18.4 Any change in the legal status of the Authority such that it ceases to be a Contracting Authority shall not affect the validity of the Contract. In such circumstances the Contract shall bind and inure to the benefit of any successor body to the Authority.

19. Variation

19.1 Subject to the provisions of this Clause 19, the Authority may change the Specification provided that such change is not a material change to the Specification (a "Variation").

19.2 The Authority may request a Variation by notifying the Supplier with sufficient information to assess the extent of the Variation and consider whether any change to the Price is required in order to implement it. Variations agreed by the Parties shall be made in writing.

19.3 If the Supplier is unable to accept the Variation or where the Parties are unable to agree a change to the Price, the Authority may:

- a) allow the Supplier to fulfil its obligations under the Contract without the Variation; or
- b) refer the request to be dealt with under the Dispute Resolution Procedure.

20. Dispute Resolution

20.1 The Parties shall attempt in good faith to resolve any dispute between them arising out of the Contract within 10 Working Days of either Party notifying the other of the dispute and such efforts shall include the escalation of the dispute to the Supplier's representative and the Authority's commercial director or equivalent.

20.2 Nothing in this dispute resolution procedure shall prevent the Parties from seeking from any court of competent jurisdiction an interim order restraining the other Party from doing any act or compelling the other Party to do any act.

20.3 If the dispute cannot be resolved by the Parties pursuant to Clause 20.1 the Parties shall refer it to mediation pursuant to the procedure set out in Clauses 20.5 to 20.10.

20.4 The obligations of the Parties under the Contract shall not cease, or be suspended or delayed by the reference of a dispute to mediation and the Supplier and Staff shall comply fully with the requirements of the Contract at all times.

20.5 A neutral adviser or mediator (the "Mediator") shall be chosen by agreement between the Parties or, if they are unable to agree a Mediator within 10 Working Days after a request by one Party or if the chosen Mediator is unable to act, either Party shall within 10 Working Days from the date of the proposal to appoint a Mediator or within 10 Working Days of notice to either Party that he is unable or unwilling to act, apply to the Centre for Effective Dispute Resolution to appoint a Mediator.

20.6 The Parties shall, within 10 Working Days of the appointment of the Mediator, meet the Mediator to agree a programme for the disclosure of information and the structure to be adopted for negotiations. 20.7 Unless otherwise agreed, all negotiations connected with the dispute and any settlement agreement relating to it shall be conducted in confidence and without prejudice to the rights of the Parties in any future proceedings.

20.8 If the Parties reach agreement on the resolution of the dispute, the agreement shall be recorded in writing and shall be binding on the Parties once it is signed by their duly authorised representatives.

20.9 Failing agreement, either of the Parties may invite the Mediator to provide a non-binding but informative written opinion. Such opinion shall be provided on a without prejudice basis and shall not be used in evidence in any proceedings relating to the Contract without the prior written consent of both Parties.

20.10 If the Parties fail to reach agreement within 60 Working Days of the Mediator being appointed, or such longer period as may be agreed by the Parties, then the dispute may be referred to the Courts.

20.11 Subject to Clause 20.2, the Parties shall not institute court proceedings until the procedures set out in Clauses 20.1 and 20.5 to 20.10 have been completed.

21. Supplier's Status

21.1 Nothing in the Contract shall be construed as constituting a partnership between the Parties or as constituting either Party as the agent for the other for any purposes except as specified by the terms of the Contract.

21.2 The Supplier shall not (and shall ensure that Staff shall not) say or do anything that might lead any person to believe that the Supplier is acting as the agent, partner or employee of the Authority.

22. Notices

22.1 Notices shall be in writing and in English and shall be deemed given if signed by or on behalf of a duly authorised officer of the Party giving the notice and if left at, or sent by first class mail to the address of the receiving Party as specified in the Contract (or as amended from time to time by notice in writing to the other Party).

23. Entire Agreement

23.1 The Contract constitutes the entire agreement between the Parties relating to the subject matter of the Contract. The Contract supersedes all prior negotiations, representations, arrangements and undertakings.

24. Third Party Rights

25. Waiver

25.1 The failure of either Party to insist upon strict performance of any provision of the Contract, or the failure of either Party to exercise, or any delay in exercising, any right or remedy shall not constitute a waiver of that right or remedy and shall not cause a diminution of the obligations established by the Contract.

25.2 No waiver shall be effective unless it is expressly stated to be a waiver and communicated to the other Party in writing.

25.3 A waiver of any right or remedy arising from a breach of the Contract shall not constitute a waiver of any right or remedy arising from any other or subsequent breach of the Contract.

26. Publicity

26.1 The Supplier shall not without Approval:

- a) make any press announcements or publicise the Contract or its contents in any way; or
- b) use the Authority's name or logo in any promotion or marketing or announcement.

26.2 The Authority may publish the Contract on the Authority Website or another website at its discretion.

27. Force Majeure

27.1 Except to the extent that the Supplier has not complied with any business continuity plan agreed with the Authority, neither Party shall be liable for any failure to perform its obligations under the Contract if, and to the extent, that the failure is caused by act of God, war, riots, acts of terrorism, fire, flood, storm or earthquake and any disaster but excluding any industrial dispute relating to the Supplier, Staff or Sub-contractors.

27.2 If there is an event of Force Majeure, the affected Party shall use all reasonable endeavours to mitigate the effect of the event of Force Majeure on the performance of its obligations.

28. Governing Law and Jurisdiction

28.1 The Contract shall be governed by and interpreted in accordance with English law and shall be subject to the jurisdiction of the Courts of England and Wales.

28.2 The submission to such jurisdiction shall not limit the right of the Authority to take proceedings against the Supplier in any other court of competent jurisdiction and the taking of proceedings in any other court of competent jurisdiction shall not preclude the taking of proceedings in any other jurisdiction whether concurrently or not.

29. Electronic Signature

29.1 Acceptance of the award of this contract will be made by electronic signature carried out in accordance with the 1999 EU Directive 99/93 (Community framework for electronic signatures) and the UK Electronic Communications Act 2000.

SCHEDULE 1 - SPECIFICATION OF SERVICES

Specification

Utilities searches for soil surveys for the England Ecosystem Survey

Background to Natural England

Natural England is the government's advisor on the natural environment. We were established by an Act of Parliament in 2006. Our purpose is to help conserve, enhance and manage the natural environment for the benefit of present and future generations, thereby contributing to sustainable development. We provide practical advice, grounded in science, on how best to safeguard England's natural wealth for the benefit of everyone.

Our remit is to ensure sustainable stewardship of the land and sea so that people and nature can thrive. It is our responsibility to see that England's rich natural environment can adapt and survive intact for future generations to enjoy.

We have 2,000 staff in offices throughout England, with a head office in York.

Our vision and mission

Our vision is of **Thriving nature for people and planet**.

Our ambition is not just to improve nature, but to see it thriving everywhere. This is because we recognise that a healthy natural environment is fundamental to everyone's wealth, health, and happiness.

Our definition of nature encompasses:

- Natural beauty
- Wildlife
- The geology that underpins natural character and habitats
- Our cultural connections with nature
- We include the whole natural world on earth and at sea and in towns and cities as well as the countryside.

Our mission is **Building partnerships for nature's recovery**. This reflects the need for us to work with and through a wide range of people and the need for rapid action to re-build sustainable ecosystems and thereby protect and restore habitats, species and landscapes.

1. Project background

- 1.1. UK Government has set world-leading ambition on protecting our natural assets, internationally through the Convention of Biodiversity and domestically via the ground-breaking 25 Year Environment Plan. Intrinsically linked to the successful delivery of Net Zero, protecting our environmental services has never been more vital. Achieving these goals is underpinned by the provision of systematic and robust evidence. For the first-time, Defra are developing a programme to deliver up-to-date, UK-wide environmental data to allow for agile policymaking grounded in the best available evidence – to truly understand where we are and where we need to get to.
- 1.2. The Natural Capital & Ecosystem Assessment (NCEA) programme is a transformative programme to understand the extent, condition and change over time of environmental assets across England's land and water environments, supporting the government's ambition to improve the environment within a generation.

- 1.3. One component of NCEA is the England Ecosystem Survey (EES) which aims to assess the current state of vegetation, habitats, landscapes and soils in England and to monitor long-term changes. Utilities searches will be required to ensure safety of all surveyors and protection of underground assets on each EES monad when carrying out soil surveys.

2. Specification

- 2.1. The supplier shall carry out desktop utility record searches compliant with PAS128 category D and HSG47 'Avoiding danger from underground services' (2014), for underground and overhead utilities, for up to c. 100 sites, measuring up to 5 ha each, located in 1 by 1 km square areas (monads) distributed across England. The sites will be selected out of 150 sites provided in the file EES 2022 Sample.zip. Example monad showing land in which the sites will be located (5 ha sites not shown) is shown in Figure 1.
- 2.2. Utilities searches should include, but not be limited to, oil and gas, water, sewer, electric, BT, virgin media, other cable and fibre, and independent utilities.
- 2.3. All desk-based studies must be presented in a composite PDF format a one-page full colour drawing at scale not smaller than 1:2,000 and a series of A4 PDF drawings at a scale of 1:1,000 to 1:1,250, overlaid on a black and white OS Mastermap background. If presentations in divergent format would be produced, they may be considered, please provide examples with your proposal. Where utilities are present on site, the supplier will also be required to provide ESRI GIS Shapefiles.
 - 2.3.1 It is assumed that 25% of utilities searches will require additional ESRI GIS Shapefiles. This number is an estimate and Natural England reserves the right to reduce the number at a later date during the contract duration through a contract change variation notice.

Figure 1 Example area (blue hatch) where the 5 ha sites (not shown) may be located within a monad (1 km² square)

- 2.4. The Contractor will be expected to project manage the delivery of the desk-based studies, ensuring project milestones and timescales are achieved.
- 2.5. For information, the soil surveys will be carried out on up to six randomly placed 30 by 30 m square plots located anywhere within sites (land parcels) measuring up to 5 ha each within each monad (1 km² square). Since the locations of the plots may need to be adjusted at the time of the survey, we require the studies to be carried out for sites measuring up to 5 ha centred on the sample plots within the monad.
- 2.6. England Ecosystem Survey soil survey activities within each plot will involve:
 - Excavation by hand of soil pits to a depth of up to 0.80 m using a spade.
 - Taking soil samples using cylindrical soil corers with a maximum diameter of 8 cm; the cores will be driven to a depth up to 0.80 m using manual slide (drop) hammers or battery-powered percussion hammers.

- Manual soil coring using an Edelman type (Dutch or open-faced) auger, to a maximum depth of 1.20 m.
- Peat depth probing using a rod made of fiberglass or other material, pushed by hand to the depth of firm substrate.

3. Project management

- 3.1. The successful Contractor will appoint a project manager, who will be responsible for the management and delivery of the project and will act as the primary liaison point with the NE project officer.
- 3.2. The Natural England project officer will provide the boundaries of study sites within the monads at the start of the project, and then by the deadline for the previous tranche, e.g. site boundaries for Tranche 2 will be provided by 7th November 2022.
- 3.3. The Contractor's project manager will be responsible for:
 - Producing a project plan, risk register and project management framework. The Contractor's proposal must be agreed with Natural England during the inception meeting.
 - Maintaining the project plan, risk register etc., to conform with an established project management framework, and agreeing and reporting on these to Natural England;
 - reporting on progress to the Natural England project officer via a monthly call and short written update (no more than 1 side of A4) to summarise studies completed.

Timetable

- 3.4. We will require the studies for up to 600 selected sites, each measuring up to 5 ha, located in 100 selected monads, up to 6 sites per monad (see Figure 1, above) to be delivered by 6th February 2023. The minimum number of sites commissioned to a successful supplier will be 300.
- 3.5. Due to unpredictable nature of the access permissions process, the exact dates and numbers of sites provided for the studies cannot be given.
- 3.6. Based on an approximate contract start of 10 October 2022, we will provide the first tranche of sites for the studies by 17 October 2022. We require the contractor to have the capacity to deliver the following minimum number of studies by the given dates:
 - Tranche 1 – studies for up to 120 sites, by 7 November 2022
 - Tranche 2 – studies for up to 120 sites, by 28 November 2022
 - Tranche 3 – studies for up to 120 sites, by 19 December 2022
 - Tranche 4 – studies for up to 120 sites, by 16 January 2023
 - Tranche 5 – studies for up to 120 sites, by 6 February 2023
- 3.7. The Natural England project officer will provide the site boundaries for Tranche 1 at the start of the project, with the boundaries for further tranches provided before the end of each previous tranche, for example, the site boundaries for Tranche 2 will be provided by the 7th November 2022. We will provide sites for each tranche earlier if this is possible.
- 3.8. We reserve the right to provide the sites for the studies at later dates, should we experience delays in other studies that we need to conduct before providing sites for the utility searches. We will notify the supplier as soon as possible about such

delays and extend the deadlines by the length of the delay. The supplier is required to consider the risk of delays in pricing and planning of the work.

- 3.9. Subject to further agreement Natural England may commission the successful supplier to carry out further studies on additional sites.

Clarifications – ITT_10468 - Utilities searches for soil surveys for the England Ecosystem Survey

DATE	REQUEST FOR CLARIFICATION	THE AUTHORITY'S RESPONSE
27 July 2022	Within the document, ITT10468 Utilities searches for soil survey for EES_1.pdf, the specification section (2.1) lists a file named 'EES 2022 Sample.zip'. Can this be made available at ITT stage please?	Please see the EES 2022 Sample.zip uploaded to the Bravo ITT attachment's area
8 August 2022	Within ITT10468 specification document, 3.4 states the requirement for the supplier to deliver studies on 5 hectare sites. Can the buyer issue all 5 hectare site search areas for the entire scheme at ITT stage? If not, when is the earliest they can be provided?	We are not able to issue these 5 ha sites at the ITT stage. We will be delivering these at the start of the contract. Assuming the contract start date is the 5 th of September, we plan to provide the boundaries of these sites by then, with the requirement for the studies to be completed by 22 nd September. Should the start of the contract or delivery of the sites for Tranche 1 studies be delayed, the deadline for delivery of Tranche 1 studies will be delayed as well. Likewise with any other Tranches, should the sites be provided later than

		anticipated, the required delivery dates for the studies will be delayed by the same number of days.
	Within 3.4 of the ITT104468 document, Tranche 1 is required to be delivered by 22nd September. It states that Tranche 2 would be made available on this date leaving only three weeks for Tranche 2 to be delivered. What is the earliest date the specific sites can be provided to the supplier?	This is the earliest date we plan to provide these. We anticipate that majority of the sites will be agricultural land and other greenfield land. There will be small proportion of sites close or within built-up areas.
