B8 Property

The Contractor shall not in any circumstances have a lien or any other interest on the Property and the Contractor shall at all times possess the Property as fiduciary agent and bailee of the Authority. The Contractor shall take all reasonable steps to ensure that the title of the Authority to the Property and the exclusion of any such lien or other interest are brought to the notice of all Sub-Contractors and other appropriate persons and shall, at the Authority's request, store the Property separately and ensure that it is clearly identifiable as belonging to the Authority.

B8.2 The Property shall be deemed to be in good condition when received by or on behalf of the Contractor unless the Contractor notifies the Authority otherwise within 5 Working Days of receipt.

B8.4 The Contractor shall ensure the security of all the Property whilst in its possession, either on the Premises or elsewhere during the supply of the Services, in accordance with the Authority's reasonable security requirements as required from time to time.

B8.5 The Contractor shall be liable for all loss of or damage to the Property, unless such loss or damage was caused by the Authority's negligence. The Contractor shall inform the Authority immediately of becoming aware of any defects appearing in, or losses or damage occurring to, the Property.

B9 Offers of Employment

B10.2 At intervals determined by the Authority (which shall not be more frequent than once every 30 days) the Contractor shall give the Authority updated TUPE Information.

B10.3 Each time the Contractor supplies TUPE Information to the Authority it shall warrant its completeness and accuracy and the Authority may assign the benefit of this warranty to any Replacement Contractor.

B10.4 The Authority may use TUPE Information it receives from the Contractor for the purposes of TUPE and/or any retendering process in order to ensure an effective handover of all work in progress at the end of the Contract Period. The Contractor shall provide the Replacement Contractor with such assistance as it shall reasonably request.

B10.5 If TUPE applies to the transfer of the Services on termination of the Contract, the Contractor shall indemnify and keep indemnified the Authority, the Crown and any Replacement Contractor against all actions, suits, claims, demands, losses, charges, damages, costs and expenses and other liabilities which the Authority or the Crown or any Replacement Contractor may suffer or incur as a result of or in connection with:

(a) the provision of TUPE Information;

(c) any failure by the Contractor or any Sub-Contractor to comply with its obligations under regulations 13 or 14 of TUPE or any award of compensation under regulation 15 of TUPE save where such failure arises from the failure of the Authority or a Replacement Contractor to comply with its duties under regulation 13 of TUPE;

(d) any claim (including any individual employee entitlement under or consequent on such a claim) by any trade union or other body or person representing any Returning Employees arising from or connected with any failure by the Contractor or any Sub-Contractor to comply with any legal obligation to such trade union, body or person; and

B10.8 The Contractor undertakes to the Authority that, during the 12 Months prior to the end of the Contract Period the Contractor shall not (and shall procure that any Sub-Contractor shall not) without Approval (such Approval not to be unreasonably withheld or delayed):

- (a) amend or vary (or purport to amend or vary) the terms and conditions of employment or engagement (including, for the avoidance of doubt, pay) of any Staff (other than where such amendment or variation has previously been agreed between the Contractor and the Staff in the normal course of business and where any such amendment or variation is not in any way related to the transfer of the Services);
- (b) terminate or give notice to terminate the employment or engagement of any Staff (other than in circumstances in which the termination is for reasons of misconduct or lack of capability);
- (c) transfer away, remove, reduce or vary the involvement of any other Staff from or in the provision of the Services (other than where such transfer or removal: (i) was planned as part of the individual's career development; (ii) takes place in the normal course of business; and (iii) will not have any adverse impact upon the delivery of the Services by the Contractor, (provided that any such transfer, removal, reduction or variation is not in any way related to the transfer of the Services); or
- (d) recruit or bring in any new or additional individuals to provide the Services who were not already involved in providing the Services prior to the relevant period.

C2.10 The Authority shall not pay the Contractor's overhead costs unless specifically agreed in writing by the Authority and overhead costs shall include, without limitation; facilities, utilities, insurance, tax, head office overheads, indirect staff costs and other costs not specifically and directly ascribable solely to the provision of the Services.

C2.11 If Schedule 2 expressly provides that the Authority may be charged for plant which is on standby then in circumstances where plant was waiting to be transferred between Premises or where the Authority has instructed that the plant is retained on the Premises then a standby charge of 60% of agreed rates may be made in respect of such relevant periods if supported by timesheets.

C2.12 The Authority shall pay only for the time spent by Staff working on the Premises.

C2.13 The Authority shall not pay a stand-by rate if plant is on standby because no work was being carried out on the Premises at that time or no operator or other relevant staff were available (unless the standby is because the Contractor is awaiting licensing of the Premises on the Authority's instructions).

C2.14 The Authority shall not pay for plant or equipment which is stood down during any notice period pursuant to clauses H1, H2 and/or H3 and the Contractor shall mitigate such costs as far as is reasonably possible, for example, by reutilising Staff, plant, materials and services on other contracts.

C2.17 If any overpayment has been made or the payment or any part is not supported by a Valid Invoice the Authority may recover this payment against future invoices raised or directly from the Contractor. All payments made by the Authority to the Contractor shall be on an interim basis pending final resolution of an account with the Contractor in accordance with the terms of this clause C2.

C2.18 The Authority shall pay all sums due to the Contractor within 30 days of Receipt of a Valid Invoice. Valid Invoices should be submitted for payment to the following address: ssd.apdefra@defra.gsi.gov.uk (the Authority's preferred option); or SSCL AP, Defra, PO Box 790, Newport Gwent, NP10 8FZ.

Any amounts due under this clause C2.21 shall be paid by the Contractor to the Authority not less than 5 Working Days before the date upon which the tax or other liability is payable by the Authority.

C3.2 Any overpayment by either Party, whether of the Price or of VAT or otherwise, shall be a sum of money recoverable by the Party who made the overpayment from the Party in receipt of the overpayment.

- (a) been subject to an investigation or prosecution which relates to an alleged Prohibited Act;
- (b) been listed by any government department or agency as being debarred, suspended, proposed for suspension or debarment, or otherwise ineligible for participation in government procurement programmes or contracts on the grounds of a Prohibited Act; and/or
- (c) received a request or demand for any undue financial or other advantage of any kind in connection with the performance of the Contract or otherwise suspects that any person directly or indirectly connected with the Contract has committed or attempted to commit a Prohibited Act.

D1.5 If the Contractor notifies the Authority pursuant to clause D1.4, the Contractor shall respond promptly to the Authority's enquiries, co-operate with any investigation, and allow the Authority to audit any books, records and/or any other relevant documentation.

D3.2 Subject to clause D3.1, a person who is not a Party has no right under the CRTPA to enforce any provisions of the Contract but this does not affect any right or remedy of any person which exists or is available otherwise than pursuant to the CRTPA and does not apply to the Crown.

D3.3 No Third Party Beneficiary may enforce or take steps to enforce any Third Party Provision without Approval.

D3.4 Any amendments to the Contract may be made by the Parties without the consent of any Third Party Beneficiary.

D4 Health and Safety

D4.1 The Contractor shall perform its obligations under the Contract in accordance with:

- (a) all applicable Law regarding health and safety; and
- (b) the Authority's health and safety policy while at the Authority's Premises.

D4.2 Each Party shall notify the other as soon as practicable of any health and safety incidents or material health and safety hazards at the Authority's Premises of which it becomes aware and which relate to or arise in connection with the performance of the Contract. The Contractor shall instruct Staff to adopt any necessary associated safety measures in order to manage any such material health and safety hazards.

D5 Environmental Requirements

D5.1 The Contractor shall in the performance of the Contract have due regard to the Authority's environmental, sustainable and ethical procurement policies (“Environmental Policies”) which require the Authority through its procurement and management of suppliers:

- (a) conserve energy, water, wood, paper and other resources and reduce waste;
- (b) phase out the use of ozone depleting substances;

- (c) minimise the release of greenhouse gases, volatile organic compounds and other substances damaging to health and the environment;
- (d) minimise the use of products harmful to health and the environment such as hazardous substances and solvents, replacing them with more benign substances where feasible and, where such substances are necessary, to ensure that they are stored in properly labelled containers, used and disposed of in compliance with legal and regulatory requirements and any instructions from the Authority;
- (e) reduce fuel emissions wherever possible;
- (f) maximise the use of recovered materials and, if recycled materials are not suitable or not readily available, to maximise the use of materials taken from renewable sources; and
- (g) promote the design of products that are capable of reuse or remanufacture or easily separable into recyclable parts consisting of one material (e.g. steel, plastic, textile).

D5.2 The Contractor shall ensure that any equipment and materials used in the provision of the Services do not contain:

- (a) ozone depleting substances such as hydrochlorofluorocarbons (HCFCs), halons, carbon tetrachloride, 111 trichloroethane, bromochloromethane or any other damaging substances; and/or
- (b) HFCs and other gaseous and non-gaseous substances with a high global warming potential;

unless given written permission by the Authority to do so.

D5.3 The Contractor shall conserve energy and water; reduce carbon emissions and other greenhouse gases; minimise the use of substances damaging or hazardous to health and the environment and reduce waste by, for example, using resources more efficiently and reusing, recycling and composting and respecting biodiversity.

D5.4 If required by the Authority the Contractor shall provide the Authority with information about its compliance with its obligations under clause D5.3.

D5.5 The Contractor shall ensure that its Staff are aware of the Authority's Environmental Policies.

D5.6 The Contractor shall:

- (a) identify any risks arising from climate change and variable weather such as higher temperatures, droughts, flooding, sea and river level rises, coastal and riparian erosion, water scarcity, and loss of water quality which may disrupt and/or affect the supply of the Services; and
- (b) if such risks have been identified, enhance the resilience of its organisation to enable it to adapt and deal with the effects of such extreme events, including by having the

necessary awareness-raising, evaluation, preventive, preparatory, recovery measures and support systems in place in order to minimise any disruption to the supply of the Services.

D6 Timber and Wood Derived Products

D6.1 For the purposes of clauses D6.1 to D6.8 the following terms shall have the following meanings:

- (a) "Timber" means any product that contains wood or wood fibre, with the exception of "recycled" materials (see below). Such products range from solid wood to those where the manufacturing processes obscure the wood element, for example, paper. Timber and wood-derived products supplied or used in performance of the Services that have been recycled or reclaimed are referred to as "recycled" timber, which is defined below. Timber and wood-derived products supplied or used in performance of the Services that are not recycled are referred to as "virgin" timber when the distinction needs to be made for clarity. Short-rotation coppice is exempt from the requirements for timber and wood-derived products and falls under agricultural regulation and supervision rather than forestry;
- (b) "Legal and Sustainable" means production and process methods, also referred to as timber production standards, and in the context of social criteria, contract performance conditions (only), as defined by the document titled "UK Government timber procurement policy: Definition of Legal and Sustainable for timber procurement" (available at www.gov.uk/government/publications/timber-definition-of-legal-and-sustainable or CPET). The edition current on the day the Contract is awarded shall apply;
- (c) "FLEGT" means Forest Law Enforcement, Governance and Trade, and is a reference to the EU scheme to address the problem of illegally logged timber;
- (d) "FLEGT-licensed" means production and process methods, also referred to as timber production standards, and in the context of social criteria, contract performance conditions only, as defined by a bilateral Voluntary Partnership Agreement ("VPA") between the European Union and a timber-producing country under the FLEGT scheme, where both Parties have agreed to establish a system under which timber that has been produced in accordance with the relevant laws of the producing country, and other criteria stipulated by the VPA, are licensed for export by the producing country government;
- (e) "Recycled" means recovered wood that prior to being supplied to the Authority had an end use as a standalone object or as part of a structure. The term "recycled" is used to cover the following categories: pre-consumer recycled wood and wood fibre or industrial by products but excluding sawmill co-products (sawmill co-products are deemed to fall within the category of virgin timber), post-consumer recycled wood and wood fibre, and drift wood. It also covers reclaimed timber which was abandoned or confiscated at least ten years previously. Documentary evidence and independent verification also apply to recycled materials, but will focus on the use to which the timber was previously put rather than the forest source;
- (f) "Short-rotation coppice" means a specific management regime whereby the poles of trees are cut every one to two years and which is aimed at producing biomass for energy. It is exempt from the UK government timber procurement policy requirements and falls under agricultural regulation and supervision rather than forestry. The exemption only refers to short-rotation coppice, and not 'conventional' coppice which is forest management and therefore subject to the timber policy; and

(g) "CPET" means the UK Government's Central Point of Expertise on Timber.

D6.2 All Timber supplied or used by the Contractor in providing the Services (including all Timber supplied or used by Sub-Contractors) shall comply with Schedule 1 and shall originate from a forest source where management of the forest has full regard for:

- (a) identification, documentation and respect of legal, customary and traditional tenure and use rights related to the forest;
- (b) mechanisms for resolving grievances and disputes including those relating to tenure and use rights, to forest management practices and to work conditions; and
- (c) safeguarding the basic labour rights and health and safety of forest workers

(the "Social Criteria").

D6.3 If requested by the Authority and not already provided in its Tender, the Contractor shall give the Authority evidence that the Timber supplied or used in providing the Services complies with the requirements of Schedule 1 and with the requirements of the Social Criteria.

D6.4 The Authority may at any time during the Contract Period and for 6 years after final delivery under the Contract require the Contractor to produce the evidence required for the Authority's inspection within 14 days of the Authority's written request.

D6.5 The Contractor shall maintain records of all Timber delivered to and accepted by the Authority for 6 years from final delivery under the Contract.

D6.6 The Authority shall decide whether the evidence submitted to it demonstrates legality and sustainability, or FLEGT-licence or equivalent, and is adequate to satisfy the Authority that the Timber complies with Schedule 1 and complies with the requirements of the Social Criteria. If the Authority is not satisfied, the Contractor shall commission and meet the costs of an "independent verification" and resulting report that will: (a) verify the forest source of the timber or wood; and (b) assess whether the source meets the relevant criteria.

D6.7 In the Contract "Independent Verification" means that an evaluation is undertaken and reported by an individual or body whose organisation, systems and procedures conform to ISO Guide 65:1996 (EN 45011:1998) General requirements for bodies operating product certification systems (as amended from time to time) or equivalent, and who is accredited to audit against forest management standards by a body whose organisation, systems and procedures conform to ISO 17011: 2004 General Requirements for Providing Assessment and Accreditation of Conformity Assessment Bodies (as amended from time to time) or equivalent.

D6.8 The Authority may reject Timber that does not comply with Schedule 1 or with the Social Criteria. If the Authority rejects any Timber the Contractor shall supply alternative Timber which does comply at no additional cost to the Authority and without causing delay to delivery of the Services.

F. CONTROL OF THE CONTRACT

F1 Failure to meet Requirements

F1.1 If the Authority informs the Contractor in writing that the Authority reasonably believes that any part of the Services do not meet the requirements of the Contract or differs in any way from those requirements, and this is not as a result of a default by the Authority, the Contractor shall at its own expense re-schedule and carry out the Services in accordance with the requirements of the Contract within such reasonable time as may be specified by the Authority.

F2 Monitoring of Contract Performance

F2.1 The Contractor shall immediately inform the Authority if any of the Services are not being or are unable to be performed, the reasons for non-performance, any corrective action and the date by which that action will be completed.

F2.2 At or around 6 Months from the Commencement Date and each anniversary of the Commencement Date thereafter (each being a "Review Date"), the Authority shall carry out a review of the performance of the Contractor ("Checkpoint Review"). Without prejudice to the generality of the foregoing, the Authority may in respect of the period under review consider such items as (but not limited to): the Contractor's delivery of the Services; the Contractor's contribution to innovation in the Authority; whether the Services provide the Authority with best value for money; consideration of any changes which may need to be made to the Services; a review of future requirements in relation to the Services and progress against key milestones.

F2.3 The Contractor shall provide at its own cost any assistance reasonably required by the Authority to perform such Checkpoint Review including the provision of data and information.

F2.4 The Authority may produce a report (a "Checkpoint Review Report") of the results of each Checkpoint Review stating any areas of exceptional performance and areas for improvement in the provision of the Services and where there is any shortfall in any aspect of performance reviewed as against the Authority's expectations and the Contractor's obligations under this Contract.

F2.5 The Authority shall give the Contractor a copy of the Checkpoint Review Report (if applicable). The Authority shall consider any Contractor comments and may produce a revised Checkpoint Review Report.

F2.6 The Contractor shall, within 10 Working Days of receipt of the Checkpoint Review Report (revised as appropriate) provide the Authority with a plan to address resolution of any shortcomings and implementation of improvements identified by the Checkpoint Review Report.

F2.7 Actions required to resolve shortcomings and implement improvements (either as a consequence of the Contractor's failure to meet its obligations under this Contract

identified by the Checkpoint Review Report, or those which result from the Contractor's failure to meet the Authority's expectations notified to the Contractor or of which the Contractor ought reasonably to have been aware) shall be implemented at no extra charge to the Authority.

F3 Remedies for inadequate performance

F3.1 If the Authority reasonably believes the Contractor has committed a Material Breach it may, without prejudice to its rights under clause H2 (Termination on Default), do any of the following:

- (a) without terminating the Contract, itself supply or procure the supply of all or part of the Services until such time as the Contractor has demonstrated to the Authority's reasonable satisfaction that the Contractor will be able to supply the Services in accordance with the Specification;
- (b) without terminating the whole of the Contract, terminate the Contract in respect of part of the Services only (whereupon a corresponding reduction in the Price shall be made) and thereafter itself supply or procure a third party to supply such part of the Services;
- (c) withhold or reduce payments to the Contractor in such amount as the Authority reasonably deems appropriate in each particular case; and/or
- (d) terminate the Contract in accordance with clause H2.

F3.2 Without prejudice to its right under clause C3 (Recovery of Sums Due), the Authority may charge the Contractor for any costs reasonably incurred and any reasonable administration costs in respect of the supply of any part of the Services by the Authority or a third party to the extent that such costs exceed the payment which would otherwise have been payable to the Contractor for such part of the Services.

F3.3 If the Authority reasonably believes the Contractor has failed to supply all or any part of the Services in accordance with the Contract, professional or industry practice which could reasonably be expected of a competent and suitably qualified person, or any legislative or regulatory requirement, the Authority may give the Contractor notice specifying the way in which its performance falls short of the requirements of the Contract or is otherwise unsatisfactory.

F3.4 If the Contractor has been notified of a failure in accordance with clause F3.3 the Authority may:

- (a) direct the Contractor to identify and remedy the failure within such time as may be specified by the Authority and to apply all such additional resources as are necessary to remedy that failure at no additional charge to the Authority within the specified timescale; and/or
- (b) withhold or reduce payments to the Contractor in such amount as the Authority deems appropriate in each particular case until such failure has been remedied to the satisfaction of the Authority.

F3.5 If the Contractor has been notified of a failure in accordance with clause F3.3, it shall:

- (a) use all reasonable endeavours to immediately minimise the impact of such failure to the Authority and to prevent such failure from recurring; and
- (b) immediately give the Authority such information as the Authority may request regarding what measures are being taken to comply with the obligations in this clause F3.5 and the progress of those measures until resolved to the satisfaction of the Authority.

F3.6 If, having been notified of any failure, the Contractor fails to remedy it in accordance with clause F3.5 within the time specified by the Authority, the Authority may treat the continuing failure as a Material Breach and may terminate the Contract immediately on notice to the Contractor.

F4 Transfer and Sub-Contracting

F4.1 Except where clauses F4.6 and F4.7 both apply, the Contractor shall not transfer, charge, assign, sub-contract or in any other way dispose of the Contract or any part of it without Approval. All such documents shall be evidenced in writing and shown to the Authority on request. Sub-contracting any part of the Contract shall not relieve the Contractor of any of its obligations or duties under the Contract.

F4.2 The Contractor shall be responsible for the acts and/or omissions of its Sub-Contractors as though they are its own. If it is appropriate, the Contractor shall provide each Sub-Contractor with a copy of the Contract and obtain written confirmation from them that they will provide the Services fully in accordance with the Contract.

F4.3 The Contractor shall ensure that its Sub-Contractors and suppliers retain all records relating to the Services for at least 6 years from the date of their creation and make them available to the Authority on request in accordance with the provisions of clause E9 (Audit). If any Sub-Contractor or supplier does not allow the Authority access to the records then the Authority shall have no obligation to pay any claim or invoice made by the Contractor on the basis of such documents or work carried out by the Sub-Contractor or supplier.

F4.4 If the Authority has consented to the award of a Sub-Contract, the Contractor shall ensure that:

- (a) the Sub-Contract contains a right for the Contractor to terminate the Sub-Contract if the relevant Sub-Contractor does not comply in the performance of its contract with legal obligations in environmental, social or labour law;
- (b) the Sub-Contractor includes a provision having the same effect as set out in clause F4.4 (a) in any Sub-Contract which it awards; and
- (c) copies of each Sub-Contract shall, at the request of the Authority, be sent by the Contractor to the Authority immediately.

F4.5 If the Authority believes there are:

- (a) compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Contractor shall replace or not appoint the Sub-Contractor; or
- (b) non-compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Authority may require the Contractor to replace or not appoint the Sub-Contractor and the Contractor shall comply with such requirement.

F4.6 Notwithstanding clause F4.1, the Contractor may assign to a third party (the "Assignee") the right to receive payment of the Price or any part thereof due to the Contractor (including any interest which the Authority incurs under clause C2 (Payment and VAT)). Any assignment under this clause F4.6 shall be subject to:

- (a) reduction of any sums in respect of which the Authority exercises its right of recovery under clause C3 (Recovery of Sums Due);
- (b) all related rights of the Authority under the Contract in relation to the recovery of sums due but unpaid; and
- (c) the Authority receiving notification under both clauses F4.7 and F4.8.

F4.7 If the Contractor assigns the right to receive the Price under clause F4.6, the Contractor or the Assignee shall notify the Authority in writing of the assignment and the date upon which the assignment becomes effective.

F4.8 The Contractor shall ensure that the Assignee notifies the Authority of the Assignee's contact information and bank account details to which the Authority shall make payment.

F4.9 The provisions of clause C2 shall continue to apply in all other respects after the assignment and shall not be amended without Approval.

F4.10 Subject to clause F4.11, the Authority may assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof to:

- (a) any Contracting Authority;
- (b) any other body established or authorised by the Crown or under statute in order substantially to perform any of the functions that had previously been performed by the Authority; or
- (c) any private sector body which substantially performs the functions of the Authority

provided that any such assignment, novation or other disposal shall not increase the burden of the Contractor's obligations under the Contract.

F4.11 Any change in the legal status of the Authority such that it ceases to be a Contracting Authority shall not, subject to clause F4.12, affect the validity of the Contract and the Contract shall bind and inure to the benefit of any successor body to the Authority.

F4.12 If the rights and obligations under the Contract are assigned, novated or otherwise disposed of pursuant to clause F4.10 to a body which is not a Contracting Authority or if there is a change in the legal status of the Authority such that it ceases to be a Contracting

Authority (in the remainder of this clause both such bodies being referred to as the "Transferee"):

- (a) the rights of termination of the Authority in clauses H1 and H2 shall be available to the Contractor in respect of the Transferee; and
- (b) the Transferee shall only be able to assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof with the prior consent in writing of the Contractor.

F4.13 The Authority may disclose to any Transferee any Confidential Information of the Contractor which relates to the performance of the Contractor's obligations under the Contract. In such circumstances the Authority shall authorise the Transferee to use such Confidential Information only for purposes relating to the performance of the Contractor's obligations under the Contract and for no other purpose and shall take all reasonable steps to ensure that the Transferee gives a confidentiality undertaking in relation to such Confidential Information.

F4.14 Each Party shall at its own cost and expense carry out, or use all reasonable endeavours to ensure the carrying out of, whatever further actions (including the execution of further documents) the other Party reasonably requires from time to time for the purpose of giving that other Party the full benefit of the provisions of the Contract.

F5 Waiver

F5.1 The failure of either Party to insist upon strict performance of any provision of the Contract, or the failure of either Party to exercise, or any delay in exercising, any right or remedy shall not constitute a waiver of that right or remedy and shall not cause a diminution of the obligations established by the Contract.

F5.2 No waiver shall be effective unless it is expressly stated to be a waiver and communicated to the other Party in writing in accordance with clause A4 (Notices and Communications).

F5.3 A waiver of any right or remedy arising from a breach of the Contract shall not constitute a waiver of any right or remedy arising from any other or subsequent breach of the Contract.

F6 Variation

F6.1 If, after the Commencement Date, the Authority's requirements change, the Authority may request a Variation subject to the terms of this clause 6.

F6.2 The Authority may request a Variation by notifying the Contractor in writing of the Variation and giving the Contractor sufficient information to assess the extent of the Variation and consider whether any change to the Price is required in order to implement the Variation within a reasonable time limit specified by the Authority. If the Contractor accepts the Variation it shall confirm it in writing.

F6.3 If the Contractor is unable to accept the Variation or where the Parties are unable to agree a change to the Price, the Authority may:

- (a) allow the Contractor to fulfil its obligations under the Contract without the Variation to the Specification; or
- (b) terminate the Contract immediately except where the Contractor has already delivered all or part of the Services or where the Contractor can show evidence of substantial work being carried out to fulfil the requirements of the Specification; and in such case the Parties shall attempt to agree upon a resolution to the matter. If a resolution cannot be reached, the matter shall be dealt with under the Dispute Resolution procedure detailed in clause I2 (Dispute Resolution).

F6.4 No Variation will take effect unless and until it is recorded in a validly executed CCN. Execution of a CCN is made via electronic signature as described in clause 1.2 of Section 1 of the Contract.

F6.5 A CCN takes effect on the date on which both Parties communicate acceptance of the CCN via Bravo. On the date it communicates acceptance of the CCN in this way the Contractor is deemed to warrant and represent that the CCN has been executed by a duly authorised representative of the Contractor in addition to the warranties and representations set out in clause G2.

F6.6 The provisions of clauses F6.4 and F6.5 may be varied in an emergency if it is not practicable to obtain the Authorised Representative's approval within the time necessary to make the Variation in order to address the emergency. In an emergency, Variations may be approved by a different representative of the Authority. However, the Authorised Representative shall have the right to review such a Variation and require a CCN to be entered into on a retrospective basis which may itself vary the emergency Variation.

F7 Severability

F7.1 If any provision of the Contract which is not of a fundamental nature is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, such provision shall be severed and the remainder of the provisions of the Contract shall continue in full force and effect as if the Contract had been executed with the invalid, illegal or unenforceable provision eliminated.

F8 Remedies Cumulative

F8.1 Except as expressly provided in the Contract all remedies available to either Party for breach of the Contract are cumulative and may be exercised concurrently or separately, and the exercise of any one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.

F9 Entire Agreement

F9.1 The Contract constitutes the entire agreement between the Parties in respect of the matters dealt with therein. The Contract supersedes all prior negotiations between the Parties and all representations and undertakings made by one Party to the other, whether written or oral, except that this clause shall not exclude liability in respect of any fraudulent misrepresentation.

F10 Counterparts

F10.1 The Contract may be executed in counterparts, each of which when executed and delivered shall constitute an original but all counterparts together shall constitute one and the same instrument.

G LIABILITIES

G1 Liability, Indemnity and Insurance

G1.1 Neither Party limits its liability for:

- (a) death or personal injury caused by its negligence;

On-farm advice will be in two parts – an initial two-hour appointment (excluding travel time) followed by a two-hour follow up visit between six and nine months after the initial visit (NB: these timings are indicative only and used here as a guide. We acknowledge that some visits may take more than two hours, some less). Any farmers who do not wish to take up the option of a visit will be able to access free expert advice over the telephone and via email.

There will be one visit and follow-up visit per farmer. However, a farmer who received a visit(s) as part of the previous contract will not be excluded from the service under this one. However, farmers will only be entitled to one visit (and a follow-up) under the terms of this contract.

In addition to the two-part visits it may be desirable, particularly where badgers are a recognised disease risk to cattle, to conduct a badger survey by monitoring buildings for badger visits and surveying farmland to assess badger activity. A badger survey would normally involve identifying badger setts, latrines, travel corridors and other signs of badger activity which can be represented on a map. This will be used to support the assessment of the risk of direct and indirect contact between badgers and cattle or farmed non-bovine animals, and to devise appropriate mitigation actions. The survey would need to be undertaken by an advisor with badger ecology expertise. Ideally the same advisor would complete the farm visit and badger survey, but we acknowledge that not every advisor will have expertise in farm biosecurity and badger ecology. The contractor would therefore need to explain how they would address this issue (by planning for a proportion of two-person surveys, for example) or whether – in what Defra would regard as exceptional circumstances – a separate visit was required.

The badger survey/visit and telephone advice elements can be provided by non-vets with appropriate skills and knowledge, but vets will need to undertake the on-farm biosecurity visits and make recommendations.

The badger survey should be sufficient to pinpoint areas where mitigation measures can be put in place. There will be a limit of 250 badger surveys per year.

A report conforming to a set template will be completed no later than 10 working days after each appointment (part A following the initial appointment and part B after the follow up visit). Part A of the report must include at least four specific recommendations (at least one of which should be challenging) which can be delivered by the herd owner or manager before the follow-up visit. Additionally, it must also summarise steps the farmer has already taken to reduce the risk of bTB introduction/transmission. Part B must include specific information on the extent to which Part A recommendations have been acted on, whilst acknowledging the difficulties that a farmer or keeper may have in complying.

In this context “challenging” would be a measure which would require a financial and/or time investment to implement and is longer term, for example wildlife-proofing of cattle accommodation

or installing a double-perimeter fence. These should not be simple, low-cost measures such as fitting metal sheeting to gates or buying/making mineral lick holders. Defra will not set a lower limit for the investment. Moreover, we acknowledge that it is not mandatory for keepers to implement the recommendations from the advice visit.

The contractor will be expected to encourage the herd/flock owner or manager to discuss the advice with their own vet.

The contractor will also be required to maintain a telephone advice service with experts available to respond to advice requests. The telephone service should be staffed from 09.00 to 17.00 Monday to Friday (excluding bank holidays), with return calls to those requesting advice normally made within one working day.

All cattle herd owners or managers and keepers of farmed non-bovines will be eligible to receive free advice, regardless of whether their herd/flock is officially bTB-free or subject to bTB restrictions.

The contract will have a duration of three years - with the option for a one-year extension (and a further one-year extension) depending on budget approval and success of current project. The contractor will be paid a flat rate for each advice visit which will cover the initial and follow up visit, and average travel time and costs.

We will set a target of 500-800 initial advice visits (not including follow-up visits) for each twelve-month period. This is a challenging target but reflects the importance we attach to the TB Advisory Service. The contractor will be expected to indicate how many visits it has the capacity to deliver during the contract period and to have a comprehensive and robust marketing plan so as to provide reasonable assurance that 500-800 advice visits will be delivered in each 12-month period. **In year 1 the ongoing pandemic may have a bearing on capacity so the contractor will need to satisfy the Authority that this had been taken into consideration.**

The three elements of (i) farmer advice, (ii) badger survey and (iii) telephone advice will need to be costed separately.

Aims and objectives

Aim: to achieve farm animal health and productivity gains by reducing the incidence and severity of bTB herd breakdowns in England.

Objective: To reduce: (i) the likelihood of new bTB breakdowns; and (ii) spread of bTB within herds under bTB restrictions, by supporting cattle herd owners and managers and keepers of farmed non-bovines to build resilience to bTB by providing tailored advice on improving on-farm biosecurity and reducing the risks from cattle and non-bovine movements and trading.

Scope of advice

In all cases advice will need to be tailored to reflect the conditions and circumstances of a farm, including its risk area location. But some advice elements will be appropriate to all herds/flocks. For herds/flocks which are under bTB restrictions or which have a history of bTB breakdowns, advice may also cover 2a below should the herd owner or manager request this. The advice should cover two distinct aspects of disease prevention:

Deliverable 1a. Biosecurity to improve herd/flock resilience to bTB in infected herds and to protect uninfected herds/flocks from infection with bTB

Advice should be based primarily on the Five Point plan, developed jointly by Government and industry, together with the additional biosecurity advice published on the TB Hub¹. All visits should include, but not be limited to, giving practical advice on how the herd/flock owner could put in place what the Godfray Review¹ termed 'no regrets' biosecurity measures.

Our interpretation is that the following can be regarded as 'no regrets' measures: ²

Subset of measures under the bTB biosecurity Five Point Plan ²	Interpretation
• Restrict badger access to feed stores, troughs and mineral licks.	• Feed store walls and doors should be secure, and doors kept closed (especially at night). • Doors should be of a smooth and solid construction and a minimum of 1.5 m high (solid sheets of metal can be added to a 5-bar gate). • Gaps at the sides of and under doors and walls should be no greater than 7.5 cm and must not be able to be enlarged by digging or chewing. • Exclusion measures must be used every night and kept in a good state of repair. • If you cannot stop wildlife visits to feed stores, store feed in metal, lidded feed bins that should be kept closed when not in use. This is of particular importance in cases where, for example, feed materials such as potatoes or sugar beet would normally be left in piles on concrete pads or where there are clamps of maize silage or brewers'

² 'No regrets' is a term used by the Godfray Review to describe relatively low cost and practical on-farm biosecurity measures that would reduce the TB threat (and other disease risks) to a herd.

	grains. - Mineral licks should be raised as high as possible off the ground on stands with vertical sides to prevent badger access. - Troughs should be raised as high as possible with sheer sides and no footholds.
Don't put feed on the ground at pasture and clean up spillages.	Avoid feeding concentrates on the ground – in particular, situations where 'total mixed ration' (TMR) would normally be distributed directly onto the floor of a central feed passage. All feed passages will need to be closed off effectively. Feed troughs should be raised as high as possible off the ground with sheer sides and no footholds, kept clean and free of contaminants.
Use clean, fresh water and restrict badger access to water troughs.	Wherever possible, mains water should be provided, and water troughs raised as high as possible off the ground and regularly cleaned. Prevent cattle access to ponds and other stagnant water supplies.
Only feed waste milk to calves if it has been boiled or pasteurised.	Only feed colostrum or milk which has been boiled or pasteurised or use powdered substitutes.
Put in place effective barriers between neighbouring herds.	Farm boundaries must prevent cattle or non-bovines from straying off or onto neighbouring farms (or common land) and must prevent nose to nose contact with neighbouring cattle or non-bovines. Installation of double-fencing, or use of an equivalent boundary to provide a gap of 3 metres is essential where farms are in a High Risk or Edge area. Thick, impenetrable hedging is also acceptable.
Avoid sharing equipment or vehicles with other farms.	If you share equipment with others or use contractors, you should have – and comply with and/or get your contractor to agree to

	comply with – a plan for effective cleansing and disinfection before use on your farm.
Only spread manure on arable land or pasture that is not going to be grazed by cattle for at least two months.	In a High Risk or Edge Area, cattle must not be grazed on pasture previously grazed until a period of two months has elapsed.
Don't spread manure and slurry from other farms.	Do not spread manure and slurry from another farm onto your land.

During the on-farm visit the advisor will be expected to visit the animal accommodation and farm buildings in order to tailor the advice.

Deliverable 2a. Mitigation of risks from movements and trading of cattle and farmed non-bovine animals

The advice should include an explanation of the following:

- Informed purchasing of cattle and farmed non-bovines including the use of ibTB³
- Options for voluntary and private pre-movement TB testing of farmed non-bovine animals purchased (or returning) from premises located in the High Risk and Edge Areas of England or in Wales.
- Best practice isolation and post-movement TB testing of purchased and returning cattle and non-bovines (including from agricultural shows)
- The benefits of becoming CHeCS accredited for bTB
- Contingency planning for bTB breakdowns
- Approved TB units (cattle only) e.g. Approved Finishing Units (AFUs), Licensed Finishing Units (LFUs) - details on the TB Hub website.

Specifically, for herds/flocks under bTB restrictions, advice should include the following:

- Trading options for licensed movements of cattle and non-bovines into and out of the herd/flock whilst under movement restrictions e.g. for *cattle*, TB-dedicated sales (orange markets), AFUs, direct to slaughter
- Approval and operation of a TB isolation unit for cattle

Details of trading options for herds/flocks under bTB restrictions are on the TB Hub website.

Our expectation is that owners should be advised to take steps to reduce the risk of buying in cattle or non-bovines with undisclosed infection. Given that movement of cattle is a key transmission pathway for bTB, farmers should be strongly discouraged from purchasing cattle from herds where the herd's bTB history has not been shared.

Overview of requirements

The Contractor shall:

- Ensure that, where required, appropriate contractual relationships are established to ensure that the service can be delivered, for example by working with sub-contractors or delivery partners.
- Ensure that advice visits are conducted by vets³. Vets are able to advise on the more technical aspects of the service. And this delivery approach provides more assurance on the quality of advice given.
- Where non-vets are engaged to undertake badger surveys the contractor will need to provide details of how it will ensure that whoever complete the surveys, including sub-contractors, have the following:
 - o experience of, and training on, delivering advice to farmers over a period of at least two years; and
 - o a basic knowledge of badger ecology; and.
 - o minimum qualifications equivalent to NVQ level 3 in agriculture, ecology or a related subject.
- Provide details of training programmes for advisors and quality assurance systems
- Provide details of how it plans to fulfil its duty of care to its advisors (including sub-contractors) to ensure their personal safety.
- Put in place a system to ensure all staff and sub-contractors comply with the standards set out in Defra's [Guidance on Disease prevention for livestock and poultry keepers](#).
- Ensure that those receiving an on-farm advice visit receive, sign and return a privacy notice and a form giving consent for the advice visit reports to be shared with Defra and APHA officials. (Raw data will only be used for internal analyses. If a decision is taken to share data, it will be aggregated and anonymised.)
- Pay their subcontractors, and if requested provide evidence that those payments have been made, before an invoice is submitted to Defra.

Contract management and audit

The Contractor must establish an effective working relationship with a Defra nominated officer and ensure that any changes to the delivery plan are agreed by both parties and confirmed in writing prior to implementation.

The Contractor shall assure the quality and security of all data collected and maintain a full audit trail. Organisations that must be given access to data at the request of Defra include: Defra, APHA, the National Audit Office and any other organisation authorised by Defra.

From time-to-time audits or inspections will be carried out. These will seek to confirm that:

- Payments made by the Contractor in the course of delivering activity under the contract are supported by accounting documents or evidence and can be directly attributed to that delivery.
- The nature and timing of expenditure corresponds to the work actually delivered (and that expenditure has been incurred and defrayed before claims have been submitted).
- The activity delivered is in accordance with this specification of requirements.

³ Member of the Royal College of Veterinary Surgeons (RCVS)

This may include, for example, checks of timesheets and invoices from third party suppliers, bank statements and payment ledger entries. It may also include checks on a proportion of advice beneficiaries to verify activity has taken place as stated in any claim for payment.

Performance standards

The Contractor will be required to achieve its own delivery milestones, as set out in a delivery plan which will form part of their tender. This must include a projected timeline for scheduling part A and part B visits.

The Contractor will develop a contact database to record advice recipients' details, the recommendations given, and action taken on those recommendations. The database should include:

Herd/flock information

- CPH number
- Herd/flock size
- Herd/flock type
- bTB risk area where farm located
- Herd/flock bTB status/history - currently under restriction, not currently under restriction, have been under restriction within the last three years.

First visit and outcomes

- Date of first (part A) visit
- Name or ID of Contractor/s who conducted part A visit
- Area of farm survey
- Areas not surveyed/inaccessible
- Badger survey recommended yes/no
- Badger survey conducted yes/no; if yes, results of survey
- Description of effective transmission pathway mitigations already in place: needs to cover the key source and transmission pathways identified on the farm (badgers, cattle, fomites)
- Description of and reason(s) for each recommendation. It will be important to collect details on the four recommendations given to each farm - and their compliance levels at the follow-up visit. The recommendations should be classified according to the headings in the Five Point Plan
- Details of any telephone contact after both part A and part B visits

Follow-up visit and outcomes

- Date of follow-up (part B) visit
- Name or ID of Contractor/s who conducted part B visit (if different Contractor from Part A visit)
- Number of recommendations acted upon
- Description of extent of compliance with recommendations
- Description of barriers to compliance (e.g. change in farm production, cost, impracticality)
- Farmer's satisfaction score using a scale where four is 'fully satisfied', three 'satisfied', two 'poor' and one 'unacceptable'

The contractor shall provide quarterly reports, throughout the duration of the Contract, to be sent to the Defra nominated officer. Each report will provide details of services delivered and the quality

assurance and quality control activities associated with those services. These reports must be cross-referenced to invoices.

The Contractor shall provide an annual report, to be sent to the nominated officer in hard copy and electronic file format, on the first anniversary of the date that the contract is signed and then for each year thereafter until the end of the contract.

The Contractor will be required to attend face to face quarterly meetings with the nominated officer throughout the life of the contract. This will, of course, depend on the COVID-19 restrictions at the time. Initially this will entail virtual meetings on MS Teams (not Zoom). A gateway review will take place after the first year of the contract to review progress. Satisfactory performance must be demonstrated in order for the contract to continue thereafter.

Please see section below for more detail on what is required to be delivered.

Guidance on deliverables

Deliverable 1b

- After the visit the advisor will prepare an action plan to improve or maintain the biosecurity and trading status, and share this with the farmer within one calendar month of the visit. The farmer will be advised to implement the plan within six months of receipt.

Deliverable 1c

- The Contractor will contact each farmer participant no later than six months after the follow up visit to assess the quality and content of advice given by the advisor and collect any feedback
- Obtain an update on progress (i.e. have actions been carried out, if not why not). The target is that 75% of recommended actions will be completed within six months of receipt of the action plan.

Deliverable 1d

- In addition to deliverable 1a, provision of telephone advice annually to a total of 600 businesses in the target market for which telephone advice has been identified as appropriate using the decision tree in Annex 7.
- Telephone advice excludes those calls where the most suitable guidance or recommendation is to refer the caller directly to the TB Hub website.
- Contractor to develop a Customer contact database or use a Customer Relationship Management tool to record customer's details and record advice given and provide a report to the Authority as part of Deliverable 2a below (Quarterly reports).

Project Progress Reporting

Reporting: Quarterly Reports – Deliverable 2a

- The Contractor shall provide quarterly reports, throughout the duration of the Contract, to be sent to the Nominated Officer. Each report will provide details of activity delivered and the quality assurance and quality control activities associated with that activity. These reports must be cross-referenced to invoices, providing a breakdown of all costs incurred during the period. The format of the reports will be agreed at the inception meeting.

Reporting: Annual Reports - Deliverable 2b

- The Contractor shall provide an annual report to the Authority on the first anniversary of the date that the contract is signed and then for each year thereafter until the end of the contract. An electronic copy of the annual report shall be provided in both Microsoft Word and pdf file formats.

Reporting: Final Report – Deliverable 2c

The Contractor shall provide a final report before the end of the contract. In addition to reporting against the number of advice calls / visits given per area, the following criteria must be reflected in the final report

- Herd/flock sizes and types that participated
- bTB history of herds/flocks that participated (i.e. currently under restriction, not currently under restriction, have been under restriction within the last three years)
- Number of recommendations that were made in total
- Farmer's assessment of the Service. It is expected that 95% of participants will be satisfied or fully satisfied with advice. This success will be measured as receiving a score of four or more using a scale rated out of four, four being the highest. Supplier should provide a suggested scoring matrix based on the following:
 - For a score of 4: Excellent service providing comprehensive, relevant advice (Fully satisfied)
 - For a score of 3: Acceptable Service with relevant advice (Satisfied)
 - For a score of 2: Poor – Service and advice was partially relevant and/or poor
 - For a score of 1: Unacceptable service that failed to meet customer's needs
- Estimated cost to implement recommendations.
- Actual cost to farmer of implementing recommendations
- Whether certain types of recommended actions were not carried out more often than others, and why
- Whether the target of 75% of recommended actions being implemented by participants within six months of receipt of an action plan was met

Progress meetings – Deliverable 2d

The Contractor will be required to attend face to face quarterly meetings with the Authority throughout the life of the Contract; however, it is possible that some of these may be held by video conference or similar. There will be a requirement for contact in addition to the quarterly meetings during the first six months of the Contract; however, it is likely that these additional meetings can be conducted by telephone.

Gateway review – Deliverable 2e

A Gateway review will take place after 12 months after the Contract is signed. The Gateway review will review progress against the deliverables for the first 12 months (as per the Contractor's Response), as well as risks and how they are being addressed. Satisfactory performance must be demonstrated in order for the Contract to continue.

- The Contractor must use quality management systems to assure the quality of their own work and the work of any sub-contractors or other delivery partners.
- The Contractor will be responsible for the project management, co-ordination and reporting requirements as specified in this tender and for ensuring that delivery is compliant with the regulatory requirements.
- The Contractor will validate all data prior to submitting it to the Authority.
- The Contractor is to maintain a full audit trail including (but not limited to) keeping the following: accounts and records of all quotations and invoices received from sub-Contractors, suppliers, etc.
- The Contractor shall accept audit of the Service by the Authority, the National Audit Office or any organisation mandated by any of these bodies. These audits may be conducted on a regular basis with the following aims:
 - to review and verify information available in records developed through the monitoring programme; and
 - to identify specific issues of non-compliance and to give recommendations to meet them.

The Contractor should be aware that submitting any invoice containing ineligible expenditure will result in a financial charge to the Contractor and a corresponding reduction in the amount paid in accordance with legislation. The claim payment will be calculated on the basis of what is found to be eligible within the claim. In the event of an irregularity in the claim, which is not deemed to be an obvious error on the Contractor's part, Defra will have the right to make a deduction from the sum due to the Contractor and to remove the ineligible expenditure

Programme of Work and Milestones

Tenderers are invited to propose a work programme which meets the above objectives, requirements and timetable; this will become the Delivery Plan and form part of the Contract. Tenders should include a time schedule for the work that identifies the main stages, tasks and key milestones – these will then be used to monitor progress. Any changes to the work programme must be approved by the Authority in writing prior to implementation.

Performance Management Framework (PMF) (Including Service Levels and Key Performance Indicators)

The following will be included as a Schedule to the Authority's Conditions of Contract at the point of signature;

- the Contractor's Output Matrix (Appendix F), approved Delivery Plan and the Detailed Gantt Chart required for Evaluation Question E04 Project Management.

As part of the Authority's continuous drive to improve the performance of all Contractors, this PMF will be used to monitor, measure and control all aspects of the Contractor's performance of contract responsibilities.

The PMF's purpose is to set out the obligations on the Contractor, to outline how the Contractor's performance will be evaluated and to detail the sanctions for performance failure.

The Authority may define any reasonable performance management indicators for the Contractor under the following categories:

1. Contract Management
2. Delivery and support
3. Quality of Service
4. Continuous Improvement

The above categories are consistent within all contract awards allowing the Authority to monitor Contractor performance at both individual contract level and at enterprise level with the individual Contractor.

Management of the PMF

The Contractor shall produce a quarterly report, detailing performance against Key Performance Indicators (KPIs).

KPIs are essential in order to align the Contractor's performance with the requirements of the Authority and to do so in a fair and practical way. KPIs have to be realistic and achievable; they also have to be met. Failing to meet the KPIs would indicate that the Service is failing to deliver. As a result, recourse might be to terminate and seek alternative supply.

KPIs shall be monitored on a regular basis and shall form part of the contract performance review.

The Contractor shall maintain their own management reports, including a Risk and Issues Log.

Any performance issues highlighted in the Quarterly reports, or in progress reports accompanying claims, will be addressed by the Contractor, who shall be required to

provide an improvement plan ("Remediation Plan") to address all issues highlighted within a week of the Authority request.

The Authority shall hold meetings with the Contractor to discuss and agree the conduct of the Contract.

Annex 1: Familiarisation Materials for Advisors

The TB Hub is a joint government and industry initiative, supported by the Agriculture and Horticulture Development Board (AHDB), the Animal & Plant Health Agency (APHA), the British Cattle Veterinary Association (BCVA), the Department for Environment, Food and Rural Affairs (Defra), Landex and the National Farmers Union (NFU).

It contains in depth accurate material on all aspects of bovine Tuberculosis. The Contractor should use the TB Hub website www.tbhub.co.uk as a basis for the material which advisors use and impart to farmers, and ensure that all advice is consistent with it. Particularly the following pages:

Biosecurity advice for farmers

Biosecurity advice for advisors

<https://www.gov.uk/guidance/disease-prevention-for-livestock-farmers>

<https://www.tbhub.co.uk/tb-in-non-bovine-animals/>

Annex 2: Claims and Administration Process

As an integral part of their delivery responsibilities, the Contractor is required to supply relevant Contract outputs on a quarterly basis.

These outputs should include (but are not limited to):

- Management report – including details of progress against milestones, performance against KPIs/output targets, details of forthcoming activity, issues/risks and actions to be taken if delivery is falling below expectations, and activity included in invoices submitted for this period;
- Provision of information about participants (see Annex 3).

If required, Contractor has flexibility to submit up to a maximum of 12 claims.

In addition, providers are required to keep the following information for all activities. This information must be made available for inspection upon request. In addition, Tenderers will be asked to submit further detailed information for some of their claims which will, be selected at random:

- Participant registers;
- Feedback forms; including an evaluation form completed by the participant confirming the level of satisfaction with the activity and if they intend to put their learning or advice received into practice
- One-to-one visit reports; and
- Event agendas and, if requested, presentations/handouts.
- Evidence of carrying out eligibility checks
- Completed Evaluation Forms
- Other records. Contractor to retain timesheets and payroll records for those employees involved in delivery of the Service, and where relevant sub-contractor records and evidence of payment to sub-contractors to evidence the level of work being undertaken. These can take the form of normal employment records, kept for standard tax purposes.

The Contractor should note that failure to provide accurate documentation may lead to penalties being charged.

Annex 3:

Data collection and Format Requirements for telephone advice – Participant Information

- Websites must acknowledge support received from Defra.
- Advisors will be expected to promote the TB Strategy.

If Yes progress to next question, if no, signpost to the TB Hub

Is this simple advice that can be given without an advisor visiting the farm? If Yes give advice over the phone, if no progress to the next question.

- **Have they received advice from the Service before under this contract?**

If yes, they are not a high priority for a visit. If no, a visit is appropriate.
