have in place by contract award, to ensure compliance with the UK GDPR and to ensure the protection of the rights of data subjects. Your response should include, but should not be limited to facilities and measures:

- to ensure ongoing confidentiality, integrity, availability and resilience of processing systems and services;
- to comply with the rights of data subjects in respect of receiving privacy information, and access, rectification, deletion and portability of personal data;
- to ensure that any consent based processing meets standards of active, informed consent, and that such consents are recorded and auditable;
- to ensure legal safeguards are in place to legitimise transfers of personal data outside the UK (if such transfers will take place);
- to maintain records of personal data processing activities; and
- to regularly test, assess and evaluate the effectiveness of the above measures.

B. PROCUREMENT TIMETABLE

C. EVALUATION OF TENDERS

The Tenderers Application consists of the:

- Technical envelope 80%, in which applicants should detail the approach, the work plan and their ability to undertake the work, and
- Commercial envelope 20%, in which applicants should outline all costs to conduct the proposed work, and
- Any other relevant supporting information

Tenders will be evaluated by FSA evaluators using a numerical system. The table below shows example weightings that have been allocated to each section of the application form and these used by the evaluators:-

TABLE 2. EVALUATION CRITERIA FOR SELECTION OF SUCCESSFUL TENDERER	
CRITERIA	PERCENTAGE WEIGHTINGS
TECHNICAL CRITERIA – 80%	Made up of
1. Delivery of the Requirements	35%
2. Project Management	25%
3. Data Protection	10%
4. Quality Management and Ethics	10%
COMMERCIAL CRITERIA – 20%	20%

The Technical Envelope

Guidance on how to complete each section is provided within the actual application form.

A numerical appraisal scoring system will be used to assess the information given in the Technical envelope of the tender. Evaluators will allocate a score of 0, 30, 60, 80 or 100 to each part of the Technical envelope, depending on the quality and relevance of evidence provided. The scores will then be subjected to the weightings given in Table 2.

All technical criteria will be evaluated as follows:

SCORE	DESCRIPTION FOR SCORE OF EACH CRITERIA
100	Tender fully meets or exceeds the criteria set
80	Tender would require minor modification but almost fully meets the criteria with only a few gaps in the evidence remaining
60	Tender would require some modification but addresses most of the

	criteria, but may not be detailed enough and/or has several gaps remaining
30	Tender would require significant modification due to significant gaps
0	Tender does not meet the specification or policy

If the applicant does not reach a minimum score of 30 in the technical evaluation they will be automatically eliminated from the process.

The Commercial Envelope

Guidance on how to complete each section is provided within the actual application form.

A numerical appraisal scoring system will be used to assess the information given in the commercial envelope of the tender. Evaluators will allocate a score of 0, 30, 60, 80 or 100 to the commercial envelope, depending on the quality and relevance of evidence provided. The scores will then be subjected to the weighting given in Table 2.

Requirement for the commercial envelope

Please complete the Commercial template provided. Costs should be quoted excluding VAT for the purpose of comparison of tenders. The Agency's financial year runs from 1 April to 31 March. All costings should be recorded in line with this timescale.

Evaluation of the commercial envelope

Commercial criteria will be evaluated as follows:

SCORE	DESCRIPTION FOR SCORE OF THE CRITERIA
100	There is full justification for the costs and the overall resources are appropriate. The tender is the best value for money for the work proposed to meet the specific evidence requirement advertised
80	There is some justification for the costs and the overall resources requested. The tender is reasonable value for money for the work proposed to meet the specific evidence requirement advertised.
60	Limited rational is given for the resources requested and/or the tender does not offer very good value for money, but is not poor value
30	The tender is relatively poor value for money with little/no justification for costs or resources requested.
0	The tender costs are not considered value for money and the applicant provided no rationale for costs or resources requested
