Core Terms

Definitions used in the contract

- 1.1 Interpret this Contract using Joint Schedule 1 (Definitions).

How the contract works

- 1.2 The Supplier is eligible for the award of Call-Off Contracts during the Framework Contract Period.
- 1.3 CCS doesn't guarantee the Supplier any exclusivity, quantity or value of work under the Framework Contract.
- 1.4 CCS has paid one penny to the Supplier legally to form the Framework Contract. The Supplier acknowledges this payment.
- 1.5 If the Buyer decides to buy Deliverables under the Framework Contract it must use Framework Schedule 7 (Call-Off Award Procedure) and must state its requirements using Framework Schedule 6 (Order Form Template and Call-Off Schedules). If allowed by the Regulations, the Buyer can:
- make changes to Framework Schedule 6 (Order Form Template and Call-Off Schedules)
 - create new Call-Off Schedules
 - exclude optional template Call-Off Schedules
 - use Special Terms in the Order Form to add or change terms
- 1.6 Each Call-Off Contract:
- is a separate Contract from the Framework Contract
 - is between a Supplier and a Buyer
 - includes Core Terms, Schedules and any other changes or items in the completed Order Form
 - survives the termination of the Framework Contract
- 1.7 Where the Supplier is approached by an eligible buyer requesting Deliverables or substantially similar goods or services, the Supplier must tell them about this Framework Contract before accepting their order. The Supplier will promptly notify CCS if the eligible buyer won't use this Framework Contract.
- 1.8 The Supplier acknowledges it has all the information required to perform its obligations under each Contract before entering into a Contract. When information is provided by a Relevant Authority no warranty of its accuracy is given to the Supplier.
- 1.9 The Supplier won't be excused from any obligation, or be entitled to additional Costs or Charges because it failed to either:
- verify the accuracy of the Due Diligence Information
 - properly perform its own adequate checks
- 1.10 CCS and the Buyer won't be liable for errors, omissions or misrepresentation of any information.
- 1.11 The Supplier warrants and represents that all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.

What needs to be delivered

1.12 All deliverables

- 1.12.1 The Supplier must provide Deliverables:

- that comply with the Specification, the Framework Tender Response and, in relation to a Call-Off Contract, the Call-Off Tender (if there is one)
- to a professional standard
- using reasonable skill and care
- using Good Industry Practice
- using its own policies, processes and internal quality control measures as long as they don't conflict with the Contract
- on the dates agreed
- that comply with Law
- that meet the Test Success Criteria

1.12.2 The Supplier must provide Deliverables with a warranty of at least 90 days from Delivery against all obvious defects.

1.13 Goods clauses

1.13.1 All Goods delivered must be new, or as new if recycled, unused and of recent origin. The relevant Buyer must agree in writing to supply of Goods that are not new.

1.13.2 The supplier warrants that all Goods;

- are sourced directly from the manufacturer or an authorised reseller and;
- are sold by manufacturer or with its consent within the UK and the European Economic Area;
- where necessary are accompanied by a valid software license;
- are eligible for manufacturer's warranty;
- are eligible for manufacturer's support services and;
- will be reported back to manufacturer as sold to the relevant Buyer.

1.13.3 The Supplier transfers ownership of the Goods on Delivery or payment for those Goods, whichever is earlier.

1.13.4 Risk in the Goods transfers to the Buyer on Delivery of the Goods, but remains with the Supplier if the Buyer notices damage following Delivery and lets the Supplier know within 3 Working Days of Delivery.

1.13.5 The Supplier warrants that it has full and unrestricted ownership of the Goods at the time of transfer of ownership.

1.13.6 The Supplier must deliver the Goods on the date and to the specified location during the Buyer's working hours.

1.13.7 The Supplier must provide sufficient packaging for the Goods to reach the point of Delivery safely and undamaged.

1.13.8 All deliveries must have a delivery note attached that specifies the order number, type and quantity of Goods.

1.13.9 The Supplier must provide all tools, information and instructions the Buyer needs to make use of the Goods.

1.13.10 The Supplier must indemnify the Buyer against the costs of any Recall of the Goods and give notice of actual or anticipated action about the Recall of the Goods.

1.13.11 The Supplier shall provide product lifecycle information, including product roadmaps, on request of the Buyer. Where the Supplier becomes aware that Goods are to become End of Life, the Supplier shall use all reasonable endeavours to give the Buyer three (3) Months' notice of this; in any event, the Supplier shall notify the Buyer when Goods are End of Life.

1.13.12 The Supplier must at its own cost repair, replace, refund or substitute (at the Buyer's option and request) any Goods that the Buyer rejects because they don't conform with Clause 3. If the Supplier doesn't do this it will pay the Buyer's costs including repair or re-supply by a third party.

1.13.13 The Buyer shall have the right to require that the Deliverables be subjected to the Tests specified in the Order Form.

The Supplier shall ensure the Deliverables are available for Testing at the start of the scheduled Test Period, and the Tests shall be carried out during the scheduled Test Period.

The Party conducting the Tests will record them as successful and inform the other Party accordingly where the Test Success Criteria are met by the end of the scheduled Test Period.

The Party conducting the Tests will record them as unsuccessful and inform the other Party accordingly where the Test Success Criteria are not met by the end of scheduled Test Period.

Without prejudice to Clauses 5 and 20 of the Core terms, where the Test Success Criteria are not met within the scheduled Test Period the Buyer shall have the right either;

- to direct the Supplier to correct the issues that resulted in failure to satisfy the Test Success Criteria, and to resubmit the relevant Deliverables for Testing

or;

- to notify the Supplier that testing has been satisfactorily completed subject to rectification of outstanding issues within a period specified by the Buyer. Failure to rectify the relevant issues within the period specified shall be a material Default

or;

- to reject the relevant Deliverables and to invoke Clause 3.2.12

or;

- to reject the relevant Deliverables treating this as a material default and invoking the Buyer's termination right under Clause 10.4.1

1.13.14 The Supplier shall have access to a sufficient stock of spare devices that have been specified as business critical on the Order Form or elsewhere in the relevant Call-Off Contract to allow the Buyer to initiate business-critical swaps of faulty devices, or to address Dead On Arrival/Installation (DOA/DOI) business critical issues, with replacement by the same model and specification of device. Upon notification by the Buyer of the requirement for a business-critical swap or DOA/DOI business critical issue, the Supplier shall swap the device with a spare device within twenty-four (24) hours of the Buyer reporting the issue.

For the avoidance of doubt, the Buyer shall not Approve any DOA/DOI devices, and for the purposes of any Implementation Plan such Goods shall be deemed as not having been Delivered.

1.13.15 The Supplier shall ensure:

it has access to a sufficient stock of spare components to undertake repairs to Goods in accordance with warranty requirements, and in any case to undertake required repairs within a reasonable time period; and

where Goods are repaired or replaced under warranty, the repaired or replaced Goods shall have either the remainder of the

original warranty period or where offered a full warranty period as if supplied as new under the Call-Off Contract

1.13.16 In undertaking any repairs to the Goods, the Supplier shall not replace any parts or components of the Goods with parts or components that are of lower quality or which are unsuitable for use in their designed purpose either by the Buyer or a Replacement Supplier, prior to the expiry or termination of the Call-Off Contract (howsoever arising).

1.13.17 The Supplier confirms that where a Buyer has an in-house warranty provider or technical staff who undertake warranty repair work, the Supplier shall work with the in-house warranty provider and/or technical staff to provide any required training to enable the transfer of warranty repair work without cost or loss of service to the Buyer. Where this reduces the cost to the Supplier of providing the warranty, the Supplier shall pass such cost savings on to the Buyer.

1.13.18 Where there is fault in any Goods which cannot be repaired, the Supplier shall ensure and procure that any data residing in any such Goods is removed or destroyed in accordance with HMG Infosec Standard 5 baseline, or as otherwise agreed with the Buyer, at no additional cost to the Buyer, prior to such Goods being returned to any manufacturer or other third party for disposal.

1.13.19 The Buyer has the sole option to remove and retain any hard drives or solid state drives prior to the return of Goods to the Supplier at no additional cost to the Buyer.

1.13.20 The Supplier shall make a stock of Test Devices, for the purpose of testing compatibility with a Buyer's IT infrastructure, available to the Buyer as required. Test Devices shall be shipped to the Buyer's nominated Site on request and at the Supplier's expense. The Buyer shall return Test Devices to the Supplier in the same condition as initially provided to them by the Supplier (unless agreed otherwise between the Parties). Risk and ownership for any Test Devices shall remain with the Supplier.

1.13.21 The Supplier shall where reasonably possible collate information on the failure rate of Goods such that it can trace failure rate by batch, principal reasons for failure, and by Buyer affected by Goods failure. This information will help the Supplier to identify situations of Endemic Failures. In the event of Endemic Failure of the Goods supplied, the Supplier shall inform the Buyer and the Buyer will have the right to reject all Goods in the affected batch and require their replacement by the Supplier at no cost to the Buyer and without prejudice to the Buyer's right of remedies. Endemic Failure also triggers a material Default by the Supplier, entitling the Buyer to terminate the Call-Off Contract.

1.14 Services clauses

1.14.1 Late Delivery of the Services will be a Default of a Call-Off Contract.

- 1.14.2 The Supplier must co-operate with the Buyer and third party suppliers on all aspects connected with the Delivery of the Services and ensure that Supplier Staff comply with any reasonable instructions.
- 1.14.3 The Supplier must at its own risk and expense provide all Supplier Equipment required to Deliver the Services.
- 1.14.4 The Supplier must allocate sufficient resources and appropriate expertise to each Contract.
- 1.14.5 The Supplier must take all reasonable care to ensure performance does not disrupt the Buyer's operations, employees or other contractors.
- 1.14.6 The Supplier must ensure all Services, and anything used to Deliver the Services, are of good quality and free from defects.
- 1.14.7 The Buyer is entitled to withhold payment for partially or undelivered Services, but doing so does not stop it from using its other rights under the Contract.

Pricing and payments

- 1.15 In exchange for the Deliverables, the Supplier must invoice the Buyer for the Charges in the Order Form.
- 1.16 CCS must invoice the Supplier for the Management Charge and the Supplier must pay it using the process in Framework Schedule 5 (Management Charges and Information).
- 1.17 All Charges and the Management Charge:
- exclude VAT, which is payable on provision of a valid VAT invoice
 - include all costs connected with the Supply of Deliverables
- 1.18 The Buyer must pay the Supplier the Charges within 30 days of receipt by the Buyer of a valid, undisputed invoice, in cleared funds using the payment method and details stated in the Order Form.
- 1.19 A Supplier invoice is only valid if it:
- includes all appropriate references including the Contract reference number and other details reasonably requested by the Buyer
 - includes a detailed breakdown of Delivered Deliverables and Milestone(s) (if any)
 - doesn't include any Management Charge (the Supplier must not charge the Buyer in any way for the Management Charge)
- 1.20 The Buyer may retain or set-off payment of any amount owed to it by the Supplier if notice and reasons are provided.
- 1.21 The Supplier must ensure that all Subcontractors are paid, in full, within 30 days of receipt of a valid, undisputed invoice. If this doesn't happen, CCS or the Buyer can publish the details of the late payment or non-payment.
- 1.22 If CCS or the Buyer can get more favourable commercial terms for the supply at cost of any materials, goods or services used by the Supplier to provide the Deliverables and that cost is reimbursable by the Buyer, then CCS or the Buyer may either:
- require the Supplier to replace its existing commercial terms with the more favourable terms offered for the relevant items
 - enter into a direct agreement with the Subcontractor or third party for the relevant item
- 1.23 If CCS or the Buyer uses Clause 4.8 then the Framework Prices (and where applicable, the Charges) must be reduced by an agreed amount by using the Variation Procedure.

1.24 CCS and the Buyer's right to enter into a direct agreement for the supply of the relevant items is subject to both:

- the relevant item being made available to the Supplier if required to provide the Deliverables
- any reduction in the Framework Prices (and where applicable, the Charges) excludes any unavoidable costs that must be paid by the Supplier for the substituted item, including any licence fees or early termination charges

1.25 The Supplier has no right of set-off, counterclaim, discount or abatement unless they're ordered to do so by a court.

The buyer's obligations to the supplier

1.26 If Supplier Non-Performance arises from an Authority Cause:

- neither CCS or the Buyer can terminate a Contract under Clause 10.4.1
- the Supplier is entitled to reasonable and proven additional expenses and to relief from Delay Payments, liability and Deduction under this Contract
- the Supplier is entitled to additional time needed to make the Delivery
- the Supplier cannot suspend the ongoing supply of Deliverables

1.27 Clause 5.1 only applies if the Supplier:

- gives notice to the Party responsible for the Authority Cause within 10 Working Days of becoming aware
- demonstrates that the Supplier Non-Performance only happened because of the Authority Cause
- mitigated the impact of the Authority Cause

Record keeping and reporting

1.28 The Supplier must attend Progress Meetings with the Buyer and provide Progress Reports when specified in the Order Form.

1.29 The Supplier must keep and maintain full and accurate records and accounts on everything to do with the Contract for 7 years after the End Date.

1.30 The Supplier must allow any Auditor access to their premises to verify all contract accounts and records of everything to do with the Contract and provide copies for an Audit.

1.31 The Supplier must provide information to the Auditor and reasonable co-operation at their request.

1.32 If the Supplier is not providing any of the Deliverables, or is unable to provide them, it must immediately:

- tell the Relevant Authority and give reasons
- propose corrective action
- provide a deadline for completing the corrective action

1.33 The Supplier must provide CCS with a Self Audit Certificate supported by an audit report at the end of each Contract Year. The report must contain:

- the methodology of the review
- the sampling techniques applied
- details of any issues
- any remedial action taken

- 1.34 The Self Audit Certificate must be completed and signed by an auditor or senior member of the Supplier's management team that is qualified in either a relevant audit or financial discipline.

Supplier staff

- 1.35 The Supplier Staff involved in the performance of each Contract must:
- be appropriately trained and qualified
 - be vetted using Good Industry Practice and the Security Policy
 - comply with all conduct requirements when on the Buyer's Premises
- 1.36 Where a Buyer decides one of the Supplier's Staff isn't suitable to work on a contract, the Supplier must replace them with a suitably qualified alternative.
- 1.37 If requested, the Supplier must replace any person whose acts or omissions have caused the Supplier to breach Clause 27.
- 1.38 The Supplier must provide a list of Supplier Staff needing to access the Buyer's Premises and say why access is required.
- 1.39 The Supplier indemnifies CCS and the Buyer against all claims brought by any person employed by the Supplier caused by an act or omission of the Supplier or any Supplier Staff.

Rights and protection

- 1.40 The Supplier warrants and represents that:
- it has full capacity and authority to enter into and to perform each Contract
 - each Contract is executed by its authorised representative

 - non-payment by the Supplier of any tax or National Insurance

- 1.45 If the Supplier becomes aware of a representation or warranty that becomes untrue or misleading, it must immediately notify CCS and every Buyer.
- 1.46 The Supplier shall assign to the Buyer, or if it is unable to do so, shall (to the extent it is legally able to do so) hold on trust for the sole benefit of the Buyer,

all warranties and indemnities provided by third parties in respect of the Deliverables. Where any such warranties are held on trust, the Supplier shall enforce such warranties in accordance with any reasonable directions that the Buyer may notify from time to time to the Supplier.

Intellectual Property Rights (IPRs)

- 1.47 Each Party keeps ownership of its own Existing IPRs. The Supplier gives the Buyer a non-exclusive, perpetual, royalty-free, irrevocable, transferable worldwide licence to use, change and sub-license the Supplier's Existing IPR to enable it to both:
- receive and use the Deliverables
 - make use of the deliverables provided by a Replacement Supplier
- 1.48 Any New IPR created under a Contract is owned by the Buyer. The Buyer gives the Supplier a licence to use any Existing IPRs and New IPRs for the purpose of fulfilling its obligations during the Contract Period.
- 1.49 Where a Party acquires ownership of IPRs incorrectly under this Contract it must do everything reasonably necessary to complete a transfer assigning them in writing to the other Party on request and at its own cost.
- 1.50 Neither Party has the right to use the other Party's IPRs, including any use of the other Party's names, logos or trademarks, except as provided in Clause 9 or otherwise agreed in writing.
- 1.51 If there is an IPR Claim, the Supplier indemnifies CCS and each Buyer against all losses, damages, costs or expenses (including professional fees and fines) incurred as a result.
- 1.52 If an IPR Claim is made or anticipated the Supplier must at its own expense and the Buyer's sole option, either:
- obtain for CCS and the Buyer the rights in Clause 9.1 and 9.2 without infringing any third party IPR
 - replace or modify the relevant item with substitutes that don't infringe IPR without adversely affecting the functionality or performance of the Deliverables

Ending the contract

- 1.53 The Contract takes effect on the Start Date and ends on the End Date or earlier if required by Law.
- 1.54 The Relevant Authority can extend the Contract for the Extension Period by giving the Supplier no less than 3 Months' written notice before the Contract expires.

Ending the contract without a reason

- 1.54.1 CCS has the right to terminate the Framework Contract at any time without reason or liability by giving the Supplier at least 30 days' notice and if it's terminated Clause 10.5.2 to 10.5.7 applies.
- 1.54.2 Each Buyer has the right to terminate their Call-Off Contract at any time without reason or liability by giving the Supplier not less than 90 days' written notice and if it's terminated Clause 10.5.2 to 10.5.7 applies and for the avoidance of doubt the Buyer shall be liable for the Supplier's reasonable and proven costs already incurred on the cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.

When CCS or the buyer can end a contract

1.54.3 If any of the following events happen, the Relevant Authority has the right to immediately terminate its Contract by issuing a Termination Notice to the Supplier:

- there's a Supplier Insolvency Event
- there's a Contract Default that is not corrected in line with an accepted Rectification Plan
- the Relevant Authority rejects a Rectification Plan or the Supplier does not provide it within 10 days of the request
- there's any material default of the Contract
- there's a Default of Clauses 2.10, 9, 14, 15, 27, 32 or Framework Schedule 9 (Cyber Essentials) (where applicable) relating to any Contract
- there's a consistent repeated failure to meet the Performance Indicators in Framework Schedule 4 (Framework Management)
- there's a Change of Control of the Supplier which isn't pre-approved by the Relevant Authority in writing
- there's a Variation to a Contract which cannot be agreed using Clause 24 (Changing the contract) or resolved using Clause 34 (Resolving disputes)
- if the Relevant Authority discovers that the Supplier was in one of the situations in 57 (1) or 57(2) of the Regulations at the time the Contract was awarded
- the Court of Justice of the European Union uses Article 258 of the Treaty on the Functioning of the European Union (TFEU) to declare that the Contract should not have been awarded to the Supplier because of a serious breach of the TFEU or the Regulations
- the Supplier or its Affiliates embarrass or bring CCS or the Buyer into disrepute or diminish the public trust in them

1.54.4 CCS may terminate the Framework Contract if a Buyer terminates a Call-Off Contract for any of the reasons listed in Clause 10.4.1.

1.54.5 If there is a Default, the Relevant Authority can, without limiting its other rights, request that the Supplier provide a Rectification Plan.

1.54.6 When the Relevant Authority receives a requested Rectification Plan it can either:

- reject the Rectification Plan or revised Rectification Plan, giving reasons
- accept the Rectification Plan or revised Rectification Plan (without limiting its rights) and the Supplier must immediately start work on the actions in the Rectification Plan at its own cost, unless agreed otherwise by the Parties

1.54.7 Where the Rectification Plan or revised Rectification Plan is rejected, the Relevant Authority:

- must give reasonable grounds for its decision
- may request that the Supplier provides a revised Rectification Plan within 5 Working Days

1.54.8 If any of the events in 73 (1) (a) to (c) of the Regulations happen, the Relevant Authority has the right to immediately terminate the Contract and Clause 10.5.2 to 10.5.7 applies.

What happens if the contract ends

Where the Relevant Authority terminates a Contract under Clause 10.4.1 all of the following apply:

- 1.54.9 The Supplier is responsible for the Relevant Authority's reasonable costs of procuring Replacement Deliverables for the rest of the Contract Period.
- 1.54.10 The Buyer's payment obligations under the terminated Contract stop immediately.
- 1.54.11 Accumulated rights of the Parties are not affected.
- 1.54.12 The Supplier must promptly delete or return the Government Data except where required to retain copies by law.
- 1.54.13 The Supplier must promptly return any of CCS or the Buyer's property provided under the terminated Contract.
- 1.54.14 The Supplier must, at no cost to CCS or the Buyer, co-operate fully in the handover and re-procurement (including to a Replacement Supplier).
- 1.54.15 The following Clauses survive the termination of each Contract: 3.2.10, 6, 7.2, 9, 11, 14, 15, 16, 17, 18, 34, 35 and any Clauses and Schedules which are expressly or by implication intended to continue.

When the supplier can end the contract

- 1.54.16 The Supplier can issue a Reminder Notice if the Buyer does not pay an undisputed invoice on time. The Supplier can terminate a Call-Off Contract if the Buyer fails to pay an undisputed invoiced sum due and worth over 10% of the annual Contract Value within 30 days of the date of the Reminder Notice.
- 1.54.17 If a Supplier terminates a Call-Off Contract under Clause 10.6.1:
 - the Buyer must promptly pay all outstanding Charges incurred to the Supplier
 - the Buyer must pay the Supplier reasonable committed and unavoidable Losses as long as the Supplier provides a fully itemised and costed schedule with evidence - the maximum value of this payment is limited to the total sum payable to the Supplier if the Contract had not been terminated
 - Clauses 10.5.4 to 10.5.7 apply

When subcontracts can be ended

At the Buyer's request, the Supplier must terminate any Subcontracts in any of the following events:

- there is a Change of Control of a Subcontractor which isn't pre-approved by the Relevant Authority in writing
- the acts or omissions of the Subcontractor have caused or materially contributed to a right of termination under Clause 10.4
- a Subcontractor or its Affiliates embarrasses or brings into disrepute or diminishes the public trust in the Relevant Authority

Partially ending and suspending the contract

- 1.54.18 Where CCS has the right to terminate the Framework Contract it can suspend the Supplier's ability to accept Orders (for any period) and the

Supplier cannot enter into any new Call-Off Contracts during this period. If this happens, the Supplier must still meet its obligations under any existing Call-Off Contracts that have already been signed.

1.54.19 Where CCS has the right to terminate a Framework Contract it is entitled to terminate all or part of it.

1.54.20 Where the Buyer has the right to terminate a Call-Off Contract it can terminate or suspend (for any period), all or part of it. If the Buyer suspends a Contract it can provide the Deliverables itself or buy them from a third party.

1.54.21 The Relevant Authority can only partially terminate or suspend a Contract if the remaining parts of that Contract can still be used to effectively deliver the intended purpose.

1.54.22 The Parties must agree any necessary Variation required by Clause 10.8 using the Variation Procedure, but the Supplier may not either:

- reject the Variation
- increase the Charges, except where the right to partial termination is under Clause 10.3

1.54.23 The Buyer can still use other rights available, or subsequently available to it if it acts on its rights under Clause 10.8.

1.60 Each Party must use all reasonable endeavours to mitigate any Loss or damage which it suffers under or in connection with each Contract, including any indemnities.

- Deductions

- any items specified in Clause 11.5

1.62 If more than one Supplier is party to a Contract, each Supplier Party is fully responsible for both their own liabilities and the liabilities of the other Suppliers.

Obeying the law

1.67 The Supplier must not remove any ownership or security notices in or relating to the Government Data.

1.68 The Supplier must make accessible back-ups of all Government Data, stored in an agreed off-site location and send the Buyer copies every 6 Months.

1.69 The Supplier must ensure that any Supplier system holding any Government Data, including back-up data, is a secure system that complies with the Security Policy and any applicable Security Management Plan.

1.70 If at any time the Supplier suspects or has reason to believe that the Government Data provided under a Contract is corrupted, lost or sufficiently degraded, then the Supplier must notify the Relevant Authority and immediately suggest remedial action.

1.71 If the Government Data is corrupted, lost or sufficiently degraded so as to be unusable the Relevant Authority may either or both:

Invalid parts of the contract

If any part of a Contract is prohibited by Law or judged by a court to be unlawful, void or unenforceable, it must be read as if it was removed from that Contract as much as required and rendered ineffective as far as possible without affecting the rest of the Contract, whether it's valid or enforceable.

Bytes Technology Group Plc

MODERN SLAVERY AND HUMAN TRAFFICKING

POLICY STATEMENT

The Modern Slavery Act 2015 ("the Act") requires businesses to publish a transparency statement which sets out the steps they have taken to ensure there are no instances of modern slavery in their own business or in their supply chains.

This statement is made pursuant of the Act. Modern slavery is a crime and a violation of fundamental human rights. It can take various forms, such as slavery, servitude, forced and compulsory labour and human trafficking, all of which include the deprivation of a person's liberty by another in order to exploit them for personal or commercial gain.

Bytes Technology Group Plc, through its primary subsidiaries, Bytes Software Services Limited and Phoenix Software Limited (collectively, 'BTG' or 'the Group') has a zero-tolerance approach to modern slavery in its constituent parts within the business and supply chains. BTG therefore is committed to taking appropriate steps to ensure that everyone that works for the Group in any capacity, benefits from a working environment in which their fundamental rights and freedoms are respected.

Supply chain

BTG is committed to acting ethically and with integrity in all our business dealings and relationships, while implementing and enforcing controls to ensure that modern slavery is not taking place anywhere within the business or within our supply chains.

We expect the same high standards from all our suppliers. As part of our contracting processes, we seek confirmation from our suppliers of their compliance to the Act to include specific prohibitions against modern slavery and we expect that our suppliers will hold their own suppliers to the same high standards.

An employee or supplier must report any incidence or suspicion of modern slavery at the earliest possible stage to executive management, operations management or a senior administrator. BTG may terminate its relationship with a supplier if it is in breach of this policy or where appropriate, may elect to work with the supplier to resolve the issue.

The software business sector is not considered one most at risk in relation to the Act and BTG does not have intricate supply chains, multiple levels of contracting and subcontracting, or partners with businesses based in impoverished regions of the world where labour laws are more likely to be non-existent and/or not legally enforced. However, policies are in place to guard against such practices in our supply chains; all contracts with business

partners require prior approval in line with our delegation of authority frameworks; and business partners may be subject to various forms of vetting, including the verification of information provided to the Group. Selective due diligence exercises are performed, depending on the significance of the business partner to the continuity of the Group's business.

Employment

BTG treats its employees in a fair, lawful and professional manner and provide supportive working conditions, including health and safety provisions, holiday entitlements, employee wellness programs and other benefits.

Recruitment processes are in place to ensure that employment laws are met, including "right to work" document checks which are carried out, verifications to ensure everyone employed are older than 16 years of age and that contracts of employment are issued.

The Group requires all employees to act in an ethical manner and to comply with legal requirements at all times by placing our values into practice. There is a confidential whistle-blowing policy and process in place for any employee to raise concerns relating to the behaviour of suppliers, customers, partners or employees. Modern slavery training is available to all Group employees.

Response to Question 3.9 - Gathering Purchase Orders

Here at Bytes, we have an experienced team of 5 Adobe specialists who will work on the Agreement. They will ensure that a single purchase order is sent to Adobe by the deadline of 12th April 2023. They will also be a dedicated resource for the longevity of the agreement, ensuring all future orders are also sent to Adobe on time.

For the past 3 years, Bytes have managed the Crown Commercial Services Aggregated Adobe ETLA agreement and we already have the processes in place that have proven to manage the agreement, obtain individual authority purchase orders and combine these into a single purchase order for Adobe.

This process that is outlined below and has been very successful:

- Organisation and communication are key to the successful delivery of this agreement.
- During our planning stage, we set realistic deadlines with authorities for quote generation and the receiving of purchase orders.
- For the existing contract due to expire, Bytes will be communicating with individual customers as appropriate, to gain further insight on contract take up and license requirements.
- Bytes will review the requirements for the renewal and create individual quotes for each authority via our Bytes Portal.
- Individual quotes for each authority will be generated for the true up requirement (where licenses have been added throughout previous year under the expiring contract). These are based on information received from the authority as well as Adobe. If awarded the new contract, we will merge this activity with quotes for the renewal licenses under the new contract.
- If appropriate, we could provide a single quote to the authority combining the true up and the renewal licenses. In this case the customer could raise a single purchase order for all their licenses. This greatly simplifies the customer experience.
- These quotes will be sent out to each authority via a dedicated mailbox (BytesCCS@bytes.co.uk) to ensure they have a central point of contact. This is a well used and well known email address by all authorities participating in the current Adobe agreement.
- We ensure that quotes are sent out by 15th March 2023 to allow the authorities to raise their purchase orders within deadline.
- We make the authorities aware that we will need their purchase orders by the 29th March. This is to enable us to review and compile them into a single purchase order which will be sent directly to Adobe by the 12th April 2023. In our experience of running the existing contract, there were instances where customers have not been able to provide their purchase orders on time. In setting these timescales, we have found that authorities POs were always received in time for us to prepare the order for Adobe.

- With the number of quotes and orders being generated at the same time, Bytes will be keeping a detailed record of license requirements, quote numbers, customer purchase order number, etc for each authority to ensure that any information that is being passed to Adobe and CCS is accurate
- Throughout the process, we will be sending regular reminders to each authority detailing the deadline dates and requirements to ensure the smooth delivery of the agreement.

Our dedicated team will ensure that deadlines are met, SLAs are adhered to and that the annual order/true up processes are robust. With the recent changes to the true up process, we are actively in talks with Adobe to ensure we are fully equipped to hit the ground running.

Being an Adobe Platinum Partner, we have a strong relationship with Adobe and a good contact base across various teams who support us whenever needed. This creates a clear escalation pathway for both parties.

Response to Question 3.10 – Account Management

Every Authority will have access to our dedicated and managed [REDACTED] mailbox to facilitate direct communication with the Bytes Adobe team. Authorities will also be provided with direct line telephone numbers to the Bytes Adobe team.

Our Adobe team is comprised of 5 experienced Adobe specialists who will assist with quoting, queries, and order processing. They are all experienced in managing the Adobe ETLA aggregated agreement. With the responsibility for delivering high standards of customer service, they are supported by other specialist Bytes teams including Purchasing and Accounts. The [REDACTED] mailbox will be the main point of contact for each authority for the Adobe ETLA agreement.

All customers on the CCS ETLA agreement will also be aligned to a named Bytes Account Manager who they can also contact when needed. These account managers will also promote the Adobe Aggregated agreement across the wider Public Sector, encouraging other authorities to participate in it.

Bytes will also promote the agreement through the use of webinars and other promotional materials to encourage further participation.

Bytes have a standard [REDACTED] all customers.

- Order Processing – Will form part of the compiled single purchase orders which will be sent to Adobe by the various deadlines throughout the agreement

Bytes will provide each authority with a clear view of the agreement milestones over the duration of the 3-year contract and seek to work with the customers throughout the term by adding value and guiding authorities.

Although not mentioned in the specification for the new Agreement, the expiring agreement had the facility for new customers to join in quarterly intervals. If this is required, our account management plan will be updated to reflect this.

Buyer Meetings will be represented from Bytes by the Divisional Director of Strategic Frameworks, the Commercial Operations Manager and members of the Bytes Adobe Team.

The management of the current CCS ETLA agreement has enabled us to develop our processes and refine our procedures through the lessons learned with the current engagement. Therefore, we have increased the number of people in the team to improve response times in place to meet and exceed SLA's. We have also been providing regular training and support to all our Adobe team members to ensure continual improvement through the lifecycle of the agreement.

Response to Question 4.1 – Social Value

A. Creating a Diverse Supply Chain

Bytes has and will continue to develop its supply chain partners. We rely on these for the delivery of software products and services to our customers. Wherever possible these are SMEs and to support them we have policies in place that ensure they are paid on-time or quicker. We work in close partnership with our suppliers in delivery of projects, knowing that closer collaboration ultimately brings customer success.

The range of products and services required in this contract, together with the different types of customer, means that customers will likely require a wide range of different services in order to implement and manage their Adobe software estate. Over the years, Bytes has built up a very diverse range of supply chain partners to help fulfil our customer needs and we will continue to develop these. Many of these partners are niche and best of breed organisations, often new start-up organisations or SMEs. We will continue to support them in the development of their business throughout the contract by involving them in defining customers technical requirements, and their subsequent delivery.

With our specialist software services division, we monitor the marketplace for innovation and new and up-coming trends. Bytes have an excellent position in the marketplace, resulting in us having many new potential Solution providers who want to be part of our supply chain. Our Adobe practice and partner management team are always keen to see what these potential partners can offer, especially in areas where we do not have an offering. Our priority is to recruit new partners who are smaller organisations, therefore more agile, and where we can form a stronger and more strategic partnership with and help them grow their businesses and create new employment opportunities.

B. Supporting Innovation

Bytes success has been built on delivering cost effective and innovative solutions to our customers that deliver true business benefits.

As a major reseller to the UK public sector, Bytes works very closely with major vendors in the sale of their products and identifying new solutions on the horizon. A major part of the work we do with them is on new products and services that could be of interest in the Public Sector and bringing those innovative solutions to customers as soon as they are available.

To further support innovation in the supply chain, we partner with a wide range of specialist IT service companies, many of whom are SME's and very focussed on individual technology areas. These partners are often used to assist Buyers to deploy, maintain and optimise their estate, making the best use of their entitlements. They deliver customers innovative ways of working and can ensure customers obtain higher value through their agreements and maximise use of their entitlements.

Software vendors, including Adobe and service delivery partners regularly visit Bytes and deliver training on new solutions to our account teams and specialists. This ensures our Account managers are kept constantly up to date on existing and emerging technologies. As well as delivering training, our vendors and partners also work collaboratively with our Contract for Adobe Licensing

Account Managers on customer requirements and we can connect Buyers directly to Adobe and other vendors to further explore potential solutions.

Our team of Public Sector Account managers are in constant contact with Buyers to understand the use of their technologies and where there might be opportunities to make their organisation more efficient and secure. Bytes have significant opportunity to discuss customer requirements with vendors to discover additional innovative solutions.

All of our Customer Account Managers have an outstanding understanding of Adobe products and technologies, this is supported by a broad team of licensing specialists, technical experts and consultants. With our specialist software services division, we are constantly monitoring the marketplace for innovation and new and up-coming trends.

D. Demonstrating collaboration through the supply chain.

By the very nature of this contract, Adobe will be our major supply chain partner in its delivery. As one of the most prominent and respected Adobe partners, we have and continue to collaborate with Adobe on the delivery of the majority of their products and ensuring value for money to customers. This collaboration extends to the varying hierarchies of the Adobe business from their Senior Execs, through to technical, account management and administrative levels.

Although we already have many supply chain partners already assisting us with Adobe technologies in our customers, we see Adobe as key in the opportunity to extend our excellent supply chain partnerships. There are many types of technology partners in the UK. From sole traders, who are just starting their business, through to SMEs, VCSEs and larger organisations.

We view our supply chain partners as an extension of our own Bytes teams. With their excellent technical capability and expertise, they are essential to ensuring the technologies we provide to our customers deliver true value, business benefit, and provide a maximum return on investment. We are also open with customers in introducing our partners to them. We may introduce a number of partners to a Buyer, enabling them to make a fair and informed decision on the best partner that suits their need.

We hold high values on our employment practices and on the benefits we are giving to the community, we expect all our suppliers and their suppliers to hold similar values. These values cover areas such as modern slavery, equal opportunities, the living wage, environmental, and much more. Every year we assess and select our suppliers through a formal tendering process which monitors their progress on social value issues.
