2. How to manage the insurance

2.1 Without limiting the other provisions of this Contract, the Supplier shall:

The Supplier shall use all reasonable endeavours to notify the Relevant Authority (subject to third party confidentiality obligations) as soon as practicable when it becomes aware of any relevant fact, circumstance or matter which has caused, or is reasonably likely to provide grounds to, the relevant insurer to give notice to cancel, rescind, suspend or void any insurance, or any cover or claim under any insurance in whole or in part.

In order to facilitate effective monitoring and forensic readiness such Supplier audit records should (as a minimum) include regular reports and alerts setting out details of access by users of the service, to enable the identification of (without limitation) changing access trends, any unusual patterns of usage and/or accounts accessing higher than average amounts of Authority/Buyer Data. The retention periods for audit records and event logs must be agreed with the Authority/Buyer and documented.

g) be written in plain English in language which is readily comprehensible to the staff of the Supplier and the Buyer engaged in the provision of

the Deliverables and shall only reference documents which are in the possession of the Parties or whose location is otherwise specified in this Schedule.

4.3 **Development of the Security Management Plan**

4.3.1 Within twenty (20) Working Days after the Start Date and in accordance with Paragraph 4.4, the Supplier shall prepare and deliver to the Buyer for Approval a fully complete and up to date Security Management Plan which will be based on the draft Security Management Plan.

4.3.2 If the Security Management Plan submitted to the Buyer in accordance with Paragraph 4.3.1, or any subsequent revision to it in accordance with Paragraph 4.4, is Approved it will be adopted immediately and will replace the previous version of the Security Management Plan and thereafter operated and maintained in accordance with this Schedule. If the Security Management Plan is not Approved, the Supplier shall amend it within ten (10) Working Days of a notice of non-approval from the Buyer and re-submit to the Buyer for Approval. The Parties will use all reasonable endeavours to ensure that the approval process takes as little time as possible and in any event no longer than fifteen (15) Working Days from the date of its first submission to the Buyer. If the Buyer does not approve the Security Management Plan following its resubmission, the matter will be resolved in accordance with the Dispute Resolution Procedure.

4.3.3 The Buyer shall not unreasonably withhold or delay its decision to Approve or not the Security Management Plan pursuant to Paragraph 4.3.2. However a refusal by the Buyer to Approve the Security Management Plan on the grounds that it does not comply with the requirements set out in Paragraph 4.2 shall be deemed to be reasonable.

4.3.4 Approval by the Buyer of the Security Management Plan pursuant to Paragraph 4.3.2 or of any change to the Security Management Plan in accordance with Paragraph 4.4 shall not relieve the Supplier of its obligations under this Schedule.

4.4 **Amendment of the Security Management Plan**

4.4.1 The Security Management Plan shall be fully reviewed and updated by the Supplier at least annually to reflect:

a) emerging changes in Good Industry Practice;

b) any change or proposed change to the Deliverables and/or associated processes;

c) where necessary in accordance with paragraph 2.2, any change to the Security Policy;

d) any new perceived or changed security threats; and

e) any reasonable change in requirements requested by the Buyer.

4.4.2 The Supplier shall provide the Buyer with the results of such reviews as soon as reasonably practicable after their completion and amendment of the Security Management Plan at no additional cost to the Buyer. The results of the review shall include, without limitation:

a) suggested improvements to the effectiveness of the Security Management Plan;

b) updates to the risk assessments; and

c) suggested improvements in measuring the effectiveness of controls.

4.4.3 Subject to Paragraph 4.4.4, any change or amendment which the Supplier proposes to make to the Security Management Plan (as a result of a review carried out in accordance with Paragraph 4.4.1, a request by the Buyer or otherwise) shall be subject to the Variation Procedure.

4.4.4 The Buyer may, acting reasonably, Approve and require changes or amendments to the Security Management Plan to be implemented on timescales faster than set out in the Variation Procedure but, without prejudice to their effectiveness, all such changes and amendments shall thereafter be subject to the Variation Procedure for the purposes of formalising and documenting the relevant change or amendment.

5. Security breach

5.1 Either Party shall notify the other in accordance with the agreed security incident management process (as detailed in the Security Management Plan) upon becoming aware of any Breach of Security or any potential or attempted Breach of Security.

5.2 Without prejudice to the security incident management process, upon becoming aware of any of the circumstances referred to in Paragraph 5.1, the Supplier shall:

5.2.1 immediately take all reasonable steps (which shall include any action or changes reasonably required by the Buyer) necessary to:

a) minimise the extent of actual or potential harm caused by any Breach of Security;

b) remedy such Breach of Security to the extent possible and protect the integrity of the Buyer and the provision of the Goods and/or Services to the extent within its control against any such Breach of Security or attempted Breach of Security;

c) prevent an equivalent breach in the future exploiting the same cause failure; and

d) as soon as reasonably practicable provide to the Buyer, where the Buyer so requests, full details (using the reporting mechanism defined by the Security Management Plan) of the Breach of Security or attempted Breach of Security, including a cause analysis where required by the Buyer.

5.3 In the event that any action is taken in response to a Breach of Security or potential or attempted Breach of Security that demonstrates non-compliance of the Security Management Plan with the Security Policy (where relevant in accordance with paragraph 2.2) or the requirements of this Schedule, then any required change to the Security Management Plan shall be at no cost to the Buyer.

Part B – Annex 1:

Baseline security requirements

1. Handling Classified information

1.1 The Supplier shall not handle Buyer information classified SECRET or TOP SECRET except if there is a specific requirement and in this case prior to receipt of such information the Supplier shall seek additional specific guidance from the Buyer.

2. End user devices

2.1 When Government Data resides on a mobile, removable or physically uncontrolled device it must be stored encrypted using a product or system component which has been formally assured through a recognised certification process of the National Cyber Security Centre ("NCSC") to at least Foundation Grade, for example, under the NCSC Commercial Product Assurance scheme ("CPA").

2.2 Devices used to access or manage Government Data and services must be under the management authority of Buyer or Supplier and have a minimum set of security policy configuration enforced. These devices must be placed into a 'known good' state prior to being provisioned into the management authority of the Buyer. Unless otherwise agreed with the Buyer in writing, all Supplier devices are expected to meet the set of security requirements set out in the End User Devices Security Guidance (https://www.ncsc.gov.uk/guidance/end-user-device-security). Where the guidance highlights shortcomings in a particular platform the Supplier may wish to use, then these should be discussed with the Buyer and a joint decision shall be taken on whether the residual risks are acceptable. Where the Supplier wishes to deviate from the NCSC guidance, then this should be agreed in writing on a case by case basis with the Buyer.

3. Data Processing, Storage, Management and Destruction

3.1 The Supplier and Buyer recognise the need for the Buyer's information to be safeguarded under the UK Data Protection regime or a similar regime. To that end, the Supplier must be able to state to the Buyer the physical locations in which data may be stored, processed and managed from, and what legal and regulatory frameworks Government Data will be subject to at all times.

3.2 The Supplier shall agree any change in location of data storage, processing and administration with the Buyer in accordance with Clause 14 (Data protection).

3.3 The Supplier shall:

3.3.1 provide the Buyer with all Government Data on demand in an agreed open format;

3.3.2 have documented processes to guarantee availability of Government Data in the event of the Supplier ceasing to trade;

3.3.3 securely destroy all media that has held Government Data at the end of life of that media in line with Good Industry Practice; and

3.3.4 securely erase any or all Government Data held by the Supplier when requested to do so by the Buyer.

4. Ensuring secure communications

4.1 The Buyer requires that any Government Data transmitted over any public network (including the Internet, mobile networks or un-protected enterprise network) or to a mobile device must be encrypted using a product or system component which has been formally assured through a certification process recognised by NCSC, to at least Foundation Grade, for example, under CPA.

4.2 The Buyer requires that the configuration and use of all networking equipment to provide the Services, including those that are located in secure physical locations, are at least compliant with Good Industry Practice.

5. Security by design

5.1 The Supplier shall apply the 'principle of least privilege' (the practice of limiting systems, processes and user access to the minimum possible level) to the design and configuration of IT systems which will process or store Government Data.

5.2 When designing and configuring the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier) the Supplier shall follow Good Industry Practice and seek guidance from recognised security professionals with the appropriate skills and/or a NCSC certification (https://www.ncsc.gov.uk/section/products-services/ncsc-certification) for all bespoke or complex components of the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier).

6. Security of Supplier Staff

6.1 Supplier Staff shall be subject to pre-employment checks that include, as a minimum: identity, unspent criminal convictions and right to work.

6.2 The Supplier shall agree on a case by case basis Supplier Staff roles which require specific government clearances (such as 'SC') including system administrators with privileged access to IT systems which store or process Government Data.

6.3 The Supplier shall prevent Supplier Staff who are unable to obtain the required security clearances from accessing systems which store, process, or are used to manage Government Data except where agreed with the Buyer in writing.

6.4 All Supplier Staff that have the ability to access Government Data or systems holding Government Data shall undergo regular training on secure information management principles. Unless otherwise agreed with the Buyer in writing, this training must be undertaken annually.

6.5 Where the Supplier or Subcontractors grants increased ICT privileges or access rights to Supplier Staff, those Supplier Staff shall be granted only those permissions necessary for them to carry out their duties. When staff no longer need elevated privileges or leave the organisation, their access rights shall be revoked within one (1) Working Day.

7. Restricting and monitoring access

7.1 The Supplier shall operate an access control regime to ensure all users and administrators of the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier) are uniquely identified and authenticated when accessing or administering the Services. Applying the 'principle of least privilege', users and administrators shall be allowed access only to those parts of the ICT Environment that they require. The Supplier shall retain an audit record of accesses.

8. Audit

8.1 The Supplier shall collect audit records which relate to security events in the systems or that would support the analysis of potential and actual compromises. In order to facilitate effective monitoring and forensic readiness such Supplier audit records should (as a minimum) include:

8.1.1 Logs to facilitate the identification of the specific asset which makes every outbound request external to the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier). To the extent the design of the Deliverables allows such logs shall include those from DHCP servers, HTTP/HTTPS proxy servers, firewalls and routers.

8.1.2 Security events generated in the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier) and shall include: privileged account log-on and log-off events, the start and termination of remote access sessions, security alerts from desktops and server operating systems and security alerts from third party security software.

8.2 The Supplier and the Buyer shall work together to establish any additional audit and monitoring requirements for the ICT Environment.

8.3 The Supplier shall retain audit records collected in compliance with this Paragraph 8 for a period of at least 6 Months.

Part B – Annex 2 - Security Management Plan

Section 1: Minimum Requirements

1.1 The security requirements that apply to Government Departments and Service Providers are governed by the Government's core set of mandatory minimum measures to protect information, to apply across central Government of the United Kingdom. Details of the mandatory minimum measures can be found at the Cabinet office website at:

Government Functional Standard GovS 007: Security - GOV.UK (www.gov.uk)

1.2 The general requirement is that Service Providers shall be proactive in planning and implementing appropriate policies, processes and procedures to safeguard and protect the information entrusted to them, to enable them to deliver the Service and to demonstrate that they have understood the risks relating to that information and plan mitigating action, which is then put in place and monitored.

1.3 As a minimum Service Providers shall put in place specific measures to address the access of Staff and sub-contractors: their organisation's selection and training; systems access rights; the treatment of types of information; and processes for checking compliance.

1.4 The CPS is keen to appoint Service Providers that maintain a culture of individual accountability and awareness that encourages staff to be 'trusted stewards' of sensitive data with an obligation to protect it and addresses inappropriate behaviours arising from information mismanagement.

1.5 The Service Provider shall hold Cyber Essentials + (plus) and ISO 27001 certification (or the equivalent certifications) to support the delivery of the Services, at contract award. This level of certification must be maintained throughout the duration of the contract.

Section 2: Security Classification

2.1 The security classification for the CPS's mail will generally be up to Official – with the caveat of 'Sensitive' added, as the CPS deals with sensitive material as part of its criminal investigation and prosecution process. The handling of this material may additionally be subject to specific legal requirements.

2.2 The Service Provider may be expected to handle mail items consisting of live case data as part of its contracted duties. Under the previous security classifications the possible risks of this type of information were assessed as Impact Level 3 (IL3).

2.3 As a Government department, the CPS's' operations are also subject to the Official Secrets Act. The Service Provider shall ensure that all employed Staff

engaged to deliver the goods and services sign a declaration pursuant of the Official Secrets Act.

Section 3: Staff Security Requirements

3.1 The CPS deals with criminal prosecutions and the Service Provider must be aware that Service Provider Personnel may be handling live case data. All the Service Provider Personnel connected with the delivery of Service under this Contract shall be vetted to a minimum of BPSS however heightened access is required then vetting to SC standard must be considered. Any additional Service Provider Personnel nominated to work on the Contract shall also be vetted in accordance with this standard or higher where appropriate and/or necessary.

3.2 The CPS shall carry out periodic spot checks to ensure that the Service Provider Personnel have been security cleared to the appropriate level.

3.3 All of the Service Provider Personnel that have the ability to access the CPS's information or systems holding the CPS's information shall undergo regular training on secure information management principles. Unless otherwise agreed with the CPS in writing, this training shall be undertaken annually.

3.4 The Service Provider shall ensure that all Sub-Contractors engaged to deliver the goods and services work for a company approved by the CPS and comply with all security requirements.

3.5 The Service Provider shall disclose any criminal convictions (both current and spent) to which their Staff have been subject (including motoring conviction) as part of their conditions of employment and will authorise the CPS if required to carry out checks of information provided. The CPS shall have a right to insist that Staff with criminal convictions (excluding minor motoring convictions) are excluded from working on this Contract.

Section 4: General Provisions

4.1 When OFFICIAL level information or higher is held and sorted on the Service Provider premises, the premises in which it is held must be secured. The Service Provider shall ensure that material received at their premises is handled securely, including arrangements for transferring material from the delivery vehicle to the nominated premises.

4.2 The Service Provider shall ensure that suitable security measures are used by them to always ensure the security and safekeeping of the CPS's material, including transit.

4.3 The Service Provider shall have procedures in place to ensure that any material which is entrusted to their safekeeping is stored securely at all times and not disclosed to unauthorised staff at any time. Applying the 'principle of least privilege' the Service Provider's staff shall only be allowed access to the CPS's mail as required to ensure service delivery.

4.4 The Service Provider shall operate an access control system at its premises, via methods such as key codes and dedicated access cards, to ensure that unauthorised individuals cannot access the premises. The Service Provider shall ensure that all windows can be securely locked and operate an alarm system

4.5 The Service Provider shall operate a Staff identification process whereby each employee is assigned a unique identifier clearly illustrating designated levels of access.

4.6 The Service Provider shall ensure that all material in their possession, in connection with delivery of the Services, is retained in the United Kingdom (UK) and is not stored or processed outside of the United Kingdom.

4.7 The Service Provider shall agree any change in location of data storage, processing and administration with the Contracting Body in advance of any proposed move. Contracting Body data shall not be stored outside of the UK unless agreed with the CPS's Senior Security Advisor.

4.8 The Service Provider shall allow premises to be inspected by the CPS as required, subject to advance notification, to verify the suitability of security protocols.

4.9 Should any of the material relating to the CPS's' business be unaccounted for whilst in the care of the Service Provider, the Service Provider shall trace this material within forty-eight (48) hours. Loss of any material shall be treated as a serious breach of security. Any such loss should be reported within twenty-four (24) hours to the CPS's Operational Security Team.

4.10 The Service Provider shall appreciate that public sector document provenance and data sharing security may, on occasion, be of interest to various sectors of the media. Under no circumstances should any of the CPS's' information be disclosed to external sources.

4.11 The Service Provider shall provide staff and documentation at the discretion of the CPS to demonstrate that document provenance and data sharing is robustly managed and is secure.

4.12 The Service Provider shall ensure that normal security standards are maintained in the event of a business continuity issue.

4.13 If the Service Provider receives a Right of Access (ROAR) application under the Data Protection Act (DPA) and/or the Freedom of Information (FOI) Act any such application must be notified to the CPS Representative and referred to the CPS Information Access Team's inbox before any response is made. All other DPA rights requests should be referred to the Data Protection Officer's inbox

Section 5: Information Security Protocols

5.1 If any CPS information is held and accessed within Service Provider systems, the Service Provider shall comply with at least the minimum set of security measures

and standards as determined by the Government Functional Standard GovS007 https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/1016424/GovS_007-_Security.pdf as well as any additional protections as needed as a result of their risk assessment.

5.2 Should any service provider utilise Cloud Services in the IT deliverables then they must conform the requirements in line with NCSC's 14 Cloud Principles.

The cloud security principles - NCSC.GOV.UK

5.3 Unless otherwise agreed with the CPS in writing, all Service Provider devices used to access or manage CPS information are expected to meet the set of security requirements set out in the NCSC End User Devices Security Guidance or its successor:

Device Security Guidance - NCSC.GOV.UK

5.4 Wherever possible, such information shall be held and accessed on ICT systems on secure premises. This means Service Provider shall avoid use of removable media (including laptops, portable hard drives, CDs, USB memory sticks, tablets and media card formats) for storage or access to such data where possible.

5.5 Where it is not possible to avoid the use of removable media, Service Provider shall apply all of the following conditions:

• The information transferred to the removable media shall be the minimum necessary to achieve the business purpose, both in terms of the numbers of people covered by the information and the scope of information held. Where possible, only anonymised information shall be held;

• user rights to transfer data to removable media shall be carefully considered and strictly limited to ensure that this is only provided where absolutely necessary for business purposes and subject to monitoring by managers, and

• The individual responsible for the removable media shall handle it – themselves or if they entrust it to others – as if it were the equivalent of a large amount of their own cash.

• The data shall be encrypted to a UK Government standard appropriate for handling data up to and including OFFICIAL-SENSITIVE, or FIPS 140-2, using software that does not require a software download onto the recipient's device.

• The data contained on the media shall be securely erased as soon as it has been transferred to a secure source.

5.6 When CPS data is held on mobile, removable or physically uncontrolled devices or portable media, such as laptops or tablets, it shall be stored and encrypted to a UK

Government standard appropriate for handling data up to and including OFFICIAL-SENSITIVE, such as FIPS 140-2 or NCSC approved methods.

5.7 Where the Service Provider grants increased IT privileges or access rights to its Staff or Sub-contractors, those persons shall be granted only those permissions necessary for them to carry out their duties and be subject to appropriate monitoring. When Staff no longer need elevated privileges or leave the organisation, their access rights shall be revoked within one (1) Working Day.

5.8 Service Provider shall recognise the need for the Contracting Body's information to be safeguarded under the UK Data Protection regime. To that end, Service Provider shall be able to state to the CPS the physical locations in which data may be stored, processed and managed from, and to confirm that all relevant legal and regulatory frameworks authority are complied with.

5.9 Service Provider shall agree any change in location of data storage, processing and administration with the CPS in advance of any proposed move to the extent that such move has any impact upon the Service and relates specifically to the CPS Data. CPS Data shall not be stored outside of the UK unless agreed with the CPS's Senior Security Advisor.

5.10 The CPS requires that any information up to Official Sensitive transmitted electronically shall be sent via the Criminal Justice Secure Email (CJSM) system. The CPS will sponsor and pay for Service Provider's subscription to this system. The CJSM service is an important part of the process of joining up the Criminal Justice System (CJS) in England and Wales. It allows people working in the CJS to send emails containing information up to OFFICIAL SENSITIVE in a secure way. CJSM uses a dedicated server to securely transmit emails between connected criminal justice practitioners. Once connected, users can use CJSM to send secure emails to each other and to criminal justice organisations. As the ICT infrastructure of the CPS is updated during the course of the Contract, Service Provider may be required to transmit data via other electronic systems, such as the 'Egress' system, but this should be agreed with the CPS Senior Security Advisor.
