BUYER'S ENVIRONMENTAL POLICY

Commercial Policy Guidance – Environmental Policy in Procurement

Overview

The Department for Education recognises that the delivery of its operations inevitably impacts on the environment in a number of ways, for example, through the generation of waste and the use of energy for heating and lighting. Through the DfE's Sustainability and Climate Change Strategy, it aims to respond and adapt to the effects of climate change, thus ensuring that our business operation is undertaken in such a manner as to have a positive impact on the environment and achieve biodiversity net gain.

DfE's Sustainability and Climate Change Strategy

The DfE published [a strategy](#) in April 2022, which sets out ambitious activity to respond to recommendations for education from the Committee for Climate Change, the Dasgupta Review, Green Jobs Taskforce report and supports the delivery of the Government's 25 Year Environment Plan and Net Zero Strategy.

[Greening Government Commitments](#)

The [Greening Government Commitments](#) set out the actions UK government departments and their agencies undertook to reduce their impacts on the environment in the period 2016 to 2020 and their Commitments for the period 2021 to 2025.

Individual departments are required to publish their own sustainability reports either as part of their annual report, or as separate reports. The latest report for DfE can be found [here](#).

The DfE is committed to minimising the impact of its activities on the environment throughout all its procurement supply chains.

[The Social Value Act](#)

In line with [The Social Value Act](#) using [The Social Value Model](#), Environmental Criteria may be included, where appropriate, in our tender document sets.

Any social value benefit proposed by tenderers must relate to additional improvements in the economic, social and/or environmental wellbeing of the relevant area to be delivered through the contract, and not replace the assessment and management of the environmental impacts of the core contract elements (direct and through the supply chain) and how they can be reduced, which must instead form a part of the core tender (i.e., not the social value element)

The social value 'Reporting Metrics' are based around the reduction of three of the target areas in the [Greening Government Commitments](#): greenhouse gases, waste and water. In addition, there are Reporting Metrics relating to protecting and improving the environment and creating green spaces.

[Sustainable procurement: the Government Buying Standards \(GBS\)](#)

The DfE will make sure that we meet the minimum mandatory Government Buying Standards (GBS) standards on [Sustainability](#) when buying goods and services. We encourage our suppliers to meet, where possible, the best practice standards, which go further than the mandatory standards.

[Greening government: ICT and digital services strategy 2020 to 2025](#)

This strategy sets out how the government will work in partnership with industry and other sectors to provide ICT and digital services to help:

- achieve the United Nation's Sustainable Development Goals

- implement Defra’s 25 Year Environment Plan
- meet the government’s net zero commitments

The strategy is to be used by everyone involved and interested in government ICT and digital services, including suppliers and supply chains.

[Taking account of Carbon Reduction Plans in the procurement of major government contracts](#)

In 2019, the UK became the first major economy to adopt a legal commitment to achieve ‘Net Zero’ carbon emissions by 2050. To support this, the Government Commercial Function has developed a new commercial policy measure for all central government departments and arm’s length bodies.

This measure requires suppliers bidding for major government contracts to commit to achieving Net Zero by 2050 when procuring goods and/or services and/or works with an anticipated contract value above £5 million per annum (excluding VAT) by publishing a ‘[Carbon Reduction Plan](#)’ and to provide their current GHG emissions. This is subject to the Public Contracts Regulations 2015 save where it would not be related and proportionate to the contract.

Suppliers will be deselected from the procurement if they fail to comply with the policy.

- 1.11. The Supplier shall ensure that any device which is used to process Buyer's Data meets all of the security requirements set out in the NCSC End User Devices Platform Security Guidance, a copy of which can be found at: <https://www.ncsc.gov.uk/guidance/end-user-device-security> and <https://www.ncsc.gov.uk/collection/end-user-device-security/eud-overview/eud-security-principles>.

An incident shall be defined as any situation that might, or could lead to, a disruption, loss, emergency, or crisis to the Services delivered. If an ISO 22301 certificate is not available, the supplier will provide evidence of the effectiveness of their ISO 22301 conformant business continuity arrangements and processes including IT disaster recovery plans and procedures. This must include evidence that the Supplier has tested or exercised these plans within the last 12 months and produced a written report of the outcome, including required actions.

Security Incidents shall be reported to the Buyer immediately, wherever practical, even if unconfirmed or when full details are not known, but always within 24 hours of discovery and followed up in writing. If Security Incident reporting has been delayed by more than 24 hours, the Supplier should provide an explanation about the delay. Regular updates on the Security Incident shall be provided to the Buyer in writing until the incident is resolved.

Security Incidents shall be reported through the Buyer's nominated system or service owner.

- 1.21. The Supplier or sub-contractors providing the Services will provide the Buyer with full details of any actual or future intent to develop, manage, support, process, or store Buyer's Data outside of the UK mainland. The Supplier or sub-contractor shall not go ahead with any such proposal without the prior written agreement from the Buyer.
- 1.22. The Buyer reserves the right to audit the Supplier or sub-contractors providing the Services annually, within a mutually agreed timeframe but always within seven days of notice of a request to audit being given. The audit shall cover the overall scope of the Services being supplied and the Supplier's, and any sub-contractors', compliance with the paragraphs contained in this Schedule.
- 1.23. The Supplier and sub-contractors shall undergo appropriate security assurance activities and shall provide appropriate evidence including the production of the necessary security documentation as determined by the Buyer through the life of the contract. This will include obtaining any necessary professional security resources required to support the Supplier's and sub-contractor's security assurance activities such as: a Security and Information Risk Advisor (SIRA) certified to NCSC Certified Cyber Security Consultancy (CCSC) or NCSC Certified Cyber Professional (CCP) schemes.

- 1.24.4. documented progress in achieving any security assurance or accreditation activities including whether documentation has been produced and submitted. The Supplier shall provide details of who the awarding body or organisation will be, and date expected.
- 1.24.5. compliance with the principles of Secure by Design as described at [Secure by Design Principles - UK Government Security](#).

Additional information and evidence to that listed above may be required to ensure compliance with DfE security requirements as part of the DfE security assurance process. Where a request for evidence or information is made by the Buyer, the Supplier will acknowledge the request within 5 working days and either provide the information within that timeframe, or, if that is not possible, provide a date when the information will be provided to the Buyer. In any case, the Supplier must respond to information requests from the Buyer needed to support the security assurance process promptly and without undue delay.

- 1.25. The Supplier shall contractually enforce all these Departmental Security Requirements onto any third-party suppliers, sub-contractors or partners who will have access to the Buyer's Data in the course of providing the Services, before access to the data is provided or permitted.
- 1.26. The Supplier shall comply with the [NCSC's social media guidance: how to use social media safely](#) for any web and social media-based communications. In addition, any Communications Plan deliverable must include a risk assessment relating to the use of web and social media channels for the programme, including controls and mitigations to be applied and how the NCSC social media guidance will be complied with. The Supplier shall implement the necessary controls and mitigations within the plan and regularly review and update the risk assessment throughout the contract period. The Buyer shall have the right to review the risks within the plan and approve the controls and mitigations to be implemented, including requiring the Supplier to implement any additional reasonable controls to ensure risks are managed within the Buyer's risk appetite.
- 1.27. Any Supplier ICT system used to handle, store, or process the Buyer's Data, including any Supplier ICT systems connected to systems that handle, store, or process the Buyer's Data, must have in place protective monitoring at a level that is commensurate with the security risks posed to those systems and the data held. The Supplier shall provide evidence to the Buyer upon request of the protective

Status Determination Statement:

*To comply with its obligations under the Off-Payroll Working Rules, the Department for Education will collect the names of the worker(s) to be provided under this SOW so that each worker, as appropriate, (and the Supplier), may be provided with the Status Determination Statement required under those rules.

The Department for Education confirms that it will take reasonable care when making each determination and the Status Determination Statement will be provided to each worker, as appropriate, (and the Supplier) before a payment is made to the individual for services provided.

The Supplier will procure that with effect from the Relevant Transfer Date the NHSPS Eligible Employees shall be either eligible for or remain in continuous active membership of (as the case may be) the NHSPS for employment from (and including) the Relevant Transfer Date.

4. Continuation of early retirement rights after transfer

From the Relevant Transfer Date until the Service Transfer Date, the Supplier must provide (and/or must ensure that its Subcontractors (if any) provide) NHS Premature Retirement Rights in respect of the NHSPS Eligible Employees that are identical to the benefits they would have received had they remained employees of the Buyer, an NHS Body or other employer which participates

automatically in the NHSPS.

5. What the buyer do if the Supplier breaches its pension obligations

The Supplier agrees that the Buyer is entitled to make arrangements with NHS Pensions for the Buyer to be notified if the Supplier (or its Subcontractor) breaches the terms of its Direction Letter. Notwithstanding the provisions of the foregoing, the Supplier shall notify the Buyer in the event that it (or its Subcontractor) breaches the terms of its Direction Letter.

- 5.1 If the Buyer is entitled to terminate the Contract or the Supplier (or its Subcontractor, if relevant) ceases to participate in the NHSPS for whatever other reason, the Buyer may in its sole discretion, and instead of exercising its right to terminate this Contract where relevant, permit the Supplier (or any such Subcontractor, as appropriate) to offer Broadly Comparable Pension Benefits, on such terms as decided by the Buyer. The provisions of Paragraph 10 (Bulk Transfer Obligations in relation to any Broadly Comparable pension scheme) of Part D: Pensions shall apply in relation to any Broadly Comparable pension scheme established by the Supplier or its Subcontractors.
- 5.2 In addition to the Buyer's right to terminate the Contract, if the Buyer is notified by NHS Pensions of any NHS Pension Scheme Arrears, the Buyer will be entitled to deduct all or part of those arrears from any amount due to be paid under this Contract or otherwise.

6. Compensation when pension scheme access can't be provided

- 6.1 If the Supplier (or its Subcontractor, if relevant) is unable to provide the NHSPS Eligible Employees with either:

6.1.1 membership of the NHSPS (having used its best endeavours to secure a Direction Letter); or

6.1.2 access to a Broadly Comparable pension scheme,

the Buyer may in its sole discretion permit the Supplier (or any of its Subcontractors) to compensate the NHSPS Eligible Employees in a manner that is Broadly Comparable or equivalent in cash terms, the Supplier (or Subcontractor as relevant) having consulted with a view to reaching agreement with any recognised trade union or, in the absence of such body, the NHSPS Eligible Employees. The Supplier must meet (or must procure that the relevant Subcontractor meets) the costs of the Buyer determining whether the level of compensation offered is reasonable in the circumstances.

- 6.2 This flexibility for the Buyer to allow compensation in place of Pension Benefits is in addition to and not instead of the Buyer's right to terminate the Contract.

7. Indemnities that a Supplier must give

- 7.1 The Supplier must indemnify and keep indemnified the CCS, the Buyer and any Replacement Supplier against all Losses arising out of any claim by any NHSPS Eligible Employee that the provision of (or failure to provide) Pension

Benefits and NHS Premature Retirement Rights from the Relevant Transfer Date, or the level of such benefit provided, constitutes a breach of his or her employment rights.

8. The Supplier must indemnify and keep indemnified the Buyer, NHS Pensions and any Replacement Supplier against all Losses arising out of the Supplier (or its Subcontractor) allowing anyone who is not an NHSPS Eligible Employee to join or claim membership of the NHSPS at any time during the Contract Period.

Subcontractors

- 8.1 If the Supplier enters into a Sub-Contract for the delivery of all or part or any component of the Services which will involve the transfer of employment of any NHSPS Eligible Employee it will impose obligations on its Subcontractor in identical terms as those imposed on the Supplier in relation to Pension Benefits and NHS Premature Retirement Rights by this Annex, including requiring that:
 - 8.1.1 if the Supplier has secured a Direction Letter, the Subcontractor also secures a Direction Letter in respect of the NHSPS Eligible Employees for their future service with the Subcontractor as a condition of being awarded the Sub-Contract and the Supplier shall be responsible for ensuring that the Buyer receives a complete copy of each such Subcontractor direction letter as soon as reasonably practicable; or
 - 8.1.2 if, in accordance with Paragraph 4 of this Annex, the Supplier has offered the NHSPS Eligible Employees access to a pension scheme under which the benefits are Broadly Comparable to those provided under the NHSPS, the Subcontractor either secures a Direction Letter in respect of the NHSPS Eligible Employees or (with the prior consent of the Buyer) provides NHSPS Eligible Employees with access to a scheme with Pension Benefits which are Broadly Comparable to those provided under the NHSPS whereupon the provisions of Paragraph 10 below (Bulk Transfer Obligations in relation to any Broadly Comparable Scheme) shall apply.
- 8.2 The Supplier shall procure that each Subcontractor provides indemnities to the Buyer, NHS Pensions and/or any Replacement Supplier and/or Replacement Subcontractor that are identical to the indemnities set out in Paragraph 7 of this Annex D2. Where a Subcontractor fails to satisfy any claim made under such one or more indemnities, the Supplier will be liable for satisfying any such claim as if it had provided the indemnity itself.

Annex D3:

Local Government Pension Schemes (LGPS)

[Guidance: Note the LGPS unlike the CSPA & NHSPS is a funded scheme which has associated cost implications as follows:

There is not 1 LGPS but approx. 90 different Funds, each with their own separate Scheme Employer and Administering Authority, it is important to identify the correct one(s) and amend the definition of "Fund" accordingly.

It is important to check whether CCS and or the Buyer can actually participate in the LGPS. Where a government department is taking on services which were formerly the responsibility of a Local Authority it may be necessary to obtain secretary of state approval for participation in the LGPS, this is because the services are being provided to Gov. Dept. and not to a Local Authority.

Unlike New Fair Deal the 2007 Best Value pension direction does not provide a right to bulk transfer past service. Whilst typically before the 2007 direction LA did provide such a right, it is a significant additional cost and therefore bulk transfer wording has been excluded. If required take legal advice due to the exceptionally high costs which can result from a requirement to provide bulk transfers.]

The Supplier shall ensure that any Buyer's Data which resides on a mobile, removable or physically uncontrolled device is stored encrypted using a product or system component which has been formally assured through a recognised certification process agreed with the Buyer except where the Buyer has given its prior written consent to an alternative arrangement.
- 1.39. The Supplier shall ensure that any device which is used to process Buyer's Data meets all of the security requirements set out in the NCSC End User Devices Platform Security Guidance, a copy of which can be found at: <https://www.ncsc.gov.uk/guidance/end-user-device-security> and <https://www.ncsc.gov.uk/collection/end-user-device-security/eud-overview/eud-security-principles>.

PURPOSE

This contract will provide architecture capability and expertise for a broad range of projects in the Department for Education (DfE, the Buyer), across multiple Architecture disciplines.

BACKGROUND TO THE BUYER

Architecture is imperative to delivering the most cost-efficient, optimal services for DfE and its users.

Architecture underpins the UK Government's 'Breaking Down Barriers to Opportunity' mission and supports all ministerial priorities in DfE, as it enables optimal delivery across digital, data and technology services.

Demand for architecture capability has increased over time, and for a wider range of architecture disciplines.

DfE operates a hybrid operating model for architecture. Enterprise, business and security architecture are centralised and distributed as required. Whilst technical, solution and data architecture are distributed in delivery portfolios and enabling teams.

The architecture community in DfE comprises around 90 architects and technical specialists, in a ratio of around 1:2 permanent Civil Servants to contractors/contingent workers.

Background to requirement

DfE has an existing contract to provide technical architecture (TA) capability, for use across digital, data and technology divisions.

Delivery portfolios and enabling teams also have their own existing contracts, which can deliver architecture capability.

It is intended that all architecture capability services in DfE will ultimately be delivered under this contract, superseding the use of similar options in other DfE contracts. DfE has a pipeline of architecture services activity, with varying start/end points – any handover to this contract will be structured based on business need.

This contract will be used by any digital, data and technology (DDT) delivery portfolio or enabling team, and (with agreement) other DfE teams, at short notice, to support immediate architecture capability requirements.

STATEMENTS OF WORK

The Buyer shall specify detailed objectives for the Supplier to deliver within a Statement of Work (SoW). Each SoW will specify the work package objectives and success criteria, outcomes, timescales, and acceptance criteria required of the Supplier.

The Buyer provides the supplier with requirements for the project. The Supplier and the Buyer shall work together to agree how best to meet those requirements, including determining the resourcing profile, price and start date. The supplier has within 6 Working Days to provide the Buyer with a formal response via the SoW detailing the resourcing profile and price.

The Supplier shall not commence a SoW until it receives an instruction to do so from the Buyer via a signed SoW.

The Supplier is responsible for ensuring that any deployed resources commence on the date specified within the signed SoW, have the requisite skills and experience for the associated job role and level, and perform accordingly.

To ensure the Buyer is consistently getting the right level of resource, this will be monitored via KPIs throughout the life of this contract. The Supplier will provide a proactive rectification plan within 10 days, identifying issues early and addressing issues promptly if a KPI falls to 'Requires improvement'.

The Supplier shall be responsible for the achievement of the deliverables set out within the SoW. The SoW will state the standards and ways of working required to deliver the detailed objectives and outcomes.

The Buyer shall set out within any relevant SoWs any additional security vetting requirements that are above and beyond the Buyers Security Requirements. The minimum-security requirements are that all Supplier staff should be BPSS cleared before they commence any SoW.

The financial risk of delivering the service, deliverables and outcomes within the SoW will lie with the supplier. Outputs and deliverables will be linked to payments. If the work does not meet the acceptance criteria, it is the responsibility of the Supplier to correct it at their own cost.

Any subsequent changes to the scope of the signed SoW will be agreed between the Buyer and Supplier via the Variation process stipulated in the contract in Joint Schedule 2.

The Supplier is responsible for ensuring continuous Knowledge Transfer to permanent civil servants throughout the lifetime of a SoW and in the event a SoW ends early or is de-scoped. This will also be separate outcome across all SoWs.

The Buyer can terminate the SoW at any time giving a notice period of 5 working days, which will be given in writing.

RESOURCING AND CAPABILITY

The Supplier shall ensure that it can scale up and down its deployed resources at pace in response to SoW requirements issued by the Buyer.

The Supplier shall take proactive action to respond to any emerging recruitment or capability issues to ensure that it can scale effectively to meet the SoW requirements on demand.

The Supplier shall remedy any deficiencies that they or the Buyer identifies in the skills, capability, experience and/or delivery performance of the individuals deployed at the Supplier's own cost.

Where any resource is due to leave the SoW, the Supplier is responsible for updating the Buyer on how the SoW will continue to be delivered in writing at least 10 days before the resource is due to leave. Within this notice period the Supplier will be expected to provide a permanent or temporary replacement, with equivalent skills, to ensure that a minimum of 5 day's knowledge transfer can take place between the incumbent and replacement resource. Onboarding of replacement resource and knowledge transfer will be at the Supplier's own cost.

The Buyer will only pay for the incumbent resource during the 10 days' notice period and the payment is on the basis that the supplier can continue to fulfil agreed existing outputs and deliverables.

If a Buyer identifies a performance issue with a resource (see Attachment 14A – Service Levels) and requests the resource is removed from the SoW, or if a resource becomes unexpectedly absent, the Buyer and Supplier shall agree an approach to replace this resource within 5 working days whilst ensuring overall output delivery is maintained. The 10-day notice period does not apply.

In the event that it is necessary to place a temporary replacement resource to undertake knowledge transfer from the incumbent resource, the Supplier is responsible for the onboarding of the subsequent permanent replacement resource and the knowledge transfer between the temporary and permanent replacement resource at the Supplier's own cost.

If overall output slippage occurs as a result of a resource change during the SoW, it will be at the Supplier's own cost.

The Supplier shall make reasonable endeavours to notify the Buyer if the Supplier intends to deploy a resource that has been swapped off another Buyer contract in the preceding 12-month period.

The Supplier will build a team/s that reflects the diversity of our teams and communities through the delivery of this contract, and monitor, measure and report on diversity and inclusion.

The Supplier must provide their own equipment where security requirements permit.

The Buyer will provide a DfE email account as well as access to other tools used by the department such as MS 365 and Slack, to ensure the Supplier can effectively communicate and share work with the wider DfE teams. At its discretion, the Buyer may also provide DfE equipment. The collection and return of the equipment as well as any costs and losses incurred are the responsibility of the Supplier.

In this model, individuals, whilst managed at a high level by the Supplier, may well be directed at an operational level by someone from another organisation.

Self-Directed Teams: the Supplier shall provide a discreet delivery team to produce deliverable increments as we commission them. This model lends itself to Buyer-led agile development where the specific Deliverable Increment is agreed closer to the point of delivery but where some risk is carried by the Supplier.

2 The insurance the Supplier needs to have

The Supplier shall take out and maintain, or procure the taking out and maintenance of the insurances as set out in the Annex to this Schedule, any additional insurances required under a Call-Off Contract (specified in the applicable Order Form) ("**Additional Insurances**") and any other insurances as may be required by applicable Law (together the "**Insurances**"). The Supplier shall ensure that each of the Insurances is effective no later than:

- i) the Framework Start Date in respect of those Insurances set out in the Annex to this Schedule and those required by applicable Law; and
- ii) the Call-Off Contract Effective Date in respect of the Additional Insurances.

The Insurances shall be:

- iii) maintained in accordance with Good Industry Practice;
- iv) (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent contractor in respect of risks insured in the international insurance market from time to time;
- v) taken out and maintained with insurers of good financial standing and good repute in the international insurance market; and
- vi) maintained for the Contract Period and for at least six (6) years after the End Date.

The Supplier shall ensure that the public and products liability policy contain an indemnity to principals clause under which the Relevant Authority shall be indemnified in respect of claims made against the Relevant Authority in respect of death or bodily injury or third party property damage arising out of or in connection with the Deliverables and for which the Supplier is legally liable.

3 How to manage the insurance

Without limiting the other provisions of this Contract, the Supplier shall:

- i) take or procure the taking of all reasonable risk management and risk control measures in relation to Deliverables as it would be reasonable to expect of a prudent contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;
- ii) promptly notify the insurers in writing of any relevant material fact under any Insurances of which the Supplier is or becomes aware; and
- iii) hold all policies in respect of the Insurances and cause any insurance broker effecting the Insurances to hold any insurance slips and other evidence of placing cover representing any of the Insurances to which it is a party.

4 What happens if the Supplier is not insured

The Supplier shall not take any action or fail to take any action or (insofar as is reasonably within its power) permit anything to occur in relation to it which would entitle any insurer to refuse to pay any claim under any of the Insurances.

Where the Supplier has failed to purchase or maintain any of the Insurances in full force and effect, the Relevant Authority may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances and recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

5 Evidence of insurance to be provided

The Supplier shall upon the Start Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to the

Relevant Authority, that the Insurances are in force and effect and meet in full the requirements of this Schedule.

6 Required amount of insurance

The Supplier shall ensure that any Insurances which are stated to have a minimum limit "in the aggregate" are maintained at all times for the minimum limit of indemnity specified in this Contract and if any claims are made which do not relate to this Contract then the Supplier shall notify the Relevant Authority and provide details of its proposed solution for maintaining the minimum limit of indemnity.

7 Cancelled Insurance

The Supplier shall notify the Relevant Authority in writing at least five (5) Working Days prior to the cancellation, suspension, termination or non-renewal of any of the Insurances.

The Supplier shall ensure that nothing is done which would entitle the relevant insurer to cancel, rescind or suspend any insurance or cover, or to treat any insurance, cover or claim as voided in whole or part. The Supplier shall use all reasonable endeavours to notify the Relevant Authority (subject to third party confidentiality obligations) as soon as practicable when it becomes aware of any relevant fact, circumstance or matter which has caused, or is reasonably likely to provide grounds to, the relevant insurer to give notice to cancel, rescind, suspend or void any insurance, or any cover or claim under any insurance in whole or in part.

8 Insurance claims

The Supplier shall promptly notify to insurers any matter arising from, or in relation to, the Deliverables, or each Contract for which it may be entitled to claim under any of the Insurances. In the event that the Relevant Authority receives a claim relating to or arising out of a Contract or the Deliverables, the Supplier shall cooperate with the Relevant Authority and assist it in dealing with such claims including without limitation providing information and documentation in a timely manner.

Except where the Relevant Authority is the claimant party, the Supplier shall give the Relevant Authority notice within twenty (20) Working Days after any insurance claim in excess of 10% of the sum required to be insured pursuant to Paragraph 0 relating to or arising out of the provision of the Deliverables or this Contract on any of the Insurances or which, but for the application of the applicable policy excess, would be made on any of the Insurances and (if required by the Relevant Authority) full details of the incident giving rise to the claim.

Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.

Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible. The Supplier shall not be entitled to recover from the Relevant Authority any sum paid by way of excess or deductible under the Insurances whether under the terms of this Contract or otherwise.

ANNEX: REQUIRED INSURANCES

The Supplier shall hold the following insurance cover from the Framework Start Date in accordance with this Schedule:
