

Clarification Questions and Answers
Tenant Led Right to Transfer
CCCC16A9

Ref	Clarification Question	Response	Date Issued
1	Can you please confirm that the project will involve the evaluation of an actual Right to Transfer that has been triggered by the tenants and is opposed by the local authority in a particular local authority area?	Yes, the project will involve the evaluation of an actual Right to Transfer, details of which can be found on Annex A – Background to the Requirement on page 12 (last page) of the RFI document.	18/10/16
2	Thank you for providing guidance on the estimated contract time period. If possible it would also be helpful to get a rough idea of the likely timing of when the tender would be commissioned and when the subsequent work would be carried out.	We estimate the tender to be commissioned early November 2016 with an estimated contract award date early December 2016. These dates are estimates only and largely dependent on the outcome of the RFI exercise.	18/10/16
