Statement of Requirements

Executive Summary

The Care Quality Commission requires 30 Lenovo Thinkpad Yoga 370 laptops and 6 USB C travel hubs.

These are required for use during a pilot of a new laptop build in CQC which will include Windows 10 and Office 365, both of which represent upgrades of current software in use. (Office 365 will be procured separately under existing arrangements).

CQC previously procured two Yoga 260 laptops for initial trial and testing with the outcome being a decision to extend to a pilot using the newer Yoga 370 model.

Whilst the initial procurement is for 30 Yogas, a successful pilot is likely to result in a further procurement of up to 2200 to replace aging equipment.

The laptops will be configured by CQC's IT Services provider under an existing contract.
