CALL-OFF SPECIAL TERMS

Special Term 1 – COVID 19

Notwithstanding anything else to the contrary in this Call-Off Contract but without prejudice to the terms of the Supplier's Service Offer as a result of the COVID-19 pandemic and the UK Government's recent instructions/guidance, Vodafone and its subcontractors are required to implement a number of measures in order to protect its employees, its customers and the general UK population. These measures will apply to this Call-Off Contract until the instructions/ guidance from the UK Government changes.

Accordingly there may be a delay to the provisioning, installation, support and maintenance elements of its Services for the following areas:

- the provisioning, installation and testing of Services which require access to or working at Customer premises.
- the maintenance and repair of the Services which require access to or working at Customer premises.

Notwithstanding the above, Vodafone will prioritise essential work at Customer premises for critical national infrastructure customers designated as such by the UK Government at all times.

In cases where, in Vodafone's opinion, providing the Services would present a risk to the health and safety of Vodafone's employees (or those of its sub-contractors), the Customer, its employees and users, or the public, Vodafone will be obliged to place work on such Services into a delay status and will adjust the dates included in any project implementation plan (or similar delivery plan) accordingly.

Core Terms (version 3.0.5)

Crown
Commercial
Service

Core Terms

1. Definitions used in the contract

1.1 Interpret this Contract using Joint Schedule 1 (Definitions).

2. How the contract works

2.1 The Supplier is eligible for the award of Call-Off Contracts during the Framework Contract Period.

2.2 CCS doesn't guarantee the Supplier any exclusivity, quantity or value of work under the Framework Contract.

2.3 CCS has paid one penny to the Supplier legally to form the Framework Contract. The Supplier acknowledges this payment.

2.4 If the Buyer decides to buy Deliverables under the Framework Contract it must use Framework Schedule 7 (Call-Off Award Procedure) and must state its requirements using Framework Schedule 6 (Order Form Template and Call-Off Schedules). If allowed by the Regulations, the Buyer can:

- make changes to Framework Schedule 6 (Order Form Template and Call-Off Schedules)
- create new Call-Off Schedules
- exclude optional template Call-Off Schedules
- use Special Terms in the Order Form to add or change terms

2.5 Each Call-Off Contract:

- is a separate Contract from the Framework Contract
- is between a Supplier and a Buyer
- includes Core Terms, Schedules and any other changes or items in the completed Order Form
- survives the termination of the Framework Contract

2.6 Where the Supplier is approached by an eligible buyer requesting Deliverables or substantially similar goods or services, the Supplier must tell them about this Framework Contract before accepting their order. The Supplier will promptly notify CCS if the eligible buyer won't use this Framework Contract.

2.7 The Supplier acknowledges it has all the information required to perform its obligations under each Contract before entering into a Contract. When information is provided by a Relevant Authority no warranty of its accuracy is given to the Supplier.

2.8 The Supplier won't be excused from any obligation, or be entitled to additional Costs or Charges because it failed to either:

- verify the accuracy of the Due Diligence Information
- properly perform its own adequate checks

2.9 CCS and the Buyer won't be liable for errors, omissions or misrepresentation of any information.

2.10 The Supplier warrants and represents that all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.

3. What needs to be delivered

3.1 All deliverables

3.1.1 The Supplier must provide Deliverables:

- that comply with the Specification, the Framework Tender Response and, in relation to a Call-Off Contract, the Call-Off Tender (if there is one)
- to a professional standard
- using reasonable skill and care
- using Good Industry Practice
- using its own policies, processes and internal quality control measures as long as they don't conflict with the Contract
- on the dates agreed
- that comply with Law

3.1.2 The Supplier must provide Deliverables with a warranty of at least 90 days from Delivery against all obvious defects.

3.2 Goods clauses

3.2.1 All Goods delivered must be new, or as new if recycled, unused and of recent origin.

3.2.2 All manufacturer warranties covering the Goods must be assignable to the Buyer on request and for free.

3.2.3 The Supplier transfers ownership of the Goods on Delivery or payment for those Goods, whichever is earlier.

3.2.4 Risk in the Goods transfers to the Buyer on Delivery of the Goods, but remains with the Supplier if the Buyer notices damage following Delivery and lets the Supplier know within 3 Working Days of Delivery.

3.2.5 The Supplier warrants that it has full and unrestricted ownership of the Goods at the time of transfer of ownership.

3.2.6 The Supplier must deliver the Goods on the date and to the specified location during the Buyer's working hours.

3.2.7 The Supplier must provide sufficient packaging for the Goods to reach the point of Delivery safely and undamaged.

3.2.8 All deliveries must have a delivery note attached that specifies the order number, type and quantity of Goods.

3.2.9 The Supplier must provide all tools, information and instructions the Buyer needs to make use of the Goods.

3.2.10 The Supplier must indemnify the Buyer against the costs of any Recall of the Goods and give notice of actual or anticipated action about the Recall of the Goods.

3.2.11 The Buyer can cancel any order or part order of Goods which has not been Delivered. If the Buyer gives less than 14 days notice then it will pay the Supplier's reasonable and proven costs already incurred on the cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.

3.2.12 The Supplier must at its own cost repair, replace, refund or substitute (at the Buyer's option and request) any Goods that the Buyer rejects because they don't conform with Clause 3. If the Supplier doesn't do this it will pay the Buyer's costs including repair or re-supply by a third party.

3.3 Services clauses

3.3.1 Late Delivery of the Services will be a Default of a Call-Off Contract.

3.3.2 The Supplier must co-operate with the Buyer and third party suppliers on all aspects connected with the Delivery of the Services and ensure that Supplier Staff comply with any reasonable instructions.

3.3.3 The Supplier must at its own risk and expense provide all Supplier Equipment required to Deliver the Services.

3.3.4 The Supplier must allocate sufficient resources and appropriate expertise to each Contract.

3.3.5 The Supplier must take all reasonable care to ensure performance does not disrupt the Buyer's operations, employees or other contractors.

3.3.6 The Supplier must ensure all Services, and anything used to Deliver the Services, are of good quality and free from defects.

3.3.7 The Buyer is entitled to withhold payment for partially or undelivered Services, but doing so does not stop it from using its other rights under the Contract.

4 Pricing and payments

4.1 In exchange for the Deliverables, the Supplier must invoice the Buyer for the Charges in the Order Form.

4.2 CCS must invoice the Supplier for the Management Charge and the Supplier must pay it using the process in Framework Schedule 5 (Management Charges and Information).

4.3 All Charges and the Management Charge:

- exclude VAT, which is payable on provision of a valid VAT invoice

Core Terms

- include all costs connected with the Supply of Deliverables

4.4 The Buyer must pay the Supplier the Charges within 30 days of receipt by the Buyer of a valid, undisputed invoice, in cleared funds using the payment method and details stated in the Order Form.

4.5 A Supplier invoice is only valid if it:

- includes all appropriate references including the Contract reference number and other details reasonably requested by the Buyer
- includes a detailed breakdown of Delivered Deliverables and Milestone(s) (if any)
- doesn't include any Management Charge (the Supplier must not charge the Buyer in any way for the Management Charge)

4.6 The Buyer may retain or set-off payment of any amount owed to it by the Supplier if notice and reasons are provided.

4.7 The Supplier must ensure that all Subcontractors are paid, in full, within 30 days of receipt of a valid, undisputed invoice. If this doesn't happen, CCS or the Buyer can publish the details of the late payment or non-payment.

4.8 If CCS or the Buyer can get more favourable commercial terms for the supply at cost of any materials, goods or services used by the Supplier to provide the Deliverables and that cost is reimbursable by the Buyer, then CCS or the Buyer may either:

- require the Supplier to replace its existing commercial terms with the more favourable terms offered for the relevant items
- enter into a direct agreement with the Subcontractor or third party for the relevant item

4.9 If CCS or the Buyer uses Clause 4.8 then the Framework Prices (and where applicable, the Charges) must be reduced by an agreed amount by using the Variation Procedure.

4.10 CCS and the Buyer's right to enter into a direct agreement for the supply of the relevant items is subject to both:

- the relevant item being made available to the Supplier if required to provide the Deliverables
- any reduction in the Framework Prices (and where applicable, the Charges) excludes any unavoidable costs that must be paid by the Supplier for the substituted item, including any licence fees or early termination charges

4.11 The Supplier has no right of set-off, counterclaim, discount or abatement unless they're ordered to do so by a court.

5. The buyer's obligations to the supplier

5.1 If Supplier Non-Performance arises from an Authority Cause:

Core Terms

- neither CCS or the Buyer can terminate a Contract under Clause 10.4.1
- the Supplier is entitled to reasonable and proven additional expenses and to relief from Delay Payments, liability and Deduction under this Contract
- the Supplier is entitled to additional time needed to make the Delivery
- the Supplier cannot suspend the ongoing supply of Deliverables

5.2 Clause 5.1 only applies if the Supplier:

- gives notice to the Party responsible for the Authority Cause within 10 Working Days of becoming aware
- demonstrates that the Supplier Non-Performance only happened because of the Authority Cause
- mitigated the impact of the Authority Cause

6. Record keeping and reporting

6.1 The Supplier must attend Progress Meetings with the Buyer and provide Progress Reports when specified in the Order Form.

6.2 The Supplier must keep and maintain full and accurate records and accounts on everything to do with the Contract for 7 years after the End Date.

6.3 The Supplier must allow any Auditor access to their premises to verify all contract accounts and records of everything to do with the Contract and provide copies for an Audit.

6.4 The Supplier must provide information to the Auditor and reasonable co-operation at their request.

6.5 If the Supplier is not providing any of the Deliverables, or is unable to provide them, it must immediately:

- tell the Relevant Authority and give reasons
- propose corrective action
- provide a deadline for completing the corrective action

6.6 The Supplier must provide CCS with a Self Audit Certificate supported by an audit report at the end of each Contract Year. The report must contain:

- the methodology of the review
- the sampling techniques applied
- details of any issues
- any remedial action taken

6.7 The Self Audit Certificate must be completed and signed by an auditor or senior member of the Supplier's management team that is qualified in either a relevant audit or financial discipline.

7. Supplier staff

7.1 The Supplier Staff involved in the performance of each Contract must:

- be appropriately trained and qualified
- be vetted using Good Industry Practice and the Security Policy
- comply with all conduct requirements when on the Buyer's Premises

7.2 Where a Buyer decides one of the Supplier's Staff isn't suitable to work on a contract, the Supplier must replace them with a suitably qualified alternative.

7.3 If requested, the Supplier must replace any person whose acts or omissions have caused the Supplier to breach Clause 27.

7.4 The Supplier must provide a list of Supplier Staff needing to access the Buyer's Premises and say why access is required.

7.5 The Supplier indemnifies CCS and the Buyer against all claims brought by any person employed by the Supplier caused by an act or omission of the Supplier or any Supplier Staff.

8. Rights and protection

8.1 The Supplier warrants and represents that:

- it has full capacity and authority to enter into and to perform each Contract
- each Contract is executed by its authorised representative
- it is a legally valid and existing organisation incorporated in the place it was formed
- there are no known legal or regulatory actions or investigations before any court, administrative body or arbitration tribunal pending or threatened against it or its Affiliates that might affect its ability to perform each Contract
- it maintains all necessary rights, authorisations, licences and consents to perform its obligations under each Contract
- it doesn't have any contractual obligations which are likely to have a material adverse effect on its ability to perform each Contract
- it is not impacted by an Insolvency Event
- it will comply with each Call-Off Contract

8.2 The warranties and representations in Clauses 2.10 and 8.1 are repeated each time the Supplier provides Deliverables under the Contract.

8.3 The Supplier indemnifies both CCS and every Buyer against each of the following:

- wilful misconduct of the Supplier, Subcontractor and Supplier Staff that impacts the Contract
- non-payment by the Supplier of any tax or National Insurance

8.4 All claims indemnified under this Contract must use Clause 26.

8.5 CCS or a Buyer can terminate the Contract for breach of any warranty or indemnity where they are entitled to do so.

8.6 If the Supplier becomes aware of a representation or warranty that becomes untrue or misleading, it must immediately notify CCS and every Buyer.

8.7 All third party warranties and indemnities covering the Deliverables must be assigned for the Buyer's benefit by the Supplier.

9. Intellectual Property Rights (IPRs)

9.1 Each Party keeps ownership of its own Existing IPRs. The Supplier gives the Buyer a non-exclusive, perpetual, royalty-free, irrevocable, transferable worldwide licence to use, change and sub-license the Supplier's Existing IPR to enable it to both:

- receive and use the Deliverables
- make use of the deliverables provided by a Replacement Supplier

9.2 Any New IPR created under a Contract is owned by the Buyer. The Buyer gives the Supplier a licence to use any Existing IPRs and New IPRs for the purpose of fulfilling its obligations during the Contract Period.

9.3 Where a Party acquires ownership of IPRs incorrectly under this Contract it must do everything reasonably necessary to complete a transfer assigning them in writing to the other Party on request and at its own cost.

9.4 Neither Party has the right to use the other Party's IPRs, including any use of the other Party's names, logos or trademarks, except as provided in Clause 9 or otherwise agreed in writing.

9.5 If there is an IPR Claim, the Supplier indemnifies CCS and each Buyer against all losses, damages, costs or expenses (including professional fees and fines) incurred as a result.

9.6 If an IPR Claim is made or anticipated the Supplier must at its own expense and the Buyer's sole option, either:

- obtain for CCS and the Buyer the rights in Clause 9.1 and 9.2 without infringing any third party IPR
- replace or modify the relevant item with substitutes that don't infringe IPR without adversely affecting the functionality or performance of the Deliverables

10. Ending the contract

10.1 The Contract takes effect on the Start Date and ends on the End Date or earlier if required by Law.

10.2 The Relevant Authority can extend the Contract for the Extension Period by giving the Supplier no less than 3 Months' written notice before the Contract expires.

10.3 Ending the contract without a reason

10.3.1 CCS has the right to terminate the Framework Contract at any time without reason or liability by giving the Supplier at least 30 days' notice and if it's terminated Clause 10.5.2 to 10.5.7 applies.

10.3.2 Each Buyer has the right to terminate their Call-Off Contract at any time without reason or liability by giving the Supplier not less than 90 days' written notice and if it's terminated Clause 10.5.2 to 10.5.7 applies.

10.4 When CCS or the buyer can end a contract

10.4.1 If any of the following events happen, the Relevant Authority has the right to immediately terminate its Contract by issuing a Termination Notice to the Supplier:

- there's a Supplier Insolvency Event
- there's a Contract Default that is not corrected in line with an accepted Rectification Plan
- the Relevant Authority rejects a Rectification Plan or the Supplier does not provide it within 10 days of the request
- there's any material default of the Contract
- there's a Default of Clauses 2.10, 9, 14, 15, 27, 32 or Framework Schedule 9 (Cyber Essentials) (where applicable) relating to any Contract
- there's a consistent repeated failure to meet the Performance Indicators in Framework Schedule 4 (Framework Management)
- there's a Change of Control of the Supplier which isn't pre-approved by the Relevant Authority in writing
- there's a Variation to a Contract which cannot be agreed using Clause 24 (Changing the contract) or resolved using Clause 34 (Resolving disputes)
- if the Relevant Authority discovers that the Supplier was in one of the situations in 57 (1) or 57(2) of the Regulations at the time the Contract was awarded
- the Court of Justice of the European Union uses Article 258 of the Treaty on the Functioning of the European Union (TFEU) to declare that the Contract should not have been awarded to the Supplier because of a serious breach of the TFEU or the Regulations
- the Supplier or its Affiliates embarrass or bring CCS or the Buyer into disrepute or diminish the public trust in them

10.4.2 CCS may terminate the Framework Contract if a Buyer terminates a Call-Off Contract for any of the reasons listed in Clause 10.4.1.

10.4.3 If there is a Default, the Relevant Authority can, without limiting its other rights, request that the Supplier provide a Rectification Plan.

10.4.4 When the Relevant Authority receives a requested Rectification Plan it can either:

- reject the Rectification Plan or revised Rectification Plan, giving reasons
- accept the Rectification Plan or revised Rectification Plan (without limiting its rights) and the Supplier must immediately start work on the actions in the Rectification Plan at its own cost,

unless agreed otherwise by the Parties

10.4.5 Where the Rectification Plan or revised Rectification Plan is rejected, the Relevant Authority:

- must give reasonable grounds for its decision
- may request that the Supplier provides a revised Rectification Plan within 5 Working Days

10.4.6 If any of the events in 73 (1) (a) to (c) of the Regulations happen, the Relevant Authority has the right to immediately terminate the Contract and Clause 10.5.2 to 10.5.7 applies.

10.5 What happens if the contract ends

Where the Relevant Authority terminates a Contract under Clause 10.4.1 all of the following apply:

10.5.1 The Supplier is responsible for the Relevant Authority's reasonable costs of procuring Replacement Deliverables for the rest of the Contract Period.

10.5.2 The Buyer's payment obligations under the terminated Contract stop immediately.

10.5.3 Accumulated rights of the Parties are not affected.

10.5.4 The Supplier must promptly delete or return the Government Data except where required to retain copies by law.

10.5.5 The Supplier must promptly return any of CCS or the Buyer's property provided under the terminated Contract.

10.5.6 The Supplier must, at no cost to CCS or the Buyer, co-operate fully in the handover and re-procurement (including to a Replacement Supplier).

10.5.7 The following Clauses survive the termination of each Contract: 3.2.10, 6, 7.2, 9, 11, 14, 15, 16, 17, 18, 34, 35 and any Clauses and Schedules which are expressly or by implication intended to continue.

10.6 When the supplier can end the contract

10.6.1 The Supplier can issue a Reminder Notice if the Buyer does not pay an undisputed invoice on time. The Supplier can terminate a Call-Off Contract if the Buyer fails to pay an undisputed invoiced sum due and worth over 10% of the annual Contract Value within 30 days of the date of the Reminder Notice.

10.6.2 If a Supplier terminates a Call-Off Contract under Clause 10.6.1:

- the Buyer must promptly pay all outstanding Charges incurred to the Supplier
- the Buyer must pay the Supplier reasonable committed and unavoidable Losses as long as the Supplier provides a fully itemised and costed schedule with evidence - the maximum value of this payment is limited to the total sum payable to the Supplier if the Contract had not been terminated
- Clauses 10.5.4 to 10.5.7 apply

10.7 When subcontracts can be ended

At the Buyer's request, the Supplier must terminate any Subcontracts in any of the following events:

- there is a Change of Control of a Subcontractor which isn't pre-approved by the Relevant Authority in writing
- the acts or omissions of the Subcontractor have caused or materially contributed to a right of termination under Clause 10.4
- a Subcontractor or its Affiliates embarrasses or brings into disrepute or diminishes the public trust in the Relevant Authority

10.8 Partially ending and suspending the contract

10.8.1 Where CCS has the right to terminate the Framework Contract it can suspend the Supplier's ability to accept Orders (for any period) and the Supplier cannot enter into any new Call-Off Contracts during this period. If this happens, the Supplier must still meet its obligations under any existing Call-Off Contracts that have already been signed.

10.8.2 Where CCS has the right to terminate a Framework Contract it is entitled to terminate all or part of it.

10.8.3 Where the Buyer has the right to terminate a Call-Off Contract it can terminate or suspend (for any period), all or part of it. If the Buyer suspends a Contract it can provide the Deliverables itself or buy them from a third party.

10.8.4 The Relevant Authority can only partially terminate or suspend a Contract if the remaining parts of that Contract can still be used to effectively deliver the intended purpose.

10.8.5 The Parties must agree any necessary Variation required by Clause 10.8 using the Variation Procedure, but the Supplier may not either:

- reject the Variation
- increase the Charges, except where the right to partial termination is under Clause 10.3

10.8.6 The Buyer can still use other rights available, or subsequently available to it if it acts on its rights under Clause 10.8.

11. How much you can be held responsible for

11.1 Each Party's total aggregate liability in each Contract Year under this Framework Contract (whether in tort, contract or otherwise) is no more than £100,000.

11.2 Each Party's total aggregate liability in each Contract Year under each Call-Off Contract (whether in tort, contract or otherwise) is no more than the greater of £5 million or 150% of the Estimated Yearly Charges unless specified in the Call-Off Order Form

11.3 No Party is liable to the other for:

- any indirect Losses
- Loss of profits, turnover, savings, business opportunities or damage to goodwill (in each case

whether direct or indirect)

11.4 In spite of Clause 11.1 and 11.2, neither Party limits or excludes any of the following:

- its liability for death or personal injury caused by its negligence, or that of its employees, agents or Subcontractors
- its liability for bribery or fraud or fraudulent misrepresentation by it or its employees
- any liability that cannot be excluded or limited by Law
- its obligation to pay the required Management Charge or Default Management Charge

11.5 In spite of Clauses 11.1 and 11.2, the Supplier does not limit or exclude its liability for any indemnity given under Clauses 7.5, 8.3, 9.5, 12.2 or 14.9 or Call-Off Schedule 2 (Staff Transfer) of a Contract.

11.6 Each Party must use all reasonable endeavours to mitigate any Loss or damage which it suffers under or in connection with each Contract, including any indemnities.

11.7 When calculating the Supplier's liability under Clause 11.1 or 11.2 the following items will not be taken into consideration:

- Deductions
- any items specified in Clause 11.5

1. General Principles

1.1 Overview

Business Continuity Management (“BCM”) is a discipline that ensures a pre-planned response to any potential threats that if realised, could interfere with normal business operations.

Vodafone United Kingdom’s (“VFUK”) BCM approach has been designed to support our strategic business objectives through providing a framework for organisational resilience. VFUK are certified to ISO 22301, International Standard for best practice BCM. Through VFUK’s BCM approach we reasonably endeavor to ensure that the critical activities underpinning our global infrastructure can continue to provide services to our customers in the event of any type of incident.

Vodafone’s Business Resilience Policy covers 4 pillars: - Business Continuity Management, Crisis Management, Physical Security and Technology Resilience including Disaster Recovery.

VFUK takes BCDR divides this area into two separate but complementary divisions: - Business Continuity and Disaster Recovery

1.2 Purpose & Scope

The purpose of the Business Continuity Plan is to provide details of the response and management of an incident impacting the services provided to the Customer, which cannot be effectively managed through the ‘Business as Usual’ (“BAU”) processes stipulated in the Standard Service Offer.

This Plan does not include a technical description of services and resilience. This is provided in the Customer Solution Design document as applicable for the Services provided.

2. Business Continuity Plan

The BCP has been developed and will be subject to review in accordance with the customer contract requirements (as a minimum annually where Vodafone will provide the latest whitepaper, and certificate) to ensure it is fit for purpose and to provide assurance of continuity of services. A copy of VFUK’s Resilience Whitepaper which provides details of the overall BCM approach together with a copy of the ISO22301 BCM Certificate will be provided annually (Refer to Appendix A & B)..

A BCP is underpinned by a Business Impact Analysis (BIA) and will detail arrangements that are to be invoked to ensure that the business operations facilitated by the services remain supported in the event of failure. The BIA also determines the Recovery Time Objectives (“RTOs”) and Recovery Point Objectives (“RPO”) from the point of the incident occurring. BC Strategies/Contingencies are in place to support the critical activities and dependencies including People, Location(s), Technology, Suppliers. Communications & Information Security. For each functional area, the BIA will identify the level of criticality for the recovery timeframes.

Using the results from the BIA, the impacted teams are able to identify the most appropriate option for reducing the likelihood of a disruption, shorten the period of disruption and limit the impact to the Customer. All VFUK functional areas have BCPs in place. The following teams provide services to Customer: -

1. Executive Summary

Vodafone UK (VFUK) is committed to being a resilient organisation. We invest significant time and resource into ensuring that we are able to respond effectively to adverse events and recover quickly to enable us to continue to deliver business activities and critical services to our customers, whilst safeguarding our people, network and brand.

We view resilience as an overarching discipline that encompasses a number of interrelated activities and functions, including Business Continuity (BC) Management, Crisis Management, Technology Resilience and Physical and Personnel Security. In order to ensure we measure ourselves against internationally recognised standards we invest in maintaining ISO certification across the areas that support our overarching resilience. We hold current ISO 22301, ISO 27001, ISO 9001, ISO 20000 certification and we align ourselves with the principles and attributes detailed in ISO 22316; organisational resilience.

2. Major Incident Management

VFUK experience a number of Major Incidents (MI) across our fixed and mobile estate each year and we have an established process and team in place to deal with any such incident. An MI is an event that has significantly impacted, or has the potential to impact customers, either directly or indirectly.

The MI Team is staffed 24x7x365 to provide operational command and control of an MI to ensure it is dealt with in a timely manner, mitigating any impact that would be felt by our customers.

In the event that an MI escalates above and beyond pre-defined thresholds, a Crisis will be declared and will be supported by the Crisis Management (CM) Process.

3. Crisis Management

VFUK have an established CM Process as part of our BC Management System (BCMS). The Process is flexible and can be activated to provide support in the event of any abnormal and unstable situation that provides, or may develop into, a threat to our business activities and services that support our customers, people, network and brand.

Within the CM Process we have a dedicated Crisis Team who co-ordinate and deliver CM, supported by nominated senior management personnel from across the business. All functions within the Crisis Team provide cover 24x7x365 and VFUK exercise and test their CM Process throughout the year to enable us to respond in the most efficient manner during a time of Crisis.

VFUK have a dedicated Crisis Plan in place to support the CM Process and this contains a number of predetermined responses to specific Crisis events that are continually improved based on experience and exercise learning.

4. Business Continuity Management

VFUK has an established BCMS, certified to ISO 22301 that covers all our voice and data services that VFUK provide for our global telecommunication services. Through the delivery of a robust BCMS we enhance our resilience by ensuring that we can continue to operate our business critical functions and services to acceptable, pre-defined, levels during disruptive incidents and crisis. We also subject our Supply Chain to stringent BCMS reviews to satisfy our requirements around our supplier's resilience.

The BCMS is delivered by a dedicated and experienced Team of BC professionals supported by functional coordinators to ensure the accurate capture of the elements that contribute to functional Business Impact Analysis (BIAs) and Business Continuity Plans (BCPs), VFUK ensure that every area within our corporate structure is included within functional BIAs and BCPs, all of which are subject to annual review and exercising.

5. Technology Resilience

5.1 Our Network

Network Continuity

We use the latest technology to ensure our network is as resilient as possible with Network Operations Centres providing best in class network monitoring, management and service support. We work 24x7x365 to ensure that any issues on the network are identified, prioritised and addressed quickly and effectively so that any downtime is kept to a minimum.

Network Site Integrity

Our core network sites are equipped with physical and environmental control systems such as backup power systems, fire prevention and air conditioning to enable us to maintain the continuity of services that run through them.

Physical Controls

Our core sites are housed in secure premises which meet our physical security standards mandated by our dedicated Physical Security Team.

Environmental Controls

Our core sites have onsite generator backup capable of supporting the total electrical demand with an onsite fuel supply for multiple days as well as battery backup. The power design (generators, batteries and mains) and auto cutover is regularly tested to ensure uninterrupted power supply to all the core network equipment.

5.2 Mobile Network Resilience

The VFUK Mobile Network core is designed for reliability and availability, with design principles providing high availability operation at an element level within a site and geographic resilience at a network level ensuring platforms are not single points of failure. The network design is such that where a Radio Base Station provides both 2G, 3G and 4G coverage, each technology is connected to a different Mobile Telephone Exchange(MTX) to ensure continued availability even in the event of a complete MTX failure.

5.3 Fixed Network Resilience

Our VFUK Fixed Network is a state of the art converged network (known as RedStream) that provides connectivity for all our mobile, consumer and enterprise customers. The core network has been designed, built and tested with resilient equipment, physically diverse links and sites to offer high availability in the event of a failure, enabling us to maintain continuity of service to our customers.

To maximise the resilience benefits of our VFUK Fixed Network, customers should carefully consider their desired level of service availability and resilience when purchasing services from VFUK, such as dual access or backup links from the customer premise(s) to our network sites will be more resilient than single access links. Further information on resilience options are available from your Account Management Team.

5.4 Our IT Systems

The VFUK IT Operations function is aligned to IT Service Management processes such as Risk, Change, Incident and Problem management with escalation and notification processes in place to assess and oversee the co-ordination of the response to any potential risk or service impacting events that may occur.

The categorisation of our VFUK IT Systems is based on the criticality of the business processes that they support, with internal service level agreements and key performance indicators defined.

A framework for testing the technical capability of our systems is in place. A key objective of the framework is to maintain team and technical levels of preparedness in order to respond to incidents, which have the potential to impact service to our customers.

6. Information Security

VFUK run an Information Security Management System (ISMS) in line with the recommendations and requirements of ISO 27001. Our ISMS ensures that we have a systematic approach to managing confidential and sensitive information to ensure it remains secure at all times.

7. Technology Security

VFUK Technology Security Operations mission is to protect VF People, Technology and Process. Through dedicated teams of Governance, Architecture, Consultancy and Operations it delivers the life cycle of; Plan, Design, Build, Run and Check, to deliver our technical solution (security by design) and support VFUK in fulfilling its legal and regulatory requirements.

Included in the Technology Security function is a technology Security Operations Centre (SOC), supported by a dedicated intelligence function that combines internal expertise with best in class vendor support in order to ensure we protect our network and associated functions. The SOC and intelligence teams liaise closely with their opposite numbers in VF Group, allowing us to expand our coverage of global threats that could pose a risk to VFUK technology.

8. Physical & Personnel Security

VFUK have a dedicated Physical Security Team in place who are responsible for ensuring that our estate meets our physical security standards to ensure that we adequately protect our people and network. Their responsibilities include annual audits of our critical estate, the monitoring of access control and the setting of our minimum physical security standards. To further enhance our physical security infrastructure, we have a dedicated 24x7x365 physical security operations centre (VSOC) to provide live monitoring and management of our sites and their access, as well as provide situational updates to our field based teams and assist in the coordination of any blue light responses.

We take our security culture seriously and we have dedicated champions across the business to ensure that our people practice what we mandate. This is further supported by enduring awareness campaigns.

9. Risk Management

We have a robust risk management process, delivered by a dedicated internal Corporate Risk function, which is subject to regular reviews and continuous improvement. It ensures risks are identified, recorded, managed and mitigated as appropriate throughout our business including customer specific operational risks. 6.3.2 Measurement of answer and response times of the Service Desk will be based on the time taken for the Supplier to respond to the Buyer's call or email. Calls and emails receiving an automated response or calls placed into a queuing system shall be deemed not to have been answered.

6.4 Provisioning

6.4.1 The Services will be provisioned at the outset in accordance with any Implementation Plan and any failure to meet Milestones will be dealt with in accordance with the terms of this Call-Off Contract.

6.4.2 Any delivery of Services or part thereof subsequent to the successful conclusion of the Implementation Plan will be subject to the Service Levels identified in the Variation to this Contract that incorporates those changes; or failing any other agreed Service Level, in accordance with the Supplier's standard provisioning Service Levels.

7. Service Credits

7.1 This section sets out the basic agreed formula used to calculate a Service Credit payable to the Buyer as a result of a Service Level Failure in a given Service Period.

7.2 Service Credit payments are subject to the Service Credit Cap.

7.3 Annex 1 to this Part B of this Call-Off Schedule details the Service Credits available for each Service Level Performance Criterion in the event that the applicable Service Level Threshold is not met by the Supplier.

7.4 The Buyer shall use the Performance Monitoring Reports supplied by the Supplier under Part C (Performance Monitoring) of this Call-Off Schedule to verify the calculation and accuracy of any Service Credits applicable to each Service Period.

- 7.5 Service Credits are a reduction of the amounts payable in respect of the Services and do not include VAT. The Supplier shall set-off the value of any Service Credits against the appropriate invoice in accordance with calculation formula in Annex 1 of Part B of this Call-Off Schedule.
- 7.6 The amount of Service Credit is determined by the tables in Annex 1 of this Part B of Call-Off Schedule 14, using the calculated Achieved Service Level Performance Criteria (e.g. Achieved Availability), the Service Level Threshold and the Service Failure Threshold and is calculated by using the straight line formula below:

Service Credit % = $(m \cdot (a - x) + c)$, where

a is the Service Level Threshold (%) below which Service Credits become payable;

b is the Service Failure Threshold (%);

x is the Achieved Service Level Performance Criteria (%) for a Service Period;

c is the minimum Service Credit (%) payable if the Achieved Service Level falls below the Service Level Threshold;

d is the maximum Service Credit (%) payable if the Achieved Service Level Reaches the Service Failure Threshold;

m is a coefficient defined for the services, which is calculated from the Formula $m = (d - c) / (a - b)$, that is the slope of the straight line;

- 7.7 Consequently, the Service Credit regime is shown diagrammatically as follows:

Call-Off Schedule 14 (Service Levels)

7.8 The Service Credit (£) is subsequently derived as follows:

Service Credit (£) = contract charges x Service Credit (%)

7.9 An example Service Credit calculation for the Availability of a service, (offered herein for illustrative purposes only), is as follows:

Criteria	Coefficient (m)	Service Level Threshold % (a)	Service Failure Threshold % (b)	Minimum Service Credit % (c)	Maximum Service Credit % (d)
Availability	5.0	99.5%	95.00%	2.5%	25%

7.9.1 The Achieved Availability of a service was recorded as 97% for a Service Period. For this service, the Service Level Threshold is 99.5% and the Service Failure Threshold is 95%. The contract charges for the service for the Service Period are £3,000. Previous performance had exceeded the Service Level Threshold for Availability.

7.9.2 In this illustration example:

$$\text{Service Credit \%} = 5.0 \times (99.5 - 97.0) + 2.5 = 15\%;$$

therefore the Service Credit calculation is:

$$\text{Service Credit (£)} = £3,000 \times 15\% = £450.$$

7.10 An example Service Credit calculation for Incident Resolution is as follows:

Criteria	Coefficient (m)	Service Level Threshold % (a)	Service Failure Threshold % (b)	Minimum Service Credit % (c)	Maximum Service Credit % (d)
Incident Resolution	0.25	95.0%	85.00%	2.5%	5%

7.10.1 The Service Level Threshold is 95% of all incidents to be resolved within a specified time with the Service Failure Threshold being 85%. Assume that the Buyer has 80 Incidents within a Service Period, 10 of which were not resolved within the specified time. Therefore, the Achieved Incident Resolution is 87.5% for the Service Period. The contract charges for all the services that the Buyer is consuming are £50,000 per Service Period. Previous performance had exceeded the Service Level Threshold for Incident Resolution Times.

7.10.2 In this illustration example:

$$\text{Service Credit \%} = 0.25 \times (95 - 87.5) + 2.5 = 4.375\%$$

Consequently, the illustrated Service Credit calculation is:

$$\text{Service Credit (£)} = £50,000 \times 4.375\% = £2,187.50.$$
