

## Medicines & Healthcare products Regulatory Agency

### **SPECIFICATION FOR CLEANING AND PERSONAL SUPPLIES**

#### Introduction:

The Medicines and Healthcare products Regulatory Agency (MHRA) enhances and improves the health of millions of people every day through the effective regulation of medicines and medical devices, underpinned by science and research.

MHRA South Mimms Site (SMS) is based at Blanche Lane, South Mimms, Potters Bar, Herts, EN6 3QG.

The agency is made up of c.1100 staff working across two main centres and peripatetically across the UK and abroad.

MHRA is a global leader in the characterisation, standardisation and control of biological medicines. MHRA plays a major role in assuring the quality of biological medicines worldwide through the provision of biological reference materials, by testing products and carrying out research. Our expert scientists also provide advice on a routine basis and in response to emergencies.

A significant proportion of government's emissions come from its supply chain, and we expect all our suppliers to share our commitment to reducing emissions over time to achieve Net Zero. The MHRA have reviewed our measures to reduce carbon emissions across our supply chain. In addition to applying PPN 06/21 when procuring new major contracts, MHRA have decided to extend the requirement across all new contracts which could impact our ambition to achieving Net Zero by 2030. To this end we are requesting suppliers to provide us with a copy of their Carbon Reduction Plan if they have one.

MHRA would like to award a contract to a single supplier to provide the list of products in the basket of goods below:

<b>PRODUCT*</b>	<b>PACK / BOX SIZE</b>	<b>ESTIMATED AMOUNT PURCHASED PER YEAR</b>
