Section 3

Specification

3.1 Background

The Fleet Air Arm Museum (FAAM) is part of the National Museum of the Royal Navy. The purpose and scope of this ITT and its supporting documents is to explain in further detail the requirements of the NMRN and the procurement process for submitting a tender proposal.

The maximum budget for the work has been set at a combined total of £28,000.

The Fleet Air Arm Museum is located at the following address: Fleet Air Arm Museum, RNAS Yeovilton, Ilchester, Somerset, BA22 8HT.

The Museum has a large car park approx. 3800 sq. metres in size. This contains some 230 spaces and coach bays to serve the Museum operation, primarily open to the public between Wednesday and Sunday each week (with minor staff use Mon/Tues) (see appendix 1).

The car park surface is gradually breaking down, and although a full resurface is not required, the Museum wants to invest in remedial work to ensure a sound and safe footing to see us through at least the next five years.

3.2 Requirements of Contract

- 3.2.1 FAAM expects that a series of patch repairs will enable us to continue to using the car park during any remedial work, meaning that a phased approach to works must be part of the proposal. We would expect a submission to adopt a 50/50 approach.
- 3.2.2 Any remedial work should also consider the impact upon current parking line markings, defining the existing spaces. Although the Museum is happy to stick with the current configuration any submission must include re-marking of parking bays and lines as standard.
- 3.2.3 The works must be completed in advance of the South Somerset February Half Term. FAAM requires full use of the parking area and associated spaces between the 13th and 21st February 2020.
- 3.2.4 The work schedule also refers a small area strip of tarmac adjoining the road outside the Museum entrance. This strip is about 25m in length. This work adjoins the public highway and your submission to remedy this must include an application (on our behalf) to the relevant authority (Somerset County Council), including any fee's for the application (see appendix 3).
- 3.2.5 The Contractor is to provide all personnel and materials to undertake the work. The contractor will also remove and dispose of any surplus or waste materials not required.

- 3.2.6 The Contractor is to be responsible for all aspects of Health and Safety when undertaking the work, and is to produce Risk Assessment and Method Statements (RAMS) for review by NMRN prior to undertaking the work. Health and Safety shall mean the Health and Safety at Work Act 1974, subsequent legislation and all relevant regulations and legislation identified and defined by the Health and Safety Executive. Any work area must be clearly segregated from the public domain and the risk assessment should acknowledge this. The Museum would expect to see a temporary physical barrier (Herras fencing or similar).
- 3.2.7 The contractor must demonstrate how it will abide by both the security and health and safety regulations of both Museum and RNAS Yeovilton in addition to any national regulations. This includes ensuring the Museum continues to comply to the 'SHEF' agreement (see appendix 4).
- 3.2.8 During the current COVID-19 Pandemic the Contractor shall provide, in advance and for review, all RAMS associated with conducting the work within the relevant COVID-19 regulations and procedures in force at the time. The Contractor is also to comply with all amendments and alterations dependent upon the overall Pandemic Alert State and measures, including local lockdown measures, as defined by HM Government, Local Government, and as specified by the NMRN or its representatives.
- 3.2.9 A Site Visit should be arranged to survey the work required. We anticipate that patching repairs will be needed and you should advise the method of removal, in fill required and surface course. We anticipate approx. 500 sq. metres of patching but rely upon your appraisal to clarify our requirements.

Section 4

Tender Assessment and Evaluation

4.1 Evaluation of Tenders (Compliance)

- 4.1.1 Submitted tenders will be subject to:
- 1) Compliance: A compliance check
 - 2) Selection: Quality and price evaluation
- 4.1.2 The initial compliance phase will include checks to ensure the documents have been properly completed and all required information has been provided.
- 4.1.3 If, during the initial compliance phase, it is apparent that a Tenderer has submitted a fundamentally non-compliant or incomplete tender then the NMRN reserves the right to reject that tender and continue to assess the other tenders as appropriate.
- 4.1.4 Tenders who pass this initial screening process will thereafter be subject to further assessment as detailed below.
- 4.1.5 The evaluation process will be systematic, thorough and fair.

4.2 Evaluation of Tenders (Selection)

- 4.2.1 The Selection stage will evaluate Tenderers on the following aspects of their responses to the questionnaire in Section 7 of the Tender document.

7.1	General Information	Not assessed – for information only
7.2	Consortia Information	Not assessed – for information only
7.3	Insolvency and Criminal Proceedings	Pass / Fail
7.4	Financial Information	Pass / Fail
7.5	Technical and Professional Capability	Pass / Fail
7.6	Equalities	Pass / Fail
7.7	Health and Safety	Pass / Fail
7.8	Information Security Policy	Pass / Fail

- 4.2.2 Only information provided as a direct response to the questionnaires will be evaluated. Information and details which forms part of general company literature or promotional brochures etc. will not form part of the evaluation process.
- 4.2.3 All questions will be answered.
- 4.2.4 Please note that the NMRN may require clarification of the answers provided or ask for additional information.

- 4.2.5 The response should be submitted by an individual of the organisation, company or partnership who has the authority to answer on behalf of that organisation, company or partnership.
- 4.2.6 Should the response be found to be erroneous or in any other way incorrect, the NMRN reserves the right to disqualify the candidate from the tender.
- 4.2.7 Each of the above Selection stage aspects will be evaluated separately, with a mark of Pass or Fail. Tenderers will be required to pass all aspects in order to achieve an overall Pass for the Selection stage and therefore have their tender further assessed in the final evaluation phase which covers price.

4.3 Evaluation of Tenders (Award)

4.3.1 Quality – 40%

The **Qualitative** assessment will be made by reviewing the tender against the requirements of this ITT. Any tender responses not meeting mandatory requirements will be rejected in full at this point and will not be assessed or scored further. Tender responses not rejected will be scored by an evaluation panel appointed by the National Museum for all criteria other than commercial using the following scoring model:

- 4.3.2 Each reply will be scored according to the assessment given in the table below:

Points	Interpretation
0	<p>Very Poor (does not meet any of the requirement) or Very High/Extreme Risk</p> <p>The response is significantly below what would be expected because of one or all of the following:</p> <ul style="list-style-type: none"> • The response indicates a significant lack of understanding • The response fails to meet the requirement
1	<p>Poor (meets some of the requirement) or Above Average/High Risk</p> <p>The response meets elements of the requirement but gives concern in a number of significant areas. There are reservations because of one or all of the following:</p> <ul style="list-style-type: none"> • There is at least one significant issue needing considerable attention • There is insufficient evidence to demonstrate competence or understanding • The response is light and unconvincing
4	<p>Fair (meets most, but not all the requirement) or Average Risk</p> <p>The response meets most of the requirement, but there is a least one significant issue of concern or several smaller issues. These would require some further clarification or attention later in the procurement process and may arise through lack of demonstrated capability and/or appropriate evidence. The response therefore shows:</p> <ul style="list-style-type: none"> • Basic understanding of the requirements • Sufficient competence demonstrated through relevant experience • Some areas of concern that require attention

7	<p>Good (meets the requirement) or Low Risk</p> <p>The response broadly meets what is expected for the criteria. There are no significant areas of concern, although there might be limited minor issues that need further exploration or attention later in the procurement process. The response therefore shows:</p> <ul style="list-style-type: none"> • Good understanding of the requirements • Sufficient competence demonstrated through relevant experience • Some insight demonstrated into the relevant issues.
9	<p>Very Good (exceeds the requirement) or Very Low Risk</p> <p>The response exceeds what is expected for the criteria. Leave no doubt as to the capability and commitment to deliver what is required. The response therefore shows:</p> <ul style="list-style-type: none"> • Very good understanding of the requirement • Considerable competence demonstrated through relevant experience • Considerable insight into the relevant issues <p>The response is also likely to propose additional value in several respects above that expected</p>

4.3.3 The Qualitative Method of Approach will consider:

- Relevant skills and experience
- Experience working within a complex site open to the public.
- Understanding of the brief
- Quality of the method statement and approach

4.3.4 Commercial evaluation – 60%

The **Commercial** evaluation will be based on your “Overall Price” as calculated in accordance with requirements of the Pricing Schedule and evaluated by the evaluation panel. Prices must not be subject to any pricing assumptions, qualifications or indexation not provided for explicitly by the National Museum. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the National Museum as part of the pricing approach, the National Museum may reject the full tender response at this point. The National Museum may also reject any tender response where the Overall Price for the services is considered to be abnormally low following the relevant processes set out under EU procurement rules. A maximum offer score will be awarded to the tender response offering the lowest “Overall Price”.

- 4.3.5 If further clarifications are required after the scoring the NMRN may contact shortlisted tenderers to arrange for further clarifications to be provided. This may be in the form of an interview, conference call or via email.

4.4 Variant Bids

- 4.4.1 Subject to the submission of a compliant tender, bidders may also submit an alternative price and method for provision of the services or goods which NMRN, at its sole discretion, may or may not pursue.

4.5 Confidentiality

- 4.5.1 NMRN will not disclose to any third party information that is supplied in tenders that is marked as confidential. All other information supplied by bidders to NMRN will similarly be treated in confidence except that references may be sought from banks, existing or past clients, or other referees submitted by the Bidders.

4.6 Conflict of Interest

- 4.6.1 Bidders are required to confirm that they are not aware of any conflict of interest or any circumstances that could give rise to a conflict of interest in the performance of the proposed Contract.

4.7 Consortia

- 4.7.1 Bids from multi-disciplinary organisations and specially formed consortia are encouraged, but all organisations in specially formed consortia must be identified in the response to the ITT. Each group or consortium will be required to nominate a lead person with whom NMRN can contract or form themselves into a single legal entity before contract award. In the case of group bidders or consortia, each service provider will be required to become jointly and severally responsible for the contract before acceptance.
- 4.7.2 If the tenderer is a group bidder or consortium, each member of the consortium must be identified separately as part of the response to this ITT.
- 4.7.3 If the tenderer is a member of a group of companies they should provide information only about themselves and not the Group as a whole (except where Group information is specifically requested by the question).
