

Specification notes for the redevelopment of Soham Recreation Ground.

This specification is for directional purposes only and may be subject to change.

The existing area to be redeveloped is approximately 35m x 20m (subject to survey) and could be extended to the Eastern side to allow for additional dynamic rides such as a zip wire.

Scope.

The current playground will be the subject to a total redevelopment which includes :-

- Removal of all current play equipment
- Agreed rides to be re-sited at Downfield`s playground and disposal of remainder..
- Removal and disposal of all existing surfaces.
- Relay surfaces with wet pour graphics (to be agreed)
- The area to be laid out to in such a way as to segregate between dynamic, toddler, junior and sensory areas to maximise safety while at play.
- Refurbishment of existing perimeter railings (powder coated) or new fencing.

The play equipment should include the following where possible:

- Picnic Tables
- Climbing Wall - frame
- Floor graphics (Hop Scotch, Maze)
- See Saw
- Musical play equipment
- Zip Wire
- Curly-wurly slide
- Big Swing
- Trampoline
- Mother and Baby swing
- Pendulum Swing
- Roundabout

A number of these rides could be incorporated into a single larger play unit.
