

John Spendluffe Technology College Alford (JSTC)

LED Lighting Project

June 2019

Invitation to Tender

JSTC Alford would like to invite interested parties to submit Tenders for the above stated project.

The Project is for supply, delivery and installation of new for old energy efficient LED light fittings. This will include removal and disposal of existing old fixtures and fittings in accordance with relevant installation & waste disposal regulations. Evidence of compliant disposal will be required. The installation will incorporate smart technologies to compliment energy efficiency.

This work is anticipated to be part funded by ERDF, through the Smart Energy Greater Lincolnshire project.

Tenders will be assessed 40% on quality, 60% on price.

If it is your intention to Tender for the works please contact Mark Bishell on 01507 462443 or M.Bishell@jstc.org.uk to confirm and to arrange a site visit and /or receive a tender pack

Completed Tenders should be received no later than **1330 on Monday July 22nd 2019**.

Tenders received after this point may not be considered.
