Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

[Instructions to Contractors: Please provide details of your organisation’s baseline emissions below. If your organisation has not previously assessed or reported emissions, please detail this below and use your first reporting period as your Baseline.]

Baseline Year: [20xx]
Additional Details relating to the Baseline Emissions calculations.
[Instructions to Contractors: Add commentary regarding your Baseline Emissions as required: e.g. historic baseline which deviates from the requirements under this measure (e.g. no prior Scope 3 emissions reporting), where there is no previous

reporting and the creation of a new baseline due to substantial organisational change or restructuring]

Emissions reduction targets

[Instructions to Contractors: If existing emissions reduction targets are in place for your organisation, please provide details below. If you have no previous emissions reduction commitment, or if this is your organisation's first carbon footprint, please provide targets for your organisation]

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. We project that carbon emissions will decrease over the next five years to XX tCO₂e by 20XX. This is a reduction of XX%.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 20XX baseline. The carbon emission reduction achieved by these schemes equate to XX tCO₂e, a XX%ge reduction against the 20XX baseline and the measures will be in effect when performing the contract

[Instructions to Contractors: Briefly provide details of some of your completed carbon reduction projects. This is for information only. This may include environmental management measures such as certification schemes like ISO14001 or PAS 2060,

signing up to SBTI or specific measures you have taken such as; the adoption of LED/PIR lighting controls, changes to policy resulting in a reduction in company travel and flights or the electrification of the company fleet.]

In the future we hope to implement further measures such as:

[Instructions to Contractors: Briefly provide details of some of any likely/proposed future carbon reduction projects. This is for information only.]

13.4. the Comptroller and Auditor General may examine such documents as he may reasonably require which are owned, held or otherwise within the control of the Contractor and may require the Contractor to provide such oral and/or written explanations as he considers necessary. This Clause does not constitute a requirement or agreement for the examination, certification or inspection of the accounts of the Contractor under Section 6(3)(d) and (5) of the National Audit Act 1983. The Parties will bear their own costs when an audit is undertaken unless the audit identifies a material Default by the Contractor, in which case the Contractor will repay the Authority's reasonable costs in connection with the audit.

14.6.2. is less than or equal to **£3,000,000** but greater than **£1,000,000**, then the figure of **£5,000,000** at Clause 14.5.3 of this Schedule 2 shall be replaced with **£3,000,000**

- 14.8.5. any fine, penalty or costs incurred by the Authority pursuant to Law any costs incurred by the Authority in defending any proceedings which result in such fine or penalty.

- 15.6.** The provisions of any insurance or the amount of cover shall not relieve the Contractor of any liabilities under the Contract. It shall be the responsibility of the Contractor to determine the amount of insurance cover that will be adequate to enable the Contractor to satisfy any liability referred to in Clause 14 (Indemnity and Limitation of Liability) of this Schedule 2.

16. TERMINATION

16.1. In the case of a breach of any of the terms of this Contract by the Contractor that is capable of remedy (including, without limitation any failure to pay any sums due under this Contract), the Authority may, without prejudice to its other rights and remedies under this Contract, issue a Breach Notice and shall allow the Contractor the opportunity to remedy such breach in the first instance via a remedial proposal put forward by the Contractor ("**Remedial Proposal**") before exercising any right to terminate this Contract. Such Remedial Proposal must be agreed with the Authority (such agreement not to be unreasonably withheld or delayed) and must be implemented by the Contractor in accordance with the timescales referred to in the agreed Remedial Proposal. Once agreed, any changes to a Remedial Proposal must be approved by the Parties in writing. Any failure by the Contractor to:

16.2. The Authority may terminate the Contract, or terminate the provision of any part of the Services, with immediate effect by serving a Termination Notice to the Contractor:

- 16.2.1. if the Contractor commits a material breach of any of the terms of this Contract which is:
 - (a) not capable of remedy; or
 - (b) in the case of a breach capable of remedy, which is not remedied in accordance with a Remedial Proposal; or

- 16.2.2. if the Contractor has been served with a valid Breach Notice having already been served with at least two (2) previous valid Breach Notices within the last twelve (12) Month rolling period as a result of any previous material breaches of this Contract which are capable of remedy (whether or not the Contractor has remedied the breach in accordance with a Remedial Proposal). The twelve (12) Months rolling period is the twelve (12) Months immediately preceding the date of the third Breach Notice.
- 16.2.3. if the Contractor does not commence delivery of the Services by the Services Commencement Date;

- 16.2.5. if the Contractor purports to assign, Sub-contract, novate, create a trust in or otherwise transfer or dispose of this Contract in breach of Clause 25 (Assignment, Novation and Sub-contracting) of this Schedule 2;
- 16.2.6. if the Contractor undergoes a change of control within the meaning of sections 450 and 451 of the Corporation Tax Act 2010 (other than for an intra-group change of control) without the prior written consent of the Authority and the Authority shall be entitled to withhold such consent if, in the reasonable opinion of the Authority, the proposed change of control will have a material impact on the performance of this Contract or the reputation of the Authority; or
- 16.2.7. pursuant to and in accordance with Clause 20.6.3(a) (Carbon Footprint / Net Zero Obligations) of Schedule 1, Clause 3.6 (Contractor Personnel), Clause **Error! Reference source not found.** (Intellectual Property Rights), Clause

16.2.8. where the warranty given by the Contractor pursuant to Clause 9 (Warranties) of this Schedule 2 is materially untrue;

16.2.9. where

(a) the warranty given by the Contractor pursuant to Clause 9.2 of this Schedule 2 is materially untrue; or

(b) the Contractor commits a material breach of its obligation to notify the Authority of any Occasion of Tax Non-Compliance as required by Clause 9.2.1 of this Schedule 2; or

(c) the Contractor fails to provide details of proposed mitigating factors required by Clause 9.2.2 of this Schedule 2 which in the reasonable opinion of the Authority, are acceptable; or

16.2.10. on the occurrence of any of the statutory provisions contained in Regulation 73(1)(a) to (c) of the Regulations; or

16.2.11. if the Contractor commits a breach of the Anti-slavery Policy or the Authority's Anti-slavery Policy.

16.3. If the Authority, acting reasonably, has good cause to believe that there has been a material deterioration in the financial circumstances of the Contractor and/or any third party guaranteeing the obligations of the Contractor under this Contract and/or any material Sub-contractor of the Contractor when compared to any information provided to and/or assessed by the Authority as part of any procurement process or other due diligence leading to the award of this Contract to the Contractor or the entering into a Sub-contract by the Contractor, the following process shall apply:

16.3.1. the Authority may (but shall not be obliged to) give notice to the Contractor requesting adequate financial or other security and/or assurances for due performance of its material obligations under this Contract on such reasonable and proportionate terms as the Authority may require within a reasonable time period as specified in such notice; and

- 16.3.2. a failure or refusal by the Contractor to provide the financial or other security and/or assurances requested in accordance with Clause 16.3 of this Schedule 2 in accordance with any reasonable timescales specified in any such notice issued by the Authority shall be deemed a breach of this Contract by the Contractor and shall be referred to and resolved in accordance with the Dispute Resolution Procedure.
- 16.4.** Notwithstanding any other provision in the Contract, the Authority shall be entitled to terminate this Contract with immediate notice should any information supplied by the Contractor, contained in this Contract or obtained by the Authority (including but not limited to financial or other due diligence information provided by the Contractor or obtained by the Authority) be inaccurate, misleading and/or otherwise give rise to reasonable suspicion by the Authority of fraud.
- 16.5.** The Contractor may, by issuing a Termination Notice to the Authority, terminate this Contract if the Authority fails to pay an undisputed sum due to the Contractor under this Contract which in aggregate exceeds £84,693.51 and such amount remains outstanding 40 Working Days after the receipt by the Authority of a notice of non-payment from the Contractor, save that such right of termination shall not apply where the failure to pay is due to the Authority exercising its rights under Clause 8.8 (Recovery of Sums Due) of this Schedule 2.
- 17. CONSEQUENCES OF EXPIRY OR EARLY TERMINATION OF THE CONTRACT**
- 17.1.** Where the Authority terminates the Contract under Clause 16 (Termination) of this Schedule 2 and then makes other arrangements for the supply of Services, the Authority may recover from the Contractor the cost reasonably incurred of making those other arrangements and any additional expenditure incurred by the Authority throughout the remainder of the Term. The Authority shall take all reasonable steps to mitigate such additional expenditure. Where the Contract is terminated under Clause 16 (Termination) of this Schedule 2 no further payments shall be made by the Authority to the Contractor (for Services supplied by the Contractor prior to termination and in accordance with the Contract but where the payment has yet to be made by the Authority), until the Authority has established the final cost of arranging an alternative supplier of the Services.
- 17.2.** Save as otherwise expressly provided in the Contract:
- 17.2.1. termination or expiry of the Contract shall be without prejudice to any rights, remedies or obligations accrued under the Contract prior to termination or expiration and nothing in the Contract shall prejudice the right of either Party to recover any amount outstanding at such termination or expiry; and

- 17.2.2. termination of the Contract shall not affect the continuing rights, remedies or obligations of the Authority or the Contractor under Clause 8 (Price and Payment), Clause 10 (Intellectual Property), Clause 12 (Protection of Personal Data), Clause 13 (Records Retention and Right of Audit), Clause 14 (Indemnity and Limitation of Liability), Clause 15 (Insurance), Clause 17 (Consequences of Expiry or Early Termination of the Contract), Clause 18 (Recovery upon Expiry or Early Termination of the Contract), Clause 26 (Prevention of Fraud and Bribery), Clause 27 (Confidential Information), Clause 28 (Freedom of Information Act), Clause 31 (Official Secrets Acts and Finance Act), Clauses 37.2 to 37.4 (Waiver), Clause 37.5 (Cumulative Remedies) and Clauses 37.10 to 37.11 (Law and Jurisdiction) of Schedule 2.

- 18.1.1. immediately return to the Authority all Confidential Information, Personal Data, Authority Existing IPR and any New IPR in its possession or in the possession or under the control of any permitted suppliers or Sub-contractors, which was obtained or produced in the course of providing the Services (but excluding copies of such Confidential Information, Personal Data or other information that the Contractor is required to retain pursuant to the Law or for regulatory purposes);

- 18.2.** If the Contractor fails to comply with Clause 18.1.1 and 18.1.2 of this Schedule 2, the Authority may recover possession of the items mentioned in those Clauses. The Contractor shall grant, and shall procure that any Sub-contractor shall grant, a licence to the Authority for its appointed agents to enter (for the purposes of such recovery) any premises of the Contractor or its Sub-contractors where any such items may be held.
- 19. DISPUTE RESOLUTION**
- 19.1.** The Authority and the Contractor shall attempt in good faith to negotiate a settlement to any dispute between them arising out of or in connection with the Contract within twenty (20) Working Days of either notifying the other Party of the dispute and such efforts shall involve the escalation of the dispute to senior management of each Party.
- 19.2.** Nothing in this dispute resolution procedure shall prevent the Authority or the Contractor from seeking from any court of competent jurisdiction an interim order restraining the other Party from doing any act or compelling the other Party to do any act.
- 19.3.** If the dispute cannot be resolved by the Authority and the Contractor pursuant to Clause 19.1 of this Schedule 2, the Authority and the Contractor shall refer it to mediation pursuant to the procedure set out in Clause 19.5 of this Schedule 2 unless:

- 19.5.2. the Authority and the Contractor shall within ten (10) Working Days of the appointment of the Contract Mediator meet with him in order to agree a programme for the exchange of all relevant information and the structure to be adopted for negotiations to be held. If considered appropriate, the Authority and the Contractor may at any stage seek assistance from the CEDR to provide guidance on a suitable procedure;
- 19.5.3. unless otherwise agreed, all negotiations connected with the dispute and any settlement agreement relating to it shall be conducted in confidence and without prejudice to the rights of the Parties in any future proceedings;
- 19.5.4. if the Parties reach agreement on the resolution of the dispute, the agreement shall be reduced to writing and shall be binding on the Parties once it is signed by their duly authorised representatives;
- 19.5.5. failing agreement, either of the Parties may invite the Contract Mediator to provide a non-binding but informative opinion in writing. Such an opinion shall be provided on a without prejudice basis and shall not be used in evidence in any proceedings relating to the Contract without the prior written consent of both Parties; and
- 19.5.6. if the Parties fail to reach agreement in the structured negotiations within sixty (60) Working Days of the Contract Mediator being appointed, or such longer period as may be agreed by the Parties, then any dispute or difference between them may be referred to the courts.

20. CONFLICT OF INTEREST

- 20.1. The Contractor recognises that the Authority is subject to PPN 01/19: Applying Exclusions in Public Procurement, Managing Conflicts of Interest and Whistleblowing: (<https://www.gov.uk/government/publications/procurement-policy-note-0119-applying-exclusions-in-public-procurement-managing-conflicts-of-interest-and-whistleblowing>).

The Contractor shall comply with the provision of this Clause 20 (Conflict of Interest) in order to assist the Authority with its compliance with its obligations under that PPN.

- 20.2.** The Contractor shall take appropriate steps to ensure that neither the Contractor nor the Contractor Personnel are placed in a position where (in the reasonable opinion of the Authority) there is or may be an actual conflict, or a potential conflict, between the pecuniary or personal interest of the Contractor or the Contractor Personnel and the duties owed to the Authority and other Contracting Authorities under the provisions of the Contract.
- 20.3.** The Contractor shall promptly notify and provide full particulars to the Authority or the relevant other Contracting Authority if such conflict arises or may reasonably be foreseen as arising.
- 20.4.** Without prejudice to the foregoing, the Contractor shall not knowingly act at any time during the Term of the Contract in any capacity for any person, firm or company in circumstances where a conflict of interest between such person, firm or company and the Authority shall thereby exist in relation to the Services. The Contractor shall immediately report to the Authority Representative any matters which involve or could potentially involve a conflict of interest as referred to in this Clause 20 (Conflict of Interest).
- 20.5.** The Authority reserves the right to terminate the Contract with immediate effect by giving written notice to the Contractor and/or take such other steps it deems necessary where, in the reasonable opinion of the Authority, there is or may be an actual conflict, or a potential conflict, between the pecuniary or personal interests of the Contractor and the duties owed to the Authority under the provisions of the Contract. The action of the Authority pursuant to this Clause 20 (Conflict of Interest) shall not prejudice or affect any right of action or remedy which shall have accrued or shall thereafter accrue to the Authority.

21. CHANGE MANAGEMENT

- 21.1.** The Contractor acknowledges to the Authority that the Authority's requirements for the Services may change during the Term and the Contractor shall not unreasonably withhold or delay its consent to any reasonable Variation or addition to the Specification and Tender, as may be requested by the Authority from time to time.
- 21.2.** Any change to the Services or other Variation to this Contract shall only be binding once it has been agreed either:

- 21.2.1. in accordance with the Change Control Process if the Key Provisions specify that changes are subject to a formal change control process; or
- 21.2.2. if the Key Provisions make no such reference, in writing and signed by an authorised representative of both Parties.

Change in Law

21.3. The Contractor shall neither be relieved of its obligations to supply the Services in accordance with the terms and conditions of this Contract nor be entitled to an increase in the Contract Price as the result of:

- 21.3.1. a General Change in Law; or
- 21.3.2. a Specific Change in Law where the effect of that Specific Change in Law on the Services is reasonably foreseeable at the Commencement Date.

21.4. If a Specific Change in Law occurs or will occur during the Term (other than as referred to in Clause 21.3.2 of this Schedule 2), the Contractor shall:

- 21.4.1. notify the Authority as soon as reasonably practicable of the likely effects of that change, including:
 - (a) whether any Variation is required to the Services, the Contract Price or this Contract; and
 - (b) whether any relief from compliance with the Contractor's obligations is required; and
- 21.4.2. provide the Authority with evidence:
 - (a) that the Contractor has minimised any increase in costs or maximised any reduction in costs, including in respect of the costs of its Sub-contractors;
 - (b) as to how the Specific Change in Law has affected the cost of providing the Services; and
 - (c) demonstrating that any expenditure that has been avoided has been taken into account in amending the Contract Price.

- 21.5.** Any Variation in the Contract Price or relief from the Contractor's obligations resulting from a Specific Change in Law (other than as referred to in Clause 21.3.2 of this Schedule 2) shall be implemented in accordance with the Clause 21.2 of this Schedule 2.

22. FORCE MAJEURE

- 22.1.** Subject to the remaining provisions of this Clause 22 (Force Majeure) (and, in relation to the Contractor, subject to its compliance with its obligations in Clause 19 (Business Continuity and Disaster Recovery) of Schedule 1 and 0 (Business Continuity and Disaster Recovery Plan), if applicable), a Party may claim relief under this Clause 22 (Force Majeure) from liability for failure to meet its obligations under this Contract for as long as and only to the extent that the performance of those obligations is directly affected by a Force Majeure Event. Any failure or delay by the Contractor in performing its obligations under this Contract which results from a failure or delay by an agent, Sub-contractor or supplier shall be regarded as due to a Force Majeure Event only if that agent, Sub-contractor or supplier is itself impeded by a Force Majeure Event from complying with an obligation to the Contractor.
- 22.2.** The Affected Party shall as soon as reasonably practicable issue a Force Majeure Notice, which shall include details of the Force Majeure Event, its effect on the obligations of the Affected Party and any action the Affected Party proposes to take to mitigate its effect.
- 22.3.** If the Contractor is the Affected Party, it shall not be entitled to claim relief under this Clause 22 (Force Majeure) to the extent that consequences of the relevant Force Majeure Event:
- 22.3.1. are capable of being mitigated, but the Contractor has failed to do so;
 - 22.3.2. should have been foreseen and prevented or avoided by a prudent provider of services similar to the Services, operating to the standards required by this Contract; or
 - 22.3.3. are the result of the Contractor's failure to comply with its BCDR Plan (except to the extent that such failure is also due to a Force Majeure Event that affects the execution of the BCDR Plan).
- 22.4.** Subject to Clause 22.5, as soon as practicable after the Affected Party issues the Force Majeure Notice, and at regular intervals thereafter, the Parties shall consult in good faith and use reasonable endeavours to agree any steps to be taken and an appropriate timetable in which those steps should be taken, to enable continued provision of the Services affected by the Force Majeure Event.

- 22.5.** The Parties shall at all times following the occurrence of a Force Majeure Event and during its subsistence use their respective reasonable endeavours to prevent and mitigate the effects of the Force Majeure Event. Where the Contractor is the Affected Party, it shall take all steps in accordance with Good Industry Practice to overcome or minimise the consequences of the Force Majeure Event.
- 22.6.** Where, as a result of a Force Majeure Event:
- 22.6.1. an Affected Party fails to perform its obligations in accordance with this Contract, then during the continuance of the Force Majeure Event:
- (a) the other Party shall not be entitled to exercise any rights to terminate this Contract in whole or in part as a result of such failure other than pursuant to Clause 22.7; and
 - (b) neither Party shall be liable for any Default arising as a result of such failure;
- 22.6.2. the Contractor fails to perform its obligations in accordance with this Contract:
- (a) the Authority shall not be entitled during the continuance of the Force Majeure Event to exercise its rights under Clause 15 (Authority Step-In Rights) of Schedule 1 (if applicable) as a result of such failure; and
 - (b) the Contractor shall be entitled to receive payment of the Contract Price (or a proportional payment of them) only to the extent that the Services (or part of the Services) continue to be performed in accordance with the terms of this Contract during the occurrence of the Force Majeure Event.
- 22.7.** Either Party may terminate this Contract by issuing a Termination Notice to the other Party if a Force Majeure Event endures for a continuous period of ninety (90) days and this Contract shall terminate on the date specified in the Termination Notice.
- 22.8.** The Affected Party shall notify the other Party as soon as practicable after the Force Majeure Event ceases or no longer causes the Affected Party to be unable to comply with its obligations under this Contract.
- 22.9.** Relief from liability for the Affected Party under this Clause 22 (Force Majeure) shall end as soon as the Force Majeure Event no longer causes the Affected Party to be unable to comply with its obligations under this Contract and shall not be dependent on the serving of notice under Clause 22.8.

23. EQUALITY AND DIVERSITY

23.1. The Contractor shall:

- 23.1.1. ensure that (a) it does not, whether as employer or as supplier of the Services, engage in any act or omission that would contravene the Equality Legislation, and (b) it complies with all its obligations as an employer or supplier of the Services as set out in the Equality Legislation and take reasonable endeavours to ensure the Contractor Personnel do not unlawfully discriminate within the meaning of the Equality Legislation;
- 23.1.2. in the management of its affairs and the development of its equality and diversity policies, cooperate with the Authority in light of the Authority's obligations to comply with its statutory equality duties whether under the Equality Act 2010 or otherwise. The Contractor shall take such reasonable and proportionate steps as the Authority considers appropriate to promote equality and diversity, including race equality, equality of opportunity for disabled people, gender equality, and equality relating to religion and belief, sexual orientation and age; and
- 23.1.3. impose on all its Sub-contractors and suppliers, obligations substantially similar to those imposed on the Contractor by this Clause 23 (Equality and Diversity).
- 23.1.4. The Contractor shall meet reasonable requests by the Authority for information evidencing the Contractor's compliance with the provisions of this Clause 23 (Equality and Diversity).

- Annex 2 Authority Clarification Questions and Responses

1. Introduction

- Our white paper 'People at the Heart of Care' set out our 10-year vision for Adult Social Care (ASC) in England. The social care workforce is at the heart of our reform plans and our vision is for an ASC workforce where people feel supported, recognised, and there are opportunities to develop and progress.
- This vision was reaffirmed in the implementation plan 'Next Steps to put People at the Heart of Care' which was published in April 2023. This plan outlined government funding specifically to develop and support the ASC workforce and ensure that those who receive care are provided with choice, control, and support to live independent lives; that they receive outstanding quality and tailored care; and that people find adult social care fair and accessible.
- The ASC workforce is one of our greatest assets. Yet there are long-standing challenges in recruiting and retaining a workforce of the right size with the right skills, as recognised in the People at the Heart of Care white paper. Currently, a significant proportion of the ASC workforce do not hold a relevant qualification or have access to good quality learning and development opportunities, which contributes to high turnover of staff.
- Tackling these challenges and improving the perception of social care as a career is our priority. Our workforce reforms, which will see us invest £250 million, will provide the workforce with more support to develop and progress within their careers and will improve the quality, safety, and personalisation of care.

2. Background to the authority

- The Health and Social Care system, led by the Department of Health and Social Care (DHSC/the Authority), touches the lives of everyone in the country. The authority is responsible for ensuring the system consistently delivers a high standard of care and secures the best possible value for money from over £120bn of taxpayer's funds allocated by Parliament.

3. Purpose and Background

- To support the delivery of recognising skills for careers in care in England we are providing funding for hundreds of thousands of training places. We need to ensure that funded learning and development being accessed by the ASC workforce is of good quality, easily accessible and meets the needs of the workforce and users of care services. There is a known issue in the sector of variable quality in the delivery of training and qualifications, highlighting our objective to improve access to good quality training.

- DHSC requires a Contractor with the skills and expertise to quality assure training and qualifications for the ASC workforce and signpost high-quality training to the sector that is aligned to DHSC's Care Workforce Pathway. This will require the Contractor to work with existing qualification regulators and delivery partners (for example Ofqual), Awarding Organisations, Training Providers, the ASC sector and those with lived experience. Stakeholders are set out further under Section 9.
- We want a Contractor to work with the Authority to provide a list of eligible training and qualifications for the DHSC funded learning and development offer. The list of eligible learning and development will include training and qualifications that meet the needs of the adult social care workforce, are up to date, and have been developed to a high quality. We want to develop a list that supports the workforce find good quality training in an easily accessible way which will support a positive user experience. This will support users to understand what training and qualifications are eligible to be funded and where they can access them. We expect this list to be iteratively developed, reviewed and updated throughout the duration of the contract.
- Specifically, DHSC has the following requirements that a Contractor would need to provide:
 - **REQUIREMENT 1:** Develop and deliver a review and approvals process for qualifications (levels 1 – 5) developed by awarding organisations against recognised qualification specifications.
 - **REQUIREMENT 2:** Develop and deliver an endorsed provider function that quality assures learning provider organisations and maintains lists of suitable qualifications and training for the sector based on scans of the landscape and changes needed (including reviewing against the devolved nations).
 - **REQUIREMENT 3:** Deliver additional work on reviewing qualification content and developing qualification specifications on an ad-hoc basis (call off).
 - **REQUIREMENT 4:** Oliver McGowan Mandatory Training on Learning Disability and Autism
- We would require this Contractor to be in place by April 2024 and be operationally prepared for launch no later than May 2024 (see section 9).
- The Authority require a Contractor to work at pace to deliver on our key requirements from April 2024. The Contractor will be expected to carry out quality assurance work up to the end of the current Spending Review period (March 2025), for more information please refer to the contract term section.

- The Authority welcomes bids from a consortium of Contractors. In the event that a consortia bids for this contract the authority will require information on the lead bidder, other consortia members, and a breakdown of requirements/values delivered by each member.

4. background to the adult social care workforce

- Adult social care (ASC) covers social work, personal care, and practical support for all adults with a physical disability, learning disability, autism, physical or mental illness. Around 950,000 adults in England receive some form of long-term social care support, which is focused on enabling a sustained and independent quality of life.
- Currently, 56% of the ASC workforce do not hold a qualification related to social care. Skills for Care analysis shows that those with a relevant qualification are less likely to leave the workforce. Our policies are designed to address a market failure in access to, and the provision of, high-quality training for people performing these critical caring roles, and demonstrate to a largely privately-run sector the benefits of investing in workforce skills and development. Government intervention is needed to reduce the negative impacts of high workforce turnover and increase the living standards of those with care needs.
- The ASC sector is a largely local, SME-dominated, private market. The fragmented nature of the ASC market also creates a coordination failure around the inability to ensure the quality of training undertaken by the workforce. There is no standardised approach to the delivery or accreditation of training and qualifications, so quality is inconsistent. Employers do not always have good access to information about what good training looks like or how to access this training.

5. background: overview of relevant elements of the authority's funded training offer

- We want the social care workforce to be recognised as the professional workforce it is, and to improve people's experience of a career in care. This means supporting people to work at the top of their competence, to feel empowered to deliver high-quality care, and to develop and progress in their careers.
- We are doing this by clearly defining what a career in social care means - creating universal definitions of roles and the knowledge, skills, behaviours, and values needed to perform them.

- Our funded training offer within the ASC workforce reform portfolio, focused on the delivery of targeted funding for learning and development, can be summarised as follows:

Care Workforce Pathway

- The Pathway will be delivered in phases:
 - Phase 1 of the Pathway, which was published on 10th January 2024 is the first part of a universal pathway setting out the knowledge, skills, values and behaviours needed to work in adult social care, as well as a clear career structure for the workforce. The focus of this first phase is on direct care roles. This version of the Pathway was published in a text-based format on GOV.UK ahead of a digital version of the Pathway that will be launched in 2024.
 - Phase 1 content review: based on the outputs of planned programme of Early Adopters (a small number of social care providers who will test the fundamental elements of the Pathway) we will review and as appropriate revise the first phase content of the Pathway, publishing an updated version alongside the second phase of the Pathway.
 - Phase 2 development: will involve co-developing the second phase of the Pathway, for personal assistants, Deputy Managers, Registered Managers and Enhanced Care Worker role categories, which we anticipate will be published in 2024.

Targeted Upskilling

- This scheme will fund c.115,000 short courses and qualifications for the non-registered ASC workforce from Spring 2023 – April 2025.
- The scheme will be delivered in phases:
 - (Spring 2024 – March 2025) fund quality assured training and qualifications administered by NHSBSA on behalf of DHSC from a list of quality assured learning and development. This will be targeted at key workforce areas including dementia, digital, leadership, delegated health care tasks, neurodivergence & complex needs and support for registered managers.

Level 2 Adult Social Care Certificate

- This scheme will provide funded support for places for the new Level 2 Adult Social Care Certificate. Over time we want this new qualification to become the baseline standard for all new care workers to work towards when they join the profession.

Continuing Professional Development (CPD)

- This scheme will provide funding for eligible registered health professionals including registered nurses and Allied Health Professionals to contribute towards the cost of their Continuous Professional Development (CPD).

Training Funds Reimbursement Scheme (TFRS)

- NHS Business Services Authority (NHSBSA), an Arm's Length Body (ALB) of DHSC, has been commissioned to be the delivery partner to deliver a digital solution to administer funding support payments to the sector towards targeted upskilling, Level 2 Adult Social Care Certificate and CPD (as set out above).

Skills Record and Hub

- The skills record will give care workers portable ownership of their training record and help them identify opportunities to progress. It simplifies the hiring and onboarding process for care providers and will facilitate better development conversations and activities between providers and their staff. It will improve monitoring, design and implementation of workforce initiatives for policy makers.
- The Hub will bring together the fragmented online and offline workforce content and create a trusted central place for the current and prospective ASC workforce. It will be digital home for the ASC workforce, and anyone interested in joining it, who want to access information, guidance, support and funding.

Oliver McGowan Mandatory Training

- People with a learning disability and autistic people experience significant health inequalities and on average die earlier than the general population. A substantial proportion of these deaths are avoidable. Research indicates that a lack of knowledge on learning disability and autism amongst the health and social care workforce likely contributes to premature deaths.
- The Health and Care Act 2022 set out a new legal requirement for providers registered with the Care Quality Commission (CQC) to ensure their staff receive specific training on learning disability and autism, appropriate to their role. This came into force on 1 July 2022. We will publish a Code of Practice ('Code') to outline how providers can meet this new requirement. The consultation on the [draft Code](#) fully closed on 16 October 2023 and we are currently considering the responses received to inform any final changes to the Code.
- The [Oliver McGowan Mandatory Training on Learning Disability and Autism](#) is the government's recommended training package for the health and social care workforce to meet this new requirement. There is currently no alternative training package which meets the standards set out in the draft Code. A list of endorsed training providers which can demonstrate they can deliver Oliver McGowan

Mandatory Training to the ASC workforce against a set of necessary delivery criteria is required. This will contribute towards improving the quality of training offered and access to and uptake of training within the ASC sector.

- Whilst the legal training requirement applies to CQC-registered providers only, it is our ambition that the whole health and social care workforce have the right knowledge and skills to provide safe and appropriate care for autistic people and people with a learning disability.

- The Contractor will develop proposals for an approvals process for level 1-5 Ofqual regulated qualifications developed against specifications that could be implemented in the second year of the contract. The Contractor will work with Awarding Organisations and other relevant partners to develop a proposal which will include, how the Contractor would:

- The Contractor will develop and run an approvals process whereby Awarding Organisations can submit Level 2 Adult Social Care Certificate qualifications developed against the qualification's specification (already developed and published) for review and approval.
- The Contractor will work with Awarding Organisations and other relevant partners to develop new or updated qualifications that are needed in the adult social care sector by providing an approvals process for Ofqual regulated qualifications developed against specifications.
- The Contractor will support Awarding Organisations in developing Ofqual regulated qualifications in advance of a qualification being submitted for approval by the Contractor.

- The Contractor will work with the Authority and other relevant partners such as may be identified to ensure that the approvals process is kept under review and meet the needs of the sector.
- The Contractor will be required to report on progress, such as the number of qualifications submitted and approved and any changes requested by the Contractor, to the authority at regular intervals.
- The Contractor will make a list of approved Level 2 Adult Care Certificate qualifications available to the Adult Social Care sector.

- The Contractor will request that Awarding Organisations who have received approval provide the Contractor with a list of associated training providers who will deliver their qualification, and evidence of the Awarding Organisations quality assurance process for their Training Providers.
- The Contractor will be responsible for wave two of Care Certificate approvals (July 2024 onwards), see milestone section for more information.

REQUIREMENT 2.A/B/C: Develop and deliver an endorsed provider function that quality assures training provider organisations and maintains lists of suitable qualifications for the sector based on scans of the landscape and changes needed

- The Authority requires a Contractor to develop and run an open endorsed provider function whereby training providers can apply for their training courses and qualifications to be quality assured against a quality standard for inclusion as an eligible course within the Targeted Upskilling fund. The product of this process will be a list of training, qualifications, training providers, and cost contributions that can meet the scale of the scheme and the needs of the workforce. The process must be transparent and equitable to all training providers at a national level. Training providers will be required to evidence the level and duration of their training, which will be detailed in the lists. The Contractor will review the evidence of the training and qualification submitted to develop proposals for the authority's cost contribution.
- In developing and delivering the endorsed provider function the Contractor must ensure that the process balances the importance of quality assurance and endorsement against burdens placed on training providers, ensuring that they are proportionate.

Develop a Quality Standard

- The Contractor will be responsible for creating a quality standard for learning and development requirements for training courses, training providers and qualifications, utilising existing best practice quality assurance processes within the sector (including Awarding Organisations, qualification development, and DfE quality assured list of qualifications). The quality standard is required to be clearly identified to create a benchmark against which all training and qualifications will be measured, including the delivery, and content, of training and qualifications.
- The developed standard should clearly outline to training providers and relevant adult social care stakeholders the structure, process, and outcome of adhering to the developed framework. The standards should explicitly indicate the criteria organisations will be assessed against to deliver a quality benchmark for learning and development within the ASC sector. The standards must be publicly available to relevant stakeholders and at no cost for stakeholders to access or become eligible for funded training.

- The developed quality standard must include at least 3 quality markers embedded into the standard for learning and development.
- The Contractor must be transparent in the development of the quality standard and administration of the quality assurance process. Development of a clear, transparent framework which allows training providers to understand: what is required to successfully progress through quality assurance checks, how they will be able to maintain their approved status, and how standards will be reviewed periodically is essential to ensuring their trust in the process.
- The Contractor will be required to develop a national communications and engagement strategy setting out how they will engage with Awarding Organisations and Training Providers, encouraging them to submit qualifications and training for quality assurance.

Develop and Run an Endorsed Provider Process

- The Contractor will develop and run an open endorsed provider function whereby training providers can apply for their training courses, CPD, and qualifications to be quality assured against a quality standard for inclusion as an eligible course within the Targeted Upskilling fund.
- As part of the evaluation criteria for training providers' courses and qualifications to be on the Quality Assured accredited list, their willingness to engage with the Skills record being developed by the Authority should be measured. The Contractor engaging with the Skills record would significantly increase uptake and enable the Authority to monitor and identify gaps in access to training across England.
- The Contractor will be required to compile reports of assessment results and share accordingly to ensure transparency in quality assurance processes to training providers and other relevant stakeholders. The reports are required to provide an-depth explanation of the issue, quality assurance process and outcomes. The Contractor is required to communicate with the sector effectively including in the promotion of the benchmark of quality which training providers are supported to adhere to. This will include compiling suitable external facing reports, containing assessment of results. The Contractor will be required to demonstrate how they will engage with the sector to support the delivery of quality assured training.
- The Contractor must demonstrate an ability to engage and understand the requirements of Supervisors and Trainers and other relevant individuals identified by the Authority when assessing the deliverability of training and qualifications to the sector. Ensure that supervisors and trainers are selected, trained and receive appropriate support.

- The Contractor will be required to create evaluation criteria and supporting materials for training providers to self-assess against. The Contractor will ensure that feedback tools are incorporated into evaluation process of training provider credentials to provide transparency in quality assurance process.
- The Contractor will ensure that it supports training providers through the endorsement process and achieve high levels of user satisfaction.
- The Contractor will be required to test this endorsed provider quality assurance process with a small number of training courses and qualifications identified by the authority before launch.

Develop a list of eligible quality training and qualifications for funded learning and development

- Provide a full list of training and qualifications, and endorsed providers that meet the quality standard requirement outlined above. The list will provide the potential scope of eligible training for of the Targeted Upskilling scheme, building on the initial scope for the spring 2024 launch set by DHSC. The list will then be iteratively developed throughout the delivery period to respond to the needs of the sector.
- Provide a list of high quality CPD for registered professionals including registered nurses and allied health professionals who work in a social care setting that meets the relevant professional body requirements. This would include collating and reviewing existing lists which meet the quality standard set by the Contractor. This will not be the exclusive list of funded CPD but provide signposting to the sector on good quality learning and development courses (training/qualifications/modules), professional learning E.G conferences or self-directed learning e.g. articles/books.
- The first iteration of this list will be required in June 2024 and will identify eligible training courses, CPD, and qualifications to be funded from June 24. It will build on the interim list of eligible training and qualifications provided by the authority. The Contractor must set out whether and how courses and qualifications on the interim list will need to be reviewed against the new quality standard.
- Demonstration of how training providers evaluate and update courses according to the needs of the sector and evidence of applicable training meeting the care standards required by Care Quality Commission (CQC). Eligible training courses will need to evidence how they meet the care standards required by CQC.
- The Contractor will be required to engage with the Adult Social Care workforce and demonstrate how sector need will be reflected in the list of eligible training, including local and skills needs. The Contractor will be required to survey a representative sample of the Adult Social Care workforce to determine need.

- The list will need to be equitable to all training providers and include a range of provider sizes at a national and local level. The training courses, CPD and qualifications list will need to align to the authority's funded learning and development priorities including Leadership training, dementia training, support for registered managers, Level 2 Adult Social Care Certificate assessor capacity, delegated health care tasks, digital, neurodivergence and complex needs.
- The Contractor will be required to work with the authority to align the list of training courses, CPD and qualifications to the different role categories outlined in the Care Workforce Pathway. This list must identify which quality assured training courses, learning and development, and qualifications that link to the Care Workforce Pathway and signposts the sector to high quality training at each level of the Pathway.
- The Contractor will be required to work in collaboration with the authority in reviewing the costs of training courses, CPD and qualifications and developing a set price cost contribution against eligible training and qualifications.
- The Contractor will be required to demonstrate how this list will be reviewed and iteratively developed throughout the delivery period, and how training courses, CPD, and qualifications which have been quality assured and added to the list will be periodically reviewed to ensure that quality is maintained.
- The Contractor will be required to collaborate with NHSBSA (the Contractor who will administer the funding on behalf of the authority) on an ongoing basis to ensure the list is shared and meets NHSBSA requirements and timescales for their digital service.
- The Contractor will be required to demonstrate how training and qualifications are equitable for all, accessible, and inclusive.
- The Contractor will be required to monitor the geographical and regional spread of adult social care and training providers ensuring there is coverage across England to enable equal access to a range of training and qualification types delivered by a variety of training providers. Where the Contractor identifies gaps it will work with the authority and the sector to determine how this can be addressed to ensure equal access.
- The provided list will be developed throughout the life of the contract, the Contractor will be required to iteratively develop this list and review quality assurance of training and relevant qualifications. The Contractor will be required to regularly share the eligible list with the Authority, handover the provided eligible list to DHSC at the end of the contract and support any transition arrangements to a new provider.

REQUIREMENT 3: Delivery of additional work on reviewing training scheme or qualification content and developing qualification specifications on an ad-hoc basis (call off)

REQUIREMENT 3A: Review the content of training schemes and qualifications (levels 1-5) currently available to the sector identified by the authority

- The Contractor will review the content and purpose of specific training schemes or qualifications currently available to the Adult Social Care sector, identified by the authority, to ensure they remain fit for purpose and support the Care Workforce Pathway. Subject to agreement with the authority:
- The Contractor will work with stakeholders to agree approaches to the re-development of qualifications where identified.
- The Contractor will identify how qualifications link with the Care Workforce Pathway and make recommendations for future learning to be developed in support of the Pathway.
- The Contractor will identify where there is duplication in the qualification landscape for the workforce and recommend refinements.
- This work will be costed using the day rates set out in the commercial envelope plus any other reasonable costs.
- To commission work under this requirement the authority will submit a proposal in writing to the Contractor who will provide costings within one week. The authority will then discuss the proposal and costings with the Contractor, agree any modifications as may be necessary, and commission the work.

REQUIREMENT 3B: Develop training scheme or qualification specifications identified by the authority

- The Contractor will, subject to agreement with the authority, revise, reiterate, or develop new elements for training scheme or qualification specifications identified.
- It is important that qualifications will be recognised by the Adult Social Care sector and are developed collaboratively by those who have experience in delivering and receiving social care services and those who are experienced in developing and delivering qualifications. To ensure that specifications facilitate desired outcomes the Contractor will be required to demonstrate:
 - Ability to describe learning outcomes
 - Ability to describe assessment principles

- Ability to work collaboratively with the Adult Social Care (and where applicable health) sector to convert principles of best practice into knowledge and skills outcomes
- Ability to work collaboratively with the training and qualifications sector to design a specification that has broad support in the training and qualifications market
- Ability to work collaboratively with the Government to meet Key Performance Indicators and regularly update on work

The Authority conducted a pre-market engagement exercise to allow Contractors the opportunity to provide feedback and comments on the Specifications and Procurement approach. As a result of this exercise, Contractors raised queries and made comments, which are compiled below along with the Authority's corresponding responses. In certain instances, the comments and questions have been altered to ensure confidentiality and preserve anonymity.

4.	Clarity was sought regarding the criteria for identifying which training providers are providing training to the ASC workforce in relation to Requirement 4.A/B.	The criteria for identifying training providers have been included in the specification under requirement 4B. Annex 2 Contractor Clarification Questions and Responses

Id	Date released	Question	Answer
1	22/01/2024	Can we able to see the market Engagement power point presentation?	Information on market engagement was published on Find a Tender service and can be found here. Adult Social Care Learning and Development Quality Assurance including Oliver McGowan Mandatory Training - Find a Tender (find-tender.service.gov.uk) The exercise consisted of a draft specification and questionnaire which are also available at the link above.
2	24/01/2024	Could you able to tell us who is the incumbent?	Skills for Care are the incumbent Contractor and DHSC's main delivery partner for Social Care Workforce development and focuses on four key themes: (1) recruitment & retention: (2) improving quality of social care through prevention & wellbeing: (3) improving knowledge and skills of workforce (many self-employed) & registered managers: and (4) ensuring that future plans take account of sector experience through workforce integration.
3	24/01/2024	Could the Authority please clarify the discrepancy between the time set out in the table in paragraph 3 of Attachment 1 - ITT and paragraph 6.5 of the same document. The former states that the closing date for submitting questions for clarification to the Authority is 12.00 hrs on 01/02/2024 whereas the latter states that the closing time for raising such questions is at 17.00 hrs on the date indicated in paragraph 3. Could the Authority please confirm which time shall apply?	The deadline for clarification questions has been set to 12:00 on 01/02/2024.

4	24/01/2024	Could the Authority please clarify the meaning of 'contract workforce' for the purpose of the Social Value envelope, particularly as the sub-criteria for MAC 6.1 is pertaining tackling inequality in the contract workforce?	<p>In line with Procurement Policy Note – Taking Account of Social Value in the Award of Central Government Contracts</p> <p>PPN 06 20 Taking Account of Social Value in the Award of Central Government Contracts (3) (publishing.service.gov.uk)</p> <p>Central government organisations should use this model to take account of the additional social benefits that can be achieved in the delivery of its contracts. In this case contract workforce means employees who will be working directly or contributing to the delivery of the contract if the Contractor is successful.</p>
5	24/01/2024	Could the Authority please clarify the timing of Requirement 2 A/B/C for providing a list of eligible quality training, qualifications for funded learning and development. The table in section 10 ('Timelines for Requirements') of Attachment 2 - Specification states both the start and due date for this being June 2024. Could the Authority please clarify the due date?	<p>The Contractor will be required to provide a quality standard and develop an approvals process between April and May 2024. The Contractor will be required to test this endorsed provider quality assurance process with a small number of training courses and qualifications identified by the authority before launch in June 2024.</p> <p>The Contractor will be required to provide the first iteration of the list of eligible training courses, CPD, and qualifications to be funded in June 2024. It will build on the interim list of eligible training and qualifications provided by the authority by adding any training courses or qualifications that have successfully met the quality standard during testing.</p>
6		Could you please clarify the scope of the service. Are we correct in our understanding that the successful Contractor will not be responsible for delivering training and instead will be responsible for	The Contractor will not be expected to deliver training or qualifications. The Contractor will be responsible for the development and delivery of quality assurance functions as set out in the specification.

		developing a list of eligible training providers and qualifications, developing a review and approval process, develop a quality assurance programme etc?	
7		<p>For Requirement 4, could the Authority please elaborate how they anticipate the successful Contractor for this procurement process would need to work with the successful Contractor of the invitation to tender process currently being procured by NHSE for the Accreditation of the Oliver McGowan Mandatory Training for the co-production of accreditation standards and of an accreditation scheme, and for the accreditation of the delivery of the Oliver McGowan Mandatory Training. Could the Authority elaborate further to what is outlined in the table in section 11 ('Stakeholders') of Attachment 2 - Specification and to what is outlined in section 7 ('Breakdown of Requirements') of the same document, when referring to Requirement 4? In particular, Requirement 4A states the need to seek applications from training providers who are able to deliver the OMMT to the ASC sector and administer applications for endorsement from training providers. Could the Authority please elaborate on how this process is anticipated to operate - would this be an additional layer of approval for training providers further to accreditation? And if so, the timing of the start and</p>	<p>The Contractor is required to liaise with NHS England and the awarded organisation that is being procured for accreditation of the Oliver McGowan Mandatory Training as needed to ensure a clear endorsement process under Requirement 4 that doesn't unhelpfully duplicate any processes in place. This will depend on the successful Contractor's design of the endorsement scheme and their engagement with NHS England, as set out under Section 11. As NHSE's accreditation body is not yet appointed and an accreditation scheme has not yet been designed, the Authority cannot set exact expectations on what this will look like.</p> <p>In relation to the requirements set out in Section 7, it is expected that the endorsement scheme will be in place before an accreditation scheme begins to operate, which is the rationale behind the timelines in Section 10. The Contractor will be expected to engage with NHSE and the accreditation body when awarded, including any other partners they feel relevant, to understand how the endorsement process will cooperate with existing and future assurance and approvals processes for delivery of Oliver McGowan Mandatory Training – including accreditation when this begins to operate.</p>

		<p>due date in the table in section 10 ('Timelines for Requirements') of Attachment 2 - Specification would be subject to the timings of the accreditation process under the NHSE contract being procured concurrently. For Requirement 4B, the Specification also states the Contractor will not be expected to duplicate the existing quality assurance for trainers. If the Authority please provide more detail on how this would operate in practice.</p>	
8		<p>With regard to Attachment 2 - Specification section 19 ('Reporting Requirements'), could the Authority please clarify whether the Contractor will need to attend quarterly meetings further to providing comprehensive written reports on a quarterly basis? Section 19 states that the Contractor will need to attend monthly meetings during the first 3 months of the contract, at which the Contractor will provide concise written and verbal updates on: the progress in delivering all requirements against milestones agreed in the project plan, performance against all monthly KPIs, and any risks and planned mitigations. Then bullet point 3 of such section 19 states: The Contractor will be required to submit a comprehensive written report to the authority quarterly, setting out progress in delivering all requirements against milestones and performance against all KPIs. Please could the Authority</p>	<p>The Authority will require quarterly meetings to discuss quarterly reports to seek clarification or address any issues identified. The Contractor should be prepared to attend any such meeting and discuss performance and the contents of the quarterly report.</p>

		clarify whether the Contractor will be required to attend quarterly meetings for discussing such quarterly reports?	
9		Attachment 2 - Specification, Section 6 ('Summary of Requirements'), Requirement 2B refers to a list of quality assured training courses, learning and development and qualifications (including required detail such as course duration) that link to the Care Workforce Pathway. Requirement 2C refers to lists of quality assured qualifications and training schemes that may be recorded on the Skills Passport. Could the envisaged difference between the lists be clarified?	The content of these two lists is likely to be similar, and the authority will work with the Contractor during the development of the quality standard to determine how each should be configured. The primary difference between the lists is that they will need to be shared with separate Contractors that deliver Workforce Pathway and Skills Passport projects for the authority, who may require each list to be provided in a different format.
10		Attachment 2 - Specification, Section 7 ('Breakdown of Requirements'), Requirement 1A (last bullet point) refers to 'costings for the approvals process'. Would this be the Contractor's charge to the Authority or would this be a charge to the awarding organisation? Presumably the Authority has based this on the Spending Review reference?	Yes, this would be the Contractor's estimate for delivering the service proposals developed in requirement 1A for the authority.
11		Attachment 2 - Specification, Section 7 ('Breakdown of Requirements'), Requirement 2.A/B/C - Is the Authority able to share any information about what the employer will need to input in the NHSBSA system to claim funding against a particular programme as this information will impact how the QA processes need to be implemented and the	The authority cannot provide a comprehensive breakdown about the information employers will need to provide when accessing the NHS BSA system at this moment in time, however, the authority will facilitate contact between the Contractor and NHS BSA to ensure that all system requirements are clear and can be incorporated into the quality assurance process.

		information required in those processes?	The authority's current expectation is the employer will need to provide the full name of the training course or qualification that they are claiming for, and the awarding organisation or training provider.
12		Attachment 2 - Specification pg 11 Develop a Quality Standard, bullet point 3. Could the Authority please clarify what is meant by 'The developed quality standard must include at least 3 quality markers to be embedded into the standard for learning and development'?	The quality standard must include a minimum of three factors against which learning and development content will be assessed. The authority will collaborate with the Contractor during the development of the quality standard to determine key factors.
13		Attachment 2 - Specification mentioned on pg8 in Requirements 2C and 3A/B - Could the Authority please clarify what is specifically meant by the term 'training scheme'. Is this referring to an individual training course or a bigger scheme such as a traineeship?	For Requirement 2C this refers to individual training courses, and for 3A/B may include larger schemes.
14		Attachment 2 - Specification pg 11 bullet point 3 under the 'Develop and Run an Endorsed Provider Process' heading says: "The Contractor will be required to compile reports of assessment results and share accordingly to ensure transparency in quality assurance processes to training providers and other relevant stakeholders. The reports are required to provide an-depth explanation of the issue, quality assurance process and outcomes. The Contractor is required to communicate with the sector effectively including in the promotion of the	<p>The Contractor will be required to compile and share reports with Awarding Organisations or Training Providers who have submitted their learning and development content for quality assurance, informing them of the outcome of the assessment and any changes or improvements required. This report should help an organisation to make improvements to their course or qualification in the future.</p> <p>The Contractor will be required to compile reports, periodically, summarising the outcomes of assessments including information such as the number of courses assessed within the period and outcomes of those assessments.</p>

		benchmark of quality which training providers are supported to adhere to. This will include compiling suitable external facing reports, containing assessment of results. The Contractor will be required to demonstrate how they will engage with the sector to support the delivery of quality assured training." Could the Authority please clarify exactly what is meant by this as it sounds similar to an Ofsted report?	This will provide transparency to the adult social care sector on the nature of the process and changes or improvements requested by the Contractor to learning and development content, and how funded courses have been quality assured to align with their needs These reports should also help to promote understanding of the quality assurance process amongst Awarding Organisations and Training Providers, and identify improvements that are required to learning and development to meet the needs of the sector.
15		Attachment 2 - Specification pg 12 bullet point 1 (i.e. 4th bullet point under the 'Develop and Run an Endorsed Provider Process' heading) says: "The Contractor must demonstrate an ability to engage and understand the requirements of Supervisors and Trainers and other relevant individuals identified by the Authority when assessing the deliverability of training and qualifications to the sector. Ensure that supervisors and trainers are selected, trained and receive appropriate support." Please could the Authority clarify what is meant by supervisors?	Any individual within the sector who may be responsible for overseeing the delivery of training within a care setting.
16		Attachment 2 - Specification pg 6, bullet point 2 under the 'Targeted Upskilling' heading - the key workforce areas listed i.e. dementia, digital, leadership, delegated health care tasks, neurodivergence & complex needs and support for registered managers are not the same as the list of priority areas for funding on pg 13 in bullet point 3: "The training	<p>The authority's funded learning and development priorities are:</p> <ul style="list-style-type: none"> • Leadership training • Support for registered manager • Dementia training • Digital skills • Delegated health care tasks • Neurodivergence • Complex needs (mental health, end of life, clinical)

		courses, CPD and qualifications list will need to align to the authority's funded learning and development priorities including Leadership training, dementia training, support for registered managers, Level 2 Adult Social Care Certificate assessor capacity, delegated health care tasks, digital, neurodivergence and complex needs." Could the Authority please confirm which is the correct list?	<ul style="list-style-type: none"> • Level 2 Adult Social Care Certificate assessor capacity • Access to support for Level 4 & 5 qualifications.
17		Attachment 2 - Specification pgs 6 and 13 mention complex needs in the lists of funding priority areas. Could the Authority please confirm what specifically is meant by the term 'complex needs' ?	Complex needs are defined as: mental health, end of life, clinical.
18		Could the Authority please clarify what is specifically meant by and provide examples of 'keep records of usage' mentioned in question 6 ('Contract Management') in the Technical Envelope Return?	The Authority would like the Contractor to highlight in their response all of the contract management records the Contractor would keep when managing this contract.
19		For questions in the Technical Envelope Return and in the Social Value Envelope Return, could the Authority please clarify whether any diagrams, infographics, tables or similar can be included within the response documents (further to the Project Plan in question TE2) and if so, whether these will be excluded from the word count?	Diagrams, infographics, tables or similar may be included and will be excluded from the word count, no more than two such additional items may be submitted per question. If such accompanying material considered excessive, superfluous, or incomprehensible by evaluators it will be discounted. The authority is not obliged to provide justification for discounting any such materials.
20		Who is the incumbent at the moment if any?	[SAME AS QUESTION 2]
21		How many active test centres are there?	We are unclear on what part of the specification this refers to.

22		Who will be responsible for the test bookings and taking payments?	We are unclear what part of the specification this refers to. The Contractor will not be required to take payments from Awarding Organisations or Training Providers in delivering the QA service.
23		Approximately 115,000 courses are planned for Spring 2024 - March 2025. How much do the current courses cost and what is included?	A variety of courses and qualifications will be funded over the period, and thus the costs are variable.
24		How many instructors are in the pool?	We are unclear on what part of the specification this refers to.
25		Attachment 2 - Specification pg 4, when describing Requirement 2 it is stated that the Contractor would need to develop and deliver an endorsed provider function that quality assures learning provider organisations and maintains lists of suitable qualifications and training for the sector based on scans of the landscape and changes needed (including reviewing against the devolved nations). Later in the same Specification document the need to review against the devolved nations isn't mentioned again when providing more detail about Requirement 2 in either section 6 ('Summary of Requirements') or 7 ('Breakdown of Requirements') of the Specification. If the Authority could please clarify whether the review against devolved nations is within the scope of the contract or not for Requirement 2.	It is within scope of the contract.

26		<p>Attachment 2 - Specification pg 8, when describing Requirement 2C in Section 6 ('Summary of Requirements') it is stated: "Provide and maintain lists of quality assured qualifications and training schemes to help to create trust in learning that may be recorded on the Skills Passport. This will help to increase the portability of undertaken training. Ensuring that lists of quality assured qualifications and training schemes can be hosted and regularly updated on a central ASC workforce website DHSC are running, and that this regularly updated list is fed into the skills record mechanism." Could the Authority please clarify about the hosting of such lists on a central ASC workforce website - will this be the 'Hub' mentioned on pg 7 of the Specification (under the 'Skills Record and Hub' heading)? Could the Authority please clarify what if any hosting requirements would be required from the Contractor?</p>	<p>Lists of quality assured training and qualifications will be hosted on an online service delivered by a separate Contractor contracted by the authority. The Contractor will only be responsible for ensuring that lists are provided in a manner and format that can be easily accessed by the online service Contractor.</p> <p>The authority will facilitate contact between the Contractors after contract initiation.</p>
27		<p>Attachment 2 - Specification pgs 9-10, when describing Requirement 1B, could the Authority please clarify and confirm that bullet points 2-6 are meant to be understood only to be pertaining the Level 2 ASC Care Certificate qualifications? Otherwise there would be overlap and duplication with Requirement 1A?</p>	<p>All elements of requirement 1B relate only to the approvals process for the Level 2 Adult Social Care Certificate.</p>

28		Attachment 2 - Specification on pg 12 states: "the Contractor will be required to create evaluation criteria and supporting materials for training providers to self-assess against. The Contractor will ensure that feedback tools are incorporated into evaluation process of training provider credentials to provide transparency in quality assurance process." Could the authority please clarify what specifically is meant by the sentence: "The Contractor will ensure that feedback tools are incorporated into evaluation process of training provider credentials to provide transparency in quality assurance process."?	The Contractor will ensure that they provide feedback to training providers on the outcome of any quality assurance.
29		Attachment 2 - Specification, with regard to Requirements 2A/B/C and 4A/B in section 7 ('Breakdown of Requirements'), could the Authority please clarify whether the main driver behind such requirements is to rationalise the market, or whether it is to focus on the improvement of quality?	<p>In relation to Requirements 2A/B/C the main driver is to focus on quality improvement and ensure that the adult social care sector has access to a range of learning and development content that meets its needs.</p> <p>In relation to Requirements 4A and 4B, the driver behind this work is to improve the quality of training provided and ensure the adult social care workforce has sustained access to Oliver McGowan Mandatory Training providers in order to increase training uptake in the sector.</p>
30		Attachment 2 - Specification, with regard to Requirements 2A/B/C could the Authority please confirm that the definition of "learning / training provider" extends to in-house teams / individuals within adult social care provider organisations, under the	Yes, these in-house teams and individuals within adult social care provider organisations would be included. Subject to such organisations, teams, or individuals holding the relevant accreditations in relation to the courses and training being delivered.

		scenario where: a team / individual meets the agreed quality standard; that team / individual are delivering relevant or appropriate qualifications / programmes; the provider is managing the learning and development of their staff via this route?	
31		Attachment 2 - Specification, with regard to Requirements 2A/B/C where under the requirement to develop a list of eligible quality training and qualifications for funded learning and development there is the requirement on pg 13 to survey the ASC workforce, and specifically "The Contractor will engage a representative sample the Adult Social Care workforce" - does the authority have a pre-existing criteria for this sample (and can this be shared) or will this be determined at project initiation?	This will be determined at project initiation.
32		Attachment 2 - Specification, on pg 12 with regard to CPD for registered professionals (Requirement 2A/B/C, under the 'Develop a list of eligible quality training and qualifications for funded learning and development' heading) - will registered professionals be eligible for the Targeted Upskilling Fund? If they are not eligible, what will the requirement for the list of high quality CPD for registered professionals be related too? How will it be used?	Registered professionals will be eligible for funding from the Continuing Professional Development scheme. CPD quality assured and listed by the Contractor will not be the exclusive list of funded CPD funded by the CPD scheme but provide signposting to the sector on good quality learning and development courses: training, qualifications, modules, and professional learning e.g. conferences or self-directed learning e.g. articles/books.
33		Attachment 2 - Specification pg 8, with regard to the description	Lists of quality assured training and qualifications will be hosted on an online

		<p>of Requirement 2C in Section 6 ('Summary of Requirements') - could the Authority please clarify what format (and any technical requirements) would be required for the lists of lists of quality assured qualifications and training schemes in order for them to be hosted and regularly updated on a central ASC workforce website DHSC are running?</p>	<p>service delivered by a separate Contractor contracted by the department. The Contractor will only be responsible for ensuring that lists are provided in a manner and format that can be easily accessed by the online service Contractor.</p> <p>The authority will facilitate contact between the Contractors after contract initiation.</p>
34		<p>Attachment 3 - Draft Contract, with regard to KPI number 3 on pgs 45-46 pertaining Requirement 2, could the Authority please clarify the metric of "From the launch of the endorsed provider function in June 2024 at least 1000 members of the workforce are surveyed." In particular, this KPI has a monthly reporting frequency - could the Authority please clarify what the reporting requirement is? Is the metric requiring to conduct a survey and report on it's results to the Authority on a quarterly basis? Or could the phrase "... at least 1000 members of the workforce are surveyed" be given a wider interpretation to allow other means of engaging a representative sample the Adult Social Care workforce to determine whether their needs are accounted for in the list of eligible training and qualifications which forms part of the Targeted Upskilling Offer e.g. via other forms of consultation that are carried out and reported quarterly to the Authority?</p>	<p>The requirement is for the Contractor to conduct a monthly survey to determine sector needs, and report on the completion of this KPI on a monthly basis. Findings from the survey should be presented as part of the quarterly report.</p> <p>The authority would welcome interpretations as to how the Contractor could meet this reporting requirement, and if other forms of engagement would help to achieve the intended outcome of improved understanding of sector need.</p>

35		<p>With regard to Attachment 2 - Specification section 19 ('Reporting Requirements'), could the Authority please clarify how the successful Contractor should report on KPI 1 (pertaining Requirement 1A) and on KPI 5 (pertaining requirement 2) on a monthly basis when section 19 of the Specification seems to be stating on pg 24 that monthly reporting would only take place during the first three months of the contract? The metric required for both of the stated KPIs seem to require measuring activity beyond the initial 3 months of the contract.</p>	<p>During the initial three months of the contract the Contractor will be required to meet with the authority to report on progress in delivering the agreed requirements.</p> <p>At each monthly meeting the Contractor will provide concise written and verbal updates on: the progress in delivering all requirements against milestones agreed in the project plan, performance against all monthly KPIs, and any risks and planned mitigations.</p> <p>After this the Contractor will be required to submit written monthly updates on the delivery of KPIs.</p>
36		<p>Attachment 3 - Draft Contract, with regard to KPI number 6 on pg 47 pertaining Requirement 2, could the Authority please clarify the metric of "From the launch of the endorsed provider function in June 2024 100% of Awarding Organisations and Training Providers who submit learning and development content for quality assurance will receive feedback on how to improve the accessibility"? In particular, the assumption that 100% of content submitted needs to improve - what would happen if it is already meeting all the accessibility standards that are built into the QA standard? Could such metric please be revised?</p>	<p>For clarification, feedback on improving accessibility would only need to be improved where quality assurance identifies problems with the qualification or course.</p>
37		<p>Attachment 3 - Draft Contract, with regard to KPI number 7 on pg 48 pertaining Requirement 4A, could the Authority please clarify the metric of "100% of relevant Training Providers are</p>	<p>At contract initiation the Contractor will be required to work with the authority to identify relevant training providers. 38		Attachment 3 - Draft Contract, with regard to KPI number 8 on pg 48 pertaining Requirement 4B, could the Authority please clarify the metric of "100% of relevant Training Providers and stakeholders are engaged during the development of the endorsement process and framework, and provide feedback"? In particular, could the Authority please clarify what is meant by 'relevant Training Providers and stakeholders ' - what constitutes 'relevant'?	At contract initiation the Contractor will be required to work with the authority to identify relevant training providers. This will include those who are already delivering Oliver's Training and those with a potential interest in delivering.
39		Attachment 1 - ITT with regard to Table 2 (from p26) it provides the maximum word counts, but not the character counts for each response, whereas on page 25 of the ITT the Authority states that it may 'disregard any part of a response to a question which exceeds the specified character limit'. Please can the Authority confirm that p25 of the ITT should refer to the 'specified word count' rather than character limit. Alternatively, please provide the specified character limit.	Page twenty five of the ITT should refer to the 'specified word count' rather than character limit.
40		Document 4 - Social Value Envelope Return regarding Theme 4: Equal Opportunity, please can the Authority confirm whether the 'timed project plan and process' should be included as a separate attachment to this response and excluded from	Contractors may submit a project plan and process diagram/chart which will be excluded from the overall word count.

		the overall word count for the narrative response? And/or should this be included as a specific section within the overall project plan to be provided as an attachment for the response to question 2 of the quality (technical) envelope? Either way, for the avoidance of doubt please can the Authority confirm that the project plan and process content will not count towards the overall narrative word count for the response to the Social Value Envelope Return regarding Theme 4: Equal Opportunity?	
41		Attachment 2 - Specification, with regard to section 5 ('Background: Overview of Relevant Elements of the Authority's Funded Training Offer', from pg 5) can the Authority please provide details of when their digital ASC skills record/passport and care workforce hub will be live in 2024?	The authority cannot confirm this date currently.
42		Attachment 1 - ITT Section 9 explains completed Response Envelopes are required to be submitted through the s-Sourcing Portal but doesn't mention the format these need to take. Please could the Authority confirm whether the documents should be uploaded as pdf or word documents?	Contractors may submit in either PDF or Word format.
43		Attachment 2 - Specification Requirement 4B, pg 17 bold bullet point 2 states: "As appropriate, the Contractor is expected to engage with people with a learning disability, autistic people, and adult social	The Contractor is expected to undertake engagement with people with a learning disability and autistic people as appropriate during the development of the endorsement scheme. Please could the Authority confirm that the successful Contractor would need to ensure that the standards and processes for the endorsement of OMMT for learning providers have been coproduced with autistic people and people with a learning disability?	engagement or coproduction, where these are deliverable against the milestones and timescales set out in the specification.
44		Attachment 3 - Draft Contract, with regard to KPI number 3 pertaining Requirement 2, could the Authority please clarify the metric of "From the launch of the endorsed provider function in June 2024 at least 1000 members of the workforce are surveyed." Is this intended to be a one-off target or a cumulative one? In particular, could the Authority please clarify the nature of such target number considering there's an intended quarterly reporting frequency for this KPI?	<p>This is intended to be a monthly target.</p> <p>The requirement is for the Contractor to conduct a monthly survey to determine sector needs, and report on the completion of this KPI on a monthly basis. Findings from the survey should be presented as part of the quarterly report.</p> <p>The authority would welcome interpretations as to how the Contractor could meet this reporting requirement, and if other forms of engagement would help to achieve the intended outcome of improved understanding of sector need.</p>
45		Attachment 3 - Draft Contract, with regard to KPI number 4 pertaining Requirement 2, could the Authority please clarify the metric of "From the launch of the endorsed provider function in June 2024 100% of Awarding Organisations and Training Providers who deliver training and qualifications to the Adult Social Care sector are contacted and made aware of the quality assurance process, and receive quarterly updates and ad hoc notifications of any changes to criteria"? 100% of	The authority would be willing to consider and agreed a revised metric at contract award stage, developed in collaboration with the Contractor that delivers the intended outcome.

		<p>Awarding Organisations and Training Providers who deliver training and qualifications to the Adult Social Care sector seems a highly challenging figure to attempt using as a metric for this KPI. Could the Authority please indicate if they have a pre-defined list of Training Providers which they wish to measure this KPI against? If not, could the Authority please consider an alternative metric, in particular, if the intention behind the metric for this KPI is to seek that information is published and cascaded in a way which doesn't inadvertently benefit / discriminate against one provider over another, could another more achievable metric be considered and agreed at contract award stage?</p>	
46		<p>Attachment 3 - Draft Contract, with regard to KPI number 1 pertaining Requirement 1A, could the Authority please clarify the metric of "By August 2024 90% of Awarding Organisations who provide Ofqual registered qualifications to the Adult Social Care sector will be consulted by the Contractor on proposals for an approvals process for level 1-5 qualifications across the sector and obtain feedback". In particular, could the Authority please clarify if such 90% target is for the Awarding Organisations that are contacted/consulted, or is it a target response rate of 90% of Awarding Organisations who provide Ofqual registered</p>	<p>The target is for 90% of Awarding Organisations to be contacted/consulted, and not a target response rate. The authority would expect, however, for the Contractor to demonstrate how it is endeavouring to improve the response rate if these are low.</p>

46		Attachment 3 - Draft Contract, with regard to KPI number 3 pertaining Requirement 2, could the Authority please clarify the metric of "From the launch of the endorsed provider function in June 2024 at least 1000 members of the workforce are surveyed." In particular, could the Authority please clarify if such target of 1,000 members of the workforce is for the members of the workforce that are contacted, or is it a target response rate of 1,000 members of the workforce?	For this KPI the target is 1000 member response rate.
47		Attachment 3 - Draft Contract, with regard to KPI number 5 pertaining Requirement 2 (which should be KPI number 7 pertaining Requirement 2 due to issues with the numbering in that KPIs table), could the Authority please clarify the metric of "From launch of the endorsed provider function in June 2024 30% of Awarding Organisations and Training Providers with an approved training course or qualification approved must have a Skills Passport account by the end of the contract." In particular, could the Authority please elaborate on how it anticipates a Contractor being able to enforce the need to have a Skills Passport/Record account and what support would be provided by the Authority to such end? If the Authority could please also elaborate further on how the Skills Passport/Record would operate in practice,	<p>The KPI is amended as follows:</p> <p>"From launch of the endorsed provider function in June 2024 100% of Awarding Organisations and Training Providers with an approved training course or qualification approved must have been provided with information on how to obtain a Skills Passport account by the end of the contract."</p> <p>The authority will work with the Contractor to ensure that is has all the relevant materials to provide to training providers and Awarding Organisations</p>

Annex 3 Authority Clarification Questions and Responses

ID	Requirement	Question	Response
1	Overarching: Resourcing	The tender indicates that the way the contract will be resourced will include members of those leading the SfC development of the CWP which is under separate arrangements. The tender also indicates that the contract manager will be dedicated resource to this contract - is this dedicated to 100% of their role and capacity? Please clarify what roles and how many people will be full-time working on delivering this specific contract.	<p>The contract manager will be x1 FTE dedicated resource for this contract.</p> <p>In addition, the following roles will be 100% FTE working on delivering this contract:</p> <p>Endorsement SMX x1 FTE Qualifications and Standards SMX x1 FTE Business Support Officer x3 FTE Administrator x2 FTE Audit Manager x2 FTE Quality and Audit Manager x1 FTE Quality Assurance Manager x1 FTE</p>
2	Overarching: Resourcing	Of the remaining roles/resources set out in the tender please clarify what proportion of each of the people/roles specified will be utilised on this contract.	<p>Head of Marketing and Communication 0.02 FTE Marketing and Communications Manager 0.01 FTE Communications and Engagement Manager 0.06 FTE Marketing Officer 0.40 FTE Senior In-house Designer 0.03 FTE Events Officer 0.04 FTE Head of National Engagement 0.04 FTE Central Engagement Lead 0.20 FTE CRM Manager 0.03 FTE Locality Manager 0.16 FTE Research & Impact Manager 0.18 FTE Research Executive 0.03 FTE Analyst 0.02 FTE DDaT Product Manager 0.11 FTE OMMT SMX 0.22 FTE Regulated Professional SMX 0.02 FTE</p>

3	Overarching: Resourcing	The tender also indicates that the project team will leverage SfC existing resource, sector relationships, processes and platforms please clarify how is this leverage costed?	As part of our cost model a contribution towards corporate overheads is apportioned against all directly and indirectly attributable staff involved in the delivery of the service using a pro-rata allocation based on FTE. This enables SfC to recover the costs of our corporate infrastructure and people resources e.g. our People (HR) or Finance teams, which are integral to the support and delivery of the contract but difficult to accurately quantify in
			terms of time utilisation, as well supporting the maintenance and investment in core systems such our XRM customer relationship system which cannot meaningfully be apportioned across individual contracts and service. It also recognises intangible benefits i.e. existing sector relationships developed through our Leadership Team, which cannot be accurately costed but can undoubtedly be leveraged for the benefit of the service.

4	Overarching: Resourcing	Please clarify how resources and associated costs will be managed and monitored to ensure no duplication of funding.	<p>All SfC activities are costed using a combination of directly and indirectly attributable staff, a contribution to corporate overheads and third-party costs. Upon successful contract award a dedicated cost centre is set up within our finance systems as part of the budget management process, alongside a full breakdown of the resource allocations within our HR system and our Time & Resource (T&R) system, all utilising the same contract code and source data. Where resources are apportioned across more than one activity, e.g. where staff are delivering both grant and contract activities, no resources can be allocated for more than 100% of their available time/cost to prevent duplication of funding. All staff are informed of their expected time commitment profile on activities and are required to complete their T&R record monthly to record actual time spent on these activities. As SfC operates on a Full Cost Recovery (FCR) basis for our Grant funded services, all T&R returns are reviewed against profiled allocations to identify variances and ensure staff do not allocate/record more than 100% of</p>
			<p>their available time across any combination of activities. Ongoing monitoring of resource utilisation and contract expenditure (reviewed weekly by the Contract Manager) alongside a monthly reconciliation exercise ensures accurate resource and cost management. Any variances to budget and/or resource use are identified, and we adjust ongoing activities to return to profile, or, in the case of our grant activities recognise less expenditure through the FCR model ensuring there is no duplication of funding.</p>

5	Overarching: Engagement and Promotion activity:	There are several references made throughout the tender to engagement and promotion activity utilising Skills for Care existing channels – please clarify if these are being brought forward as offering added value or if costs associated with this are included in the contract or if duplicative with any other funding arrangement.	<p>Our references to engagement and promotion activity combine aspects of added value, costs included within the contract, and utilisation of other funding arrangements.</p> <p>For instance, our ability to utilise existing strategic partnerships and extensive sector relationships to increase the level of audience reach we have is added value. We have costed resources and activities within the contract to ensure we develop the right collateral and use the right channels to reach the right audiences and manage that activity appropriately (detailed further in the Q28 response). And our understanding is that the Sfc Engagement Function supported through the DHSC grant is expected to provide support for communicating any new contracts DHSC launches during 2024/25. This would include communication of new products/services to the sector and engagement with the sector to assess initial uptake and feedback on new services. We have therefore assumed a level of support (as a contracted provider to DHSC) from the Engagement Function of Sfc in the same way as</p>
			this expectation on Sfc's Engagement Function (as a grant funder partner of DHSC) would apply to any other successful bidder.
6	Overarching: Engagement and Promotion activity:	There are several references made throughout the tender to engagement and promotion activity utilising Skills for Care existing channels – please clarify if these are being brought forward as offering added value or if costs associated with this are included in the contract or if duplicative with any other funding arrangement.	Duplication of Q5

7	Overarching: Engagement and Promotion activity:	The tender proposes to engage ality centres of excellence during development of the standard, plc clarify whether training providers awarding organizations that are part of the Contractors exist, this programmes will be engaged du development process.	<p>Our proposal describes bringing together a working group including Centres of Excellence, awarding organisation representatives from the Joint Awarding Bodies Quality Group (JABQG) and other stakeholders.</p> <p>We propose drawing on these established relationships because of their unwavering commitment to high quality learning across the ASC sector which we consider to be an efficient and practical way to ensure the quality standard is developed to reflect the needs of the authority.</p> <p>We will specifically engage with training providers and awarding organisations not part of existing programmes through the working group, as well as utilising our proven extensive engagement channels and targeted sector communications. We are confident this will enable engagement with a broader cohort of providers and their feedback will be analysed and incorporated into the developed standard.</p>
8	Requirement 1A	The authority requires the Contractor to develop proposals for an approvals process for level 1-5 qualifications across the adult social care sector, however, the tender outlines a plan to launch an	We can confirm that Skills for Care would develop the approvals process for the authority's consideration with specified timescales in year one and would

9	Requirement 1A	The authority requires the Contractor to develop proposals for an approvals process for level 1-5 qualifications across the adult social care sector, however, the tender outlines a plan to launch an approvals process in August 2024. Please clarify that the Contractor will only develop proposals for the authority's consideration in year one, and not deliver a service.	Duplication of Q8

10	Requirement 1A	Please clarify whether the resourcing for this requirement is reflective of developing a proposal for a level 1-5 approvals process or includes costs for delivery of a service in year one. If service costings include resourcing for delivering the service in year one, please revise.	The resourcing for Requirement 1A is reflective of developing a proposal for level 1-5 approvals process and does not include costs for delivering the service in Year 1.
11	Requirement 2A	Please clarify which exact resources would carry out the observation of practice of teaching detail.	Quality Assurance Manager and Endorsement SMX. We would also expect some Training Providers to conduct their own observations as part of their self-assessment/continuous improvement process.
12	Requirement 2A	Please clarify if the pass/fail decisions within 15 working days is in addition to the 8 week application window or rolling within the window.	Applicants will receive pass/fail decisions within 15 working days rolling within each 8 week application window.
13	Requirement 2A	The tender indicates that a fast track and a regular endorsement scheme will be set up. Please clarify if this will also be considered for Requirement 4 or if this is specific to Requirement 2?	The 'fast-stream' referenced in Requirement 2 would be in place for organisations who deliver Ofqual regulated qualifications. This is proposed because these providers will have already undergone significant quality assurance checks and will be subject to on-going quality assurance and we are mindful not to put additional burden on providers. Automatically replicating this particular approach under Requirement 4 would not be
			appropriate as OMMT is not a regulated qualification and therefore those internal and external processes do not necessarily exist. Our development of the Bespoke Framework in Requirement 4 would take into account the possibility that OMMT providers may also offer Ofqual regulated qualifications, alongside the additional OMMT accreditation processes, to reduce unnecessary burden and duplication of assurance processes and that they will have already gone through a QA process via the organisation chosen under the NHSE tender.

14	Requirement 2A	As part of the list of eligible training providers, training courses, and qualifications to be funded through the Targeted Upskilling Fund the authority requires the Contractor to list high quality CPD for registered professionals and allied health professionals. This is not intended to be an exclusive list of funded CPD but is required to provide signposting to the sector. The intention of the list is to provide simple and clear indications to the sector on good quality learning and development (whether training, qualifications, modules, or professional learning) that would be appropriate to claim for. Please clarify whether the tender proposes the development and promotion of guidance and on what constitutes high quality CPD as an alternative to a list of high quality CPD. If so, please clarify how the Contractor may integrate this guidance into scheme for the TUF.	<p>Given the exponential range of potential CPD opportunities available to regulated professionals, due to the individual nature of CPD, we propose to develop and promote guidance on what constitutes high quality CPD and how this can be used to demonstrate maintenance of professional practice.</p> <p>We will work with the regulators and Royal Colleges, with the Chief Nurse for Social Work and with the Chief Social Worker to draw up a nonexhaustive list of CPD opportunities which can be integrated into the TUF and will maintain, update and publish this list alongside the overarching guidance. Developing a list without the agreement of the regulators would risk signposting (and funding) regulated professionals to undertake CPD which is then not recognised by their professional body.</p>
15	Requirement 2B	Throughout the tender and attached project plan, dependencies have been identified with Requirements 2 and 4. Please could you clarify how you will ensure that resource	The key dependency is that endorsement processes for requirements 2 and 4 are built in parallel. The requirement 4 endorsement process builds an additional level of OMMT specific

		and stakeholder engagement these optimized across workstreams any to avoid duplication or delays?	assurance on top of the initial endorsement process of requirement 2. We can clarify we have proposed developing these two processes this way specifically to help ensure that resource and stakeholder engagement is optimised across these workstreams and to avoid any duplication or delays. The alternative would be to develop two completely independent processes in parallel timescales; however, this would require a greater level of resource, risk duplicating stakeholder engagement and more than likely lead to the same outcome having involved twice as much work. Developing the two processes interdependently also ensures any critical dependencies or potential conflicts can be identified and resolved or mitigated during their development rather than after completion and enables SfC to minimise the administrative burden on providers by identifying and optimising efficiencies and synergies across the two processes.
16	Requirement 4A	The procurement for NHSE's accreditation partner for OMMT closes on 29 Feb and therefore it is yet to be confirmed who the awarded partner is and what delivery timescales they will be working towards. Please clarify how this has been considered in the project plan for Requirement 4 and provide assurance that any delays on NHSE accreditation won't impact on the timescales for delivery of the endorsed provider list under Requirement 4.	Skills for Care will utilise the publicly available list of OMMT TP currently provided by NHSE and then will work closely with the NHSE's accreditation partner, once appointed, to get access to the accreditation information as this becomes available. This will ensure any delays to the appointment of the NHSE accreditation provider do not impact on our ability to deliver requirement 4.
17	Requirement 4A	As above, the Project Plan sets out that accredited providers will be contacted in May 2024 however accreditation will not be in place at this point. Please could you	The dates in the project plan are caveated with the fact they will need to be reviewed on contract award. In the first instance we will contact providers on the NHSE list (see Q16

		clarify what is meant by this action?	response). We added the action as we know this will be required as soon as accreditation is in place.
18	Requirement 4B	Please confirm that co-production with experts by experience is feasible within the timescales and milestones of the specification.	SfC has a well-established Expert Advisory Network of experts by experience. This network is aware of our bid, the proposed workplan and timeframes. We are confident that through this group we have the networks, contacts and processes in place to ensure this happens within the timescales and milestones if the contract commences from 1 April as planned. As per the response to Q17 above, all dates within the project plan will need to be reviewed at the contract award stage.
19	Requirement 4B	The tender mentions that experts by experience will be paid for their contributions. Please clarify how this will be funded.	We have an established participation policy in place and a network of experts by experience contacts we can call upon to support this work. We have allocated participation costs in the Commercial Envelope to pay our experts by experience £20 per hour for their contributions.
20	Requirement 4B	The specification sets out that a recommended price range should be included in the framework which will inform endorsement criteria. The tender states that timescales for pricing intelligence is to be confirmed at contract award, but elsewhere states that the endorsement scheme will launch in June. Please can you confirm that pricing will be included in the framework at launch in line with the specification?	We can confirm that pricing will be included in the framework at launch in line with the specification.

21	Technical Question 2: Project Plan	The tender Project Plan sets out National Communications and Engagement Strategy activity please clarify how this activity is costed and what proportion of resource by role is allocated to this activity to enable delineation and assurance of non-duplication of activity or associated costs to Communication and Engagement	See response to Q28
-----------	---	---	---------------------

		activity that may be funded via other routes.	
22	Technical Question 2: Project Plan	The tender Project Plan sets out functional resource that will be used to deliver the contract, but it does not specify what roles or proportion of roles in each function will be utilised. Please clarify the quantity and breakdown of costings of all core corporate infrastructure resources within these functions that are allocated and dedicated to the delivery of this contract.	See response to Q3.
23	Technical Question 4	The tender sets out timely and constructive feedback but that this would be within 15 working days of submission window deadlines. Please clarify does this mean a TP could submit at the beginning of the window and then must wait for c.2.5 months for a decision	No – all feedback will be provided within 15 working days of TPs submitting their request.

24	Technical Question 4	Please clarify what methodology would be in place to provide decisions and feedback earlier than submission deadlines.	<p>A dedicated team would be in place to review submissions on a rolling basis against the standard during 'open windows' ensuring applicants receive feedback and decisions within 15 working days of application. Window closures would allow for feedback and review of final submissions, data gathering and reporting, governance, and preparation for any priority programmes in the next submission window.</p> <p>Feedback, decisions and submission information would be logged on a rolling basis, so ad hoc reporting would be possible where required. Decisions taken through the open window period would be ratified at the Governance Group on an 8-weekly basis</p>
25	Technical Question 5	Please clarify the success measures not only on segmented audience reach via a range of channels but on how the strategy being implemented will be monitored, adapted in an agile approach to prioritise different engagement methodologies when identified success measures are not being met.	We will review the communication and engagement strategy each month to ensure effectiveness and inform future iterations.

			<p>We will monitor and measure the effectiveness of the comms strategy and its specific activities. For example, we will monitor open rates / clicks on our communications (both targeted and general) and analyse event attendance and feedback. We will also monitor the engagements and actions taken by the target audience in response to the communication.</p> <p>Where an approach has not performed as expected, we will review and update the communications plan and methodologies identified. This could involve adapting messaging, drawing on what has performed as expected or exceeded expectations. It could also involve utilising alternative channels or a mix of approaches to ensure targets were being met.</p> <p>We will carefully consider the appropriate communication method for each activity and be prepared to adapt this if we're not seeing the desired results. For example, general communication to large contact lists via newsletters don't tend to generate a direct response and action, but they are a key tactic in raising awareness. Targeted emails to an identified audience segment, with tailored content and a clear call to action are more effective in generating responses. The breadth of our well-established communications channels means we'll be able to respond quickly to success measures not being met and adapt our approach without disrupting the overall plan.</p>

26	Technical Question 5	Please clarify what specific partnerships, wider channels and influential third parties will be	As detailed in TE5, specific partnerships and wider channels and influential third parties include; Care Quality Commission, Joint Awarding

28	Technical Question 5	Please clarify the specific resources that will be used to deliver the engagement activity and how costed. Please clearly set out how resourcing allocated and associated costs to this contract are disaggregated.	The following resources will be used to deliver the engagement activity: Head of Marketing and Communication 0.02 FTE Marketing and Communications Manager 0.01 FTE Communications and Engagement Manager 0.06 FTE Marketing Officer 0.40 FTE Senior In-house Designer 0.03 FTE Events Officer 0.04 FTE Head of National Engagement 0.04 FTE
			Central Engagement Lead 0.20 FTE CRM Manager 0.03 FTE Locality Manager 0.16 FTE Research & Impact Manager 0.18 FTE Research Executive 0.03 FTE Analyst 0.02 FTE (See also our response to clarification question 5).
29	Technical Question 5	Please clarify that resources being costed to this contract are not funded from other sources and how this will be monitored and managed.	See the responses to Q3,4,5 which we believe address this question.

30	Technical Question 5	The promotional activities are broad. Have any activities specific to individual requirements been considered?	<p>All of the promotional activities outlined, such as virtual events and targeted email campaigns, have been considered with regard to individual requirements and the specific needs associated with them. Each activity would be segmented by both target audience and key messages, which reflect the Requirement 2A/B/C and 4A/B.</p> <p>For example: ‘Virtual events’ refers to a range of events with different purposes for different audiences. For example, national promotion events for training providers with the aim of promoting the process and ensuring they have all the information they need to submit qualifications and training for quality assurance (Requirement 2).</p> <p>In response to Requirement 2B, we would utilise a range of our existing routes to care providers to signpost them to high quality training at each level of the Care Worker Pathway.</p> <p>In response to Requirements 4A/B, we would clearly communicate the endorsed provider list (of those who can deliver OMMT) and ensure it is accessible to 100% of CQC regulated care providers. We’d do this by utilising our relationship with CQC</p>
----	-----------------------------	--	---

			and including messages in their provider newsletter.
31	Technical Question 7	Please clarify why the information set out is being collected and how it will be used?	<p>We anticipated that we would have to process data from certain subjects at different points used for all requirements across the duration of the contract.</p> <p>Contract service user personal data and non-personal data – will be used to deliver the endorsement function. SfC staff personal data will be used throughout depending on who is supporting each requirement.</p>

32	Technical Question 7	Please clarify what you mean by health data of people with lived experience and how this data will be used?	By health data we mean specific disability of people with lived experience who are engaged in this work. In order for coproduction to be meaningful, we need to understand how best to support people with lived experience so that we can get the best possible outcome for the contract.
33	Technical Question 7	Please clarify whether any of the data set out is specific to an individual requirement, or will be collected across all requirements?	The data set out will be collected across all requirements.
34	Social Value Questions	Please clarify what specifically will happen as a result of delivering this contract and its deliverables and the opportunities that would bring – please set this out in a specific Social Value project plan for this contract.	Please refer to the timed SV project plan and process outlined in the SV Envelope Return.
35	Social Value Questions	Please clarify what specifically will happen as a result of delivering this contract and its deliverables and the opportunities that would bring – please set this out in a specific Social Value project plan for this contract.	Duplication of Q34
36	Financial (Commercial Envelope)	Please provide a full breakdown of costs against each activity against the project plan and the summary of deliverables in section 9 of the specification.	<p>Please attach a separate spreadsheet with this breakdown.</p> <p>Please find our separate spreadsheet <i>Response to Q36</i> attached showing the full breakdown of costs against the summary of deliverables. These costs can be matched against the key deliverables in the project plan. It is</p>

			<p>not possible to break down the other activities in terms of costs, as some activities are aggregated across all 4 core requirements. If we did break them down, this would appear to duplicate multiple cost lines (though they are not actually duplicated) and so not an accurate reflection of the actual costs required to deliver.</p> <p>Please note that our model has been built against the summary of deliverables in section 9 and the project plan is matched against the timeline requirements detailed in section 10. Sections 9 and 10 in the specification do not match – for instance Requirements 4A and 4B in sections 7 and 9 of the specification refer to both these activities as ongoing, whereas section 10 has slightly different Requirement 4 descriptors, one of which is timebound.</p>

PART B: TRANSFERRING FORMER CONTRACTOR EMPLOYEES AT COMMENCEMENT OF SERVICES

Such change in the identity of the supplier of such services may constitute a Relevant Transfer to which the Employment Regulations will apply. The

Authority and the Contractor further agree that, as a result of the operation of the Employment Regulations, where a Relevant Transfer occurs, the contracts of employment between the Contractor and the Transferring Contractor Employees (except in relation to any contract terms disappplied through operation of Regulation 10 of the Employment Regulations) will have effect on and from the Service Transfer Date as if originally made between the Replacement Contractor and/or a Replacement Sub-contractor (as the case may be) and each such Transferring Contractor Employee.
