### Terms of Reference

#### PO 7935 Emergency Procurement of Humanitarian Programme Items for International Rescue Committee

**Procurement Supplier – AECOM**  
**Supplier ID - 53127**  
**OFAC licence number - SY-2016-330847-1**

#### 1. Introduction

Syria is not one of the standard DFID priority countries covered by this framework agreement, and previously, all work involving Syria was handled directly by DFID and NGOs contracted to provide humanitarian assistance on behalf of DFID. However, as noted above, DFID recently decided to temporarily prohibit the NGOs operating under DFID's umbrella from undertaking procurement activities and requested that AECOM procure and deliver items to the NGOs so that they can provide critical humanitarian assistance to Syria.

#### 2. Objective

The non-Syrian NGOs under contract with DFID are operating relief programs on behalf of the UK government and are providing a wide-range of humanitarian goods and services, including settling refugees in camps and providing temporary accommodations, such as shelters, blankets, food, and other basic comfort items; providing education to children unable to attend a normal school program, along with school supplies (e.g., books, bags, stationery); offering "new mother kits" and newborn items to mothers who have recently given birth; and providing basic emergency medicine and pain relief to those injured in conflict or during travel.

#### 3. Recipient

The primary recipients are the NGOs delivering humanitarian programmes on behalf of DFID in Syria, with the end recipients being those individuals receiving support from the NGOs.

The contacts details for delivery of this order are as follows:

#### **REDACTED**

AECOM shall liaise with the recipient with regards to the delivery of the Goods, specifically in relation to the address to where the Goods should be delivered to and how and by whom inspection of Goods will be undertaken.

#### 4. Scope of work

AECOM's role under Framework Agreement will include having an oversight of the procurement planning, sourcing, tendering, technical and commercial evaluation, contract placement, expediting, quality assurance and inspection, progress and financial reporting, reviewing payment and invoicing.

AECOM will provide goods to the required specifications as detailed in Appendix B.

AECOM will be required to liaise directly with IRC and DFID throughout the project.

## 5. Outputs / Deliverables

AECOM will:

- Undertake all sourcing as per the terms and conditions of their framework agreement with DFID.
- Ensure that procurement of the goods is carried out in line with the project timelines and aims of the project by liaising with the contact.
- Manage the supply base in relation to quality, cost and delivery time and supply contracts.
- Provide a procurement plan with key milestones and progress reports upon achievement of these milestones. These reports shall be submitted to the DFID Programme Officer as detailed in Annex G (REDACTED), and a copy will also be provided to a nominated person at International Rescue Committee.
- Ensure the equipment is delivered to the requested delivery point:

## 6. Method

In accordance with the Framework Agreement PO 7387, response times for key procurement activities against which the Supplier's performance shall be measured as detailed in Annex E.

Timing and procurement planning are critical to the successful implementation of the Project. AECOM will be expected to demonstrate efficiency, effectiveness, accountability and transparency, and measure and record its associated value added.

AECOM will provide services in line with the Procurement Plan (REDACTED)

## 7. Coordination

Clear communication channels and/or approval processes will be established between AECOM, DFID and the Recipient. A communication matrix is attached (REDACTED)

## 8. Reporting

AECOM will submit a final report to DFID Programme officer as detailed in Annex G (REDACTED), providing details of deliverables achieved during the procurement period. This would also include a breakdown of costs for goods, logistics, insurance (if any) and procurement fee to DFID in a format as detailed in (REDACTED)

The report will be submitted to the DFID Programme officer and a copy will be provided to the contact person at International Rescue Committee.

## 9. Timeframe

AECOM will be contracted for the period commencing 15 March 2017 and will end on 15 May 2017. Timing and procurement planning are critical to the successful implementation of the Project. AECOM will be expected to demonstrate efficiency, effectiveness, accountability and transparency, and measure and record its associated value added.

## 10. Duty of Care (DoC)

AECOM are responsible for the safety and well-being of their personnel (as defined in the Framework Agreement) including third parties affected by their activities under this Call-down Contract, and appropriate security arrangements. They will also be responsible for the provision of suitable security arrangements for their domestic and business property.

AECOM is responsible for ensuring appropriate safety and security briefings for all their personnel working under the Call-down Contract and ensuring that their personnel register and receive appropriate briefing. Travel advice is also available on the FCO website and the supplier must ensure they (and their personnel) are up to date with the latest position.

AECOM is fully responsible for Duty of Care in line with the details provided above and the initial risk assessment matrix developed by DFID as detailed in Annex H. AECOM confirms that:

- They fully accept responsibility for Security and Duty of Care.
- They understand the potential risks and have the knowledge and experience to develop an effective risk plan.
- They have the capability to manage their Duty of Care responsibilities throughout the life of the contract.

## 11. Financial Management

Payments will be linked to satisfactory delivery of all the goods. An invoice will be submitted to DFID after DFID's approval.

The Procurement Supplier fees will be charged as a percentage of the value of the procured items.

An inventory of all assets procured under the programme will be maintained and shared by the Procurement Supplier and DFID.

At the end of the process, once procurement has been concluded, DFID will have full discretion of how best to handover the assets and any related asset management agreements with the partners in line with DFID policy.
