Dear Sirs

TENDER FOR CONTRACT FOR HYDROGRAPHIC SURVEY SERVICES IN UK AND EUROPEAN WATERS

We have received questions for the above-mentioned tender, and to ensure that all tenderers have access to the same information, we have copied the questions and our answers to you:

Question 1

Are the shape files available for the new 2018 ITT?

Response

Each Hydrographic Instruction contains a section detailing the area to be surveyed. This includes a coordinates table with latitude and longitude points provided in the geographic ETRS89 coordinate system. These coordinates can be used to create GIS shapefiles where desired.

Question 2

Para 8.6 – SBES deliverables – Is this for Lot 3 surveys only or additional to MBES data in Lots 1 & 2?

P12 of the specs (section 4.12 to 4.22) mentions SBES as being part of Lot 3 activities but SBES is again mentioned on p25 (Section 8.6) as being a deliverable for “each HI”.

Response

I can confirm that the single-beam (SBES) requirement only applies to Lot 3.

As part of Lot 3 there is the potential for some SBES works. Where required, the specific SBES details will be described in the Lot 3 Hydrographic Instructions when issued.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'R. Skeats', with a small flourish at the end.
